Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Labor.

ACTION: Semiannual regulatory agenda.

SUMMARY: This document sets forth the Department's semiannual agenda of regulations that have been selected for review or development during the coming year. The Department's agencies have carefully assessed their available resources and what they can accomplish in the next twelve months and have adjusted their agendas accordingly.

The agenda complies with the requirements of both Executive Order 12866 and the Regulatory Flexibility Act. The agenda lists all regulations that are expected to be under review or development between October 2001 and October 2002 as well as those completed during the past six months.

FOR FURTHER INFORMATION CONTACT: Barbara Bingham, Acting Director for the Office of Regulatory Economics, Office of the Assistant Secretary for Policy, U.S. Department of Labor, 200 Constitution Avenue NW., Room S-2312, Washington, DC 20210, (202) 693-5959.

NOTE: Information pertaining to a specific regulation can be obtained from the agency contact listed for that particular regulation.

SUPPLEMENTARY INFORMATION: Executive Order 12866 and the Regulatory Flexibility Act require the semiannual publication in the **Federal Register** of an agenda of regulations. As permitted by law, the Department of Labor is combining the publication of its agendas under the Regulatory Flexibility Act and Executive Order 12866.

Executive Order 12866 became effective September 30, 1993, and, in substance, requires the Department of Labor to publish an agenda listing all the regulations it expects to have under active consideration for promulgation, proposal, or review during the coming 1-year period. The focus of all departmental regulatory activity will be on the development of effective rules that advance the Department's goals and that are understandable and usable to the employers and employees in all affected workplaces.

For this edition of the Department of Labor's regulatory agenda, the most important significant regulatory actions are included in The Regulatory Plan, which appears in part II of this issue of the **Federal Register**. The Regulatory Plan entries are listed in the table of contents below and are denoted by a bracketed bold reference, which directs the reader to the appropriate sequence number in part II.

The Regulatory Flexibility Act became effective on January 1, 1981, and applies only to regulations for which a notice of proposed rulemaking was issued on or after that date. It requires the Department of Labor to publish an agenda, listing all the regulations it expects to propose or promulgate that are likely to have a "significant economic impact on a substantial number of small entities" (5 U.S.C. 602).

The Regulatory Flexibility Act (under section 610) also requires agencies to periodically review rules "which have or will have a significant economic impact upon a substantial number of small entities" and to annually publish a list of the rules that will be reviewed during the succeeding 12 months. The purpose of the review is to determine whether the rule should be continued without change, amended, or rescinded.

The next 12-month review list for the Department of Labor is provided below and public comment is invited on the listing. A brief description of each rule, the legal basis for the rule, and the agency contact are provided with each agenda item.

Occupational Safety and Health Administration

Occupational Exposure to Ethylene Oxide (RIN 1218-AB60)

Grain Handling Facilities (RIN 1218-AB73)

Excavations (RIN 1218-AC02)

Presence Sense Device Initiation of Mechanical Power Presses (RIN 1218-AC03)

Pension and Welfare Benefits Administration

Bonding Rules Under ERISA 21974 (1210-AA82)

Enforcement Pursuant to Section 502(6)(2) (1210-AA83)

Civil Penalties Under ERISA Section 502(c)(2) (1210-AA84)

Assessment of Civil Penalties under ERISA Section 502(c)(2) (1210-AA85)

All interested members of the public are invited and encouraged to let departmental officials know how our regulatory efforts can be improved, and, of course, to participate in and comment on the review or development of the regulations listed on the agenda.

Elaine L. Chao,

Secretary of Labor.

2003. DEFINING AND DELIMITING THE TERM "ANY EMPLOYEE EMPLOYED IN A BONA FIDE EXECUTIVE, ADMINISTRATIVE, OR PROFESSIONAL CAPACITY" (ESA/W-H)

Regulatory Plan: This entry is Seq. No. 81 in part II of this issue of the **Federal Register**.

RIN: 1215–AA14

2004. REGULATIONS TO IMPLEMENT THE FEDERAL ACQUISITION STREAMLINING ACT OF 1994; 29 CFR PARTS 4 AND 5, 41 CFR PARTS 50-201 AND 50-206

Priority: Substantive, Nonsignificant

Legal Authority: PL 103-355, 108 Stat. 3243

CFR Citation: 29 CFR 4; 29 CFR 5; 41 CFR 50 to 201; 41 CFR 50 to 206

Legal Deadline: NPRM, Statutory, May 11, 1995.
Final, Statutory, October 1, 1995.

Abstract: The Federal Acquisition Streamlining Act of 1994, signed on October 13, 1994, amended several Acts administered by the Department of Labor: (1) the Contract Work Hours and Safety Standards Act (CWHSSA) to limit its applicability to contracts in an amount of $100,000 or greater; (2) the Davis-Bacon Act (DB) to provide waivers from the Act's prevailing wage requirements under selected laws for volunteers performing services to a State or local government or agency and for volunteers performing services to a public or private nonprofit recipient of Federal assistance; and (3) the Walsh-Healey Public Contracts Act (PCA) to eliminate the requirements that contractors on covered contracts be either manufacturers or regular dealers in the items to be supplied under the contract but retains the Secretary of Labor's authority to define the terms "regular dealer" and "manufacturer." A final rule implementing the CWHSSA and PCA changes was published on August 5, 1996 (61 FR 40714).

2005. IMPLEMENTATION OF THE 1996 AMENDMENTS TO THE FAIR LABOR STANDARDS ACT

Priority: Other Significant

Legal Authority: PL 104-188, sec 2101 to 2105; 29 USC 201 et seq

CFR Citation: 29 CFR 4; 29 CFR 531; 29 CFR 541; 29 CFR 778; 29 CFR 785; 29 CFR 790; 29 CFR 870; 41 CFR 50-202

Legal Deadline: None

Abstract: The "Small Business Job Protection Act of 1996" (H.R. 3448) was enacted on August 20, 1996, as Public Law 104-188. Title II of this enactment amended the Portal-to-Portal Act (PA) and the Fair Labor Standards Act (FLSA). The PA amendment excludes (under certain circumstances) from compensable "hours worked" the time spent by an employee in home-to-work travel in an employer-provided vehicle. The FLSA amendments: (1) increase the $4.25 Federal minimum hourly wage by $.90 in two steps over two years (i.e., to $4.75 on October 1, 1996, and to $5.15 on September 1, 1997); (2) provide a $4.25 subminimum wage for youth under age 20 in their first 90 calendar days of employment with an employer; (3) set the employer's direct wage payment obligation for tipped employees at $2.13 per hour (provided such employees receive the balance of the full minimum wage in tips); and (4) set the hourly compensation requirements at not less than $27.63 per hour for certain exempt professional employees in computer-related occupations. Changes will be required in the regulations to reflect these amendments.

2006. AFFIRMATIVE ACTION AND NONDISCRIMINATION OBLIGATIONS OF CONTRACTORS AND SUBCONTRACTORS FOR SPECIAL DISABLED VETERANS AND VETERANS OF THE VIETNAM ERA

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 4211; 38 USC 4212; PL 102-16; PL 102-127; PL 102-484; PL 95-520; PL 93-508, amended; PL 94-502; PL 96-466; PL 101-237; PL 97-306; PL 98-223; PL 105-339

CFR Citation: 41 CFR 60-250

Legal Deadline: None

Abstract: OFCCP proposes to amend the regulations implementing the Vietnam Era Veterans' Readjustment Assistance Act (VEVRAA) 38 USC 4212, to conform with the Veterans Employment Opportunities Act (the Act) of 1998 and the Veterans Benefits and Health Care Improvement Act of 2000 (VBHCIA). The Act and VBHCIA of 2000 increase the current threshold for coverage from $10,000 to $25,000. The Act and VBHCIA of 2000 expand the existing definition of Veterans, i.e., special disabled veterans and veterans of the Vietnam Era, to include recently separated veterans and any other veterans who served on active duty during a war or in a campaign or expedition for which a campaign badge has been authorized. Recently separated veterans means any veteran during the one-year period beginning on the date of such veteran's discharge or release from active duty.

Priority: Other Significant

Legal Authority: 29 USC 207(e)(8); PL 106-202, sec 2(e)

CFR Citation: 29 CFR 546; 29 CFR 778

Legal Deadline: None

Abstract: The Worker Economic Opportunity Act, Public Law 106-202 (May 18, 2000), amended section 7(e) of the Fair Labor Standards Act to clarify how certain employer-provided stock option programs are to be treated for purposes of overtime pay. Certain programs meeting prescribed criteria would not have to be factored into the "regular rate" otherwise required when calculating "time-and-one-half" overtime premium pay for overtime hours of work. The legislation calls for regulations to be promulgated as necessary, which will include amendments to some of the existing regulations on overtime pay.

Abstract: The Debt Collection Improvement Act of 1996 (PL 104-134) amended the Federal Civil Penalties Inflation Adjustment Act of 1990 (PL 101-410) to require Federal agencies to adjust certain civil money penalties for inflation. The Department is proposing adjustments in the civil money penalties that may be assessed under section 16(e) of the Fair Labor Standards Act for (1) repeated or willful violations of the minimum wage or overtime provisions; and (2) child labor violations. Any increase in the penalty amounts shall apply only to violations which occur after the effective date of the increase.

CFR Citation: 41 CFR 60-1 (Revision); 41 CFR 60-250 (Revision); 41 CFR 60-741 (Revision)

Legal Deadline: None

Abstract: The NPRM would remove the obligation to visit an establishment during a compliance check, which is currently required by Section 60-1.20(a)(3) in order to enhance efficiency in resource allocation. OFCCP proposes also to make the same revision in Section 60-250.60(a)(3) of the regulations implementing the affirmative action provisions of the Vietnam Era Veteran's Readjustment Assistance Act (VEVRAA). Lastly, OFCCP proposes to conform regulations implementing Section 503 of the Rehabilitation Act of 1973, as amended, to the compliance evaluation procedures contained in the regulations implementing Executive Order 11246, as amended, and the affirmative action provisions of VEVRAA, both of which expressly authorize OFCCP to use additional investigative procedures to determine a contractor's compliance with the regulations.

2013. APPLICATION OF THE FAIR LABOR STANDARDS ACT TO DOMESTIC SERVICE

Priority: Other Significant

Legal Authority: Sec 13(a)(15), Fair Labor Standards Act (FLSA), as amended; Sec 13(b)(21), FLSA, as amended; 29 USC 213(a)(15); 29 USC 213(b)(21) 88 Stat 62; Sec 29(b), FLSA of 1974; PL 93-259 88, Stat 76

CFR Citation: 29 CFR 552

Legal Deadline: None

Abstract: Section 13(a)(15) of the Fair Labor Standards Act (FLSA) provides an exemption from minimum wage and overtime compensation for domestic service employees engaged in providing companionship services. Section 13(b)(21) of the FLSA provides an exemption from overtime compensation for live-in domestic service employees. DOL proposed certain technical amendments to update the regulations, 29 CFR part 552, Application of the Fair Labor Standards Act to Domestic Service, and to clarify the applicability of these exemptions to third-party employers (58 FR 69310). After reviewing the public comments, the Department adopted technical changes to update the regulations, including a revision necessitated by amendments to title II of the Social Security Act under Public Law 103-387 (Social Security Domestic Employment Reform Act) 10/22/94, (see 60 FR 46766) and reopened the public comment period on proposed revisions affecting third-party employers (section 552.109). After further review of the history and background to this exemption, a new proposed rule was published for public comment on 1/19/2001 (66 FR 5481).

Legal Deadline: None

Abstract: This regulation will formally establish a comprehensive system for helping ensure continuous improvement in UI operational performance. It will enunciate as the

DOL—ETA **Proposed Rule Stage**

system's building blocks principles for Federal and State cooperation, key nationwide performance measures, criteria distinguishing satisfactory from unsatisfactory performance, an annual planning process, and actions which the Department may take when a State fails to perform satisfactorily.

The UI PERFORMS Regulation is consistent with the Administration's and the Secretary's emphasis on improved grants management. It is needed now to help complete the development and implementation of the UI PERFORMS system and will replace other regulations, two of which establish Secretary's Standards for first payment and lower appeals timeliness. Until those regulations have been replaced the related UI PERFORMS measures and criteria cannot be put in place. It will also establish a definitive framework for enforcing, if necessary, the elements and performance standards established as parts of the UI PERFORMS system. Until the regulation is in place, UI PERFORMS will remain incomplete.

2020. LABOR CERTIFICATION AND PETITION PROCESS FOR THE TEMPORARY EMPLOYMENT OF NONIMMIGRANT ALIENS IN AGRICULTURE IN THE UNITED STATES; MODIFICATION OF FEE STRUCTURE

Priority: Other Significant

Legal Authority: 8 USC 1101(a)(15)(h)(ii)(a); 8 USC 1184; 8 USC 1188; 29 USC 49 et seq

CFR Citation: 8 CFR 655

Legal Deadline: None

Abstract: The Employment and Training Administration (ETA) of the Department of Labor (Department or DOL) proposes to amend its regulations relating to the temporary employment of nonimmigrant agricultural workers (H-2A workers) in the United States. The proposed amendments would require employers to submit fees for labor certification and the associated H-2A petitions with consolidated application form at the time of filing. The proposal also would modify the fee structure for labor certification. If the application is denied, both fees will be refunded to the employer. It is conceivable in rare instances that the statutory and regulatory standards for issuance of the certification will be met, but those applicable to the petition will not be met. In such occurrence, neither fee will be refunded because the certification fee is an issuance,

DOL—ETA

Final Rule Stage

while the petition fee is a processing fee.

The Department published a Notice of Proposed Rulemaking (NPRM) at 65 FR 43545 (July 13, 2000). Because of the continuing interest in the proposal, the Department published at 65 FR 50170 (August 17, 2000) a proposed rule reopening and extending the comment period on the July 13, 2000, NPRM. The comments received as a result of this reopening and extension of the comment period did not provide sufficient information to permit the Department to draft a final rule concerning a number of issues raised by commenters. Consequently, the Department intends to publish a proposed rule to again reopen and extend the comment period on the July 13, 2000, NPRM.

2022. • LABOR CERTIFICATION AND PETITION PROCESS FOR THE TEMPORARY EMPLOYMENT OF NONIMMIGRANT ALIENS IN AGRICULTURE IN THE U.S.: DELEGATION OF AUTHORITY TO ADJUDICATION PETITIONS; DEFERRAL OF EFFECTIVE DATE

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 8 USC 1101(a)(15)(H)(ii)(a);; 8 USC 1184; 8 USC 1188; 29 USC 49 et seq; 8 CFR 103.1(f)(iii)(j); 8 CFR 103.1(f)(iii)(w); 8 CFR 214.2(h)(5); 8 CFR 214.2(h)(11); 8 CFR 214.2(h)(12)

CFR Citation: 20 CFR 655, subpart B

Legal Deadline: None

Abstract: The Department of Labor (DOL or Department) published a final rule in this rulemaking in the Federal Register at 65 FR 43538 (July 13, 2000), with an effective date of November 13, 2000, implementing a delegation of authority from the INS to the Department of adjudicate petitions for the temporary employment of nonimmigrant aliens in agriculture in the United States. Concurrently, the INS published a final rule at 65 FR 43528 (July 13, 2000) with an effective date of November 13, 2000, transferring to the Secretary of Labor the authority to adjudicate petitions for temporary agricultural workers and the authority to decide appeals on these decisions and to make determinations for revocation of petition approvals.

Subsequently, the INS at 65 FR 67616 (November 13, 2000) published a final rule and DOL at 65 FR 67628 (November 13, 2000) published an interim final rule (IFR) deferring the effective dates of their final rules. The Department in its IFR invited comments on the deferral of the effective date. No comments were received by DOL on the deferral of the effective date.

The Department also reopened and extended the comment period at 65 FR 50170 (August 17, 2000) on a companion notice of proposed rulemaking (NPRM) published at 65 FR 43545 (July 13, 2000) setting forth implementation measures necessary to the successful implementation of the delegation of authority to adjudicate petitions. The comments received as a result of this reopening and extension of the comment period did not provide sufficient information to permit the Department to draft a final rule concerning a number of issues raised by commenters. Consequently, the Department intends to publish a proposed rule to again reopen and extend the comment period on the July 13, 2000, NPRM.

Finalizing the proposed rule is essential to the effective implementation of any delegation of authority to DOL to adjudicate petitions for temporary employment of nonimmigrant aliens in the United States. Therefore, the Department has determined to defer the effective date of the July 13, 2000, final rule for 1 year, which should be sufficient time to complete the rulemaking on the companion NPRM.

2023. • DISASTER UNEMPLOYMENT ASSISTANCE PROGRAM AMENDMENT

Priority: Other Significant

Legal Authority: 42 USC 1302; 42 USC 5177; EO 12673

CFR Citation: 20 CFR 625.5

Legal Deadline: None

Abstract: In 1995, ETA published an interim final rule that clarified and removed undue restrictions in the existing regulations implementing the Disaster Unemployment Assistance Program. This rule revised all of part 625. Its withdrawal from the current agenda reflects a postponement of additional rulemaking due to higher agency priorities. (See RIN 1205-AB02.) This new rule on the Disaster Unemployment Assistance Program will only address one aspect of part 625; it adds a definition of "unemployment is a direct result of the major disaster." ETA had not defined this term in its previous rule. The purpose of the new definition is to clarify eligibility for disaster unemployment assistance in the wake of the major disasters as a result of the terrorist attacks of September 11, 2001.

2024. FEDERAL-STATE UNEMPLOYMENT COMPENSATION (UC) PROGRAM; CONFIDENTIALITY AND DISCLOSURE OF INFORMATION IN STATE UC RECORDS

Priority: Other Significant

Legal Authority: 42 USC 1302 (a); 42 USC 503; 42 USC 1320b-7; 26 USC ch 23; Secretary's Orders 4-75 and 14-75

CFR Citation: 20 CFR 603

Legal Deadline: None

Abstract: The Employment and Training Administration of the Department of Labor is preparing to issue an interim final rule on confidentiality and disclosure of information in State records collected, created, or maintained for purposes of the Federal-State UC program. The interim final rule modifies and expands the regulations implementing the Income and Eligibility Verification System (IEVS) to include the statutory requirements in title III of the Social Security Act, the Federal Unemployment Tax Act, and the Wagner-Peyser Act concerning confidentiality and disclosure of information in State UC records. The use of unemployment compensation wage records under these and other statutes has increased in recent years while privacy and confidentiality issues have not yet been addressed.

2029. TRADE ADJUSTMENT ASSISTANCE FOR WORKERS—TRANSITIONAL ADJUSTMENT ASSISTANCE NAFTA-TAA

Priority: Other Significant

Legal Authority: 19 USC 2320; 19 USC 2331

CFR Citation: 20 CFR 617

Legal Deadline: None

Abstract: Title V of the North American Free Trade Agreement Implementation Act (NAFTA) (PL 103-182) amends chapter 2 of title II of the Trade Act of 1974 by adding a new NAFTA Transitional Adjustment Assistance Program (NAFTA-TAA) for workers who lose their jobs because of increased imports from or a shift of production to Mexico and Canada. Most of the provisions of title V are in the form of amendments to chapter

2, title II, of the Trade Act. While some of the provisions are not in the form of amendments to the Trade Act they nonetheless must be given effect in implementing the NAFTA-TAA program. A proposed rule to amend the regulations on the trade adjustment assistance program for workers was published in the Federal Register on January 17, 1995.

2030. ESTABLISHMENT OF FEES FOR IMMIGRATION PROGRAMS ADMINISTERED BY THE EMPLOYMENT AND TRAINING ADMINISTRATION

Priority: Other Significant

Legal Authority: Not yet determined

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: Assuming Congress provides the required authorization, the regulation would establish a new fee charged to employers for processing of alien labor certification applications. The user fee would be a government receipt and would be applied to Federal and State expenditures for Federal and State program administration in the State Unemployment Insurance and Employment Service account and the Program Operations Account in DOL's Employment and Training Administration (ETA).

Timetable:

Action	Date	FR Cite
Withdrawn	08/21/01	

Regulatory Flexibility Analysis Required: No

Government Levels Affected: State, Local

Additional Information: The base funding of ETA immigration programs has been reduced by 30 percent since FY 1995. The fee proceeds would be used to offset the costs of administering the alien labor certification program at the State and Regional levels. ETA has worked with the States and Regional Offices and reduced the number of queued cases from 92,000 to 66,000 at the State level. The number of cases on the Regional level is 21,000. However, there was a one time reinstatement of section 245(i) as part of the LIFE legislation and this increased the queued permanent cases by 235,000 applications over the 60,000 permanent applications received in FY 2001. The regular appropriation, plus the user fees, will be necessary to work off the cases in the pipeline and become current.

2031. WELFARE-TO-WORK (WTW) GRANTS

Priority: Other Significant

Legal Authority: 42 USC 603(a)(5)(c)(ix); PL 106-113, Division B, sec 1000(a)(4)

CFR Citation: 20 CFR 645

Legal Deadline: None

Abstract: The Employment and Training Administration published interim final regulations on November 18, 1997, implementing the Welfare-to-Work Grants Program. The Personal Responsibility and Work Opportunity Reconciliation Act reformed the Nation's welfare laws, when enacted in August 1996, by creating a new system of block grants to the States for Temporary Assistance for Needy Families (TANF). Moving people from welfare to work is one of the primary goals of Federal welfare policy. Section 5001 of the Balanced Budget Act of 1997 authorized the Department of Labor to provide Welfare-to-Work Grants to States and local communities to create additional job opportunities for the hardest-to-employ recipients of TANF and certain noncustodial parents. The Welfare-to-Work Grants were provided to the States through the use of a formula, and in a competitive process to local communities. A small amount of total grant funds were set aside for special purposes: one percent for Indian tribes; and 0.8 percent for evaluation.

Guidance and regulations reflect minimal amplification of the law and provide further information or clarification as needed to make the program operational. Existing regulations and systems are used wherever possible. Reporting requirements will assure program integrity and provide timely information for tracking performance. Leveraging of non-Federal resources at the State and local level is encouraged.

These funds have allowed States and local communities to help move eligible individuals into jobs by: job creation through public or private sector wage subsidies; on-the-job training; short-term vocational educational training and job training; contracts with public or private providers of job readiness, job placement, and post-employment services; job vouchers for similar services; community service or work experience; or job retention and supportive services (if such services are not otherwise available).

RIN: 1205–AB15

2032. LABOR CERTIFICATION PROCESS FOR THE PERMANENT EMPLOYMENT OF ALIENS IN THE UNITED STATES; REFILING OF APPLICATIONS

Priority: Other Significant

Legal Authority: 8 USC 1182(a)(5)(A)

CFR Citation: 20 CFR 656

Legal Deadline: None

Abstract: This rulemaking would amend the regulations relating to the permanent employment of aliens in the United States. The proposed amendments would permit employers to request that any labor certification application for permanent employment filed prior to a certain date and which has not been sent to the regional certifying officer to be processed as a reduction in recruitment request, provided recruitment has not been conducted pursuant to the permanent labor certification regulations. ETA anticipates that proposed amendment would reduce the backlog of labor certification application for permanent employment in State Employment Security Agencies.

This measure to reduce backlogs would result in a variety of desirable benefits, including a reduction in government resources necessary to process applications for alien employment certification a reduction in processing time for both new application and those applications currently in the queue, and would facilitate the development and implementation of a new, more efficient system for processing labor certification applications for permanent employment in the United States.

2039. DEFINITION OF COLLECTIVE BARGAINING AGREEMENT (ERISA SECTION 3(40))

Priority: Other Significant

Legal Authority: 29 USC 1002(40)

CFR Citation: 29 CFR 2510.3-40

Legal Deadline: None

Abstract: The regulation will establish standards for determining whether an employee benefit plan is established or maintained under or pursuant to one or more collective bargaining agreements for purposes of its exclusion from the Multiple Employer Welfare Arrangement (MEWA) definition in section 3(40) of ERISA, and thus exempted from State regulation. The regulation will clarify the scope of the exception from the MEWA definition for plans established or maintained under or pursuant to one or more collective bargaining agreements by providing criteria which will serve to distinguish welfare benefit arrangements which are maintained by legitimate unions pursuant to bona fide collective bargaining agreements from insurance arrangements promoted and marketed under the guise of ERISA-covered plans exempt from State insurance regulation. The regulation will also serve to limit the extent to which plans maintained pursuant to bona fide collective bargaining agreements may extend plan coverage to individuals not covered by such agreements.

2042. REPORTING REQUIREMENTS FOR MEWAS PROVIDING MEDICAL CARE BENEFITS

Priority: Substantive, Nonsignificant

Legal Authority: 29 USC 1135; 29 USC 1021(g)(h) (PL 104-191; 110 Stat 1952); 29 USC 1194

CFR Citation: 29 CFR 2520

Legal Deadline: None

Abstract: These interim final rules govern certain reporting requirements under title I of the Employee Retirement Income Security Act of 1974, as amended (ERISA) for multiple employer welfare arrangements (MEWAs) that provide benefits consisting of medical care. In part, the rules implement recent changes made to ERISA by the Health Insurance Portability and Accountability Act of 1996 (HIPAA). The rules also set forth elements that MEWAs would be required to file with the Department of Labor for the purpose of determining compliance with the portability nondiscrimination, renewability and other requirements of part 7 of subtitle B of title I of ERISA including the requirements of the Mental Health Parity Act of 1996 and the Newborns' and Mothers' Protection Act of 1996. The rules provide guidance with respect to section 502(c)(5) of ERISA which authorizes the Secretary of Labor to assess a civil penalty of up to $1,000 a day for failure to comply with the new reporting requirements.

2043. ELIMINATION OF FILING REQUIREMENTS FOR SUMMARY PLAN DESCRIPTIONS

Priority: Substantive, Nonsignificant

Legal Authority: 29 USC 1024; 29 USC 1135; PL 105-34, sec 1503

CFR Citation: 29 CFR 2520.104a-2; 29 CFR 2520.104a-3; 29 CFR 2520.104a-4; 29 CFR 2520.104a-7

Legal Deadline: None

Abstract: This rulemaking will remove from the CFR certain regulations that have been superseded by amendments to title I of ERISA effected by the Taxpayer Relief Act of 1997 (PL 105-34) that eliminate the requirement for plan administrators to file summary plan descriptions (SPDs), summaries of material modifications (SMMs), and updated SPDs with the Department of Labor. Under the amendments plan administrators must continue to furnish participants and beneficiaries with copies of these documents. Separate rulemakings (RINs 1210-AA67 and 1210-AA68) will implement the Taxpayer Relief Act amendments that require plan administrators to furnish copies of SPDs and any other documents relating to the plan to the Department on request, and authorize the Secretary of Labor to assess a civil penalty for failure to do so.

CFR Citation: 29 CFR 2590.702

Legal Deadline: None

Abstract: Section 702 of the Employee Retirement Income Security Act of 1974, amended by the Health Insurance Portability and Accountability Act of 1996 (HIPAA), establishes that a group health plan or a health insurance issuer may not establish rules for eligibility (including continued eligibility) of any individual to enroll under the terms of

DOL—PWBA — Final Rule Stage

the plan based on any health status-related factor. These provisions are also contained in the Internal Revenue Code under the jurisdiction of the Department of the Treasury, and the Public Health Service Act under the jurisdiction of the Department of Health and Human Services.

On April 8, 1997, the Department, in conjunction with the Departments of the Treasury and Health and Human Services (collectively, the Departments) published interim final regulations implementing the nondiscrimination provisions of HIPAA. These regulations can be found at 26 CFR 54.9802-1 (Treasury), 29 CFR 2590.702 (Labor), and 45 146.121 (HHS). That notice of rulemaking also solicited comments on the nondiscrimination provisions and indicated that the Departments intend to issue further regulations on the nondiscrimination rules. This rulemaking contains additional regulatory interim guidance under HIPAA's nondiscrimination provisions. In addition, the rulemaking contains proposed guidance on bona fide wellness programs.

CFR Citation: 29 CFR 2560.503.1

Legal Deadline: None

Abstract: This action delays for at least six months and not more than one year the applicability date for the regulation governing minimum requirements for benefit claims procedures of group health plans covered by Title I of the Employee Retirement Income Security Act. As published on November 21, 2000, the benefit claims procedure would be applicable to claims filed on or after January 1, 2002. The current action amends the regulation so that it will apply to group health claims filed on or after the first day of the first plan year beginning on or after July 1, 2002, but in no event later than January 1, 2003.

2059. BELT ENTRY USE AS INTAKE AIRCOURSE TO VENTILATE WORKING SECTIONS

Priority: Other Significant

Legal Authority: 30 USC 811; 30 USC 957; 30 USC 961

CFR Citation: 30 CFR 75; 30 CFR 12; 30 CFR 48

Legal Deadline: None

Abstract: Currently, mine operators must apply to MSHA for a modification of the existing regulations if they want to use belt entries for ventilation purposes. MSHA's current regulations prohibit belt entries from being used to ventilate areas where coal is being mined. The intent was to prevent smoke from a conveyor belt fire from traveling to a miner's workplace. Improved technology, including sophisticated monitoring devices, such as atmospheric monitoring systems (AMS), makes it possible to use belt entries safely to ventilate these areas in mines, provided certain conditions are met. An AMS is a network consisting of hardware and software capable of measuring atmospheric parameters, such as carbon monoxide and oxygen concentrations; transmitting these measurements to the surface; providing local and remote alarms; manipulating and cataloging atmospheric data; and providing reports.

Government Levels Affected: None

Additional Information: In 1985 MSHA published a "pre-proposal" that included a belt air provision as part of the revisions to the ventilation regulations. In 1988 MSHA published a proposed rule that would have allowed belt air to ventilate the area where coal is being mined. Also in 1988, MSHA held six hearings to receive public comment on the proposed rule. Several thousand miners attended the hearings to voice their opposition to the belt air provision. As a result, in 1989 MSHA formed the Belt Air Ventilation Review Committee to review the use of belt air. The Committee concluded that the use of belt air could be allowed, provided environmental sensors are used to detect belt fires. Another hearing took place in 1990 to solicit further comment on the use of belt air. In 1991, the Secretary of Labor formed a Federal Advisory Committee on the use of belt air. MSHA published final ventilation rules in 1992 that omitted the use of belt air, deferring further action until the Advisory Committee recommendations were completed. In December 1992, the Advisory Committee published a report that concluded that belt air can be used to safely ventilate areas where coal is being mined, provided certain conditions are met.

Abstract: This rulemaking will revise text in the CFR to reduce burden or duplication, and streamline requirements. Our current regulations set out approval requirements for MSHA testing and evaluation for approval of certain products used in gassy underground mines. The rule as proposed would allow us to accept testing and evaluation of certain mine equipment by independent laboratories; and approve products which satisfy alternative testing and evaluation requirements if those requirements are equivalent to ours, or could be enhanced to be equivalent. We are considering reproposing the rule to assure that the proposed changes are appropriate.

2061. IMPROVING AND ELIMINATING REGULATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 30 USC 811; 30 USC 957

CFR Citation: 30 CFR 1 to 199

Legal Deadline: None

Abstract: This rulemaking will revise text in the CFR to reduce burden or duplication, and streamline requirements. We have reviewed our current regulations and identified provisions that are outdated, redundant, unnecessary or otherwise require change. We will be making these changes through notice and comment rulemaking where necessary. We will also consider new regulations that reflect "best practices" in the mining industry. We view this effort to be evolving and ongoing and will continue to accept recommendations from the public.

2063. HAZARD COMMUNICATION

Priority: Other Significant

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 47

Legal Deadline: None

Abstract: Today's complex mining environment exposes miners to many hazards, such as wastes being burned as fuel supplements at cement kilns and other chemicals brought onto mine property.

On October 3, 2000, MSHA published an interim final Hazard Communication (HazCom) rule and opened a short additional comment period which closed on November 17, 2000.

The purpose of this standard is to reduce chemically related injuries and illnesses among miners by increasing their knowledge and awareness of chemical hazards. It ensures that miners have the same protections that have been available to workers under OSHA's jurisdiction since 1987. MSHA's rule is consistent with OSHA's HazCom rule to the extent appropriate.

The interim final rule would have become effective on October 3, 2001. MSHA reopened the record and held public hearings to provide an

additional opportunity for comment on any issue relevant to the rulemaking.

RIN: 1219–AA47

2064. ELECTRIC MOTOR-DRIVEN MINE EQUIPMENT AND ACCESSORIES AND HIGH-VOLTAGE LONGWALL EQUIPMENT STANDARDS FOR UNDERGROUND COAL MINES

Priority: Other Significant

Legal Authority: 30 USC 811; 30 USC 957

CFR Citation: 30 CFR 18; 30 CFR 75

Legal Deadline: None

Abstract: Our current regulations require that high-voltage cables and transformers be kept at least 150 feet from coal extraction areas. These requirements are intended to eliminate an ignition source for methane and coal dust in close proximity to the work area. Highly productive longwall mining systems are now in widespread use in the mining industry. They use safe high-voltage electrical equipment and associated cables. Mine operators, however, currently must apply to us for a modification from the existing regulations if they want to use this high-voltage equipment. The proposed rule would eliminate the need for a modification to use this equipment and would establish safety requirements for the design, construction, installation, use, and maintenance of high-voltage longwall equipment and associated cables.

Final Rule	09/00/02	

Regulatory Flexibility Analysis Required: Yes

Small Entities Affected: Businesses

Government Levels Affected: None

Additional Information: The first high-voltage longwall system started operating in 1985. Since that time we have issued approximately 130 system design approvals for high-voltage longwall equipment. Over the last 16 years, no electrical-type fatalities or serious injuries occurred to miners because of high-voltage equipment used in accordance with over 100 granted high-voltage petitions for modification (petitions). Because of this new improved high-voltage technology, the designed safety benefits and the observed use experience, MSHA is revising its existing 30 CFR part 18 electric motor-driven mine equipment and accessories approval requirements by adding specific design requirements for high-voltage longwall equipment in underground mines.

2067. • DIESEL PARTICULATE EXPOSURE OF UNDERGROUND METAL AND NONMETAL MINERS

Priority: Other Significant

Legal Authority: 30 USC 811; 30 USC 813

CFR Citation: 30 CFR 57

Legal Deadline: None

Abstract: This proposed rule addresses two provisions of the Mine Safety and Health Administration's final rule pertaining to "Diesel Particulate Matter Exposure of Underground Metal and Nonmetal Miners," published in the Federal Register on January 19, 2001 (66 FR 5706, RIN 1219-AB11). The final rule was scheduled to become effective on March 20, 2001, but MSHA delayed the effective date of the rule until May 21, 2001 in accordance with a January 20, 2001 memorandum from the President's Chief of Staff. On May 21, 2001, MSHA delayed the effective date of the final rule until July 5, 2001. The final rule was challenged by mining industry trade associations, several mining companies and the United Steelworkers of America. This proposed rule addresses two provisions: section 57.5066(b) (regarding the tagging provision of the maintenance standard) and section 57.5067(b) (regarding the definition of "introduced" in the engine standard). The proposal gives notice of MSHA's intent to revise these two provisions and requests comments from the mining community. The Agency also held a public hearing to

VOL 66 ISS 232 DE 3 2001 UMI

DOL—MSHA — **Final Rule Stage**

receive further input from the public. The requirements of the proposed rule will work in tandum with the provisions that were effective on July 5, 2001. (66 FR 35518)

Legal Deadline: None

Abstract: Our current regulations for exposure to hazardous airborne contaminants are over 25 years old. They do not fully protect today's miners, who are potentially exposed to an array of toxic chemicals, and other hazards. Examples of these include lead, cyanide, arsenic benzene, asbestos and other well documented hazards. We will propose provisions of the air quality rule in phases based on our assessment of priority needs.

2069. REQUIREMENTS FOR APPROVAL OF FLAME-RESISTANT CONVEYOR BELTS

Priority: Substantive, Nonsignificant

Legal Authority: 30 USC 957; 30 USC 811

CFR Citation: 30 CFR 14; 30 CFR 18; 30 CFR 75

Legal Deadline: None

Abstract: Our current regulations require conveyor belts used in underground coal mines to be flame-resistant. The rule, as proposed, would set new procedures and requirements for testing and approval of these belts to evaluate their resistance to fire ignition and propagation. The proposal would also require purchase of the improved belts after one year.

Final Rule Stage

2084. NONDISCRIMINATION ON THE BASIS OF AGE IN PROGRAMS AND ACTIVITIES RECEIVING FEDERAL FINANCIAL ASSISTANCE FROM THE DEPARTMENT OF LABOR

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 6101 et seq, Age Discrimination Act of 1975

CFR Citation: 29 CFR 35

Legal Deadline: NPRM, Statutory, September 10, 1979, Deadline requires publication of the NPRM within 90 days of publication and submission to HHS of final rule within 120 days of NPRM.

Abstract: The proposed regulatory action is necessary to comply with the Department's statutory and regulatory obligations under the Age Discrimination Act of 1975, as amended (the Act). The Act and the general, Governmentwide implementing rule issued by the Department of Health and Human Services (HHS) (45 CFR 90) require each Federal agency providing financial assistance to any program or activity to publish proposed regulations implementing the Act no later than 90 days after the publication date of the Governmentwide rule, and to submit final agency regulations to HHS no later than 120 days after publication of the NPRM. As a practical matter, while DOL has not issued proposed or final regulations under the Age Discrimination Act, it has complied with its enforcement obligations. Furthermore, discrimination on the basis of age is prohibited under section 188 of the Workforce Investment Act of 1998 and the implementing regulations at 29 CFR 37.

2085. IMPLEMENTATION OF THE NONDISCRIMINATION AND EQUAL OPPORTUNITY REQUIREMENTS OF THE WORKFORCE INVESTMENT ACT OF 1998

Priority: Substantive, Nonsignificant

Legal Authority: 29 USC 2938 Workforce Investment Act

CFR Citation: 29 CFR 37

Legal Deadline: Final, Statutory, August 7, 1999.

Abstract: The Workforce Investment Act of 1998 (WIA) was signed into law by President Clinton on August 7, 1998. Section 188 prohibits discrimination by recipients of financial assistance under Title I of WIA on the grounds of race, color, national origin, sex, age, disability, religion, political affiliation or belief, and for beneficiaries only, participant status, and against certain noncitizens. Section 188(e) requires that the Secretary of Labor issue regulations necessary to implement section 188 not later than one year after the date of the enactment of the WIA. Such regulations will include standards for determining compliance and procedures for enforcement that are consistent with the Acts referred to in section 188(a)(1), as well as procedures to ensure that complaints filed under section 188 and such acts are processed in a manner that avoids duplication of effort.

2086. AUDITS OF STATES, LOCAL GOVERNMENTS, AND NONPROFIT ORGANIZATIONS

Priority: Info./Admin./Other

Legal Authority: 31 USC 7501 Single Audit Act Amendments of 1996; OMB Circular A-110; OMB Circular A-133

CFR Citation: 29 CFR 99

Legal Deadline: None

Abstract: This action adds a new title 29 CFR 99 "Audits of States, Local Governments, and Non-Profit Organizations" as a new regulation which codifies the revised Office of Management and Budget (OMB) Circular A-133 in its entirety. The Single Audit Act Amendments of 1996 (Public Law 104-156, 110 Stat. 136) and the June 24, 1997, revision of OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations," required agencies to adopt in codified regulations the standards in the revised OMB Circular A-133 by August 29, 1997, so that they will apply to audits of fiscal years beginning after June 30, 1996. The revised OMB Circular A-133 co-located audit requirements for States, local governments, and nonprofit organizations. As a consequence, the OMB rescinded OMB Circular A-128, "Audits of States and Local Governments." On August 29, 1997, the Department of Labor amended its grants common rules at 29 CFR 95 and 29 CFR 97 in accordance with OMB guidance.

2088. GRANTS AND AGREEMENTS

Priority: Other Significant

Legal Authority: PL 105-277

CFR Citation: 29 CFR 95

Legal Deadline: None

Abstract: The Department is joining with other Federal agencies to establish revised regulations for Grants. Congress included a two-sentence provision in OMB's appropriation for fiscal year 1999, contained in Public Law 105-277, directing OMB to revise section 95.36 of Circular A-110 "to require Federal awarding agencies to ensure that all data produced under an award will be made available to public through the procedures established under the Freedom of Information Act." Circular A-110 applies to grants and cooperative agreements with institutions of higher education, hospitals, and nonprofit institutions, from all Federal agencies. OMB finalized the revision on September 30, 1999 (64 FR 54926). This interim final rule amends the agencies' codification of Circular A-110 so they reflect OMB's recent action.

2089. EFFECTUATION OF TITLE VI OF THE CIVIL RIGHTS ACT OF 1964 AND IMPLEMENTATION OF SECTION 504 OF THE REHABILITATION ACT OF 1973

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2000(d); 29 USC 794

CFR Citation: 29 CFR 31; 29 CFR 32

Legal Deadline: None

Abstract: This proposal would incorporate into 29 CFR parts 31 and 32 the term "program or activity" and the definition of that term as it was defined in the Civil Rights Restoration Act of 1987. Part 31 effectuates title VI of the Civil Rights Act of 1964, which prohibits discrimination on the basis of race, color or national origin in programs or activities that receive financial assistance from the Department of Labor. Part 32 implements section 504 of the Rehabilitation Act of 1973, which prohibits discrimination on the basis of disability in programs or activities that receive financial assistance from the Department of Labor.

2090. GOVERNMENTWIDE DEBARMENT AND SUSPENSION (NONPROCUREMENT) AND GOVERNMENTWIDE REQUIREMENTS FOR DRUG FREE WORKPLACE (GRANTS) 29 CFR 98

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 301; 40 USC 486(c); 41 USC 701

CFR Citation: 29 CFR 94; 29 CFR 98

Legal Deadline: None

Abstract: This document proposed substantive changes and amendments to the Governmentwide nonprocurement common rule for debarment and suspension and the governmentwide rule implementing the Drug-Free Workplace Act of 1988. The most significant changes are: (1) This proposed common rule on debarment and suspension would limit the mandatory lower tier application of an exclusion to the first procurement level under a nonprocurement covered transaction; (2) This proposed common rule on debarment and suspension would set the dollar threshold on prohibited lower-tier procurement transactions with excluded persons at $25,000; (3) Both this proposed rule on debarment and suspension and the proposed rule on drug-free workplace

DOL—OASAM **Long-Term Actions**

requirements would eliminate the mandate for agencies and participants to obtain written certifications from awardees or persons with whom they propose to enter into covered transactions. The proposed rules will allow agencies and participants the flexibility to use other means if they so choose, such as award conditions or electronic access to the GSA List on the internet, to enforce compliance with the rules; and (4) The proposed rule on drug-free workplace requirements would be separated from this proposed rule on debarment and suspension. The drug-free workplace requirements currently are in subpart F of the Debarment and Suspension Nonprocurement Common Rule.

2091. DEPARTMENT OF LABOR ACQUISITION REGULATION

Priority: Info./Admin./Other. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 5 USC 301; 40 USC 486(c)

CFR Citation: 48 CFR 2900 to 2999

Legal Deadline: None

Abstract: The Department of Labor Acquisition Regulations (DOLAR) are organized following the FAR format, i.e. fifty-three chapters covering specific topics. However, the DOLAR has not been updated since 1986. Since that time numerous procurement reforms have taken place and the organizations within the Department of Labor have changed, leaving the DOLAR obsolete in many areas, particularly in the area of e-procurement.

The existing DOLAR proposed rules will be modified to:

—Remove obsolete references to policies, procedures, and offices.

—Incorporate electronic links to primary sources of reference such as the FAR, U.S. Code, and the Code of Federal Regulations in order to allow the DOLAR to be used by procurement professionals and others as a reference tool.

—Incorporate Office of Federal Procurement Policy Letters, Executive Orders and other federal acquisition initiatives into Department of Labor practices.

—Establish procedures that follow current established best practices.

—Restate procedures that have not changed and are still in effect.

2092. CONFINED SPACES IN CONSTRUCTION (PART 1926): PREVENTING SUFFOCATION/EXPLOSIONS IN CONFINED SPACES

Priority: Economically Significant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 29 USC 655(b); 40 USC 333

CFR Citation: 29 CFR 1926.36

Legal Deadline: None

Abstract: In January 1993, OSHA issued a general industry rule to protect employees who enter confined spaces (29 CFR 1910.146). This standard does not apply to the construction industry because of differences in the nature of the worksite in the construction industry. In discussions with the United Steel Workers of America on a settlement agreement for the general industry standard, OSHA agreed to issue a proposed rule to extend confined-space protection to construction workers appropriate to their work environment. One million construction workers are exposed to the hazards of confined space entry each year. OSHA intends to issue a proposed rule addressing this construction industry hazard next year.

Legal Deadline: None

Abstract: Electrical hazards are a major cause of occupational death in the United States. The annual fatality rate for power line workers is about 50 deaths per 100,000 employees. The construction industry standard addressing the safety of these workers during the construction of electric power transmission and distribution lines is nearly 30 years old. OSHA is developing a revision of this standard that will prevent many of these fatalities, add flexibility to the standard, and update and streamline the standard. In addition, OSHA intends to amend the corresponding standard for general industry so that requirements for work performed during the maintenance of electric power transmission and distribution installations are the same as those for similar work in construction.

Abstract: OSHA intends to issue a Request for Information and to undertake and support extensive research to elucidate the mechanisms

DOL—OSHA

Prerule Stage

of disease underlying Chronic Beryllium Disease or beryllium sensitization and to identify the best ways of reducing employee exposure to beryllium. OSHA will also be identifying processes, industries, and kind of businesses that involve the use of beryllium. This information is necessary if OSHA is to develop a rule to reduce worker exposure to dust or fumes from beryllium metal, metal oxides, or alloys, all of which may cause serious and sometimes fatal lung disease (chronic beryllium disease (CBD), lung cancer, and skin disease). In 1999, OSHA was petitioned to issue an emergency temporary standard by the Paper, Allied-Industrial, Chemical, and Energy Workers Union (PACE) and others. The Agency denied this petition but stated its intent to work on a standard to be issued under section 6(b)(5) of the Act to protect workers from beryllium-related disease. Before OSHA can do so, however, it needs a substantial amount of information on beryllium's toxicity, risks, and patterns of use. The Request for Information will be designed to obtain this information.

2097. HEARING LOSS PREVENTION IN CONSTRUCTION WORKERS

Priority: Economically Significant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 29 USC 655(b); 40 USC 333

CFR Citation: 29 CFR 1926.52

Legal Deadline: None

Abstract: OSHA issued a section 6(b)(5) health standard mandating a comprehensive hearing conservation program for noise exposed workers in general industry in 1983. However, a number of recent studies have shown that a large number of construction workers experience work-related hearing loss. In addition, the use of engineering, administrative and personal protective equipment to reduce exposures to noise is low in this industry. OSHA intends to issue an Advance Notice of Proposed Rulemaking (ANPRM) in 2002, and to initiate stakeholder meetings to gather information on the extent of noise-induced hearing loss among workers in different trades in this industry, current practices to reduce this loss, and additional approaches and protections that could be used to prevent such loss in the future.

2098. • CRANES, DERRICKS, HOISTS, ELEVATORS, AND CONVEYORS

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 29 USC 651(b); 29 USC 655(b); 40 USC 333

CFR Citation: 29 CFR 1926

Legal Deadline: None

Abstract: Subpart N addresses hazards associated with various types of hoisting equipment used at construction sites. Such equipment includes cranes, derricks, hoists, elevators and conveyors. The existing rule, which dates back to 1971, is based in part on industry consensus standards from 1958, 1968 and 1969. There have been considerable technological changes since those consensus standards were developed. Industry consensus standards for derricks and for crawler, truck and locomotive cranes were updated as recently as 1995. A number of industry stakeholders have asked OSHA to update Subpart N.

OSHA's Subpart N is now 30 years old, and is based in part on industry consensus standards as much as 42 years old. No changes have been made to the OSHA standard since 1971. Significant changes have occurred in the industry since the OSHA standard was promulgated.

A cross-section of the industry has stated that there is a need to update Subpart N. OSHA has determined that the existing rule needs to be revised.

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1035

Legal Deadline: None

Abstract: In 1993, the Labor Coalition to Fight TB in the Workplace petitioned the Occupational Safety and Health Administration (OSHA) to develop an occupational health standard to protect workers who care for or oversee patients or others with active tuberculosis (TB) against the transmission of TB. After reviewing the available information, OSHA preliminarily concluded that a significant risk of occupational transmission of TB exists for some workers in some work settings and began rulemaking on a proposed standard. Examples of workers at risk of contracting TB as a result of their work are health care workers, detention facility personnel, and homeless shelter employees. On October 17, 1997, OSHA published its proposed standard for occupational exposure to TB (62 FR 54160). The proposed standard would require employers to protect TB-exposed workers using infection control measures that have been shown to be highly effective in reducing or eliminating work-related TB infections. Such measures include procedures for the early identification of individuals with infectious TB, isolation of individuals with infectious TB using appropriate ventilation, use of respiratory protection in certain situations, and skin testing and training of employees.

After the close of the written comment period for the proposed standard, informal public hearings were held in Washington, DC, Los Angeles, CA, New York City, NY, and Chicago, IL. The post-hearing comment period closed on October 5, 1998. On June 17, 1999 OSHA reopened the rulemaking record for 90 days to submit the Agency's report on homeless shelters and certain other documents that became available to the Agency after the close of the post-hearing comment period. During this limited reopening of the rulemaking record, OSHA also requested interested parties to submit comments and data on the Agency's preliminary risk assessment in order to obtain the best, most recent data for providing the most accurate estimates of the occupational risk of tuberculosis. At the request of Congress, the Institute of Medicine of the National Academy of Sciences (IOM) conducted a study of OSHA's proposal and the need for a TB standard. That study was completed in January 2001, and concluded that OSHA should move forward with a standard modeled after the CDC guidelines and tailored to the extent of TB risk present in the community. The IOM study concluded that an OSHA standard was needed to maintain national TB rates among health care and other employees at their current levels and to prevent future outbreaks of multi-drug resistant and other forms of TB among these workers. OSHA intends to reopen the record to obtain comment on the IOM study and the peer reviewers' comment on the risk assessment.

2103. GENERAL WORKING CONDITIONS FOR SHIPYARD EMPLOYMENT

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 29 USC 655(b); 33 USC 941

CFR Citation: 29 CFR 1915, subpart F

Legal Deadline: None

Abstract: During the 1980s, OSHA embarked on a project to update and consolidate the various OSHA shipyard standards that were applied in the shipbuilding, shiprepair, and shipbreaking industry. Publication of a proposal addressing general working conditions in shipyards is part of this project. The operations addressed in this rulemaking relate to housekeeping, illumination, sanitation, first aid, and lockout/tagout. About 75,000 workers are exposed annually to these hazards.

2106. CHANGES TO STATE PLANS

Priority: Substantive, Nonsignificant

Legal Authority: 29 USC 667

CFR Citation: 29 CFR 1953

Legal Deadline: None

Abstract: Section 18 of the Occupational Safety and Health Act of 1970 (the Act), 29 U.S.C. 667, provides that States that wish to assume responsibility for developing and enforcing their own occupational safety and health standards relating to any occupational safety or health issue may do so by submitting and obtaining Federal approval of a State plan. A State plan consists of the laws, standards and other regulations, and procedures under which the State operates its occupational safety and health program. From time to time after initial plan approval, States may make changes to their plans as a result of legislative, regulatory or administrative actions. If the State makes a change to its plan which differs from the Federal program, the State must notify OSHA of the change to its plan which differs from the Federal program (referred to as a plan supplement). OSHA then reviews the changes; if they meet the approval criteria OSHA publishes a notice announcing the approval of the change; if the change does not meet the criteria OSHA initiates procedures to reject the change.

OSHA is proposing to amend its regulations regarding State plan changes to streamline the review and approval process and to allow more organizational flexibility in this process. Changes which are identical to components of the Federal program would not require formal review. The proposal also would reorganize 29 CFR part 1953 to eliminate repetitive language. Cross references to part 1953 in the CFR would be changed as necessary to reflect the correct references.

Priority: Info./Admin./Other

Legal Authority: PL 106-181, Wendell H. Ford Aviation Investment and Reform Act, sec 519; 49 USC 42121

CFR Citation: 29 CFR 1979

Legal Deadline: None

Abstract: On March 8, 2000, Congress enacted the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century, commonly known as the Air Act. Section 519 of the Act (49 USC 42121) prohibits air carriers or air carrier contractors or subcontractors from discharging or otherwise discriminating against employees for exercising specified rights under the Act. The Act further provides that the Secretary of Labor investigate employee claims of discrimination and ultimately issue a determination and order after an opportunity for either party to request a hearing on the record. Procedural rules are needed for filing, investigating, litigating, and adjudicating complaints filed pursuant to the Act.

Long-Term Actions

2110. LONGSHORING AND MARINE TERMINALS (PARTS 1917 AND 1918) — REOPENING OF THE RECORD (VERTICAL TANDEM LIFTS (VTLS))

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 33 USC 941; 29 USC 655

CFR Citation: 29 CFR 1918.11; 29 CFR 1918.85

Legal Deadline: None

Abstract: OSHA issued a final rule on Longshoring on July 25, 1997 (62 FR 40142). However, in that rule, the Agency reserved provisions related to vertical tandem lifts. Vertical tandem lifts (VTLs) involve the lifting of two or more empty intermodal containers, secured together with twist locks, at the same time. Because some commenters to the record questioned the safety of allowing such tandem lifts and the record did not contain adequate information to allow the Agency to address this issue, OSHA is working with national and international organizations and gathering additional information on the safety of VTLs. The Agency plans to reopen the record for comment before proceeding with a final rule.

2114. ACCREDITATION OF TRAINING PROGRAMS FOR HAZARDOUS WASTE OPERATIONS (PART 1910)

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 29 USC 655(b); PL 101-549 (November 15, 1990); 5 USC 552(a); 5 USC 553

CFR Citation: 29 CFR 1910.121

Legal Deadline: None

Abstract: The Superfund Amendments and Reauthorization Act (SARA) of 1986 (Public Law 99-499) established the criteria under which OSHA was to develop and promulgate the Hazardous Waste Operations and Emergency Response standard. OSHA issued an interim final standard on December 19, 1986 (51 FR 45654) to comply with the law's requirements. OSHA issued a permanent final rule with provisions on training to replace this interim rule on March 9, 1989 (29 CFR 1910.120).

On December 22, 1987, as part of an omnibus budget reconciliation bill (PL 100-202), Congress amended section 126(d)(3) of SARA to include accreditation of training programs for hazardous waste operations. OSHA issued a proposal on January 26, 1990 (55 FR 2776) addressing this issue. OSHA received public comments following the issuance of the proposal. OSHA also reopened the record in June 1992 to allow additional public comment on an effectiveness of training study that the Agency had conducted. Since that time, OSHA has developed nonmandatory guidelines to address training criteria for hazardous waste workers, and these have been widely adopted. In addition, the private sector has since established training accreditation procedures. At this time, the next action in this rulemaking is undetermined.

2115. INDOOR AIR QUALITY IN THE WORKPLACE

Priority: Economically Significant. Major under 5 USC 801.

Unfunded Mandates: Undetermined

Legal Authority: 29 USC 655

CFR Citation: 29 CFR 1910; 29 CFR 1915; 29 CFR 1926; 29 CFR 1928

Legal Deadline: None

Abstract: The health of American workers may be affected by indoor air pollution in the workplace. After reviewing and analyzing available information, OSHA published a proposed indoor air quality rule on April 5, 1994. The proposal would require employers to write and implement indoor air quality compliance plans that would include inspection and maintenance of current building ventilation systems to ensure they are functioning as designed. In buildings where smoking is allowed, the proposal would require designated smoking areas that would be separate, enclosed rooms where the air would be exhausted directly to the outside. Other proposed provisions would require employers to maintain healthy air quality during renovation, remodeling, and similar activities. As proposed, the provisions for indoor air quality would apply to 70 million workers and more than 4.5 million nonindustrial indoor work environments, including schools and training centers, offices, commercial establishments, health care facilities, cafeterias and factory break rooms. The proposed environmental tobacco smoke provisions would apply to all 6 million industrial and nonindustrial work environments under OSHA's jurisdiction.

Legal Authority: 29 USC 653; 29 USC 655; 29 USC 657

CFR Citation: 29 CFR 1900.1

Legal Deadline: None

Abstract: The Occupational Safety and Health Administration (OSHA), many States, members of the safety and health community, insurance companies, professional organizations, companies participating in the Agency's Voluntary Protection Programs, and many proactive employers in all industries recognize the value of worksite-specific injury and illness prevention programs in reducing and preventing job-related injuries, illnesses, and fatalities. The reductions in job-related injuries and illnesses, workers' compensation costs, and absenteeism that occur after employers implement such programs dramatically demonstrate their effectiveness. OSHA has decided to develop an injury and illness prevention rule because occupational injuries, illnesses, and fatalities are continuing to occur at an unacceptably high rate. For example, an average of about 16 workers were killed each day in 1999. This number does not include an estimated 137 daily deaths associated with job-related chronic illnesses. The Agency is currently evaluating the appropriate scope and form of the proposed rule, as well as the hazards the rule will address, and is considering a number of regulatory and non-regulatory alternatives.

2117. OCCUPATIONAL EXPOSURE TO HEXAVALENT CHROMIUM (PREVENTING OCCUPATIONAL ILLNESS: CHROMIUM)

Priority: Economically Significant. Major under 5 USC 801.

Unfunded Mandates: This action may affect the private sector under PL 104-4.

Legal Authority: 29 USC 655(b); 29 USC 657

CFR Citation: 29 CFR 1910

Legal Deadline: None

Abstract: In July 1993, the Occupational Safety and Health Administration (OSHA) was petitioned for an emergency temporary standard (ETS) to reduce the permissible exposure limit (PEL) for occupational exposures to hexavalent chromium. The Oil, Chemical, and Atomic Workers International Union (OCAW) and Public Citizen's Health Research Group (HRG) petitioned OSHA to promulgate an ETS to lower the PEL for hexavalent chromium (CrVI) compounds to 0.5 micrograms per cubic meter of air (ug/m3) as an eight-hour, time-weighted average (TWA). This would represent a significant reduction in the current PEL. The current PEL in general industry is found in 29 CFR 1910.1000 Table Z and is a ceiling value of 100 ug/m3, measured as chromium (VI) and reported as chromic anhydride (CrO3).

The amount of chromium (VI) in the anhydride compound equates to a PEL of 52 ug/m3. This ceiling limit applies to all forms of hexavalent chromium (VI), including chromic acid and chromates, lead chromate, and zinc chromate. The current PEL for hexavalent chromium (VI) in the construction industry is 100 ug/m3 as a TWA PEL, which also equates to a PEL of 52 ug/m3. After reviewing the petition, OSHA denied the request for an ETS and initiated a section 6(b)(5) rulemaking.

The major illnesses associated with occupational exposure to hexavalent chromium are lung cancer and dermatoses. OSHA estimates that approximately one million workers are exposed to hexavalent chromium on a regular basis in all industries. The major uses of hexavalent chromium are: as a structural and anti-corrosive element in the production of stainless steel, ferrochromium, iron and steel, and in electroplating, welding and painting. Work on a proposed rule continues.

Priority: Substantive, Nonsignificant

Legal Authority: 29 USC 655(b); 40 USC 333

CFR Citation: 29 CFR 1926

Legal Deadline: None

Abstract: OSHA issued an ANPRM to gather information on fall protection issues regarding certain construction processes such as residential home building, precast concrete operations and post frame construction. The issues relate to the fall protection rules as they now apply to roofing work, residential construction operations, climbing reinforcement steel and vendors delivering materials to construction projects. These issues have arisen since OSHA revised the fall protection standard in August 1994. The comment period on the ANPRM closed January 24, 2000. OSHA is now evaluating comments to determine whether further action is required.

Legal Deadline: None

Abstract: OSHA is considering a negotiated or other consensus-based rulemaking to address the hazards posed by silica. Silica exposure remains a serious threat to nearly 2 million U.S. workers, including more than 100,000 workers in high risk jobs such as abrasive blasting, foundry work, stonecutting, rock drilling, quarry work and tunneling. The seriousness of the health hazards associated with silica exposure is demonstrated by the fatalities and disabling illnesses that continue to occur in sandblasters and rock drillers and by recent studies that indicate a statistically significant increase in lung cancer among silica-exposed workers. Exposure studies and OSHA enforcement data indicate that some workers are still exposed to very high levels of silica. OSHA plans in this rulemaking to modernize and standardize the Agency's current PELs for silica so that they will be consistent across all sectors.

Legal Deadline: None

Abstract: Generally, OSHA standards require that protective equipment (including personal protective equipment (PPE)) be provided and used when necessary to protect employees from hazards that can cause them injury, illness, or physical harm. In this discussion, OSHA uses the abbreviation "PPE" to cover both personal protective equipment and other protective equipment. The Agency has proposed to revise its PPE standards to clarify who is required to pay for required PPE and under what circumstances. OSHA is considering its options and reviewing the record and has not determined its next course of action.

2121. WALKING WORKING SURFACES AND PERSONAL FALL PROTECTION SYSTEMS (1910) (SLIPS, TRIPS AND FALL PREVENTION)

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 29 USC 655 (b)

CFR Citation: 29 CFR 1910, subparts D and I

Legal Deadline: None

Abstract: In 1990, OSHA proposed (55 FR 13360) a rule addressing slip, trip, and fall hazards and establishing requirements for personal fall protection systems. Since that time, new technologies and procedures have become available to protect employees from these hazards. The Agency has been working to update these rules to reflect current technology and intends to issue a new proposal in the near future.

2122. REVISION AND UPDATE OF SUBPART S—ELECTRICAL STANDARDS

Priority: Economically Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910. subpart S

Legal Deadline: None

Abstract: The Occupational Safety and Health Administration (OSHA) is planning to revise and update its 29 CFR 1910 Subpart S-Electrical Standard and will rely heavily in that process on the materials involved in the development of the 2000 Edition of the National Fire Protection Association's (NFPA's) 70 E standard for Electrical Safety Requirements for Employee Workplaces. This revision will provide the first update of Subpart S-Electrical since the standard was originally published in 1981. It will thus allow the latest technological developments to be considered; several of these state-of-the-art safety developments will be addressed by OSHA for the first time. The update of Subpart S-Electrical will also at a future time permit the completion of standards covering safety-related maintenance requirements and safety requirements for special equipment.

2123. COMMERCIAL DIVING OPERATIONS: REVISION

Priority: Substantive, Nonsignificant

Legal Authority: 29 USC 655

CFR Citation: 29 CFR 1910.423

Legal Deadline: None

Abstract: OSHA's Commercial Diving Operations standard (29 CFR 1910.401 to 1910.441) was published in 1977. In the intervening years, major changes in the technology of diving systems and equipment have occurred. In December 1999, OSHA granted a permanent variance to Dixie Divers, Inc. permitting recreational diving instructors employed by that company to comply with the provisions of the variance rather than with paragraphs (b)(2) and (c)(3)(iii) of 1910.423 and paragraph (b)(1) of 1910.426. Since OSHA granted the variance, other employers of recreational diving instructors have asked OSHA to clarify the applicability of the variance to their operations. OSHA intends to issue a notice of proposed rulemaking to obtain data on the appropriateness of amending the commercial diving operations standard to reflect the alternative specified in the permanent variance granted to Dixie Divers, Inc.

2124. PERMISSIBLE EXPOSURE LIMITS (PELS) FOR AIR CONTAMINANTS

Priority: Economically Significant. Major under 5 USC 801.

Unfunded Mandates: This action may affect the private sector under PL 104-4.

Legal Authority: 29 USC 653 (b); 29 USC 657

CFR Citation: 29 CFR 1910.1000; 29 CFR 1915.1000; 29 CFR 1917.1(a)(2)(ii); 29 CFR 1918.1(b)(a); 29 CFR 1926.55

Legal Deadline: None

Abstract: OSHA enforces hundreds of permissible exposure limits (PELs) for toxic air contaminants found in U.S. workplaces. OSHA adopted most of the air contaminant limits in 1971 from recommendations issued under Federal rules, the American National Standards Institute, and other consensus organizations. These PELs thus reflect the results of research conducted before that time. Since then, much new information has become available. OSHA has not yet determined the best way to proceed with the permissible exposure limit update process. The Agency wishes both to expand the circle of stakeholders engaged in the update process and to obtain their input earlier in the process. Accordingly and in light of resource constraints, OSHA is withdrawing this entry from the regulatory agenda at this time.

2125. METALWORKING FLUIDS: PROTECTING RESPIRATORY HEALTH

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 29 USC 655(b)(1); 29 USC 656(b)

CFR Citation: 29 CFR 1910

Legal Deadline: None

Abstract: In December 1993, the International Union, United Automobile Aerospace and Agricultural Implement Workers of America, petitioned OSHA to take emergency regulatory action to protect workers from the risks of occupational cancers and respiratory illnesses due to exposure to metalworking fluids. In response to the petition, OSHA established a 15-member Standards Advisory Committee to make recommendations to OSHA regarding the need for a standard, a guideline, or other appropriate response to the dangers of occupational exposures to metalworking fluids. The Committee concluded that workers exposed to these fluids are at risk of developing respiratory diseases, including hypersensitivity pneumonitis, occupational asthma, and lung cancer and dermatoses. The Committee divided on the appropriate response; a majority favored rulemaking while others concluded that rulemaking was inappropriate at this time because of the complexity of the issue. The Committee submitted its report to OSHA in July, 1999. OSHA has decided to make the Committee's report available to the public on the Agency's web page. In addition, working with stakeholders and members of the Advisory Committee, OSHA has developed a Best Practices Guide for metalworking fluid users and will also make this available on the web. OSHA believes that the availability of this comprehensive and authoritative outreach material will greatly reduce the health hazards machinists and others exposed to these fluids may face. Accordingly, and in light of resource constraints, OSHA is withdrawing this entry from the agenda at this time.

2140. • OCCUPATIONAL INJURY AND ILLNESS RECORDING AND REPORTING REQUIREMENTS

Priority: Other Significant

Legal Authority: 29 USC 657; 5 USC 553

CFR Citation: 29 CFR 1904

Legal Deadline: None

Abstract: The Occupational Safety and Health Administration (OSHA) issued a final rule on Occupational Injury and Illness Recording and Reporting Requirements (66 FR 5916, January 19, 2001), which is scheduled to become effective on January 1, 2002. Following a careful review conducted pursuant to White House Chief of Staff Andrew Card's memorandum (66 FR 7702), the Agency has determined that all but two provisions of the final rule will take effect as scheduled (66 FR 35113, July 3, 2001). The record on this proposal closed on September 4, 2001. OSHA intends to publish a final rule reflecting the effective dates for sections 1904.10 and 1904.12 in the near future.

OSHA will reconsider these two provisions in the final rule for recording occupational hearing loss based on the occurrence of a Standard Threshold Shift (STS) in hearing acuity (section 1904.10), defining "musculoskeletal disorders" and checking the column on the OSHA 300 Log identifying a recordable case as an MSD (section 1904.12). OSHA also proposed to delay the effective date of sections 1904.10 and 1904.12 until January 1, 2003 to allow time for such regulatory reconsideration.

Proposed Rule

2141. • ANNUAL REPORT FOR FEDERAL CONTRACTORS (2002 REVISIONS)

Priority: Other Significant

Legal Authority: PL 106-419 Veterans Benefits and Health Care Improvement Act of 2000

CFR Citation: 41 CFR 61-250

Legal Deadline: None

Abstract: The Veterans' Employment and Training Service (VETS) is proposing to issue a notice of proposed rulemaking (NPRM) to implement changes required by the Veterans' Benefits and Health Care Improvement Act of 2000. The Act adds an additional category of veterans, "recently separated veterans," to the list of protected veterans under the Vietnam Era Veterans' Readjustment Assistance Act, as amended (VEVRAA). This proposal will assist VETS in meeting the statutory requirement of annually collecting the VETS-100 Report.

Final Rule

2142. ANNUAL REPORT FOR FEDERAL CONTRACTORS

Priority: Other Significant

Legal Authority: PL 105-339 Veterans Employment Opportunities Act of 1998

CFR Citation: 41 CFR 61-250

Legal Deadline: None

Abstract: The Veterans' Employment and Training Service (VETS) issued a final rule implementing changes required by the Veterans' Employment Opportunities Act of 1998. The Act requires most Federal contractors and subcontractors with contracts in the amount of $25,000 or more to report their efforts toward hiring and employment of qualified veterans. The Act adds an additional category of veterans, "other veterans who have served on active duty during a war or in a campaign or expedition for which a campaign badge has been authorized," to the list of protected veterans under the Vietnam Era Veterans' Readjustment Assistance Act, as amended (VEVRAA). The Act also adds the requirement that covered contractors and subcontractors report their minimum and maximum number of employees. This rule will assist VETS in meeting the statutory requirement of annually collecting the VETS-100 Report. After publication VETS learned that the final rule may inadvertently increase recordkeeping burden on some contractors. Accordingly, an interim final rule will be published permitting contractors flexibility in how they determine the maximum and minimum number of employees reported.

DEPARTMENT OF STATE (STATE)

DEPARTMENT OF STATE

22 CFR Ch. I

[Public Notice 3813]

Unified Agenda of Federal Regulatory and Deregulatory Actions

AGENCY: Department of State.

ACTION: Semiannual regulatory agenda.

SUMMARY: Consistent with the Regulatory Flexibility Act of 1980, 5 U.S.C. 602, and OMB guidance to the Department of State pursuant to Executive Order 12866, the October 2001 agenda of the Department of State is set forth below. The purpose of this publication is to provide information to the public on the Department's regulatory plans. Consistent with OMB guidance, this agenda includes active continuing items from prior agendas.

FOR FURTHER INFORMATION CONTACT: Jamison Selby Borek, Assistant Legal Adviser for Legislation and General Management, Department of State, Room 3422, 2201 C Street NW., Washington, DC 20520, telephone (202) 647-2318.

Dated: October 23, 2001.

Grant Green,

Under Secretary of State for Management.

Department of State—Prerule Stage

Sequence Number	Title	Regulation Identification Number

2145. FOREIGN PROHIBITIONS ON LONGSHORE WORK BY U.S. NATIONALS

Priority: Substantive, Nonsignificant

Legal Authority: 8 USC 1288(d)

CFR Citation: 22 CFR 89 (Revision)

Legal Deadline: Final, Statutory, December 31, 1998, Legal deadline reflects the statutory requirement that the list be updated on an annual basis.

Abstract: The above-mentioned statute requires the Secretary of State to compile and update annually, through notice-and-comment rulemaking procedures, a list, by particular longshore activity, of countries where performance of such activity is prohibited by law, regulation, or in practice in the country concerned. According to the statute cited above, the Attorney General will use this list for enforcing restrictions on work performed by crewmembers of vessels from such countries. Compilation of the list itself does not involve any significant costs and is based upon information being provided to the Department of State by U.S. diplomatic missions overseas, as well as by the public. Questions regarding the policy justification for the list and its use are best directed to the Departments of Labor, Transportation, and Justice.

agencies to amend regulations implementing title VI of the Civil Rights Act of 1964 (title VI), section 504 of the Rehabilitation Act of 1972 (section 504), and the Age Discrimination Act of 1975 (Age Discrimination Act). Together, these statutes prohibit discrimination on the basis of race, color, national origin, disability, and age in programs or activities that receive Federal financial assistance. In 1988, the Civil Rights Restoration Act (CRRA) added definitions of "program or activity" and "program" to title VI, section 504, and the Age Discrimination Act. The added definitions were designed to clarify the broad scope of coverage of recipients' programs or activities under these statutes.

2165. ESTABLISHING OF REGISTRY IN STATE DEPARTMENT FOR INFORMATION ABOUT EXECUTION OF INTERNATIONAL WILLS

Priority: Substantive, Nonsignificant

Legal Authority: International Legal Material, vol XII, no 6, Nov 1973, p 1302

CFR Citation: 22 CFR 92.81(b)(3)

Legal Deadline: None

Abstract: By resolution of the international diplomatic conference that adopted the final text of the 1973 convention on the forms of international wills, there was a recommendation that States establish an internal system to permit the optional registration of information to facilitate the discovery of international wills. The President transmitted the convention to the Senate on July 2, 1986, with the recommendation that the Senate give its advice and consent to U.S. ratification of the convention and information about the intention to establish the Registry in the Department of State (Senate Treaty Doc. 99-29). The Senate gave advice and consent on August 2, 1991. Implementing legislation (the International Wills Act) is required before the United States can take further action to ratify the convention.

Timetable: Next Action Undetermined

Regulatory Flexibility Analysis Required: Yes

Small Entities Affected: Governmental Jurisdictions

Government Levels Affected: None

Additional Information: U.S. ratification of the 1973 Convention Providing a Uniform Law on the Form of an International Will and implementing legislation will provide for the designation of Diplomatic and Consular Agents to act in connection with International Wills, and the establishment of a registry for such wills, and other related matters.

2174. • NONDISCRIMINATION ON THE BASIS OF SEX IN FEDERALLY ASSISTED PROGRAMS AND ACTIVITIES—IMPLEMENTATION OF TITLE IX OF THE EDUCATION AMENDMENTS OF 1972

Priority: Other Significant

Legal Authority: 20 USC 1682 et seq

CFR Citation: 22 CFR 146 (New)

Legal Deadline: None

Abstract: On June 17, 1980, the Department of Justice published a proposed regulation to implement the requirements of title IX of the Education Amendments of 1972, as amended, which prohibits discrimination on the basis of an individual's sex in federally assisted educational programs. That regulation was never issued in final form. As a result of subsequent statutory amendments, it was necessary to revise the prior proposed title IX regulation and begin a new rulemaking process. The Department of State's regulation was published as a common rule with other agencies, including the Department of Justice, that need title IX regulations.

OST Docket 99-5129

Department Regulatory Agenda; Semiannual Summary

AGENCY: Office of the Secretary, DOT.

ACTION: Semiannual regulatory agenda.

SUMMARY: The regulatory agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The agenda provides the public with information about the Department of Transportation's regulatory activity. It is expected that this information will enable the public to be more aware of and allow it to more effectively participate in the Department's regulatory activity. The public is also invited to submit comments on any aspect of this agenda.

FOR FURTHER INFORMATION CONTACT:

General

You should direct all comments and inquiries on the agenda in general to Neil R. Eisner, Assistant General Counsel for Regulation and Enforcement, Department of Transportation, 400 7th Street SW., Washington, DC 20590, (202) 366-4723.

Specific

You should direct all comments and inquiries on particular items in the agenda to the individual listed for the regulation or the general rulemaking contact person for the operating administration in Appendix B.

Individuals who use a telecommunications device for the deaf (TDD) may call (202) 755-7687.

- Appendix D - Review Plans for Section 610 and Other Requirements
- Agenda

SUPPLEMENTARY INFORMATION:

Background

Improvement of our regulations is a prime goal of the Department of Transportation (Department or DOT). There should be no more regulations than necessary and those that are issued should be simpler, more comprehensible, and less burdensome. Regulations should not be issued without appropriate involvement of the public; once issued, they should be periodically reviewed and revised, as needed, to assure that they continue to meet the needs for which they originally were designed.

To help the Department achieve these goals and in accordance with Executive Order 12866 "Regulatory Planning and Review" (58 FR 51735; October 4, 1993) and the Department's Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), the Department prepares a semiannual regulatory agenda. It summarizes all current and projected rulemaking, reviews of existing regulations, and completed actions of the Department. These are matters on which action has begun or is projected during the succeeding 12 months or such longer period as may be anticipated or for which action has been completed since the last agenda.

The agendas are based on reports submitted by the offices initiating the rulemaking and are reviewed by the Department Regulations Council. The Department's last agenda was published in the **Federal Register** on May 14, 2001 (66 FR 25756). The next one is scheduled for publication in the **Federal Register** in April 2002.

For this edition of the Department's regulatory agenda, the most important significant regulatory actions are included in The Regulatory Plan, which appears in part II of this issue of the **Federal Register.** The Regulatory Plan entries are listed in the table of contents below and are denoted by a bracketed bold reference, which directs the reader to the appropriate sequence number in part II.

The Department has created an Internet site that provides general information about its rulemaking responsibilities and activities. It includes hypertext links to numerous other departmental sites providing helpful information about DOT regulation. The web address for this site is http://regs.dot.gov.

Significant/Priority Rulemakings

The agenda covers all rules and regulations of the Department. We have classified rules as a DOT agency priority in the agenda if they are, essentially, very costly, controversial, or of substantial public interest under our Regulatory Policies and Procedures. All DOT agency priority rulemaking documents are subject to review by the Secretary of Transportation. If the Office of Management and Budget (OMB) decides a rule is subject to its review under Executive Order 12866, we have classified it as significant in the agenda.

Explanation of Information on the Agenda

The format for this agenda is required by Office of Management and Budget memorandum of July 10, 2001.

First, the agenda is divided by initiating offices. Then, the agenda is divided into five categories: (1) Prerule stage, (2) proposed rule stage, (3) final rule stage, (4) long-term actions, and (5) completed actions. For each entry, the agenda provides the following information: (1) Its "significance"; (2) a short descriptive title; (3) its legal basis; (4) the related regulatory citation in the Code of Federal Regulations; (5) any legal deadline and, if so, for what action (e.g., NPRM, final rule); (6) an abstract; (7) a timetable, including the earliest expected date for a decision on whether to take the action; (8) whether the rulemaking will affect small entities and/or levels of government and, if so, which categories; (9) whether a Regulatory Flexibility Act (RFA)

analysis is required (for rules that would have a significant economic impact on a substantial number of small entities); (10) a listing of any analyses an office will prepare or has prepared for the action (With minor exceptions, DOT requires an economic analysis for all its rulemakings.); (11) an agency contact office or official who can provide further information; (12) a Regulation Identifier Number (RIN) assigned to identify an individual rulemaking in the agenda and facilitate tracing further action on the issue; (13) whether the action is subject to the Unfunded Mandates Reform Act; (14) whether the action is subject to the Energy Act; and (15) whether the action is major under the congressional review provisions of the Small Business Regulatory Enforcement Fairness Act. If there is information that does not fit in the other categories, it will be included under a separate heading entitled "Additional Information."

For nonsignificant regulations issued routinely and frequently as a part of an established body of technical requirements (such as the Federal Aviation Administration's Airspace Rules), to keep those requirements operationally current, we only include the general category of the regulations, the identity of a contact office or official, and an indication of the expected number of regulations; we do not list individual regulations.

In the "Timetable" column, we use abbreviations to indicate the particular documents being considered. ANPRM stands for Advance Notice of Proposed Rulemaking, SNPRM for Supplemental Notice of Proposed Rulemaking, and NPRM for Notice of Proposed Rulemaking. Listing a future date in this column does not mean we have made a decision to issue a document; it is the earliest date on which we expect to make a decision on whether to issue it. In addition, these dates are based on current schedules. Information received subsequent to the issuance of this agenda could result in a decision not to take regulatory action or in changes to proposed publication dates. For example, the need for further evaluation could result in a later publication date; evidence of a greater need for the regulation could result in an earlier publication date.

Finally, a dot (•) preceding an entry indicates that the entry appears in the agenda for the first time.

Request for Comments

General

Our agenda is intended primarily for the use of the public. Since its inception, we have made modifications and refinements that we believe provide the public with more helpful information, as well as make the agenda easier to use. We would like you, the public, to make suggestions or comments on how the agenda could be further improved.

Reviews

We also seek your suggestions on which of our existing regulations you believe need to be reviewed to determine whether they should be revised or revoked. We particularly draw your attention to the Department's review plan in Appendix D.

Regulatory Flexibility Act

The Department is especially interested in obtaining information on requirements that have a "significant economic impact on a substantial number of small entities" and, therefore, must be reviewed under the Regulatory Flexibility Act. If you have any suggested regulations, please submit them to us, along with your explanation of why they should be reviewed.

In accordance with the Regulatory Flexibility Act, comments are specifically invited on regulations that we have targeted for review under section 610 of the Act. The phrase (Section 610 Review) appears at the end of the title for these reviews. Please see Appendix D for the Department's section 610 review plans.

Federalism

Executive Order 13132 requires us to develop an accountable process to ensure "meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications." "Policies that have federalism implications" are defined in the Executive Order to include regulations that have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, we encourage State and local governments to provide us with information about how the Department's rulemakings impact them.

Purpose

The Department is publishing this regulatory agenda in the **Federal Register** to share with interested members of the public the Department's preliminary expectations regarding its future regulatory actions. This should enable the public to be more aware of the Department's regulatory activity and should result in more effective public participation. This publication in the **Federal Register** does not impose any binding obligation on the Department or any of the offices within the Department with regard to any specific item on the agenda. Regulatory action, in addition to the items listed, is not precluded.

Issued in Washington, DC, on October 26, 2001.

Norman Y. Mineta,

Secretary of Transportation.

Appendix A - Instructions for Obtaining Copies of Regulatory Documents

To obtain a copy of a specific regulatory document in the agenda, you should communicate directly with the contact person listed with the regulation at the address below. We note that most if not all such documents, including the Semiannual Agenda, are available through our Internet-accessible docket at http://dms.dot.gov. See Appendix C for more information.

Appendix C - Public Rulemaking Dockets

The public may review or submit comments to the dockets for all of DOT via the Internet at the following address: http://dms.dot.gov. Examples of documents that may be in the dockets are proposed rules, public comments received, supporting analyses, studies, and reports.

The public also may review regulatory dockets at, or deliver comments on proposed rulemakings to, the Dockets Office at 400 7th Street SW., Room PL 401, Washington, DC 20590, 1-800-647-5527. Working Hours: 9-5.

Appendix D - Review Plans for Section 610 and Other Requirements

Part I - The Plan

General

The Department of Transportation has long recognized the importance of regularly reviewing its existing regulations to determine whether they need to be revised or revoked. Our 1979 Regulatory Policies and Procedures require such reviews. We also have responsibilities under E.O. 12866 ("Regulatory Planning and Review") and section 610 of the Regulatory Flexibility Act to conduct such reviews. This will include the use of plain language techniques in new rules and to consider rewriting existing rules when we have the opportunity and resources permit. The Department is currently conducting a number of reviews of existing rules and is engaged in rulemaking actions resulting from these reviews.

Section 610 Review Plan

Section 610 requires that we conduct reviews of rules that (1) have been published within the last ten years and (2) have a "significant economic impact on a substantial number of small entities" (SEIOSNOSE). It also requires that we publish in the **Federal Register** each year a list of any such rules that we will review during the next year. To better comply with section 610, the Department has updated its regulatory review plan published on June 29, 1981, to accomplish a more systematic review of all of its regulations. The Office of the Secretary and each of the Department's Operating Administrations (except for FMCSA) have a 10-year review plan. These reviews are in accordance with section 610 of the Regulatory Flexibility Act.

DOT

Other Review Plans

All elements of the Department, except for the FMCSA and Federal Aviation Administration (FAA), have also elected to use this 10-year plan process to comply with the review requirements of the Department's Regulatory Policies and Procedures, and Executive Order 12866. FMCSA and FAA are using different approaches, which are described in Part II to this Appendix.

Changes to the Review Plan

Some reviews may be conducted earlier than scheduled. For example, to the extent resources permit, the plain language reviews will be conducted more quickly. Other events, such as accidents, may result in the need to conduct earlier reviews of some rules. Other factors may also result in the need to make changes; for example, we may make changes in response to public comment on this plan or in response to a Presidentially mandated review. If there is any change to the review plan, we will note the change in the following Unified Agenda. For any section 610 review, we will provide the required notice prior to the review.

Part II - The Review Process

The Analysis

Generally, the agencies have divided their rules into 10 different groups and plan to analyze one group each year. For purposes of these reviews, a year will coincide with the fall-to-fall schedule for publication of the Agenda. Thus, Year 1 (1998) began in the fall of 1998 and ends in the fall of 1999; Year 2 (1999) begins in the fall of 1999 and ends in the fall of 2000; and so on. We request public comment on the timing of the reviews. For example, is there a reason for scheduling an analysis and review for a particular rule earlier than we have? Any comments concerning the plan or particular analyses can be submitted to the regulatory contacts listed in Appendix B, General Rulemaking Contact Persons.

Section 610 Review

The agency will analyze each of the rules in a given year's group to determine whether any rule has a SEIOSNOSE and, thus, requires review in accordance with section 610 of the Regulatory Flexibility Act. The level of analysis will, of course, depend on the nature of the rule and its applicability.

Publication of agencies' section 610 analyses list each fall in this Agenda provides the public with notice and an opportunity to comment consistent with the requirements of the Regulatory Flexibility Act. We request that public comments be submitted to us early in the analysis year concerning the small entity impact of the rules to help us in making our determinations.

In each October's Agenda, the agency will publish the results of the analyses it has completed during the previous year. For rules that had a negative finding on SEIOSNOSE, we will give a short explanation (e.g., "these rules only establish petition processes that have no cost impact" or "these rules do not apply to any small entities"). For parts, subparts or other discrete sections of rules that do have a SEIOSNOSE, we will announce that we will be conducting a formal section 610 review during the following 12 months. At this stage, we will add an entry to the Agenda in the prerulemaking section describing the review in more detail. We also will seek public comment on how best to lessen the impact of these rules and provide a name or docket to which public comments can be submitted. In some cases, the section 610 review may be part of another unrelated review of the rule. In such a case, we plan to clearly indicate which parts of the review are being conducted under section 610.

Other Reviews

The agency will also examine the specified rules to determine whether any other reasons exist for revising or revoking the rule or for rewriting the rule in plain language. In each October's Agenda, the agency will also publish information on the results of the examinations completed during the previous year.

FAA

The Federal Aviation Administration, in addition to reviewing its rules in accordance with the schedule below, has established a process by which the public is asked for its comments on which rules need review the most. Any information that the FAA receives in connection with its annual section 610 analyses would, of course, also be reviewed in the spirit of E.O. 12866. In addition, in response to a recommendation of the White House Commission on Aviation Safety and Security, the FAA has completed a review of all its existing regulations to identify those in need of rewriting as performance-based or plain language regulations. The agency also reviewed ongoing regulatory projects and proposals to identify additional candidates for revision. In all, the agency reviewed 68 parts of the CFR, containing 3,884 sections, appendices, and Special Federal Aviation Regulations. In addition to using plain language in its current and future regulations, the FAA intends to revise those regulations identified in its study when it has the opportunity and resources to do so.

FMCSA

The Federal Motor Carrier Safety Administration has underway a comprehensive, multiyear project to develop modern, uniform safety regulations that are up-to-date, clear, concise, easier to understand, and more performance oriented. The FMCSA has held 11 public outreach meetings, announced in the **Federal Register**, to solicit public involvement in this review; a total of 110 industry and government safety representatives participated in 14 one-day focus group sessions; over 2,000 comments have been received in the public docket so far.

On November 23, 1994, the FMCSA published a final rule removing obsolete and redundant regulations identified through this review. In addition, on June 18, 1998, the FMCSA published another final rule (63 FR 33254) removing and amending additional provisions of the Federal Motor Carrier Safety Regulations identified through zero-base review.

The FMCSA is developing a notice of proposed rulemaking that will propose a complete revision of the Federal Motor Carrier Safety Regulations implementing the results of the FMCSA's zero-base review of those regulations. The NPRM will include a complete reorganization of the safety regulations and a rewrite of those regulations using plain language and a question-and-answer format to enhance the clarity and understandability of those regulations. In addition, the notice will focus the regulations on safety while adopting a performance-based approach to the regulations and reducing the paperwork associated with compliance with the regulations. The FMCSA believes that this effort will produce regulations which are simpler to understand and to comply with, especially for small motor

carriers. Because of these long-term, ongoing efforts, FMCSA is not currently reviewing these rules.

Part III- List of Pending Section 610 Reviews

The Agenda identifies the pending DOT Section 610 Reviews by inserting "(Section 610 Review)" after the title for the specific entry. Also, a Governmentwide list of section 610 reviews can be located in an index at the end of the Agenda. For further information on the pending reviews, see the Agenda entries.

Year 3 (Fall 2000) List of Rules continuing to be analyzed

14 CFR part 234 — Airline service quality performance reports
14 CFR part 240 — Inspection of accounts and property
14 CFR part 241 — Uniform system of accounts and reports for large certified air carriers
14 CFR part 243 — Passenger manifest information
14 CFR part 247 — Direct airport-to-airport mileage records
14 CFR part 248 — Submission of audit reports
14 CFR part 249 — Preservation of air carrier records
14 CFR part 250 — Oversales
14 CFR part 252 — Smoking aboard aircraft
14 CFR part 253 — Notice of terms of contract of carriage
14 CFR part 254 — Domestic baggage liability

Year 4 (Fall 2001) List of Rules that will be analyzed during the next year

14 CFR part 255 — Carrier-owned computer reservation systems
14 CFR part 256 — Display of joint operations in carrier-owned computer reservation systems
14 CFR part 257 — Disclosure of code-sharing arrangements and long-term wet leases
14 CFR part 258 — Disclosure of change-of-gauge services
14 CFR part 271 — Guidelines for subsidizing air carriers providing essential air transportation
14 CFR part 272 — Essential air service to the Freely Associated States
14 CFR part 291 — Cargo operations in interstate air transportation
14 CFR part 292 — International cargo transportation
14 CFR part 293 — International passenger transportation
14 CFR part 294 — Canadian charter air taxi operators
14 CFR part 296 — Indirect air transportation of property
14 CFR part 297 — Foreign air freight forwarders and foreign cooperative shippers associations
14 CFR part 298 — Exemptions for air taxi and commuter air carrier operations
49 CFR part 40 — Procedures for transportation workplace drug testing programs

Year 3 (Fall 2000) List of Rules analyzed and a summary of the results

14 CFR 23 — Airworthiness standards: normal, utility, acrobatic, and commuter category airplanes
- Section 610; No SEIOSNOSE. This rule applies to a significant number of small entities but amendments over the past decade do not have a substantial economic impact. Accordingly, a periodic review was not required.
- Plain Language: To the extent that the FAA's plain language study identified a need for revisions in this part, revisions will be made when the FAA has the opportunity and resources to do so.

14 CFR 27 — Airworthiness standards: normal, utility, acrobatic, and commuter category rotorcraft
- Section 610; No SEIOSNOSE. This rule applies to a significant number of small entities but amendments over the past decade do not have a substantial economic impact. Accordingly, a periodic review was not required.
- Plain Language: To the extent that the FAA's plain language study identified a need for revisions in this part, revisions will be made when the FAA has the opportunity and resources to do so.

14 CFR 29 — Airworthiness standards: transport category rotorcraft
- Section 610; No SEIOSNOSE. This rule applies to a significant number of small entities but amendments over the past decade do not have a substantial economic impact. Accordingly, a periodic review was not required.
- Plain Language: To the extent that the FAA's plain language study identified a need for revisions in this part, revisions will be made when the FAA has the opportunity and resources to do so.

14 CFR 31 — Airworthiness standards: manned free ballons
- Section 610; No SEIOSNOSE. This rule applies to a significant number of small entities but amendments over the past decade do not have a substantial economic impact. Accordingly, a periodic review was not required.

DOT

- Plain Language: To the extent that the FAA's plain language study identified a need for revisions in this part, revisions will be made when the FAA has the opportunity and resources to do so.

14 CFR 33 — Airworthiness standards: aircraft engines
- Section 610; No SEIOSNOSE. This rule applies to a significant number of small entities but amendments over the past decade do not have a substantial economic impact. Accordingly, a periodic review was not required.
- Plain Language: To the extent that the FAA's plain language study identified a need for revisions in this part, revisions will be made when the FAA has the opportunity and resources to do so.

14 CFR 34 — Fuel venting and exhaust emission requirements for turbine engine powered airplanes
- Section 610; No SEIOSNOSE. This rule applies to a significant number of small entities but amendments over the past decade do not have a substantial economic impact. Accordingly, a periodic review was not required.
- Plain Language: To the extent that the FAA's plain language study identified a need for revisions in this part, revisions will be made when the FAA has the opportunity and resources to do so.

14 CFR part 35 — Airworthiness standards: propellers
- Section 610; FAA will conduct a formal 610 review during the following 12 months*Plain Language: To the extent that the FAA's plain language study identified a need for revisions in this part, revisions will be made when the FAA has the opportunity and resources to do so.

14 CFR part 36 — Noise standards; aircraft type and airworthiness certification
- Section 610; FAA will conduct a formal 610 review during the following 12 months*
- Plain Language: To the extent that the FAA's plain language study identified a need for revisions in this part, revisions will be made when the FAA has the opportunity and resources to do so.

14 CFR part 39 — Airworthiness directives
- Section 610; FAA will conduct a formal 610 review during the following 12 months*
- Plain Language: To the extent that the FAA's plain language study identified a need for revisions in this part, revisions will be made when the FAA has the opportunity and resources to do so.

14 CFR part 43 — Maintenance, preventive maintenance; rebuilding and alteration
- Section 610; FAA will conduct a formal 610 review during the following 12 months*
- Plain Language: To the extent that the FAA's plain language study identified a need for revisions in this part, revisions will be made when the FAA has the opportunity and resources to do so.

14 CFR part 45 — Identification and registration marking
- Section 610; FAA will conduct a formal 610 review during the following 12 months*
- Plain Language: To the extent that the FAA's plain language study identified a need for revisions in this part, revisions will be made when the FAA has the opportunity and resources to do so.

14 CFR part 47 — Aircraft registration
- Section 610; FAA will conduct a formal 610 review during the following 12 months*
- Plain Language: To the extent that the FAA's plain language study identified a need for revisions in this part, revisions will be made when the FAA has the opportunity and resources to do so.

14 CFR part 49 — Recording of aircraft titles and security documents
- Section 610; FAA will conduct a formal 610 review during the following 12 months*
- Plain Language: To the extent that the FAA's plain language study identified a need for revisions in this part, revisions will be made when the FAA has the opportunity and resources to do so.

Year 4 (Fall 2001) List of rules that will be analyzed during the next year

14 CFR part 61 — Certification: pilots, flight instructors and ground instructions
14 CFR part 63 — Certification: flight crewmembers other than pilots
14 CFR part 65 — Certification: airmen other than flight crewmembers
14 CFR part 67 — Medical standards and certification
14 CFR part 70 — Designation of class A, class B, class C, class D and class E airspace areas; airways routes and reporting points
14 CFR part 73 — Special use airspace
14 CFR part 77 — Objects affecting navigable airspace

*A description for this action will be included in the April 2002 agenda or published in a separate notice in the *Federal Register*

Year 3 (Fall 2000) List of Rules analyzed and a summary of the results

23 CFR part 450 — Ongoing review of regulations governing Statewide and Metropolitan Transportation Planning

- The FHWA and the FTA received numerous comments to the docket in response to this NPRM. The agencies are currently reviewing the comments and discussing the options with the new Administration to determine what action should follow.

23 CFR part 657 — Ongoing review of certification of size and weight requirements

- Section 610: No SEIOSNOSE. This rule does not in any way have an impact on small governments or businesses as this regulation outlines the requirements that State governments follow in order to comply with the annual certification requirement in 23 U.S.C. 141.
- Plain language: In an upcoming rulemaking, the FHWA will rewrite the regulation using plain language.
- General: We are continuing our review of the type of information and data that should be submitted by the States in support of their annual certification of enforcement and will revise as appropriate.

23 CFR part 771— Ongoing review of regulations governing Assessment of Environmental Impact and Related procedures (NEPA Implementing Regulations)

- The FHWA and the FTA received numerous comments to the docket in response to this NPRM. The agencies are currently reviewing the comments and discussing the options with the new Administration to determine what action should follow.

Year 4 (Fall 2001) List of Rules that will be analyzed during the next year

23 CFR part 1 — General management and administration
23 CFR part 140 — Payment procedures
23 CFR part 172 — Administration of engineering and design related service contracts
23 CFR part 180 —Credit assistance for surface transportation projects
23 CFR part 190 — Incentive procedures for controlling outdoor advertising on the interstate system
23 CFR part 192 — Drug offenders driver's license suspension
23 CFR part 200 — Title IV program and related statutes-implementation and review procedures
23 CFR part 230 — External equal employment opportunity programs
23 CFR part 260 — Education and training programs

Federal-Aid Highway Program

The FHWA has adopted regulations in title 23 of the CFR, chapter I, related to the Federal-aid highway program. These regulations implement and carry out the provisions of Federal law relating to the administration of Federal aid for highways. The primary law authorizing Federal aid for highways is chapter 1 of title 23 of the USC. Section 145 of title 23 expressly provides that chapter 1 provides for a federally assisted State program. For this reason, the regulations adopted by the FHWA in title 23 of the CFR primarily relate to requirements that States must meet to receive Federal funds for the construction and other work related to highways.

Because the regulations in title 23 primarily relate to States, which are not defined as small entities under the Regulatory Flexibility Act, the FHWA believes that its regulations in title 23 do not have a significant economic impact on a substantial number of small entities. The FHWA solicits public comment on this preliminary conclusion.

The FHWA, jointly with the Federal Transit Administration, has issued notices of proposed rulemaking that would revise the regulations currently codified at 23 CFR parts 450 and 771. These regulations will be issued in a new chapter IV of 23 CFR as "intermodal" rules renumbered respectively as 23 CFR part 1410 (planning assistance and standards) an 23 CFR part 1420 and 1430 (environmental impact and related matters). In the course of developing th notice of proposed rulemaking (NPRM for each of these regulations, the FHW and FTA solicited comment on their potential for impact on small entities, including small governments. The FHWA and the FTA received numerou comments in response to these NPRMs and are currently reviewing the data a discussing the options under the guidance of the new administration. A issues pertaining to the potential for impact will be addressed in the final regulations.

Year 3 (Fall 2000) List of Rules that will continue to be analyzed during the next year

Part 591 — Implementation of vehicles and equipment subject to Federal safety, bumper and theft prevention standards

Part 592 — Registered importers of vehicles not originally manufactured to conform to the Federal Motor Vehicle Safety Standards

Part 593 — Determinations that a vehicle not originally manufactured to conform to the Federal Motor Vehicle Safety Standards is eligible for importation

Part 594 — Schedule of fees authorized by 49 U.S.C. 30141

Year 4 (Fall 2001) List of Rules that will be analyzed during the next year

49 CFR parts 571.101 — Standard No. 101; Controls and displays

49 CFR parts 571.102 — Standard No. 102; Transmission shift lever sequence starter interlock, and transmission braking effect

49 CFR parts 571.103 — Standard No. 103; Windshield defrosting and defogging systems

49 CFR parts 571.104 — Standard No. 104; Windshield wiping and washing systems

49 CFR parts 571.105 — Standard No. 105; Hydraulic and electric brake systems

49 CFR parts 571.106 — Standard No. 106; Brake hoses

49 CFR parts 571.107 — Standard No. 107; [Reserved]

49 CFR parts 571.108 — Standard No. 108; lamps, reflective devices, and associated equipment

49 CFR parts 571.109 — Standard No. 109; New pneumatic tires

49 CFR parts 571.110 — Standard No. 110; Tire selection and rims

49 CFR parts 571.135 — Standard No. 135; Passenger car brake systems

NHTSA Request for Comments

On September 13, 2000, NHTSA published in the **Federal Register** a request for comments on whether these rules have a significant economic impact on a substantial number of small entities. NHTSA received and granted a request to extend the comment period to November 13, 2000.

FEDERAL RAILROAD ADMINISTRATION
SECTION 610 AND OTHER REVIEWS

Year	Regulations to be Reviewed	Analysis Year	Review Year
1	49 CFR parts 200 through 201	1998	1999
2	49 CFR parts 207, 209, 211, 215, and 256	1999	2000
3	49 CFR parts 210, 212, 214, and 217	2000	2001
4	49 CFR parts 219	2001	2002
5	49 CFR parts 218 and 221	2002	2003
6	49 CFR parts 216 and 228 through 229	2003	2004
7	49 CFR parts 223 and 233	2004	2005
8	49 CFR parts 225, 231, and 234	2005	2006
9	49 CFR parts 235 through 236, 250, 260, and 266	2006	2007
10	49 CFR parts 213, 220, 230, 232, 239, 240, and 265	2007	2008

Year 3 (Fall 2000) List of Rules analyzed and a summary of the results

49 CFR part 210 — Railroad noise emission compliance regulations

- Section 610: No SEIOSNOSE. These are minimum compliance regulations for enforcement of noise emission standards established by EPA. To FRA's knowledge, the Railroad Noise Emission Compliance Regulation has not imposed any significant burden on any small railroads.
- Plain Language: FRA's plain language review of these rules indicates no need for substantial revision.

UMI
VOL 66 ISS 232 DEC 3 2001 UMI

DOT

- General: Having a national uniform noise emission standard benefits small railroads to the extent local government authorities would otherwise seek to impose more stringent noise emission requirements. The existence of these standards provides uniformity and benefits the small railroads as a class.

49 CFR part 212 — State safety participation regulations

- Section 610: No SEIOSNOSE. These regulations establish standards and procedures for State participation in investigative and surveillance activities under the Federal railroad safety laws and regulations. The program is entirely voluntary, and the "regulated community" is composed of those States which choose to participate. No State is a "small entity" under any reasonable definition..
- Plain Language: FRA's plain language review indicates no need for substantial revision..
- General: FRA encourages States to participate in the program, and considers State inspectors an important element in the enforcement of Federal safety laws. Training and funding is provided by FRA to the States to offset the costs of participation. In addition, FRA employs a full-time State participation program manager to work with the States to encourage participation and assist in program implementation.

49 CFR part 214 — Railroad workplace safety

- Section 610: There is a SEIOSNOSE for subpart B. FRA will conduct a formal review to identify whether additional opportunities may exist to further reduce the burden on small railroads without compromising safety. No SEIOSNOSE for subpart C. Impacts on small entities are directly related to the volume of traffic on a right-of-way, and most small railroads have low enough volume to minimize the impact.
- Plain Language: FRA's plain language review indicates no need for substantial revision. As resources permit, FRA will make such changes as may be necessary.
- General: The existence of Federal workplace safety laws benefits small entities. In the absence of Federal laws, small railroads would be subject to a wide variety of State and local laws. Even the smallest of railroads might find it necessary to understand and comply with several different sets of laws from the jurisdictions in which they operate. Federal law preempts local laws in this area, and simplifies compliance on the part of the regulated community.

49 CFR part 217 — Railroad operating rules

- Section 610: No SEIOSNOSE. FRA finds that there is a continuing need to collect information on railroad operating rules and practices, in order to monitor changes in railroad operating practice. The required periodic inspections and employee training are important for safety.
- Plain Language: FRA's plain language review of these rules indicates no need for substantial revision. The regulation is clearly written.
- General: part 217 contains provisions to mitigate the burden on small entities by reducing their record filing and recordkeeping requirements

DOT

Year 3 (Fall 2000) List of Rules analyzed and a summary of the results

46 CFR 249 Approval of underwriters for marine hull insurance
- Section 610: No SEIOSNOSE. Some small entities may be affected, but the economic impact on small entities will not be significant.
- Plain Language: As resources permit, MARAD will rewrite the regulations using plain language techniques.
- General: No changes are necessary because the requirements regulate in the most cost-effective manner, the benefits of the regulations justify their costs, and the regulations impose the least burden on society.

46 CFR 251 Application for subsidies and other direct financial aid

46 CFR 252 Operating-differential subsidy for bulk cargo vessels engaged in worldwide services

46 CFR 272 Requirements and procedures for conducting condition surveys and administering maintenance and repair subsidy
- Section 610: No SEIOSNOSE. Some small entities may be affected, but the economic impact on small entities will not be significant. Congress has withdrawn MARAD's authority to issue operational-differential subsidy.
- Plain Language: We will rewrite any remaining regulations using plain language techniques.
- General: We will continue our review of operating-differential subsidy regulations and will initiate a rulemaking to eliminate these regulations as the last operating-differential subsidy contracts terminate.

46 CFR 276 Construction-differential subsidy repayment
- Section 610: No SEIOSNOSE. Some small entities may be affected, but the economic impact on small entities will not be significant. Plain Language: We will rewrite any remaining regulations using plain language techniques.
- General: No changes are necessary because the requirements regulate in the most cost-effective manner, the benefits of the regulations justify their costs, and the regulations impose the least burden on society.

46 CFR 277 Domestic and foreign trade; interpretations

46 CFR 280 Limitations on the award and payment of operating-differential subsidy for liner operators

46 CFR 281 Information and procedure required under liner operating-differential subsidy agreements

46 CFR 282 Operating-differential subsidy for liner vessels engaged in essential services in the foreign commerce of the United States

46 CFR 283 Dividend policy for operators receiving operating-differential subsidy
- Section 610: No SEIOSNOSE. Some small entities may be affected, but the economic impact on small entities will not be significant. Congress has withdrawn MARAD's authority to issue operational-differential subsidy.
- Plain Language: We will rewrite any remaining regulations using plain language techniques.
- General: We will continue our review of operating-differential subsidy regulations and will probably initiate a rulemaking to eliminate these regulations as the last operating-differential subsidy contracts terminate.

46 CFR 287 Establishment of construction reserve funds
- Section 610: No SEIOSNOSE. Some small entities may be affected, but the economic impact on small entities will not be significant.
- Plain Language: We will rewrite the regulations using plain language techniques.
- General: We will continue our review and schedule this part for revision as appropriate.

46 CFR 295 Maritime Security Program
- Section 610: No SEIOSNOSE. Some small entities may be affected, but the economic impact on small entities will not be significant.
- Plain Language: The text is clear and well-organized.
- General: We will revise the regulations if necessary.

Year 4 (Fall 2001) List of Rules analyzed and a summary of the results

46 CFR part 298 — Obligation Guarantees
- Section 610: No SEIOSNOSE. Some small entities may be affected, but the economic impact on small entities will not be significant.
- Plain Language: These regulations were rewritten in plain language in 2000.
- General: In 2000, MARAD amended part 298 by simplifying existing administrative practices governing ship financing guarantees. The revisions simplify the process for applicants. MARAD will continue to review these regulations and make additional changes when appropriate.

Year 5 (Fall 2002) List of Rules that will be analyzed during the next year

46 CFR part 307 — Establishment of mandatory position reporting system for vessels

46 CFR part 308 — War risk insurance

46 CFR part 309 — Values for war risk insurance

46 CFR part 310 — Merchant marine training

Year 3 (Fall 2000) List of Rules analyzed and a summary of the results

49 CFR part 174 — Carriage by rail

- Section 610: No SEIOSNOSE. While these requirements apply to a substantial number of small entities, they do not have a significant economic impact on those entities. For the most part, the operating requirements impose only minimal costs above costs incurred as a result of normal business practices. Further, the requirements have little or no impact on entry to or exit from the industry.
- Plain Language: As resources permit, RSPA will rewrite regulations using plain language techniques.

49 CFR part 177 — Carriage by public highway

- Section 610: No SEIOSNOSE. While these requirements apply to a substantial number of small entities, they do not have a significant economic impact on those entities. For the most part, the operating requirements impose only minimal costs above costs incurred as a result of normal business practices. Further, the requirements have little or no impact on entry to or exit from the industry.
- Plain Language: As resources permit, RSPA will rewrite regulations using plain language techniques.

49 CFR part 191 — Gas pipeline transportation reports

- Section 610: No SEIOSNOSE. The regulations do not impose any additional costs because they are consistent with current requirements for reporting of accidents and annual reporting.
- Plain Language: Plain language techniques will be used in the revisions to incident and annual reporting requirements.
- General: Reviewed incident and annual reporting requirements and will issue rules to improve cause categories and clarify requirements.

49 CFR part 192 — Gas pipeline corrosion control

- Section 610: No SEIOSNOSE. The regulations do not impose any additional costs because they are consistent with customary industry corrosion control and cathodic protection practices.
- Plain Language: Plain language techniques will be used in any amended regulations that result from rulemaking.
- General: Reviewed corrosion control regulations with state and industry experts; changes will be proposed to incorporat modern criteria for adequate corrosion protection.

Year 4 (Fall 2001) List of Rules that will be analyzed during the next year

49 CFR part 176 — Carriage by vessel

49 CFR part 199 — Pipeline employee drug and alcohol testing

14 CFR part 298, subpart F — Schedule 298-C, Report of Financial and Operating Statistics for Small Aircraft Operators

DOT

- Section 610: potential SEIOSNOSE. This reporting is by small entities; comments will be requested from the affected small entities to assess the economic impact of the proposed changes.
- Plain Language: A proposed rule is being drafted using plain language techniques.
- General: This rule is being reviewed as part of an overall program analysis of aviation data requirements and modernization. During the review process, BTS identified certain data gaps that exist in the current traffic statistics reported by small aircraft operators. BTS has added a notice of proposed rulemaking (RIN 2139-AA08) to its Regulatory Agenda that is intended to address the gaps in the data.

49 CFR part 1420 — Reports of motor carriers

- Section 610: No SEIOSNOSE. This reporting is by Class I and Class II motor carriers that are not small entities.
- Plain Language: Plain language techniques will be used in drafting any necessary rule changes.
- General: We will continue our review and schedule this part for revision as appropriate.

2175. +COMPUTER RESERVATIONS SYSTEM REGULATIONS COMPREHENSIVE REVIEW

Priority: Other Significant

Legal Authority: 49 USC 41712; 49 USC 40101(a); 49 USC 40113(a); 49 USC 40105

CFR Citation: 14 CFR 255

Legal Deadline: Final, Statutory, December 31, 1997.

Abstract: The Department regulates computer reservations systems owned by airlines or airline affiliates that are used by travel agencies. The current rules are designed to prevent the systems from unreasonably prejudicing the competitive position of other airlines and to ensure that travel agencies can provide accurate and unbiased information to the public. The Department is reexamining its rules to see whether they should be readopted and, if so, whether they should be changed. As part of this action, we will be looking at ways to lessen impacts on small entities.

2176. +AVIATION DATA REQUIREMENTS REVIEW AND MODERNIZATION PROGRAM

Priority: Other Significant

Legal Authority: 49 USC 40101; 49 USC 41101; 49 USC 41708; 49 USC 41709; 49 USC 41301; 49 USC 41501; 49 USC 41701

CFR Citation: 14 CFR 241; 14 CFR 250; 14 CFR 298; 14 CFR 374a; 14 CFR 234

Legal Deadline: None

Abstract: The Department is undertaking an aviation data requirements review and modernization program. The review is designed to harmonize the Department's aviation data systems with current regulatory and statutory needs; improve the quality of the Department's aviation databases; and eliminate obsolete data reporting and processing systems. The ANPRM was the first step in an outreach program to review aviation data collected by the Department and the measures that should be taken to modernize and improve aviation data reporting and processing systems. The Department solicited public comments from aviation data users on the nature, scope, source, and means for collecting, processing, and distributing airline traffic, fare, and financial data. Specifically, the Department invited comments to determine whether existing aviation data should be amended, supplemented, or replaced; whether selected forms and reports should be retained, modified, or eliminated; whether the Department should require all aviation data to be filed electronically; and how the aviation data system should be reengineered to enhance efficiency and to reduce costs for both the Department and airline industry. The Department has reviewed the comments and reply comments and is in the process of redefining the data elements and restructuring the data reporting requirements to be included in a NPRM. This action is significant due to substantial public and industry interest.

2177. NONDISCRIMINATION ON THE BASIS OF DISABILITY IN AIR TRAVEL

Priority: Substantive, Nonsignificant

Legal Authority: 14 USC 41702; 14 USC 41705; 14 USC 41712

CFR Citation: 14 CFR 382

Legal Deadline: None

Abstract: The Department is proposing to amend its rules implementing the Air Carrier Access Act of 1986 concerning requirements for movable aisle armrests. The amendment would clarify the application of the movable armrest requirement to all classes of service in an aircraft. In addition, in response to changed practices in parts of the airline industry, the Department is proposing to require preboarding to be made available for passengers with disabilities.

2179. • REPORTING REQUIREMENT FOR AIR CARRIERS REGARDING DISABILITY-RELATED COMPLAINTS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 41702; 49 USC 41705

CFR Citation: 49 CFR 382

Legal Deadline: Other, Statutory, Implementation of Plan Required by P 106-181, sec 707.

Abstract: The Office of the Secretary will propose in the NPRM a reporting requirement for air carriers to periodically file information with DOT regarding disability-related complaints they receive. The NPRM will include detailed categories for the reporting which will be of use to DOT, disabled air travelers, and Congress. DOT will report to Congress each year, on the results of the review, as required by the Wendell H. Ford Aviation Investment and Reform Act for the 21s century.

2180. +DIRECT AIR CARRIER RESPONSIBILITY FOR RETURNING STRANDED CHARTER PASSENGERS

Priority: Other Significant

Legal Authority: 49 USC 1324; 49 USC 1371

CFR Citation: 14 CFR 207; 14 CFR 208

Legal Deadline: None

Abstract: This action proposed to make direct air carriers responsible for returning charter passengers stranded by strikes or other service interruptions, by eliminating the force majeure clause from charter contracts. However, the CAB subsequently issued an interpretive rule (ER-1387, 49 FR 33436) which was affirmed in court. (Arrow Air, Inc. v. Dole, 784 F2d 1118 (1986)) Therefore, this action is now moot; the NPRM will be withdrawn.

2181. AIR TRAVELERS: AGE DISCRIMINATION

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 6102

CFR Citation: 14 CFR 376

Legal Deadline: None

Abstract: This rulemaking action was initiated by the Civil Aeronautics Board to implement the Age Discrimination Act of 1975. A draft final rule was submitted to HHS, as required by that Act, and was approved. However, in view of current airline practices with respect to travel by the elderly, and the absence of complaints of discrimination based on age, there no longer appears to be a need for further rulemaking action, and the NPRM will be withdrawn.

2182. DIRECT FLIGHTS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 1381

CFR Citation: 14 CFR 399

Legal Deadline: None

Abstract: Donald L. Pevsner petitioned the CAB to institute a rulemaking proceeding to ban use of the term "direct flight" because it is deceptive, and to declare use of the term to be a prima facie violation of section 411 of the Federal Aviation Act of 1958. The Department is now considering what action to take in response to the petition.

2183. DIVERSION OF FLIGHTS WITHIN A METROPOLITAN AREA

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 1301; 49 USC 1302; 49 USC 1305; 49 USC 1324; 49 USC 1371; 49 USC 1375; 49 USC 1377 to 1379; 49 USC 1381; 49 USC 1382; 49 USC 1386; 49 USC 1461; 49 USC 1481; 49 USC 1482; 49 USC 1502; 49 USC 1504; PL 96-354; 5 USC 601

CFR Citation: 14 CFR 253; 14 CFR 399

Legal Deadline: None

Abstract: The CAB proposed to amend its rules requiring notice of contract terms for domestic travel to require that actual notice be given to passengers of terms absolving carriers from any responsibility to transport a passenger to the destination named on the ticket, or to reimburse the passenger for expenses in reaching the airport noted on the ticket when a flight is diverted to another airport in the same metropolitan area. Alternatively, the Board proposed to declare it to be an unfair and deceptive practice to divert a passenger without arranging and paying for alternate transportation to the destination airport named on the passenger's ticket. The Board considered a final rule but did not decide what action to take. DOT is withdrawing the NPRM as unnecessary since it appears that carriers no longer have the policies that promoted the CAB's concern.

2186. SIMPLIFIED AIRLINE COUNTER-SIGN NOTICES

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 1301; 49 USC 1302; 49 USC 1324; 49 USC 1371 to 1374; 49 USC 1381; 49 USC 1386; 49 USC 1481; 49 USC 1482

CFR Citation: 14 CFR 221; 14 CFR 250; 14 CFR 256

Legal Deadline: None

Abstract: The American Association of Airport Executives, the Airport Operators Council International, and the Air Transport Association of America petitioned the CAB to simplify its counter-sign requirements. Presently, airlines are required to display four different consumer protection notices on their ticket counters. The petitioners alleged that the current notices are hard to read and, therefore, do not provide much notice to passengers. They proposed replacing the four notices with one simplified counter sign. A CAB NPRM proposed a number of alternatives, such as a long and/or short notice, where the notices would be required to be posted, and whether a smoking notice should be included. DOT decided not to act on these "counter signs" separately, but rather to consider whether there should be a comprehensive re-examination of all forms of notice to passengers, including notices on tickets. This NPRM will be withdrawn.

2190. USE OF DIRECT FINAL RULEMAKING

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 1657

CFR Citation: 49 CFR 5.21; 49 CFR 5.35

Legal Deadline: None

Abstract: The Department is considering a new rulemaking procedure to expedite the processing of noncontroversial changes to its regulations. Rules that the Secretary judges to be unlikely to result in public comment would be published as "direct final" rules. Such direct final rules would advise the public that no adverse comment is anticipated and that, unless written adverse comment or notice of intent to submit such comment is received within a specified number of days, the rule will become effective 60 days from the date of publication in the Federal Register.

Priority: Other Significant

Legal Authority: 49 USC 322(a)

CFR Citation: 49 CFR 19

Legal Deadline: None

Abstract: This action implements changes to OMB Circular A-110 that were issued by OMB on October 8, 1999, providing uniform guidance for administering grants to institutions of higher education, hospitals, and other nonprofit organizations. The change provides guidance on making data produced under awards available to the public. The regulation is essentially a word-for-word issuance of the requirements in OMB Cirular A-110. An interim final rule was issued because of the limited ability to change the requirements from those in the Circular.

47113, 47123; EO 12138; 3 CFR 1951 comp., p. 393, sec. 1101 (b); ...

CFR Citation: 49 CFR 2a, subpart G

Legal Deadline: Final, Statutory, June 30, 1993.

Abstract: In May 1997, the Department issued a supplemental notice of proposed rulemaking (SNPRM) to revise its disadvantaged business enterprise (DBE) regulation. The SNPRM included proposals for revising the airport concessions portion of the DBE program. When the Department, in February 1999, issued a final rule based on the SNPRM, we did not publish a final version of the airport concessions proposal.

This SNPRM seeks comments on an airport concessions subpart to part 26 that takes into account comments on the May 1997 SNPRM, adapts provisions of the rest of part 26 to the concessions context, and proposes options for provisions affecting car rental operations at airports. These options are based in part on a recent memorandum of understanding between the American Car Rental Association and the Airport Minority Advisory Council making recommendations to the Department on this aspect of the rulemaking. This SNPRM was inadvertently published under RIN 2105-AB92.

2201. NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 794; 42 USC 2000d to 2000d-7; 42 USC 6101 to 6107; EO 12250

CFR Citation: 49 CFR 21; 49 CFR 27

Legal Deadline: None

Abstract: This rule proposes to amend DOT's regulations implementing Title VI of the Civil Rights Act of 1964 (Title VI), Section 504 of the Rehabilitation Act of 1972 (Section 504), and the Age Discrimination Act of 1975 (Age Discrimination Act). Together, these statutes prohibit discrimination on the basis of race, color, national origin, disability, and age in programs or activities that receive Federal financial assistance. In 1988, the Civil Rights Restoration Act (CRRA) added definitions of "program or activity" an "program" to Title VI and added a definition of "program or activity" to Section 504 and the Age Discriminatio Act. The added definitions were designed to clarify the broad scope of coverage of recipients' programs or activities under these statutes. The promulgation of this proposed regulation incorporates the CRRA's definition of "program or activity" and "program" into Title VI, Section 504, and the Age Discrimination Act regulations. This proposed regulation also promotes consistency and enforceability of these statutes. This is a joint notice of proposed rulemaking with other Federal agencies.

2204. POLICY STATEMENT ON AIRLINE PREEMPTION

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 41713

CFR Citation: 14 CFR 399

Legal Deadline: None

Abstract: The Civil Aeronautics Board in 1979 issued an interim Policy Statement on preemption. It discusses the policy of the Department with respect to three areas in which State law has been preempted by the Airline Deregulation Act of 1978: regulation of commuter air carriers and air taxis, the rights of airport proprietors, and general State authority as it directly or indirectly affects air transportation competition. The Supreme Court has classified that section 105 of the ADA preempts even indirect State regulation that "has a connection with or reference to" airline rates, routes, or services, but does not preempt State contract law with respect to interpretation and enforcement of agreements voluntarily entered into by air carriers. Other courts continue to issue decisions applying this provision to a multitude of different circumstances. The Department believes that this process of exploring the interpretation of section 105 will continue, and is considering the admissibility of terminating this proceeding.

2205. +STATEMENT OF ENFORCEMENT POLICY ON REBATING

Priority: Other Significant

Legal Authority: 5 USC 601; 49 USC 1301 to 1302; 49 USC 1305; 49 USC 1324(a); 49 USC 1371 to 1379; 49 USC 1381 to 1382; 49 USC 1384; 49 USC 1386; 49 USC 1461; 49 USC 1481 to 1482; 49 USC 1502; 49 USC 1504

CFR Citation: 14 CFR 399.80; 14 CFR 399.85

Legal Deadline: None

Abstract: The Department is proposing to provide formal notice to the public of its enforcement policy concerning the rebating of international air fares by adopting that policy as a Policy Statement in the regulations. No change in the substance of that policy is intended. The Department also proposes to revoke an existing Policy Statement on the advertising of rebates that is contrary to DOT's current enforcement policy. The proposal responds to a request for such action by the American Society of Travel Agents. The proposed regulation is significant because it involves important departmental policies and substantial industry interest.

2206. +ACCESSIBILITY OF PASSENGER VESSELS TO INDIVIDUALS WITH DISABILITIES

Priority: Other Significant

Legal Authority: 42 USC 12101 et seq; PL 101-336, Americans with Disabilities Act

CFR Citation: 49 CFR 37

Legal Deadline: None

Abstract: The Department's Americans with Disabilities Act (ADA) final rule, published September 6, 1991 (56 FR 45584), reserved portions of the rule concerning passenger vessels. The ADA covers passenger vessels, but issuing accessibility requirements for vessels involves complex issues unlike those affecting land transportation. This action will address these issues and propose feasible requirements to make passenger vessels accessible to, and usable by, individuals with disabilities. DOT is participating in an ongoing advisory committee effort convened by the Access Board to study passenger vessel accessibility issues. September and November 1998 meetings were held. This rulemaking is considered significant because of substantial public and congressional interest.

2207. USE OF OXYGEN BY AIR CARRIER PASSENGERS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 41705

CFR Citation: 14 CFR 382

Legal Deadline: None

Abstract: The Department is considering the use of regulatory negotiation to seek consensus among air carriers, consumers, airports, equipment manufacturers, oxygen suppliers, and safety regulators concerning the use of oxygen by passengers on air carriers when individuals need special private supplies. The need for action stems from a current situation where all carriers do not allow passengers to bring their own oxygen aboard. Issues involve conformance with RSPA and FAA hazardous materials rules and the question of providing oxygen during long layovers. The Department is considering whether to begin a regulatory negotiation.

CFR Citation: 14 CFR 243

Legal Deadline: None

Abstract: This notice requested comments concerning operational and cost issues related to U.S. air carriers collecting information such as full name, date of birth and/or social security number, emergency contact and telephone number from passengers traveling on flights within the United States. This notice was issued on the Department's initiative in response to difficulties with notification in the aftermath of domestic aviation disaster and to comply with a recommendation contained in the initial report of the White House Commission on Aviation Safety and Security (1996) that urged the Department to explore immediately the costs and effects of a comprehensive passenger manifest requirement on the domestic aviation system. DOT will review the implementation of the international passenger manifest requirements (RIN 2105-AB78, 2/18/98, 63 FR 8258) as it determines how to proceed with this rulemaking.

2210. +PARTICIPATION BY DISADVANTAGED BUSINESS ENTERPRISES IN AIRPORT CONCESSIONS

Priority: Other Significant

Legal Authority: PL 102-581; PL 97-248

CFR Citation: 49 CFR 23

Legal Deadline: None

Abstract: This action would implement changes to the Airport and Airway Improvement Act to allow airport sponsors to count new forms of disadvantaged business enterprise (DBE) participation toward the overall goals of a DBE concession plan. These new forms include purchases from DBEs of goods and services used in operating a concession, as well as management contracts and subcontracts with DBEs. This action was initially begun in an NPRM 10/6/93, 58 FR 52050, RIN 2105-AB99. It was then combined in the DBE general update and comments were received in response to an SNPRM of 5/30/95, 62 FR 29548. However, when the general update rule was published 2/2/99, 64 FR 5096, RIN 2105-AB92, the airport concessions issue was once again separated. Future actions for airport concessions will be addressed under RIN 2105-AC91. Therefore, this action is being withdrawn.

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1503

CFR Citation: 33 CFR 148 to 150

Legal Deadline: None

Abstract: The purpose of this rulemaking is to update the Deepwater Port Regulations. Section 502 of the Coast Guard Authorization Act of 1996 necessitates changes to the current Deepwater Port regulations. These regulations were developed in the 1970s when there were no deepwater ports in the United States. The Coast Guard will be revising the regulations to: remove from the regulations, and place in the license conditions, those requirements which belong in the license conditions; and remove from the regulations those things which can be addressed in an operations manual. The Coast Guard will also consider revising the regulations to address technological advancements and operational experience gained over the last 20 years. In accordance with section 610 of the Regulatory Flexibility Act, the Coast Guard is also reviewing these regulations for their impacts on small businesses and the potential to reduce any such impacts. Public comment on small business impacts is specifically requested. This rulemaking will encompass a complete review of the Deepwater Port Regulations. This project supports the Coast Guard's strategic goals of maritime safety and protection of natural resources.

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 12103(d); 46 USC 31321(a)

CFR Citation: 46 CFR 67

Legal Deadline: None

Abstract: This rulemaking will propose regulations to: (1) combine a Manufacturer's Certificate of Origin (MCO) with the Builder's Certificate (form CG12-1261); (2) require that the Hull Identification Number (HIN) be included on the Application for Documentation of recreational vessels for those vessels required to have an assigned HIN; (3) require the submission of the original state title, or if not a state title, the original State registration and/or official replacements issued by a titling/registering authority when documentation is based on those methods of establishing title and; (4) establish procedures for electronic submission of instruments. These four initiatives offer increased efficiency of the vessel documentation process and increased fraud protection for vessel owners; implement statutory changes from the Coast Guard Authorization Act of 1996, (Pub. L. 104-324); and implement statutory changes from the Coast Guard Authorization of 1998 (Pub. L. 105-383). This rulemaking supports the Coast Guard's strategic goal of maritime mobility.

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1225; 33 USC 1231; 33 USC 1321; 46 USC 3306; 46 USC 3703

CFR Citation: 46 CFR 39; 33 CFR 154.E

Legal Deadline: None

Abstract: This project will revise the facility marine vapor control systems (VCS) safety regulations and the vessel VCS safety regulations. These existing regulations require revision to reflect new Federal and State air emissions control requirements, VCS technology developments, and to evaluate and minimize any significant economic impacts of the rules upon small entities. The revisions will also incorporate Coast Guard policies and guidelines developed to support the existing regulations and a Navigation and Vessel Inspection Circular which provides safety guidelines for the design and operation of a marine VCS at tank barge cleaning facilities. This project supports the Coast Guard Marine Safety and Environmental Protection Program's goal to reduce crewmember deaths and injuries on U.S. commercial vessels, it seeks to

2220. REVISION OF AUXILIARY REGULATIONS (USCG-1999-6712)

Priority: Substantive, Nonsignificant

Legal Authority: 14 USC 633; 14 USC 892

CFR Citation: 33 CFR 5

Legal Deadline: None

Abstract: This project will revise regulations that govern the operation and administration of the Coast Guard Auxiliary. These regulations need to be changed to comform to the provisions of the Coast Guard Authorization Act of 1996 which amended the relevant statues in title 14, United States Code. These provisions clarified the organization and status of the Auxiliary, broadened the role of the Auxiliary, and provided additional liability protection for Auxiliary members assigned to Coast Guard duty. This project supports the Coast Guard strategic goals of maritime safety, maritime mobility, maritime security, and protection of natural resources.

2221. ALLOWING ALTERNATIVE SOURCE TO INCANDESCENT LIGHT IN PRIVATE AIDS TO NAVIGATION (USCG-2000-7466)

Priority: Substantive, Nonsignificant

Legal Authority: 14 USC 83; 14 USC 85; 43 USC 1333

CFR Citation: 33 CFR 66

Legal Deadline: None

Abstract: The Coast Guard is seeking to let the lighting industry and owners of private aids to navigation take advantage of a recent improvement in technology—one that enables the use of lanterns based on light-emitting diodes, which would reduce the consumption of power and simplify the maintenance of the aids. The use of these lanterns should stimulate competition in the industry and allow the marking of the aids in a desirable manner. This rule supports the Coast Guard's strategic goals of maritime safety and maritime mobility.

Legal Deadline: None

Abstract: This project will make substantive changes to current regulations, but only to the extent required to conform to the congressionally mandated changes in the laws administered and enforced by the Coast Guard as listed in section 301 of the Coast Guard Authorization Act of 1998 (a. Ports and Waterways Safety Act, b. subtitle II of title 46). We will redefine the "territorial sea," "navigable waters of the United States," "high seas," "contiguous zone," and "exclusive economic zone" to clarify the varying definitions of those terms under different laws administered and enforced by the Coast Guard, as well as relevant Presidential proclamations. This project supports the Coast Guard's strategic goal of marine safety.

2227. • REVISE OPTIONS FOR RESPONDING TO NOTICES OF VIOLATIONS (USCG-2001-9175)

Priority: Substantive, Nonsignificant

Legal Authority: 14 USC 633; PL 100-690

CFR Citation: 33 CFR 1.07; 49 CFR 1.46

Legal Deadline: None

Abstract: This project would revise 33 CFR 1.07, Notice of violation, to change the process for a "no action" option. This change would preserve the existing options of paying the "ticket" and closing the case, or requesting a hearing; it would replace the current default of the "no action resulting in referral to a hearing officer" to "no action resulting in a finding of proved and assessment of a penalty." This project supports the Commandant's workload reduction initiative by increasing the efficiency of Coast Guard resources by removing a time-consuming, unnecessary step in the processing of notices of violations for which no response was received.

Prevention of Pollution from Ships (MARPOL 73/78), Annex II, Regulation 16. Regulation 16 requires that every ship of 150 gross tons and above, certified to carry noxious liquid substances (NLS), carry a shipboard marine pollution emergency plan for oil and/or NLS. Regulation 16 requires these plans be approved by the Flag State no later than January 1, 2003. This project will modify existing regulations in 33 CFR part 151 for Shipboard Oil Pollution Emergency Plans (SOPEP) to address this new requirement. This project supports the Coast Guard's strategic goal of protection of the marine environment.

2229. • FEDERAL REQUIREMENTS FOR PROPELLER INJURY AVOIDANCE MEASURES (USCG 2001-10163)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 4302

CFR Citation: 33 CFR 175

Legal Deadline: None

Abstract: This rule would establish Federal requirements for non-planing recreational houseboats equipped with propeller driven propulsion located aft of the transom. This rule would require owners of these non-planing recreational houseboats to install either one or two propulsion unit measures (a propeller guard or a jet pump drive) or employ three combined measures (use of an ignition cut-off switch, where installed, and install a swim ladder interlock device and an aft-visibility device). These requirements would reduce the number of boaters who are seriously or fatally injured when struck by the propeller of a non-planing recreational houseboat. This rulemaking would implement recommendations made by the National Boating Safety Advisory Council. It supports the Coast Guard's strategic goal of marine safety.

Priority: Substantive, Nonsignificant

Legal Authority: 14 USC 85; 33 USC 2071

CFR Citation: 33 CFR 147

Legal Deadline: None

Abstract: The Coast Guard proposes to establish safety zones around five petroleum and gas production facilities in the Outer Continental Shelf in the Gulf of Mexico. The four platforms and one moored spar buoy need to be protected from vessels operating outside the normal shipping channels and fairways. Placing safety zones around these facilities will significantly reduce the threat of allisions, oil spills and releases of natural gas. The proposed regulation would prevent all vessels from entering or remaining in specified areas around the platforms except for the following: An attending vessel; a vessel under 100 feet in length overall not engaged in towing; or a vessel authorized by the Eighth Coast Guard District Commander. The proposed safety zones are necessary to protect the safety of life, property and the environment and support the Coast Guard's strategic goals of marine safety and protection of natural resources.

2233. +DISCHARGE-REMOVAL EQUIPMENT FOR VESSELS CARRYING OIL (CGD 90-068)

Priority: Other Significant

Legal Authority: 33 USC 1321

CFR Citation: 33 CFR 155

Legal Deadline: Final, Statutory, August 18, 1992.

Abstract: The Oil Pollution Act of 1990 directed the President by August 18, 1992, to require periodic inspection of discharge-removal equipment to ensure that it is available in an emergency, and to require carriage of discharge-removal equipment by vessels operating in the navigable waters of the United States and carrying oil or hazardous substances. This action implemented those provisions. This project supports the Coast Guard's strategic goal of protection of natural resources. This project is considered significant because of substantial public interest.

Abstract: This rulemaking is intended to revise existing regulations covering waterfront facilities that handle dangerous cargoes. The present regulations are outdated and do not reflect improved safety procedures and modern transportation methods, such as the use of containers. Where appropriate, the regulations would incorporate industry standards regarding the handling of hazardous materials at waterfront facilities. This project supports the Vice Commandant's workload reduction initiative, and also supports the Coast Guard's strategic goal of maritime safety by reducing deaths and injuries in the maritime industry.

Abstract: The International Maritime Organization (IMO) comprehensively amended the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, 1978 (STCW), in 1995. The amendments came into force on February 1, 1997. This project implements them by revising current regulations to ensure that the United States complies with their requirements on: the training of merchant mariners, the documenting of their qualifications, and watch-standing and other arrangements aboard seagoing merchant ships of the United States. This project supports the Coast Guard's strategic goal of maritime safety. It also supports the goal of our directorate for Marine Safety and Environmental Protection for reducing deaths and injuries of crewmembers on domestic merchant vessels and eliminating substandard vessels from the navigable waters of the United States. This rulemaking is significant due to the potential impact on industry and the potential effect on international interests.

2241. PROPELLER INJURY PREVENTION ABOARD RENTAL BOATS (USCG-2001-10299)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 4302

CFR Citation: 33 CFR 173; 33 CFR 174; 33 CFR 175; 33 CFR 177; 33 CFR 179; 33 CFR 181; 33 CFR 183; 33 CFR 187

Legal Deadline: None

Abstract: This rulemaking would examine the number and nature of injuries sustained from vessel propellers and help the Coast Guard determine the need for Federal or State regulation of these vessels, the livery companies leasing these vessels, or the operators of these vessels. Any regulation would be implemented to reduce further injuries and fatalities involving rented boasts. The National Boating Safety Advisory Council (NBSAC) recommended that the Coast Guard consider a number of alternatives to prevent injuries, including: installing pump jets, propeller cages or a combination of boarding ladder interlocks or shaft alarms, big warning placards, or other warning devices. Future action is dependent upon consideration of reported injuries, comments received in response to past notices, results of the study conducted under a Coast Guard grant, available technology, and continued consultation with the NBSAC. This rulemaking supports the Coast Guard's strategic goal of maritime safety.

Legal Deadline: None

Abstract: This project would revise the regulations on Outer Continental Shelf (OCS) activities to: add new requirements for fixed OCS facilities for lifesaving, fire protection, training, hazardous materials used as stores, and accommodation spaces; require foreign vessels engaged in OCS activities to comply with requirements similar to those imposed on U.S. vessels similarly engaged; and allow all mobile inland drilling units (MIDUs) to operate on the

Final

OCS out to a defined boundary line if they meet requirements for lifesaving, firefighting, and operations similar to those for fixed OCS facilities. This project would affect the owners and operators of facilities and vessels engaged in offshore activities associated with the exploration for, development of, or production of, the resources of the OCS. The preliminary estimate of costs imposed by these amendments varies according to the unit. The Coast Guard is consulting with the Minerals Management Service, part of the Department of the Interior. It supports the Coast Guard's strategic goal of marine safety and environmental protection.

2243. FIRE-SUPPRESSION SYSTEMS AND VOYAGE PLANNING FOR TOWING VESSELS (USCG 2000-6931)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 3719; 46 USC 4102

CFR Citation: 33 CFR 157; 46 CFR 27

Legal Deadline: NPRM, Statutory, October 1, 1997.

Abstract: The Coast Guard proposes requirements for (a) total-flooding or other installed systems for suppressing fires on existing towing vessels and (b) voyage-planning. The purpose of this rulemaking is to reduce oil spills from single-hull, non-self-propelled barges. Drifting oil barges have run aground and spilled their cargoes, causing considerable damage to marine life and the environment. This project was developed in cooperation with the Towing Safety Advisory Committee. It supports the Coast Guard's strategic goals of maritime safety and protection of natural resources.

Additional Information: This rulemaking was formerly titled "Towing Vessel Safety (Fire Suppression Systems and Other Measures for Towing Vessels)" (CGD 97-064). It originally proposed requirements for three sets of issues relative to the safety of towing vessel safety issues: Fire-suppression systems and other measures, Control measures for tank barges, and fire-protection measures for towing vessels. The latter two components have developed into separate rulemakings: Emergency Control Measures for Tank Barges (USCG 1998-4443) (RIN 2115-AF65) and Fire Protection Measures for Towing Vessels (USCG 19 2115-AF66).

2245. POLLUTION PREVENTION FOR OCEANGOING SHIPS AND CERTAIN VESSELS IN DOMESTIC SERVICE (USCG-2000-7641)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 2103; 46 USC 3306; 46 USC 3703; 33 USC 1231; 33 USC 1321(j); 33 USC 1903

CFR Citation: 33 CFR 151; 33 CFR 155; 33 CFR 157; 46 CFR 170; 46 CFR 172

Legal Deadline: None

Abstract: This rulemaking concerns pollution prevention and the operational discharge of oil from vessels. It will align existing regulations on oil-water separators, operational discharge, damage and intact stability, and term of validity of International Oil Pollution Prevention Certificates with recent amendments under the International Convention for the Prevention of Pollution from Ships, 1973 (MARPOL). It will affect U.S.-flagged tank ships of 10 gross tons or more and other U.S.-flagged ships of 400 gross tons or more. It will eliminate and reduce requirements for shore connections on certain vessels of 100 gross tons or more. This project supports the Coast Guard's Marine Safety and Environmental Protection program's goal to reduce the amount of oil discharged into United States waters from maritime sources by 20 percent, and the Coast Guard's strategic goals of marine safety and protection of natural resources.

2246. RULES OF PRACTICE, PROCEDURE, AND EVIDENCE FOR ADMINISTRATIVE PROCEEDINGS OF THE COAST GUARD (USCG 1998-3472)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 7701; 46 USC 7702; 33 USC 1321; 42 USC 9609

CFR Citation: 33 CFR 20; 46 CFR 5

Legal Deadline: None

Abstract: The Coast Guard maintains two separate sets of procedural rules: for administrative adjudication against merchant mariners' licenses, certificates of registry, and documents, and for the adjudication of class II civil penalties. The rules for suspension and revocation, contained in part 5 of title 46 of the Code of Federal Regulations (CFR), date from 1948 and are based on criminal procedure. The rules for class II civil penalties, contained in part 20 of title 33 of the CFR, date from 1994 and are based on the Model Rules of Administrative Procedure and on other modern rules for civil procedure. Neither set implements the authority of the Oil Pollution Act of 1990 (OPA 90), which provides for the temporary suspension of a license, certificate of registry, or document for up to 45 days without a hearing, in certain circumstances, and a hearing within 30 days of any such suspension. This rulemaking would consolidate all procedural rules for administrative adjudications for class II civil penalties, and allow the Coast Guard to promulgate regulations implementing the OPA 90 authority. This project supports the strategic goal of the Coast Guard to promote marine safety.

Legal Deadline: None

Abstract: This rulemaking implements the Passenger Vessel Safety Act (PVSA) (Pub. L. 103-206) by amending the rules for Uninspected Passenger Vessels (UPVs). Specifically, the Coast Guard is considering amending existing UPV definitions to create a new class of UPV of at least 100 gross tons carrying not more than 12 passengers. The Coast Guard is considering operating, equipment, licensing and special permit application requirements appropriate for the new class of vessel. The Coast Guard is also considering adding definitions of "passenger," "passenger for hire," and "consideration" to bring its rules into conformity with the PVSA. This project supports the Coast Guard's strategic goal of marine safety.

2246. CERTIFICATION OF NAVIGATION LIGHTS FOR UNINSPECTED COMMERCIAL VESSELS AND RECREATIONAL VESSELS (USCG 1999-6580)

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 2071; 33 USC 1602; 33 USC 1607

CFR Citation: 33 CFR 84; 33 CFR 181; 33 CFR 183; 46 CFR 111

Legal Deadline: None

Abstract: This rule would place navigation lights for recreational vessels and uninspected commercial vessels under regulatory control similar to that already in place for inspected commercial vessels. Specifically, it would require certification that installed navigation lights are in compliance with the Navigation Rules' specifications, as evidenced by laboratory testing to a performance standard; this level of control is currently in place for other items of safety equipment. This action is in accordance with recommendations made by the National Boating Safety Advisory Council (NBSAC), the Navigation Safety Advisory Council (NAVSAC), and the National Association of State Boating Law Administrators (NASBLA). This project supports the Coast Guard's strategic goal of maritime safety.

2249. VESSEL TRAFFIC SERVICE LOWER MISSISSIPPI RIVER (USCG-1998-4399)

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1223(a)

CFR Citation: 33 CFR 26; 33 CFR 161; 33 CFR 165

Legal Deadline: None

Abstract: This project proposes to establish a new Vessel Traffic Service (VTS) area in the Lower Mississippi River region. This Vessel Traffic Service Area (VTSA) will span from 20 miles north of Baton Rouge (mile 255 AHP) out to sea, including the South and Southwest Pass. As part of the VTSA, a VTS Special Area will be designated between mile 93.5 and 95 AHP. Unlike traditional VTSs, which are based on radar and video surveillance and rely on voice communications by VHF-FM radio, when fully operational VTS Lower Mississippi River will use Automatic Identification System transponder technology to perform the majority of both surveillance and information exchange. This rulemaking supports the Coast Guard's strategic goals of maritime safety and protection of natural resources.

2251. MANDATORY SHIP REPORTING SYSTEM OFF THE NORTHEAST AND THE SOUTHEAST COASTS OF THE UNITED STATES (USCG-1999-5525)

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1230(d)

CFR Citation: 33 CFR 169

Legal Deadline: None

Abstract: This regulatory project establishes two mandatory ship reporting systems in areas off the U.S. Atlantic Coast to protect the endangered Northern Right Whale. These areas are critically important calving and feeding grounds for that species. Although right whales are also found outside of these areas, the two areas are targeted because they have both large numbers of whales and a high volume of ship traffic. Ship collisions are the largest known source of human related mortality of right whales. Communication between shore-based authorities and ships will minimize the risk of collision damage to ships and the whales as well as provide beneficial information to ships. The reporting system requires ships over 300 gross tons to notify the Coast Guard of their intention to enter these areas. In return, the mariners are provided with automated information about the last known locations of any right whales. This project supports the Coast Guard's strategic goal of protecting the natural resources.

Small Entities Affected: No

Government Levels Affected: None

Additional Information: The International Maritime Organization established a June 30, 1999 implementation for a mandatory reporting system. Less than 300 northern right whales are now known to exist. Designing an effective and simple reporting program in conjunction with other Federal agencies eliminated the availability of time to propose the regulations for comment prior to promulgation. However, the Coast Guard may revise the regulations in response to comments.

Legal Authority: 46 USC 2103; 46 USC ch. 71; 46 USC ch. 73

CFR Citation: 46 CFR 12; 46 CFR 15; 46 CFR 10

Legal Deadline: None

Abstract: This project will implement new amendments to the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, 1978 (STCW), that impose requirements for training and qualifications of masters, officers, engineers, and "ratings." The following training courses are mandatory for the personnel on passenger ships other than roll-on, roll-off, carrying more than 12 passengers operating on international voyages: (1) Crisis Management and Human Behavior; (2) Crowd Management; (3) Special Safety; (4) Passenger Safety, with special attention given to disabled persons and others needing assistance; and (5) Special Familiarization. This rulemaking supports the Coast Guard's strategic goals of maritime safety and protection of natural resources.

2253. RAISING THE THRESHOLD OF PROPERTY DAMAGE FOR REPORTS OF ACCIDENTS INVOLVING RECREATIONAL VESSELS (USCG-1999-6094)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 6101; 46 USC 6102

CFR Citation: 33 CFR 173; 33 CFR 174

Legal Deadline: None

Abstract: This rule would increase the threshold for reporting recreational-boat accidents involving only property damage. Because of inflation since the threshold was last revised, the threshold now requires the reporting of a large number of minor accidents. These numbers distort the statistical base for the program in Recreational Boating Safety and increase the burden of paperwork on the boating public. Raising the threshold to an appropriate level would provide for a consistent statistical base and reduce the administrative burden on the Coast Guard and on States' accident-investigation personnel as well as the burden of paperwork on the boating public. This rule supports the Coast Guard's strategic goal of maritime safety.

Legal Deadline: None

Abstract: The regulatory project will establish hull examination alternatives and a drydock extension policy for qualifying passenger vessels that operate exclusively on benign, low-risk environments, and that have limited time under way. In addition, the proposed regulations would provide the option of alternating drydock examinations with underwater surveys for passenger vessels. This project supports the Coast Guard's strategic goal Marine Safety and Environmental Protection Program's goal of mobility by facilitating commerce and eliminate interruptions and impediments to the economical movement of goods and people.

2255. NOXIOUS LIQUID SUBSTANCES, OBSOLETE HAZARDOUS MATERIALS IN BULK, AND CURRENT HAZARDOUS MATERIALS IN BULK (USCG-2000-7079)

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1321, 1903; 46 USC 2103, 3306, 3703

CFR Citation: 33 CFR 151; 46 CFR 30, 150, 151, and 153

Legal Deadline: None

Abstract: The Coast Guard revises rules on carriage of hazardous materials in bulk, treating the rules in three parts:

First, the Coast Guard revises its rules on Noxious Liquid Substances (NLSs) to include substances recently authorized for carriage by the Coast Guard or added to the Chemical Codes of the International Maritime Organization (IMO) and by making minor technical and editorial changes based on the actions taken in part C.

Second, the Coast Guard revises its rules, tables, and lists on carriage of hazardous materials in bulk by deleting from its rules, tables, and lists commodities that are no longer liquid cargoes transportable in bulk, and by canceling the classifications of obsolete commodities not included in those rules, tables, and lists.

Third, the Coast Guard revises its rules on carriage of hazardous materials in bulk by adding cargoes recently authorized for carriage by the Coast Guard or added to the Chem of the IMO and by making m technical and editorial chan

2257. WEARING OF PERSONAL FLOTATION DEVICES (PFDS) BY CERTAIN CHILDREN ABOARD RECREATIONAL VESSELS (USCG-2000-8589)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 4302

CFR Citation: 33 CFR 175, subpart B

Legal Deadline: None

Abstract: This rule would require every child under the age of 13 to wear a personal flotation device (PFD)—also called a lifejacket—while aboard a recreational vessel under way and while not below decks or in an enclosed cabin. It would adopt, on waters subject to the jurisdiction of the United States within any State, any requirement for the wearing of a PFD established by that State for a child under an age specified by that State. The rule would also set, on waters subject to the jurisdiction of the United States within any State lacking any such requirement, its own, comparable requirements. This project supports the Coast Guard's strategic goal of maritime safety.

Priority: Other Significant

Legal Authority: 46 USC 12106; 46 USC 12120; 46 USC 12122

CFR Citation: 46 CFR 67

Legal Deadline: None

Abstract: This rulemaking will amend the regulations on the documentation of vessels engaged in the coastwise trade. It is a spin-off of Vessel Documentation (USCG 1998-4784) RIN 2115-AF71. These proposals address statutory amendments eliminating certain barriers to seeking foreign financing by lease for U.S. flag vessels. These proposals would clarify the information needed to determine the eligibility of a vessel financed in this manner for a coastwise endorsement. This rulemaking supports the Coast Guard's strategic goal of maritime mobility.

2260. INSPECTION AND ENFORCEMENT OF COAST GUARD REGULATIONS FOR FIXED FACILITIES BY MINERALS MANAGEMENT SERVICE (USCG-2001-9045)

Priority: Substantive, Nonsignificant

Legal Authority: 43 USC 1348

CFR Citation: 33 CFR 140

Legal Deadline: None

Abstract: The Coast Guard proposes to authorize the Mineral Management Service (MMS) to perform inspections, on behalf of the Coast Guard, on fixed facilities engaged in Outer Continental Shelf activities and to enforce Coast Guard regulations applicable to those facilities. MMS already performs inspections on these facilities to determine whether they comply with MMS regulations. By authorizing MMS to also check for compliance with Coast Guard regulations, we avoid duplicating functions, reduce Federal costs, and increase the frequency of inspections. This project supports the Coast Guard's strategic goals of

2263. SAFETY/SECURITY ZONE REGULATIONS

Priority: Routine and Frequent

Legal Authority: 33 USC 1233; 33 USC 1225

CFR Citation: 33 CFR 100; 33 CFR 165

Legal Deadline: None

Abstract: These routine and frequent regulations establish limited access zones in which the Coast Guard exercises control of all vessels to ensure the safety or security of events, vessels or individuals. They are usually of short duration, ranging from a few hours to a few days. Safety zones are established for events such as fireworks displays, high speed races, or the transit of dangerous cargoes such as explosives or liquefied petroleum gas. Security zones are established for Presidential or Vice Presidential visits, high profile events such as the Olympics, or controversial events such as transport of spent nuclear fuel. Safety and security zones are promulgated by Captains of the Port or District Commanders in response to requests or notifications from appropriate officials. These routine and frequent rulemakings support the Coast Guard's strategic goals of marine safety, mobility, maritime security, and national defense. Total actions expected 10/01/2001 to 10/01/2002: 250.

Priority: Routine and Frequ

Legal Authority: 33 USC 4 2030; 33 USC 2035; 33 USC

CFR Citation: 33 CFR 110

Legal Deadline: None

Abstract: These routine an regulations are established

maritime and commercial interests require them for safety of navigation. Special anchorage areas are areas in which vessels of not more than 65 feet may anchor without displaying the required lights or sound signals. These special anchorage areas are limited geographically, and depending upon the purpose, establish both long- and short-term anchorages. Anchorage grounds are limited geographically, delineate the types and size.of vessel which may use the anchorage, and may place time and other restrictions on its use. Special anchorage areas and anchorage grounds are promulgated by District Commanders in response to requests from appropriate officials. These routine and frequent rulemakings support the Coast Guard's strategic goal of marine safety. Total actions expected 10/01/2001 to 10/01/2002: 10.

2265. PERMITS FOR THE TRANSPORTATION OF MUNICIPAL AND COMMERCIAL WASTES (USCG-2000-7442)

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 2602

CFR Citation: 33 CFR 151

Legal Deadline: Final, Statutory, June 15, 1989.

Abstract: In May 1989, the Coast Guard began a rulemaking to incorporate into regulation certain elements of the Shore Protection Act. The objective is to help prevent trash, medical debris, and other unsightly and potentially harmful materials from being deposited into the coastal waters of the United States as a result of sloppy waste-handling procedures. This project supports the Coast Guard's strategic goal of protection of natural resources.

2266. +ESCORT VESSELS FOR CERTAIN TANKERS (CGD 91-202)

Priority: Other Significant

Legal Authority: 46 USC 3703

CFR Citation: 33 CFR 168

Legal Deadline: None

Abstract: This rulemaking developed standards which implement section 4116(c) of the Oil Pollution Act of 1990. It addressed the areas of Prince William and Puget Sounds and requires a two-vessel escort for single-hull tankers greater than 5,000 gross tons. On November 1, 1994, the crash stop criteria were suspended because of industry concerns about meeting the criteria. On February 1, 1995, a notice of availability of a two-part study assessing the capability of escort tugs to control disabled tankers in Prince William Sound was published. This project supports the Coast Guard's Marine Safety and Environmental Protection program's goal to reduce the amount of oil discharged into the marine environment and the Coast Guard's strategic goal of protecting natural resources. This project is considered significant because of substantial public and State government interest.

2268. REGATTA REGULATIONS

Priority: Routine and Frequent

Legal Authority: 33 USC 1233

CFR Citation: 33 CFR 100

Legal Deadline: None

Abstract: These routine and frequent special local regulations ensure the safety of participants and spectators in regattas and marine parades. They specify such things as separate participant and spectator areas, separation schemes for watercraft in the area of the event, and temporary restrictions on waterways to accommodate the event. These rules are short-term, usually applying to a single event not exceeding 8 hours in duration, and usually encompassing only a small portion of a navigable waterway. These rules are promulgated by District Commanders in response to a request from a sponsoring organization. These routine and frequent rulemakings support the Coast Guard's strategic goal of maritime safety and maritime mobility of commercial and recreational vessel traffic. Total actions expected 10/01/2001 to 10/01/2002: 75.

2269. DRAWBRIDGE REGULATIONS

Priority: Routine and Frequent

Legal Authority: 33 USC 499

CFR Citation: 33 CFR 117

Legal Deadline: None

Abstract: These routine and frequent regulations establish operating schedules, and notice requirements, for drawbridges across navigable waterways. Drawbridge regulations establish the permanent draw operation schedules for bridges and specify what notice mariners must give to request an opening. Short-term deviations from the permanent schedule may be issued for bridge repairs or to test the effectiveness of a proposed new opening schedule. Drawbridge regulations are promulgated by District Commanders usually at the request of the bridge owner or operator, or of local officials or local Coast Guard bridge administration officials. These routine and frequent rulemakings support the Coast Guard's strategic goals of maritime safety and maritime mobility of commercial and recreational vessel traffic. 2271. REGULATED NAVIGATION AREAS

Priority: Routine and Frequent

Legal Authority: 33 USC 1233; 50 USC 191

CFR Citation: 33 CFR 165

Legal Deadline: None

Abstract: These routine and frequent regulations establish operating requirements for vessels within specified geographic areas to ensure safety on the navigable waters where some special or unusual circumstance exists. Regulated navigation areas are limited areas in which the Coast Guard specifies operational or vessel restrictions such as vessel entry, movement or departure; and vessel size, speed, horsepower, or draft limitations. Regulated navigation areas are promulgated by District Commanders, usually at the request of Coast Guard marine safety or local maritime safety officials. These routine and frequent rulemakings support the Coast Guard's strategic goals of waterways management, marine safety, and maritime mobility. Total actions expected 10/01/2001 to 10/01/2002: 10.

2272. LIMITED SERVICE DOMESTIC VOYAGE LOAD LINES FOR RIVER BARGES ON LAKE MICHIGAN (USCG-1998-4023)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 51

CFR Citation: 46 CFR 45

Legal Deadline: None

Abstract: This regulatory project will allow certain unmanned dry cargo river barges operating on Lake Michigan to be exempted from the normal Great Lakes load line requirements provided instead that they obtain a limited domestic service load line for two specific routes (Chicago to Milwaukee, and Chicago to Muskegon). This will allow certain non-hazardous cargoes originating at inland river ports to be transported as far as Milwaukee and Muskegon by river barge, thereby benefiting from the relatively low cost per ton-mile of river barge transportation. Compliance is not mandatory other than for those river barge operators who voluntarily seek this special load line for their barges. This rulemaking supports the Coast Guard's strategic goal of marine safety.

Legal Deadline: None

Abstract: This project will add materials carried with Special Permits issued under Coast Guard regulations and other materials contained in the International Maritime Organization Code of Safe Practice for Solid Bulk Cargoes (IMO Bulk Solids Code, or "BC Code"), including coal, to the list of materials permitted under the regulations. The special handling procedures associated with these materials are also included in the new rules. The revisions will harmonize U.S. regulations with recommended international practice, and eliminate the need to apply for Special Permits, except for newly classified hazardous materials. This project supports the Coast Guard's strategic goal of marine safety and mobility.

Timetable: Next Action Undetermined

Regulatory Flexibility Analysis Required: No

Government Levels Affected: None

Federalism: Undetermined

Additional Information: This project was initiated with an ANPRM (28 April 1989), and further developed in an NPRM (12 April 1994). In prioritizing resources, it was terminated on 13 April 1995. This regulatory project can now be reinitiated. Based on comments to the docket (previously CGD 87-069 and CGD 97-037), this is a non-controversial amendment to existing regulations.

Long-Term

Abstract: This rulemaking would require owners or operators of high-capacity passenger vessels in domestic service to develop, maintain, and exercise emergency response plans. Such plans would establish a process that prevents injury and loss of life during collisions, allisions, groundings, fires, and other emergencies. They would address issues such as passenger egress, crew training, and available emergency resources both on a vessel and in a vessel's operating area. This rulemaking supports the Coast Guard's strategic goals of maritime safety and protection of natural resources. It is significant because of substantial public interest in passenger safety.

2275. COMMERCIAL DIVING OPERATIONS (USCG-1998-3786)

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1509; 43 USC 1333; 46 USC 3306; 46 USC 3703; 46 USC 6101

CFR Citation: 46 CFR 197; 49 CFR 1.46

Legal Deadline: None

Abstract: This project involves reviewing and updating the commercial diving regulations, which are over 20 years old. A review of the commercial diving regulations is needed to determine what parts should be updated or changed based on the current standards of safety, technology, and industry practices and to evaluate and minimize any significant economic impact of the rules upon small entities. The project supports the Coast Guard Marine Safety and Environmental Protection Program's goal to reduce deaths and injuries on U.S. commercial vessels and the Coast Guard's strategic goal of safety.

2276. +IMPROVEMENTS TO MARITIME SAFETY IN PUGET SOUND-AREA WATERS (USCG-1998-4501)

Priority: Other Significant

Legal Authority: 33 USC 1223 to 1224

CFR Citation: 33 CFR 1

Legal Deadline: None

Abstract: This rulemaking would promulgate measures to improve maritime safety in Puget Sound-Area waters including Puget Sound, the Strait of Juan de Fuca, passages around and through the San Juan Islands, and the Olympic Coast National Marine Sanctuary. Based on a determination by the Secretary of Transportation regarding the status of maritime safety in the Puget Sound-area, the Coast Guard has initiated a comprehensive cost-benefit analysis to study the feasibility of implementing new safety measures, including extended tug escort requirements and a dedicated response vessel. Public input will help focus this cost-benefit analysis and develop any future proposed rules, if deemed necessary. This rulemaking supports the Coast Guard Marine Safety and Environmental Protection Program's goal to reduce the amount of oil discharged into the marine environment and the Coast Guard's strategic goal of protection of natural resources. This is a significant action due to substantial public interest.

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 9303(f)

CFR Citation: 46 CFR 401

Legal Deadline: None

Abstract: The Coast Guard conducts an annual review of the Great Lakes Pilotage rate based on the "Great Lakes Pilotage Rates Methodology" published in the Federal Register on May 9, 1996. Depending on the results of this review, the Coast Guard can make rate adjustments in accordance with the regulations or, if the Director of Great Lakes Pilotage determines that pilotage rates are within a reasonable range of their target, make no adjustments to the rates. This rulemaking will recur annually after the "Notice of Annual Review" is published in the Federal Register and comments to that review are received. This project supports the Coast Guard's strategic goal of maritime safety.

2282. EXEMPTION OF PUBLIC VESSELS EQUIPPED WITH ELECTRONIC CHARTING AND NAVIGATION SYSTEMS FROM PAPER CHART REQUIREMENTS (USCG 2000-8300)

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1223; 33 USC 1231; 46 USC 2103; 46 USC 3703

CFR Citation: 33 CFR 146

Legal Deadline: None

Abstract: This rulemaking amends the Coast Guard Navigation Safety Regulations regarding navigational charts and publications for public vessels. It permits public vessels owned and operated by the U.S. government that are not engaged in commercial operations to use an agency-approved electronic charting and navigation system as an alternative to paper charts for navigation in U.S. waters. The Coast Guard will also seek comments in a similar, proposed rulemaking for commercial vessels. This rulemaking supports the Coast Guard's strategic goal of maritime safety.

2286. +IMPROVED WATER SURVIVAL EQUIPMENT

Priority: Other Significant

Legal Authority: 49 USC 44705; 49 USC 44709 to 44711; 49 USC 44712; 49 USC 44713; 49 USC 44715; 49 USC 44716 to 44717; 49 USC 44722; 49 USC 44901; 49 USC 44903 to 44904; 49 USC 44912; 49 USC 106(g); 49 USC 40113; 49 USC 40119; 49 USC 44101; 49 USC 44701 to 44702

CFR Citation: 14 CFR 121; 14 CFR 135

Legal Deadline: None

Abstract: This action would add new requirements for water survival equipment carried aboard airplanes and rotorcraft. The requirements would apply, after specified dates, to U.S.-certificate holders that conduct common-carriage operations with airplanes and rotorcraft. This action is in response to the Airport and Airway Safety and Capacity Enhancement Act of 1987 (PL 100-223) and relates to safety recommendations by the National Transportation Safety Board. The requirements are intended to increase the likelihood of aircraft passengers surviving a crash landing in water and, thus, this rulemaking is significant because of the safety implications.

CFR Citation: 14 CFR 121; 14 CFR 135

Legal Deadline: NPRM, Statutory, April 28, 1988.

Abstract: This action would require that all seats of transport category airplanes used in air carrier operations and transport category airplanes used in scheduled intrastate service comply with improved crashworthiness standards. The Airport and Airways Safety and Capacity Expansion Act of 1987 directs the Secretary of Transportation to initiate a rulemaking proceeding to consider requiring all seats on board all air carrier aircraft to meet improved crashworthiness standards based upon the best available testing standards. The intended effect of this action is to increase passenger protection and survivability in survivable impact accidents. This rulemaking is considered significant because of its safety implications and statutory requirements.

Priority: Other Significant

Legal Authority: 49 USC 106(g); 49 USC 40104 to 40105; 49 USC 40113; 49 USC 40119; 49 USC 44101; 49 USC 44701 to 44702; 49 USC 44705; 49 USC 44709 to 44711; 49 USC 44712; 49 USC 44713; 49 USC 44715; 49 USC 44716 to 44717; 49 USC 44722; 49 USC 44901; 49 USC 44902

CFR Citation: 14 CFR 121; 14 CFR 125; 14 CFR 129; 14 CFR 135

Legal Deadline: None

Abstract: This project would ensure that airplanes used or not used in common carriage in air transportation have a comprehensive corrosion prevention program within their maintenance or inspection programs. In April 1988, a commercial transport airplane experienced an in-flight decompression and separation of approximately 18 feet of the fuselage skin and structure at the top of the airplane. The airplane had been in service for 19 years and had flown almost 90,000 flights. The National Transportation Safety Board concluded that the failure of the airline to detect skin disbonding resulted in corrosion and metal fatigue leading to separation of the airplane's skin structure. This rulemaking is considered significant because of substantial public interest.

Proposed Rule Stage

2292. LICENSING AND SAFETY REQUIREMENTS FOR LAUNCH

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 70101 to 70119

CFR Citation: 14 CFR 415; 14 CFR 417

Legal Deadline: None

Abstract: This action would establish requirements for licensing the conduct of a launch from a non-Federal launch site. The law requires anyone who proposes to conduct a launch within the United States, or a U.S. citizen proposing to conduct a launch site outside the United States, to obtain a license from DOT. This action would govern obtaining a license to conduct such a launch. Currently, commercial rocket launches take place from Federal Government installations operated by the Department of Defense and NASA. Licensing requirements for those launches are being developed in a related licensing rulemaking (RIN 2120-AF99). In this action, DOT proposes to implement rules regarding obtaining a license to conduct a launch from a commercial launch site, where DOT, rather than NASA or the military has primary responsibility.

CFR Citation: 14 CFR 91; 14 CFR 121; 14 CFR 125; 14 CFR 135

Legal Deadline: None

Abstract: This action sought public comment on issues relating to the use of child restraint systems in aircraft during all phases of flight (i.e., taxi, takeoff, landing, or any other time the seat belt sign is illuminated). Specifically, the agency sought information about existing child restraint systems, the development of new and improved child restraint systems, the ease with which existing or new child restraint systems can be used, and the effectiveness of changing the current child restraint system regulations. The advance notice gathered information in response to a recommendation made by the White House Commission on Aviation Safety and Security. Approximately 130 comments were received on the ANPRM. This information is needed so that the FAA can determine the best way to ensure the safety of children while on board aircraft. After such a determination is made, the FAA may issue a Notice of Proposed Rulemaking with specific regulatory proposals that respond to the Commission's recommendations regarding the use of child restraint systems. This action is considered significant because of safety implications.

CFR Citation: 14 CFR 60; 14 CFR 121

Legal Deadline: None

Abstract: This action proposes to revise title 14 of the Code of Federal Regulations part 121 subparts N, O, P, and create part 60. The proposed revision and creation will address Advanced Qualification Programs and additional training programs. The rulemaking is needed to enhance crew resource management training, to permit rapid changes to training and checking requirements for emerging technologies, to improve safety, and to respond to numerous recommendations from various sources.

2296. +TRAFFIC ALERT AND COLLISION AVOIDANCE SYSTEMS

Priority: Other Significant

Legal Authority: 49 USC 106(g); 49 USC 40113; 49 USC 40119; 49 USC 44101; 49 USC 44701 to 44702; 49 USC 44705; 49 USC 44709 to 44711; 49 USC 44713; 49 USC 44716 to 44717; 49 USC 44722; 49 USC 44901; 49 USC 44903 to 44904; 49 USC 44912; 49 USC 46105

CFR Citation: 14 CFR 121; 14 CFR 129

Legal Deadline: None

Abstract: This action proposes to require the installation and use of a traffic alert and collision system (TCAS) on certain cargo airplanes. Current regulations do not require TCAS installation on all-cargo airplanes. However, because the air cargo industry has experienced rapid growth and is increasingly sharing air space with other air carriers, the FAA is proposing this action to minimize the possibility of midair collisions involving cargo airplanes. This rulemaking proposes that affected airplanes be equipped with TCAS II, or another approved traffic alert and collision avoidance system, as appropriate, no later than October 31, 2003. This action is significant because of substantial public interest.

2297. +AIR TOUR OPERATIONS IN STATE OF HAWAII

Priority: Other Significant

Legal Authority: 49 USC 106(g); 49 USC 40103; 49 USC 40113; 49 USC 40120; 49 USC 44101; 49 USC 44701; 49 USC 44711; 49 USC 44712; 49 USC 44715; 49 USC 44717; 49 USC 44722; 49 USC 46306; 49 USC 46315; 49 USC 46316; 49 USC 46502; 49 USC 46504; 49 USC 46504; 49 USC 46506; 49 USC 47122; 49 USC 47508; 49 USC 47528 to 47530

CFR Citation: 14 CFR 91

Legal Deadline: None

Abstract: This action proposes to extend SFAR 71, which established certain procedural, operational, and equipment requirements for air tour operators in the State of Hawaii. The FAA intends to issue a national air tour safety proposal in the near future, but until this rulemaking becomes final, there is a need to extend SFAR 71 to ensure the continuing safe environment for conducting air tours in Hawaii. During the 9 year period between 1982 and 1991, there were 11 air tour accidents with 24 fatalities in Hawaii. The apparent causes of the accidents ranged from engine power loss to encounters with adverse weather. On September 26, 1994, the FAA published an emergency final rule as SFAR 71. The rule established additional operating procedures, including minimum safe altitudes (and associated increases in visual flight rules weather minimums), minimum equipment requirements, and operational limitations for air tour aircraft in the State of Hawaii. SFAR 71 was subsequently extended until October 26, 2000. This rulemaking is significant because of substantial public interest.

2310. • MATERIAL STRENGTH PROPERTIES AND DESIGN VALUES

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 106(g); 49 USC 40113

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: The FAA proposes to revise the material strength properties and material design values requirement for transport category airplanes by incorporating changes developed in cooperation with the Joint Aviation Authorities of Europe and the U.S. and European aviation industry through the Aviation Rulemaking Advisory Committee. This proposal is intended to achieve common requirements and language between the requirements of the U.S. regulations and the Joint Aviation Requirements of Europe, while maintaining at least the level of safety provided by the current regulations.

2311. • REVISIONS TO VARIOUS POWERPLANT INSTALLATION REQUIREMENTS FOR TRANSPORT CATEGORY AIRPLANES

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 106(g); 49 USC 40113

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This action proposes to revise the standards applicable to thrust or power augmentation systems, fuel filling points, designated fire zones, and powerplant instruments. Adopting this proposal would eliminate regulatory differences between the airworthiness standards of the U.S. and the Joint Aviation Requirements of Europe without affecting current industry design practices.

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 4321; 49 USC 106(g); 49 USC 40113; 49 USC 44701; 49 USC 44702; 49 USC 44704; 49 USC 44715

CFR Citation: 14 CFR 36

Legal Deadline: None

Abstract: The FAA is proposing a change to the noise limits for propeller-driven small airplanes. The FAA, the European Joint Aviation Authorities (JAA), and representatives from the United States and European propeller-driven small airplane industries developed the ICAO Annex 16 noise limit change in a joint effort. The proposed change would provide nearly uniform noise certification standards for airplanes certificated in the United States and in the JAA countries.

2317. OBJECTS AFFECTING NAVIGABLE AIRSPACE

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 106(g); 49 USC 40103; 49 USC 40113 to 40114; 49 USC 44502; 49 USC 44701; 49 USC 44718; 49 USC 46101 to 46102; 49 USC 46104

CFR Citation: 14 CFR 77

Legal Deadline: None

Abstract: This action would amend the standards, aeronautical studies, scope, and notice provisions concerning objects affecting navigable airspace. The notice consisted primarily of changes required by recent legislation or recommended by a government/industry task group of the National Airspace Review Advisory Committee. This action would also cover electromagnetic interference phenomenon that could create a hazard to air navigation.

Legal Deadline: None

Abstract: The FAA is withdrawing a previously published Notice of Proposed Rulemaking (NPRM) that proposed to amend various sections of the regulations. The proposal was to clarify language, correct improper or obsolete references, and to relax certain existing requirements. Since publication of the NPRM, many other completed, in-process, or planned actions have addressed or will address many of the issues involved. The FAA has determined that all unresolved issues should be included in more recent actions dealing with the specific sections of the regulations.

2319. 1-G STALLING SPEED AS A BASIS FOR AIRCRAFT PARTS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 4321; 49 USC 106(g); 49 USC 40113; 49 USC 44701 to 44702; 49 USC 44704; 49 USC 44715

CFR Citation: 14 CFR 25; 14 CFR 36

Legal Deadline: None

Abstract: This action would amend the Federal Aviation Regulations to redefine the airplane reference stalling speed as the 1-g stalling speed in lieu of the minimum stalling speed. It would: (1) provide for a consistent, repeatable reference stalling speed; (2) ensure consistent and dependable maneuvering margins; (3) clarify the requirement for the use of 1-g stalling speeds in determining structural design speeds; (4) increase the head-on gust structural design requirement; and (5) provide for adjusted multiplying factors to maintain essentially equivalent requirements in areas where the use of minimum stalling speed has proven adequate. These changes are needed since the stalling characteristics of modern jet transports as determined by current methods can result in inconsistent reference stalling speeds. These changes may result in a higher level of safety where current methods have resulted in artificially low reference stalling speeds.

CFR Citation: 14 CFR 108

Legal Deadline: None

Abstract: This action amends part 108 of the Federal Aviation Regulations to incorporate new requirements in response to worldwide terrorist activity. This final rule contains changes that are intended to enhance security for the traveling public, and aircraft operators. A final rule establishing a compliance program is forthcoming, which would require compliance programs for Aircraft Operators. This rulemaking is considered significant because of its safety implications and substantial public interest.

2322. +AGING AIRCRAFT SAFETY

Priority: Other Significant

Legal Authority: 49 USC 106(g); 49 USC 40104 to 40105; 49 USC 40113; 49 USC 40119; 49 USC 44101; 49 USC 44701 to 44702; 49 USC 44705; 49 USC 44709 to 44711; 49 USC 44712; 49 USC 44713; 49 USC 44715 to 44717; 49 USC 44722; 49 USC 44901 to 44904; 49 USC 44906

CFR Citation: 14 CFR 121; 14 CFR 125; 14 CFR 129; 14 CFR 135; 14 CFR 183

Legal Deadline: Other, Statutory, April 24, 1992, Action must be initiated by 04/24/92 per Aging Aircraft Safety Act of 1991.

Abstract: On October 5, 1993, the FAA published an NPRM that proposed to require air carriers of certain aircraft used in air transportation to demonstrate that the aircraft's maintenance has been adequate to ensure the highest degree of safety. After further review, and taking into consideration public comments to the NPRM, the FAA withdrew that NPRM. On March 19, 1999, the FAA issued a new NPRM that would ensure the continuing airworthiness of the most significant aging airplanes operating in air transportation by mandating aging aircraft records reviews and inspections for certain air carriers and certain aircraft and also by applying modern damage-tolerance analyses and inspection techniques to older airplane structures that were certificated before such techniques were available. The comment period closed on October 18, 1999, This rulemaking is significant because of substantial public interest.

2323. AIR TRAFFIC CONTROL RADAR BEACON SYSTEM AND MODE S TRANSPONDER REQUIREMENTS IN THE NATIONAL AIRSPACE SYSTEM

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 106(g); 49 USC 40113; 49 USC 40119; 49 USC 44101; 49 USC 44701 to 44702; 49 USC 44705; 49 USC 44709 to 44711; 49 USC 44712; 49 USC 44713; 49 USC 44715; 49 USC 44716 to 44717; 49 USC 44722; 49 USC 44901; 49 USC 44903 to 44904; 49 USC 44912

CFR Citation: 14 CFR 121; 14 CFR 135

Legal Deadline: None

Abstract: This action would revise the Mode S transponder requirement for all aircraft operating under part 135 and certain aircraft operating under part 121 based on the expected availability of operational capabilities of Mode S ground sensors. For part 121 operators, the action would affect only those aircraft not required to have Traffic Alert and Collision Avoidance System II. An aviation rulemaking advisory committee has recommended that the FAA conduct a study of the installed Mode S ground sensor to determine the extent of the benefits derived and the costs involved in equipage. This action is a relieving action made necessary by the fact that ground sensors are not in place to support the requirement. Further, FAA is studying the need for Mode S transponders in part 135 and certain part 121 operations in light of the fact that transponders may not substantially increase ATC ability to view air traffic.

CFR Citation: 14 CFR 25; 14 CFR 121

Legal Deadline: None

Abstract: This action proposed to adjust requirements for access to type III emergency exits in transport category airplanes with 60 or more passenger seats. The adjustments would reflect new data from tests conducted at the FAA's Civil Aeromedical Institute (CAMI) and intended to improve the ability of occupants to evacuate an airplane under emergency conditions. The FAA is withdrawing this proposed rulemaking as some of the information is outdated. The CAMI research is still ongoing. The FAA may issue a new rulemaking in the future. This rulemaking is considered significant because of substantial public interest.

CFR Citation: 14 CFR 121; 14 CFR 125; 14 CFR 135

Legal Deadline: None

Abstract: The FAA proposes to codify an FAA policy encouraging the voluntary implementation of Flight Operational Quality Assurance (FOQA) programs for the routine analysis of flight data generated during line operations that reveal situations which require corrective action to prevent safety problems. The rule would also clarify the circumstances under which information obtained from voluntary FOQA programs could be used in enforcement actions against air carriers, commercial operators, or airmen. The rule would require air carriers participating in FOQA program to submit aggregate FOQA data to the FAA for use in monitoring safety trends. Under the proposed rule, the FAA may use aggregate FOQA data as a basis to promulgate safety rulemakings or to address situations calling for remedial enforcement action, e.g., a lack of qualification on the part of an operator or aircraft. This rulemaking is significant becau substantial public interest.

2328. +REVISION OF EMERGENCY EVACUATION DEMONSTRATION PROCEDURES TO IMPROVE PARTICIPANT SAFETY

Priority: Other Significant

Legal Authority: 49 USC 106(g); 49 USC 40113; 49 USC 44701 to 44702; 49 USC 44704

CFR Citation: 14 CFR 25; 49 CFR 1.47

Legal Deadline: None

Abstract: This action would amend part 25 of the FAR by revising Appendix J, Emergency Evacuation, to allow certain alternative procedures in conducting full-scale emergency evacuation demonstrations for transport category airplanes. This is in response to recommendations from the Aviation Rulemaking Advisory Committee. The changes, which are intended to make full-scale emergency evacuation demonstrations safer for participants and to codify existing practices, would also affect manufacturers and operators of transport category airplanes. This action is considered significant because of substantial public interest and safety implications.

2329. +OVERFLIGHTS OF UNITS OF THE NATIONAL PARK SYSTEM

Priority: Other Significant

Legal Authority: 49 USC 106(g); 49 USC 40103; 49 USC 40113; 49 USC 40120; 49 USC 44101; 49 USC 44701; 49 USC 44702; 49 USC 44705; 49 USC 44709; 49 USC 44711 to 44713; 49 USC 44715; 49 USC 44716; 49 USC 44717; 49 USC 44722; 49 USC 46306

CFR Citation: 14 CFR 91; 14 CFR 93; 14 CFR 121; 15 CFR 135

Legal Deadline: None

Abstract: The FAA and National Park Service (NPS) established a joint working group which is tasked with developing a notice of proposed rulemaking to reduce or prevent adverse effects of aircraft noise over our national park system. At the same time, the working group is charged with affording those persons who wish to visit our national parks from the air the opportunity to do so. The working group met from May to November 1997, and developed a concept paper that was approved by the Aviation Rulemaking Advisory Committee and the NPS Advisory Board in December 1997. A notice of proposed rulemaking has been developed and is now being reviewed by the FAA and NPS. In April 1999, the FAA issued a disposition of comments to the ANPRM. That document summarizes those comments to the ANPRM and provides an update to the public on matters concerning air tours over units of the national park system. In response to Public Law 106-181, April 5, 2000, the FAA and NPRS developed an NPRM that proposes to codify the language of the legislation and to adopt an altitude that would define a commercial air tour operation. This rulemaking is significant because of substantial public interest.

2330. REVISED PRECISION APPROACH LANDING SYSTEMS POLICY

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: This statement announces the FAA's proposed policy for acquisition, installation, maintenance, and decommissioning of the instrument landing system (ILS) and the microwave landing system (MLS) during the transition to the global positioning system (GPS). The policy statement of December 1989 announced the transition from the ILS to the MLS for precision approach service in the National Airspace System. Since that time, advancement of GPS-based landing system technology has provided a more economical means of providing approach services.

2331. +SCREENING OF CHECKED BAGGAGE ON FLIGHTS WITHIN THE UNITED STATES

Priority: Economically Significant. Major under 5 USC 801.

Unfunded Mandates: This action may affect the private sector under PL 104-4..

Legal Authority: 49 USC 106(g); 49 USC 5103; 49 USC 40113; 49 USC 40119; 49 USC 44701 to 44702; 49 USC 44705; 49 USC 44901 to 44905; 49 USC 44907; 49 USC 44913 to 44914; 49 USC 44932; 49 USC 44935 to 44936; 49 USC 46105

CFR Citation: 14 CFR 108

Legal Deadline: None

Abstract: The FAA is proposing the screening or bag matching of passenger checked baggage on domestic flights by utilizing an FAA-approved Computer Assisted Passenger Screening (CAPS) system. This is in response to a recommendation from the White House Commission on Aviation Safety and Security (The Commission) "Final Report to President Clinton." The Commission recommended that one of the steps that should be taken to improve airline passenger security is the implementation by the FAA of a computerized system for profiling airline passengers flying out of airports located in the United States. This rulemaking is considered significant because of substantial public interest.

2332. +POLICY REGARDING AIRPORT RATES AND CHARGES

Priority: Other Significant

Legal Authority: 49 USC 47129

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: A statement of policy, Policy Regarding Airport Rates and Charges (Policy Statement), which was required by Congress as part of the DOT Authorization Act of 1994, was published in the Federal Register (61 FR 31994) on June 21, 1996. That Policy Statement announced DOT and FAA policy on the fees charged by Federally assisted airports to air carriers and other aeronautical users. This proposed action requests comments on replacement provisions for the portions of the Policy Statement vacated by the United States Court of Appeals for the District of Columbia Circuit. The Court disallowed a portion of the policy that had to do with historic cost valuation of airport property. DOT and FAA are beginning this proceeding in order to carry out their responsibility to establish reasonableness guidelines for airport fees. This policy is significant due to substantial industry interest.

2338. +CERTIFICATION PROCEDURES FOR PRODUCTS AND PARTS (SECTION 610 REVIEW)

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 42 USC 7572; 49 USC 106(g); 49 USC 40101; 49 USC 40103; 49 USC 40109; 49 USC 40113; 49 USC 44110; 49 USC 44502; 49 USC 44701; 49 USC 44702; 49 USC 44709; 49 USC 44711; 49 USC 44713; 49 USC 44715

CFR Citation: 14 CFR 21

Legal Deadline: None

Abstract: The FAA intends to conduct a 610 review (a review under section 610 of the Regulatory Flexibility Act) of this part and RIN 2120-AG93 has been added to the Agenda to reflect this review. The FAA carries out its responsibility to promote safety of flight of civil aircraft in air commerce by prescribing minimum standards governing the design and construction of aircraft, aircraft engines and propellers and appliances as may be required in the interest of safety. The FAA has established procedural requirements in 14 CFR part 21 for the issuance of the following certificates and approvals: (1) type certificates and changes to type certificates; (2) production certificates; (3) airworthiness certificates; (4) export airworthiness certificates and approvals; and (5) approvals of certain materials, parts processes and appliances produced for sale or installation on a type certificated product. Also contained in this part are the rules governing the holders of certificates. In order to be issued a type certificate, the applicant must show that the product complies with the airworthiness standards for the product (aircraft, aircraft engine, or propeller). The airworthiness standards are amended as needed to reflect continually changing technology, correct design deficiencies, and provide safety enhancements.

2343. SAFE DISPOSITION OF LIFE LIMITED AIRCRAFT PARTS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 106(g); 49 USC 40103; 49 USC 44109; 49 USC 40113 to 40114; 49 USC 44101 to 44105; 49 USC 44107 to 44108; 49 USC 44110 to 44111; 49 USC 44504; 49 USC 44701; 49 USC 44703; 49 USC 44705; 49 USC 45302 to 45303; 49 USC 46104; 49 USC 46304; 49 USC 46306; 49 USC 47122

CFR Citation: 14 CFR 43; 14 CFR 45

Legal Deadline: None

Abstract: This action responds to the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century by proposing that all persons who remove any life-limited aircraft part be required to have a method to prevent the installation of that part that has reached its life limit. Current regulations do not adequately control the disposition of life-limited parts. This action would reduce the risk of life-limited parts from being used beyond their life limits. This proposal would also require that manufacturers of the parts provide marking instructions, when requested.

2344. REDUCED VERTICAL SEPARATION MINIMUM IN THE WEST ATLANTIC ROUTE SYSTEM AIRSPACE

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 106(g); 49 USC 40103; 49 USC 40113; 49 USC 40120; 49 USC 44101; 49 USC 44111; 49 USC 44701; 49 USC 44709; 49 USC 44711; 49 USC 44712; 49 USC 44715; 49 USC 44716; 49 USC 44717; 49 USC 44722; 49 USC 46306; 49 USC 46315; 49 USC 46316; 49 USC 46502; 49 USC 46504; 49 USC 46506 to 46507; 49 USC 47122; 49 USC 47508; 49 USC 47528 to 47531

CFR Citation: 14 CFR 91

Legal Deadline: None

Abstract: This action proposes to amend airspace rules where Reduced Vertical Separation Minimum (RVSM) may be applied to include the West Atlantic Route System (WATRS) airspace. RVSM is the reduction of the vertical separation of aircraft from 2,000 feet to 1,000 feet at flight levels (FLs) between FL 290 (29,000 feet) and FL 410 (41,000 feet). RVSM is applied only between aircraft that meet stringent altimeter and autopilot performance requirements. RVSM is currently applied in North Atlantic (NAT) Minimum Navigation Performance Specifications (MNPS) and Pacific airspace.

2345. ALCOHOL AND ANTIDRUG MISUSE PREVENTION PROGRAM FOR PERSONNEL ENGAGED IN SPECIFIED AVIATION ACTIVITIES

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 106(g); 49 USC 40113; 49 USC 40119; 49 USC 44101; 49 USC 44701 to 44702; 49 USC 44705; 49 USC 44709 to 44711; 49 USC 44713; 49 USC 44716 to 44717; 49 USC 44722; 49 USC 44901; 49 USC 44903 to 44904; 49 USC 44912; 49 USC 46105; 49 USC 46301

CFR Citation: 14 CFR 121

Legal Deadline: None

Abstract: This action proposes to eliminate the need for approval by FAA of antidrug program and alcohol misuse prevention program plans and delete periodic drug testing requirement, and change the pre-employment testing requirements to require pre-hire rather than preemployment drug testing. This proposal will also make other minor or terminological changes to the regulations. The FAA believes that changing or eliminating these requirements would not compromise safety and would lessen a burden on the regulated public.

2347. SECURITY CONTROL OF AIR TRAFFIC

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 106(g); 49 USC 40101; 49 USC 40103; 49 USC 40106; 49 USC 40113; 49 USC 40120; 49 USC 44502; 49 USC 44721

CFR Citation: 14 CFR 99

Legal Deadline: None

Abstract: This action modifies regulations governing security control of air traffic. Specifically, this action revises the boundaries of the contiguous United States and Alaska air defense identification zones and amends flight plan and communications requirements for those pilots planning flight into, within, or out of any of these zones. This action conforms FAA regulations with Presidential Proclamation No. 5928, supports the Department of Defense in accomplishing its National defense and drug interdiction missions, and assists law enforcement agencies in their efforts to stop the transportation of illegal drugs by aircraft.

2356. AIRWORTHINESS DIRE

Priority: Routine and Frequen

Legal Authority: 49 USC 106 USC 40113; 49 USC 44701

CFR Citation: 14 CFR 39

Legal Deadline: None

Abstract: The FAA issues type certificates for "products," which are aircraft, engines, propellers, and some appliances. The FAA issues a regulation called an "Airworthiness Directive" (AD) to address an unsafe condition in a type certificated product, if that unsafe condition is likely to exist or develop in products of the same type design. Part 39 of title 14 requires each operator of a product affected by an AD to comply with the terms of the AD, in order to operate that product; the AD may mandate operational limitations, maintenance, or alterations for the affected product. The vast majority of routine and frequent Airworthiness Directives are nonsignificant. Total actions expected-650. 10/00/2001 to 10/00/2002.

2357. STANDARD INSTRUMENT APPROACH PROCEDURES; MISCELLANEOUS AMENDMENTS

Priority: Routine and Frequent

Legal Authority: 49 USC 40103; 49 USC 40106; 49 USC 40113 to 40114; 49 USC 40120; 49 USC 44502; 49 USC 44514; 49 USC 44701; 49 USC 44719; 49 USC 44721 to 44722; 49 USC 106(g)

CFR Citation: 14 CFR 97

Legal Deadline: None

Abstract: Standard Instrument Approach Procedures (SIAP) provide for instrument letdown to airports in the United States. They are a nonsignificant body of regulations that are complex and technical in nature and require routine and frequent rulemaking to maintain efficiency. The FAA issues, revises, and cancels SIAPs by adopting amendments that are incorporated into 14 CFR part 97. Contemporaneously with publication in the Federal Register, the SIAPs are made available to the Aeronautical Charting and Cartography Office in the FAA and other publishers of aeronautical charts where they are published as approach procedure charts or "approach plates." These charts are made available to the members of the aviation community for use by pilots in making instrument approaches. Total actions expected—2,500. 10/00/2001 - 10/00/2002.

2359. LOW FUEL QUANTITY ALERTING SYSTEM

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 106(g); 49 USC 40113; 49 USC 44701 to 44702; 49 USC 44704

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This action would amend the airworthiness standards for transport category airplanes to require a means to alert the flight crew of potentially unsafe low fuel quantities. There have been several fuel depletion incidents involving loss of power or thrust on all engines that could have resulted in forced landings and injury or loss of life. Most of these incidents resulted from improper fuel management techniques. This proposed amendment would require new transport category airplane designs to incorporate a low fuel quantity alert system that would allow for correction of certain fuel management errors or provide the flight crew the opportunity to make a safe landing prior to engine fuel starvation.

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 106(g); 49 USC 40113; 49 USC 44701 to 44702; 49 USC 44704

CFR Citation: 14 CFR 25

Legal Deadline: NPRM, Statutory, February 3, 1989.

Abstract: This preliminary action was initiated to determine the feasibility of installing, in all air carrier aircraft, crashworthy fuselage fuel tanks and fuselage fuel lines which are rupture resistant and which disconnect and seal in the event of an accident. This notice solicited public participation in identifying and selecting a regulatory course of action by inviting interested persons to submit specific comments and arguments concerning this proposed regulatory action. Originally this rulemaking was considered significant. However, because there is no substantial public interest, this rulemaking is no longer significant.

2364. TYPE CERTIFICATES FOR SOME SURPLUS AIRCRAFT OF THE ARMED FORCES

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7572; 49 USC 106(g); 49 USC 40105; 49 USC 40113; 49 USC 44701 to 44702; 49 USC 44707; 49 USC 44709; 49 USC 44711; 49 USC 44713; 49 USC 44715; 49 USC 45303

CFR Citation: 14 CFR 21

Legal Deadline: None

Abstract: Following World War II, a substantial number of surplus military airplanes were offered for sale to the public in order to meet an increased demand for civilian-use aircraft not being met by the civil aircraft industry. The current regulation permits both type and airworthiness certification for surplus military aircraft based on the particular aircraft's safety record and condition. As military aircraft have become increasingly complex and sophisticated, that practice is no longer acceptable. This action would remove the regulations for issuing type certificates for these surplus aircraft and eliminate references to obsolete standards. Surplus military aircraft would still be certificated in the normal, utility, acrobatic, commuter, transport, and restricted categories upon compliance with the applicable regulations.

2365. +AIRCRAFT GROUND DEICING AND ANTI-ICING PROGRAM

Priority: Other Significant

Legal Authority: 49 USC 106(g); 49 USC 40113; 49 USC 40119; 49 USC 44101; 49 USC 44701 to 44702; 49 USC 44705; 49 USC 44709 to 44711; 49 USC 44713; 49 USC 44716 to 44717; 49 USC 44722; 49 USC 44901; 49 USC 44903 to 44904; 49 USC 44912; 49 USC 46105

CFR Citation: 14 CFR 121

Legal Deadline: None

Abstract: This action establishes a requirement for part 121 certificate holders to develop an FAA-approved ground deicing/anti-icing program and to comply with that program any time conditions are such that frost, ice, or snow could adhere to the aircraft's wings, control surfaces, or propellers. This action is necessary because several accidents and the recent International Conference on Airplane Ground Deicing indicate that, under present procedures, the pilot in command may be unable to effectively determine whether critical airplane components are free of all frost, ice, or snow prior to attempting a takeoff. The action provides an added level of safety to flight operations in adverse weather conditions, and is considered significant because of its safety implications.

2370. +SECURITY PROGRAMS OF FOREIGN AIR CARRIERS AND FOREIGN OPERATORS OF U.S. REGISTERED AIR CARRIERS ENGAGED IN COMMON CARRIAGE

Priority: Other Significant

Legal Authority: 49 USC 106(g); 49 USC 40104 to 40105; 49 USC 40113; 49 USC 40119; 49 USC 44701 to 44702; 49 USC 44712; 49 USC 44716 to 44717; 49 USC 44722; 49 USC 44901 to 44904; 49 USC 44906

CFR Citation: 14 CFR 129

Legal Deadline: None

Abstract: As an action intended to implement the Antiterrorism and Effective Death Penalty Act of 1996 (PL 104-132, 4/14/96), the FAA is proposing to amend existing airplane operator security rules for foreign air carriers and foreign operators of U.S. registered aircraft. The proposed amendment would require the Administrator to accept a foreign air carrier's program only if the Administrator finds that the security program provides for identical security measures to those provided by U.S. air carriers serving the same airport. The proposed rule will establish the obligation to use identical security measures. The actual measures to be used will be identified through changes to the nonpublic security program of the foreign air carriers. This rule is considered significant due to substantial public interest and concern of foreign governments.

2371. +NOISE LIMITATIONS FOR AIRCRAFT OPERATIONS IN THE VICINITY OF GRAND CANYON NATIONAL PARK

Priority: Other Significant

Legal Authority: 49 USC 106(g); 49 USC 40103; 49 USC 40106; 49 USC 40109; 49 USC 40113; 49 USC 44502; 49 USC 44514; 49 USC 44701; 49 USC 44719; 49 USC 46301

CFR Citation: 14 CFR 93

Legal Deadline: None

Abstract: This rulemaking will establish noise limitations for certain aircraft operated in the vicinity of Grand Canyon National Park. This action is one part of an overall strategy to reduce further the impact of aircraft noise on the park environment and to assist the National Park Service (NPS) in achieving its statutory mandate imposed by Public Law 100-91 to provide for the substantial restoration of natural quiet and experience in Grand Canyon National Park. The supplemental amendment removes two sections from the December 31, 1996, notice of proposed rulemaking (NPRM) that proposed to establish a corridor through the National Canyon area as an incentive route for quiet technology aircraft. The FAA and NPS have determined not to proceed with an air tour route in the vicinity of National Canyon and are presently considering alternatives to this route. This rulemaking is significant because of substantial public interest.

2372. +PROHIBITION OF THE TRANSPORTATION OF DEVICES DESIGNED AS CHEMICAL GENERATORS AS CARGO IN AIRCRAFT

Priority: Other Significant

Legal Authority: 49 USC 106(g); 49 USC 40113; 49 USC 40119; 49 USC 44101; 49 USC 44701 to 44702; 49 USC 44705; 49 USC 44709 to 44711; 49 USC 44713; 49 USC 44716; 49 USC 44722; 49 USC 46301

CFR Citation: 14 CFR 121; 14 CFR 125; 14 CFR 135

Legal Deadline: None

Abstract: This rulemaking proposes to ban the transportation of devices designed to chemically generate oxygen in certain aircraft, with limited exceptions. This proposed ban applies to newly manufactured chemical oxygen generators that have never been filled with chemicals. It would also apply to devices designated as chemical oxygen generators that have been discharged (spent) or that are past their expiration dates. The FAA believes that newly manufactured chemical oxygen generators might be manufactured in

UMI
VOL
66
ISS
232
DE
3
2001
UMI

DOT—FAA

Long-Term

one location and transported to another location to be filled. This could lead to human factors errors in determining whether the device designed as a chemical oxygen generator is actually empty.

In a final rule effective March 1, 2000, the Research and Special Programs Administration (RSPA) prohibited the transportation on an aircraft of a "spent" chemical oxygen generator, i.e., a generator whose means of ignition and all or a part of its chemical contents have been expended. (See RIN 2137-AC92)

This rulemaking is considered significant because of substantial public interest.

2373. +REVISED STANDARDS FOR CARGO OR BAGGAGE COMPARTMENTS IN TRANSPORT CATEGORY AIRPLANES

Priority: Other Significant

Legal Authority: 49 USC 44715 to 44717; 49 USC 106(g); 49 USC 40113; 49 USC 44701 to 44702; 49 USC 44704; 49 USC 44705; 49 USC 44711 to 44713

CFR Citation: 14 CFR 25; 14 CFR 121; 14 CFR 135

Legal Deadline: None

Abstract: This action upgrades the fire safety standards for cargo or baggage compartments in certain transport category airplanes by eliminating Class D compartments altogether. Compartments that could no longer be designated as Class D would have to meet the standards for Class C or Class E compartments, as applicable. Certain other transport category airplanes that would not have to meet these new standards for type certification would have to meet them for use in air carrier, commuter, on-demand, or commercial service. These improved standards are needed to increase protection possible in-flight fires. This r is considered significant beca safety implications.

2374. AIRWORTHINESS STANDARDS; CRASH-RESISTANT FUEL SYSTEMS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 106(g); 49 USC 40113; 40 USC 44701 to 44702; 49 USC 44704

CFR Citation: 14 CFR 23

Legal Deadline: None

Abstract: This action would have made changes to the airworthiness standards to improve the crash resistance of fuel systems on normal, utility, acrobatic, and commuter category airplanes. The changes would have improved crash resistance of these systems by limiting fuel spillage near ignition sources and thus provide additional time for the survivors of an impact to evacuate the airplane. The FAA has withdrawn the NPRM. As a result of the comments received, the FAA completed a revised economic evaluation of these safety recommendations and has concluded that the costs of the proposed changes are not justified by the potential benefits.

CFR Citation: 14 CFR 91; 14 CFR 121; 14 CFR 135; 14 CFR 145

Legal Deadline: None

Abstract: This action updates and revises the regulations for repair stations. This action is necessary because many portions of the current repair station regulations do not reflect technical advances in aircraft maintenance practices or aircraft technology. These revisions reorganize the repair station rules to reduce duplication of regulatory language and eliminate obsolete information. This action also removes the appendix to the repair station regulations that sets forth the job functions and equipment requirements for repair stations. This rulemaking is considered significant because of substantial public interest.

CFR Citation: 14 CFR 91

Legal Deadline: Final, Statutory, September 30, 1989.

Abstract: The FAA is withdrawing a previously published Advance Notice of Proposed Rulemaking (ANPRM) that proposed to establish minimum standards under which a radio navigation system may be certified as the sole radio navigation system required in an aircraft conducting Instrument Flight Rules en route and terminal area operations, including nonprecision approach, in controlled airspace of the United States. This rulemaking was considered to be significant because of a congressional mandate. However, the provision was repealed in 1994 as part of the recodification of title 49. The provision was originally enacted as section 310(c) in FAA's 1987 Reauthorization bill, Pub. L. No. 100-123.

2377. REVISION OF HYDRAULICS SYSTEMS AIRWORTHINESS STANDARDS TO HARMONIZE WITH EUROPEAN AIRWORTHINESS STANDARDS FOR TRANSPORT CATEGORY AIRPLANES

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 106(g); 49 USC 40113; 49 USC 44701 to 44702; 49 USC 44704

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This final rule amends the airworthiness standards for transport category airplanes to harmonize hydraulic systems design and test requirements with standards proposed for the European Joint Aviation Requirements. These actions were developed in cooperation with the Joint Aviation Authorities of Europe and the US and European aviation industries through the Aviation Rulemaking Advisory Committee (ARAC). These changes are intended to benefit the public interest by standardizing certain requirements, concepts, and procedures contained in the airworthiness standards without reducing and potentially enhancing the current level of safety.

CFR Citation: 14 CFR 77; 14 CFR 187

Legal Deadline: None

Abstract: Pursuant to the 1996 FAA Reauthorization Act, the FAA is issuing another interim rule to establish fees and collection procedures for FAA air traffic and related services provided to certain aircraft that transit U.S.-controlled airspace but neither take off from, nor land in, the United States. Previously, the FAA issued an interim final rule that was remanded back to FAA by the United States Court of Appeals for the District of Columbia. That interim final rule was withdrawn by the final rule issued on July 24, 1998. The new interim final rule complies with the Court's decision. This action is significant because of substantial public and congressional interest.

2381. +TRANSPORT AIRPLANE FLEET FUEL TANK IGNITION SOURCE REVIEW; FLAMMABILITY REDUCTION, AND MAINTENANCE AND INSPECTION REQUIREMENTS

Priority: Other Significant

Legal Authority: 42 USC 7572; 49 USC 106(g); 49 USC 40105; 49 USC 40113; 49 USC 44701 to 44702; 49 USC 44707; 49 USC 44709; 49 USC 44711; 49 USC 44713; 49 USC 44715; 49 USC 45303

CFR Citation: 14 CFR 21

Legal Deadline: None

Abstract: This action will require type certificate holders of certain turbojet and turbofan-powered transport category airplanes to conduct a design review of fuel tank systems and develop fuel system inspection and maintenance instructions. It will also allow a certificate holder to submit documentation that the type design of the fuel system of a previously certificated airplane precludes existence of ignition sources within the airplane's fuel tanks. This action is significant because of substantial public interest in the prevention of fire and explosion in airplane fuel tanks.

2389. HIGHWAY BEAUTIFICATION

Priority: Substantive, Nonsignificant

Legal Authority: 23 USC 131; 23 USC 315; 49 USC 1651

CFR Citation: 23 CFR 750

Legal Deadline: None

Abstract: The revision of these subparts will reduce their complexity, recognize the existence of State laws, regulations, and organizations implementing 23 USC 131, and emphasize the position of the State as the initial, primary, and principal focal point regarding the requirement of effective control. Potential costs should be reduced, albeit minimally. The principal benefit will be to give the States greater ability, in the context of the broad requirements of 23 USC 131, to respond to concepts and issues relevant to the States. We have been reviewing these regulations with the intent to focus on changes necessitated by ISTEA and subsequent legislation (NHS Act, etc.).

We have initiated research projects to identify key information States need to administer their outdoor advertising control (OAC) programs. We will evaluate that study and incorporate the results in our proposed ANPRM.

2390. WORK ZONE SAFETY

Priority: Substantive, Nonsignificant

Legal Authority: 23 USC 105; 23 USC 106; 23 USC 109; 23 USC 110; 23 USC 115; 23 USC 315; 23 USC 320; PL 102-240, sec 1051; PL 104-59, sec 358

CFR Citation: 23 CFR 636; 23 CFR 1.32; 49 CFR 1.48; 23 CFR 630

Legal Deadline: None

Abstract: The FHWA is proposing to amend its regulations on traffic safety and mobility in highway and street work zones. Section 1051 of the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) required the Secretary of Transportation (Secretary) to develop and implement a highway work zone safety program which would improve work zone safety at highway construction sites. This provision of ISTEA was implemented through non-regulatory action.

A notice published in the Federal Register on October 24, 1995 (60 FR 54562) provided an outline of the work zone safety initiative.

The current proposed regulatory action will further enhance the work zone safety initiative by expanding its focus to include both safety and mobility. The proposed action will incorporate the use of new work zone techniques

CFR Citation: 23 CFR 650; 23 CFR 1.32; 49 CFR 1.48(b)

Legal Deadline: None

Abstract: The FHWA is seeking comments regarding improvements that can be made to its regulation outlining the highway bridge replacement and rehabilitation program. In addition, the FHWA is considering the inclusion and/or modification of existing policies so that they provide the flexibility necessary for the State and local governments to better manage their bridge assets. Accordingly, the FHWA intends to publish an advanced notice of proposed rulemaking.

The FHWA is also considering proposed revisions to the discretionary bridge program rating factor, which will be addressed in a separate rulemaking action.

2393. CERTIFICATION OF SIZE AND WEIGHT ENFORCEMENT

Priority: Substantive, Nonsignificant

Legal Authority: 23 USC 127; 23 USC 141; 23 USC 315

CFR Citation: 23 CFR 657

Legal Deadline: None

Abstract: The FHWA has resumed consideration of changes in the guidance provided to State agencies for preparing the annual size and weight enforcement certifications. Previous efforts in this area were suspended by the agency in 1994 as a result of a commitment by the Federal Highway Administrator to Congress in June 1994 to conduct a comprehensive study of all aspects of the truck size and weight issue. That study is nearly completed. Accordingly, public comment is again requested on the type of information and data that should be submitted by the States in support of their annual certification of enforcement, and how the FHWA should use the information.

Legal Deadline: None

Abstract: The FHWA is proposing to revise the existing regulations that prescribe policies and procedures for advancing the construction of Federal-aid highway projects without obligating Federal funds apportioned or allocated to the States. These regulations should be revised to conform to changes made to title 23, United States Code, by technical amendments in the Transportation Equity Act of the 21st Century (TEA-21), Pub. L. 105-178, and changes made by the National Highway System Designation Act of 1995 (NHS), Pub. L. 104-59.

2395. NATIONAL STANDARDS FOR TRAFFIC CONTROL DEVICES; MUTCD; MINIMUM RETROREFLECTIVITY REQUIREMENTS FOR TRAFFIC SIGNS

Priority: Substantive, Nonsignificant

Legal Authority: 23 USC 101; 23 USC 104; 23 USC 105; 23 USC 109(d); 23 USC 114(a); 23 USC 135; 23 USC 217; 23 USC 307; 23 USC 315; 23 USC 402(a); PL 102-388

CFR Citation: 23 CFR 1.32; 49 CFR 1.48

Legal Deadline: None

Abstract: This notice of proposed amendment is intended to revise the MUTCD to include a standard for a minimum level of retroreflectivity that must be maintained for traffic signs. This minimum level is to ensure that highway users can detect and read the sign during nighttime conditions. Although the MUTCD states that regulatory and warning signs, and some guide signs, need to reflectorize, no level of retroreflectivity is specified. In recognition of this situation, the United States Congress directed the U.S. Department of Transportation, through the 1993 Department of Transportation Appropriations Act, to revise the MUTCD to include a standard for minimum levels of retroreflectivity that must be maintained.

2396. +FEDERAL LANDS HIGHWAY PROGRAM; MANAGEMENT SYSTEMS PERTAINING TO THE NATIONAL PARK SERVICE, INCLUDING THE PARK ROADS AND PARKWAYS PROGRAM

Priority: Other Significant

Legal Authority: 23 USC 134; 23 USC 135; 23 USC 204; 23 USC 315; PL 105-178

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: The FHWA was delegated the authority to serve as the lead agency to develop transportation planning procedures pertaining to the National Park Service, the Forest Service, the Fish and Wildlife Service and the Bureau of Indian Affairs that are consistent with the metropolitan and statewide transportation planning processes. The FHWA and the appropriate Federal land management agencies are also given the authority to develop safety, bridge, pavement, and congestion management systems for roads funded under the Federal lands highways program (FLHP). The roads funded under the FLHP include park roads and parkways, forest highways, refuge roads and Indian reservation roads.

The FHWA sought public comment on four related ANPRMs that were published on September 1, 1999. The comment period closed on November 1, 1999. Six organizations provided comments on the ANPRM pertaining to the National Park Service (NPS) and the park roads and parkways program. The comments generally supported the development of a separate rule for each agency including one for the NPS. In an NPRM, the FHWA will seek public comment on a proposed rule to implement section 1115(d) of the Transportation Equity Act for the 21st Century (TEA-21) implementing safety, bridge, pavement, and congestion management systems developed by FHWA's Federal Lands Highway program office in consultation with the NPS. The NPRM is designated as significant under E.O. 12866 and the DOT regulatory policies and procedures because of the high level of interagency interest in the notices and involved program. The transportation planning procedures will be addressed in a separate NPRM.

2401. +DESIGN-BUILD CONTRACTING

Priority: Other Significant

Legal Authority: PL 105-178, sec 1307(c); 23 USC 112

CFR Citation: 23 CFR 635

Legal Deadline: Final, Statutory, June 9, 2001.

Abstract: The FHWA proposes to revise its regulations to implement design-build contracting as mandated by Section 1307(c) of the Transportation Equity Act for the 21st Century (TEA-21), enacted on June 9, 1998. TEA-21 requires the Secretary of Transportation to issue regulations to allow design-build contracting for selected projects. The regulations would list the criteria and procedures that will be used by the FHWA in approving the use of design-build contracting by State Transportation Departments (STDs). The regulation would not require the use of design-build contracting but rather would allow it as an optional technique in addition to traditional contracting methods.

The FHWA is soliciting comments on its proposed regulation which would establish prescribed policies and procedures for utilizing the design-build contracting technique for Federal-aid highway projects. This action is significant because of the substantial State and industry interest in the design-build contracting technique.

2404. LANDSCAPE DEVELOPMENT

Priority: Substantive, Nonsignificant

Legal Authority: EO 13148; EO 13112

CFR Citation: 23 CFR 752

Legal Deadline: None

Abstract: This action, which would change the current regulation at 23 CFR 752.4, Landscape Development, is necessary to clarify and reflect FHWA policy change for the improvement of landscaping best management practices. Specifically, two recent Executive orders, E.O. 13148 and E.O. 13112, call for the improvement of Federal landscape development programs and practice. E.O. 13148 encourages the use of native plants as much as practicable. E.O. 13112 warns against the planting of known exotic and invasive plants.

Proposed Rule Stage

CFR Citation: 23 CFR 625; 49 CFR 1.48(b); 49 CFR 1.48(n)

Legal Deadline: None

Abstract: The standards, policies, and standard specifications that have been adopted by the Federal Highway Administration (FHWA) for application on all construction and reconstruction projects on the National Highway System (NHS) are incorporated by reference in 23 CFR 625. The current document specified in paragraph 625.4(a)(1) is "A Policy on Geometric Design of Highways and Streets 1994, AASHTO" (Policy).

AASHTO recently revised the Policy and published the 2001 edition which FHWA proposes to adopt as its policy for design standards for all construction and reconstruction projects on the NHS. The primary reason for development of the new document is to incorporate the results of research since 1994.

2407. • DROMEDARY BOX TRUCK TRACTOR-SEMITRAILERS; SPECIALIZED EQUIPMENT AND WIDTH EXCLUSION

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 31111; 49 USC 31113

CFR Citation: 23 CFR 658

Legal Deadline: None

Abstract: This action responds to two unique requests with respect to the exclusion of certain devices from established truck length and width requirements.

The FHWA has received a petition from the Department of the Army to include as specialized equipment, dromedary box equipped truck tractor-semitrailers when used to haul Class I explosives for the Department of Defense and establishes a minimum overall length limit of 75 feet for these combinations. Also proposed is an increase from 3 to 4 inches of the distance from the side of a commercial vehicle within which non-cargo carrying devices are excluded from vehicle width measurement.

In a separate matter, the Senate Committee on Appropriations has requested the FHWA consider a special allowance, within reasonable safety limitations, concerning the commercial movement of recreational vehicles (RVs) with incidental appurtenances, such as retractable awnings, that extend beyond current Federal width limitations. A number of States have enacted laws that allow incidental appurtenances on noncommercial RVs to exceed State width limitations.

The FHWA intends to issue a notice of proposed rulemaking inviting public comment and addressing all aspects of these proposed special exclusions.

2410. RAILROAD HIGHWAY PROJECTS

Priority: Substantive, Nonsignificant

Legal Authority: 23 USC 315; 23 USC 109(e); 23 USC 120(c); 23 USC 130

CFR Citation: 23 CFR 140; 23 CFR 646

Legal Deadline: None

Abstract: The FHWA amends its regulations on railroad highway projects. The amendments now require railroads to submit final billings within one year following completion of work, delete the requirements of a State's certification that work was completed, increase the ceiling for lump sum agreements from $25,000 to $100,000 and incorporate changes brought about by ISTEA. The FHWA believes these changes will conform railroad/highway regulations to more recent laws or regulations, and provide State highway agencies clarification and more flexibility in implementing them.

DOT—FHWA

Final Rule Stage

Legal Deadline: None

Abstract: In this action, the FHWA amends its regulation for engineering services by removing a sentence that defined expenditures for the establishment, maintenance, general administration, supervision, and other overhead of the State highway department, or other instrumentality or entity referred to in the regulation, as ineligible for Federal participation.

This amendment to the regulation stems from a provision in the Transportation Equity Act for the 21st Century (TEA-21) that changed statutory requirements to allow for eligibility of administrative costs for State transportation departments.

2415. NATIONAL STANDARDS FOR TRAFFIC CONTROL DEVICES; MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES; ACCESSIBLE PEDESTRIAN SIGNALS

Priority: Substantive, Nonsignificant

Legal Authority: 23 USC 101(a); 23 USC 104; 23 USC 109(d); 23 USC 114(a); 23 USC 217; 23 USC 315; 23 USC 402(a); ...

CFR Citation: 23 CFR 655

Legal Deadline: None

Abstract: The FHWA, in response to comment, amends the 2000 Millennium Edition of the Manual on Uniform Traffic Control Devices (MUTCD) that became effective on January 17, 2001. Section 4E.06 of the MUTCD relates to accessible pedestrian signals. Upon publication of the Millennium Edition, the FHWA was advised that the support and guidance statements relative to evaluation of signalized intersections to accommodate persons with visual disabilities did not adequately address the needs of such persons. Accordingly, the FHWA revises these support and guidance statements.

2416. FEDERAL-AID HIGHWAY SYSTEMS

Priority: Substantive, Nonsignificant

Legal Authority: 23 USC 103(b); 23 USC 103(c); 23 USC 315

CFR Citation: 23 CFR 470

Legal Deadline: None

Abstract: This regulatory action amends 23 CFR 470 in accordance with legislation enacted in 1991, 1995, and 1998. The Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) rescinded the Federal-aid Primary and Secondary and Urban Systems; established an interim National Highway System (NHS); and defined Federal-aid highways. The NHS Designation Act of 1995 (NHS Act) authorized the initial National Highway System and also authorized the Secretary to approve modifications. The Transportation Equity Act for the 21st Century (TEA-21) authorized the initial NHS connectors to major intermodal terminals and recodified 23 U.S.C. 103 (Federal-aid systems). The action also consolidates in appendices all nonregulatory guidance material issued previously by the FHWA on Federal-aid highway systems.

2417. INDIAN RESERVATION ROAD BRIDGE PROGRAM

Priority: Substantive, Nonsignificant

Legal Authority: 23 USC 120(j) and (k); 23 USC 202; 23 USC 315; PL 105-178, sec 1115; 49 CFR 1.48

CFR Citation: 23 CFR 661

Legal Deadline: None

Abstract: Section 1115 of the Transportation Equity Act for the 21st Century establishes a nationwide priority program for improving deficient Indian reservation road (IRR) bridges and reserves $13 million of IRR funds per year to replace and rehabilitate bridges that are in poor condition. The FHWA, Federal Lands Highway Office(FLH), and the Bureau of Indian Affairs, Division of Transportation (BIADOT), intend to implement the IRR bridge program (IRRBP) to promptly address the deficient IRR bridges. Toward that end, the FLH and the BIADOT, in consultation with Indian tribal governments, have developed project selection/fund allocation procedures for uniform application of the legislation. The FHWA is announcing the project selection/fund allocation procedures for the IRRBP.

CFR Citation: 23 CFR 450; 49 CFR 613; 49 CFR 1.48(b); 49 CFR 1.51

Legal Deadline: None

Abstract: In this action, the FHWA and the FTA are jointly proposing to revise the regulations governing the development of transportation plans and programs for urbanized (metropolitan) areas and States. These revisions are the product of statutory changes made by the Transportation Equity Act for the 21st Century (TEA-21), which requires a continuous, comprehensive and coordinated process in metropolitan areas and States. The regulation at 23 CFR part 450 would be modified to reflect the impacts of the TEA-21.

Priority: Substantive, Nonsignifican

Legal Authority: 23 USC 307; 23 U 315; 23 USC 502 note; PL 102-240, 6055(b); PL 105-178, sec. 5206(e)

CFR Citation: 23 CFR 1001; 49 CFR 1.48

Legal Deadline: None

Abstract: The FHWA proposes to amend its regulations to require the of Dedicated Short Range Communications (DSRC) Standards ITS commercial vehicle projects usi Federal funds. DSRC Systems use microwave communications over ve short distances to allow moving vehicles to communicate with fixed roadside locations. In commercial motor vehicle applications, DSRC devices can transfer information regarding vehicle safety, performan regulatory compliance and credenti from the vehicle to inspection stati

The use of DSRC standards would promote interoperability among, an enable integration of ITS systems fo North American commercial vehicl applications, such as electronic clearance, automated weight station and border crossings. Interoperabili would also encourage institutional integration and cooperation.

CFR Citation: 23 CFR 530; 23 CFR 540

Legal Deadline: None

Abstract: The Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA), issued an NPRM proposing to update and revise the National Environmental Policy Act implementing regulation for FHWA and FTA funded or approved projects. The current regulations were issued in 1987 (23 CFR part 771, August 28, 1987) and experience since that time, as well as changes in legislation, most recently by the Transportation Equity Act for the 21st Century (TEA-21), call for an updated approach to implementation of NEPA for FHWA and FTA projects and actions.

The FTA and the FHWA received numerous comments to the docket in response to this NPRM. The agencies are currently reviewing these comments to determine what action should follow.

2421. PROCEDURES FOR ABATEMENT OF HIGHWAY TRAFFIC NOISE AND CONSTRUCTION NOISE

Priority: Substantive, Nonsignificant

Unfunded Mandates: Undetermined

Legal Authority: 23 USC 109(h); 23 USC 109(i); 42 USC 4331; 42 USC 4332

CFR Citation: 23 CFR 772; 49 CFR 1.48(b)

Legal Deadline: None

Abstract: The FHWA is requesting comments on whether its regulations on noise insulation of private residences should be revised to allow Federal participation when a traffic noise impact occurs, i.e., when predicted traffic noise levels substantially exceed the existing noise levels. Currently, Federal participation in the noise insulation of private residences is allowable only in situations where: Severe traffic noise impacts exist or are expected, and normal noise abatement measures are physically infeasible or economically unreasonable. In these instances, the FHWA may approve a State's request for unusual or extraordinary abatement measures on a case-by-case basis.

When considering extraordinary abatement measures, the State must demonstrate that the affected activities experience traffic noise impacts to a far greater degree than other similar activities adjacent to highway facilities.

2422. FEDERAL-AID PROJECT AGREEMENT

Priority: Substantive, Nonsignificant

Legal Authority: 23 USC 106(a); 23 USC 102(b); sec. 1304, PL 105-178; sec. 1305, PL 105-178; 23 USC 106; 23 USC 109; 23 USC 115; 23 USC 315; 23 USC 320; 23 USC 402(a)

CFR Citation: 23 CFR 630; 23 CFR 1.32; 49 CFR 1.48(b)

Legal Deadline: None

Abstract: In this action, the FHWA combined its regulation on Federal-aid project authorization and its regulation on project agreements. Section 1305 of the Transportation Equity Act for the 21st Century (TEA-21) amended 23 U.S.C. 106(a) and combined authorization of work and execution of the project agreement for a Federal-aid project into a single action. Changes to the agreement provisions reflect these adjustments.

Additionally, section 1304 of the TEA-21 amended 23 U.S.C 102(b) to include a provision to allow the granting of time extensions for engineering cost reimbursement. Changes to the procedures provide this new flexibility.

CFR Citation: 49 CFR 390; 49 CFR 391; 49 CFR 392; 49 CFR 393; 49 CFR 395

Legal Deadline: Other, Statutory, December 9, 1999, PL 105-178, sec 4024 requires initiation of rulemaking by 12/9/99.

Abstract: The FMCSA is considering making the FMCSRs applicable to all interstate school transportation operations by local educational agencies. This action is in response to sec. 4024 of the Transportation Equity Act for the 21st Century (TEA-21) which mandates the FMCSA to make a determination whether to make the FMCSRs applicable to such operations. The FMCSA requests comments, data, and information to assist the agency in making this determination.

This action is considered significant because of the anticipated substantial interest by the public sector and private sector if the FMCSA expands the applicability of the FMCSRs to government operated school buses in interstate commerce.

2426. +QUALIFICATION OF DRIVERS; VISION

Priority: Other Significant

Legal Authority: 49 USC 504; 49 USC 31502

CFR Citation: 49 CFR 391

Legal Deadline: None

Abstract: As part of a review of the medical qualification standards applicable to interstate CMV drivers, the FMCSA requested comments on the need, if any, to amend its driver qualification requirements relating to the vision standard. A temporary waiver program was initiated and was concluded on March 31, 1996, to permit the FHWA to observe and collect data on the driving experience of a group of vision—deficient drivers who meet certain preconditions. Additionally, the FHWA, predecessor agency to the FMCSA, considered further research to develop comprehensive performance-based visual standards for all commercial drivers. Information about the proposed research plan and public hearing on the subject was published in the Federal Register on June 5, 1996, at 61 FR 28547. The FMCSA awarded a contract with a medical center to develop medically-based recommendations for amending the current Federal vision requirements. Recommendations were delivered in October, 1998. These recommendations are being evaluated and considered in deciding what, if any, further proposals should be made concerning the vision standard. Based on the findings of the medical panel, the FMCSA anticipates publishing an NPRM to amend its regulation governing the visual field requirement in the vision standard.

New legislation (Section 4007 of the Transportation Equity Act for the 21st Century (TEA-21), Public Law 105-178) enacted effective June 9, 1998, changes the agency's authority to issue waivers and exemptions. The procedures to implement the new authority were published in the Federal Register on December 8, 1998 (63 FR 67600). We are now considering all requests for exemptions from the vision requirements in the Federal Motor Carrier Safety Regulations.

2427. +MINIMUM TRAINING REQUIREMENTS FOR OPERATORS AND TRAINING INSTRUCTORS OF MULTIPLE TRAILER COMBINATION VEHICLES

Priority: Economically Significant. Major under 5 USC 801.

Unfunded Mandates: This action may affect the private sector under PL 104-4.

Legal Authority: PL 102-240, sec 4007(b)(2)

CFR Citation: 49 CFR 383

Legal Deadline: Final, Statutory, December 18, 1993.

Abstract: This action proposes minimum training requirements for operators of multiple trailer combination vehicles and the instructors who train these operators. The training would include certification of an operator's proficiency by an instructor who has met the requirements established by the Secretary of Transportation. This action is significant due to public interest.

2428. +TRAINING FOR ENTRY-LEVEL DRIVERS OF COMMERCIAL MOTOR VEHICLES

Priority: Other Significant

Legal Authority: PL 102-240, sec 4007

CFR Citation: 49 CFR 383

Legal Deadline: NPRM, Statutory, December 18, 1992.
Final, Statutory, December 18, 1993.

Abstract: This action is in response to section 4007 of the Motor Carrier Act of 1991 (title IV of the Intermodal Surface Transportation Efficiency Act of 1991). The Department has initiated a rulemaking on the need to require training of all entry-level drivers of commercial motor vehicles. The agency has submitted a report to Congress (02/05/96) on the effectiveness of private sector efforts to ensure adequate training of all entry-level drivers. This report included a cost-benefit study of requiring training of entry-level drivers. Public comments have been solicited on the report. This rulemaking action is considered significant because of substantial public interest.

2429. +COMMERCIAL DRIVER PHYSICAL FITNESS AS PART OF THE CDL PROCESS

Priority: Other Significant

Legal Authority: PL 106-159, sec. 215; 49 USC 31305; 49 USC 31502

CFR Citation: 49 CFR 391; 49 CFR 383; 49 CFR 1.73; 49 CFR 391.11; 49 CFR 391.45

Legal Deadline: None

Abstract: The FMCSA is proposing to include the certification of fitness to operate a CMV in the commercial driver's license (CDL) process. Incorporating the commercial driver fitness determination into State-administered CDL procedures could allow elimination of the requirement that CMV drivers carry a separate medical certificate. The CDL would be evidence that the CMV driver is physically fit as well as operationally qualified to operate CMVs safely. This action addresses the driver's physical qualifications as they relate to the CDL process; it does not address whether those standards are correct or should be changed. This action is significant due to anticipated substantial public interest.

2430. SAFETY PERFORMANCE HISTORY OF NEW DRIVERS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 508; 49 USC 31133; 49 USC 31136; 49 USC 31301 et seq; 49 USC 31502; PL 103-311

CFR Citation: 49 CFR 382; 49 CFR 383; 49 CFR 390; 49 CFR 391; 49 CFR 1.73

Legal Deadline: NPRM, Statutory, January 1999, See PL 105-178, sec 4014.

Abstract: This action proposes amending FMCSA regulations to specify minimum safety information that new or prospective employers must seek from former employers during the investigation of a driver's employment record. This action also proposes to increase the time period that carriers must record accident information in the accident register, from one to three years. The Hazardous Materials Reauthorization Act of 1994 initially mandated this revision. The agency is now drafting a supplemental notice of proposed rulemaking in response to Small Business Administration (SBA) comments to the docket and section 4014 of the Transportation Equity Act for the 21 Century (TEA-21) (Pub. L. 105-178). The SBA requested more in-depth Paperwork Reduction Act and Regulatory Flexibility Act analyses of the proposal. The TEA-21 provided limited employer protection from liability, strengthened employee due process provisions, and established new statutory deadline of 1/99.

2431. PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATIO TELEVISION RECEIVERS AND DAT DISPLAY UNITS

Priority: Substantive, Nonsignificant

Legal Authority: PL 102-240; 49 US 31136; 49 USC 31502

CFR Citation: 49 CFR 393; 49 CFR 1

Legal Deadline: None

Abstract: The predecessor agency to the FMCSA proposed to amend the provision of the Federal Motor Carri Safety Regulations (FMCSRs) concerning television viewers or screens in commercial motor vehicle The agency was concerned that the current restrictions on the locations such devices may have the unintend effect of discouraging the use of cert Intelligent Transportation System (IT technologies such as collision avoidance and traveler information systems which could improve the safety and efficiency of commercial vehicle operations. In response to comments to the April 3, 1993 notic of proposed rulemaking (61 FR 1473

to rescind the regulation concerning television viewers or screens, the FMCSA is considering an SNPRM to propose retaining an explicit prohibition against television viewers or screens but revising the regulation to ensure that it does not impede the development and use of ITS-related technologies.

2432. +MOTOR CARRIER REPLACEMENT INFORMATION REGISTRATION SYSTEM

Priority: Other Significant

Legal Authority: PL 104-88; 49 USC 13908

CFR Citation: Not Yet Determined

Legal Deadline: Final, Statutory, January 1, 1998.

Abstract: This action is in response to the requirements of section 103 of the Interstate Commerce Commission Termination Act of 1995, which added 49 USC 13908. This section requires the Secretary to initiate a rulemaking proceeding to replace the current DOT identification number system, single State registration system, the registration/licensing system, and the financial responsibility system, with a single, on-line Federal system. This action is considered significant due to substantial public interest. Statutory deadline was not met due to range and depth of issues involved.

2433. SAFETY FITNESS PROCEDURES

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 31144

CFR Citation: 49 CFR 385

Legal Deadline: None

Abstract: The FHWA, the predecessor agency to the FMCSA, published a final rule of RIN 2125-AC71 at 62 FR 60035 on November 6, 1997, which incorporated the safety fitness rating methodology (SFRM) into 49 CFR 385 as appendix B. In that document the FHWA identified its ultimate goal as creating a more performance-based means of determining the fitness of carriers to conduct commercial motor vehicle (CMV) operations in interstate commerce. The ANPRM requested comments on the future of a rating system that could be used both in making safety fitness determinations and meeting the demands of shippers, insurers and other present and potential users interested in evaluating motor carrier performance.

2434. +FEDERAL MOTOR CARRIER SAFETY REGULATIONS; ZERO-BASE REVISION

Priority: Other Significant

Legal Authority: 49 USC 113; 49 USC 501; 49 USC 504; 49 USC 13101; 49 USC 13301; 49 USC 13902; 49 USC 31101; 49 USC 31132; 49 USC 31136; 49 USC 31301; 49 USC 31502; PL 104-88

CFR Citation: 49 CFR 325; 49 CFR 393; 49 CFR 398; 49 CFR 399; 49 CFR 1.73

Legal Deadline: None

Abstract: The FMCSA is revising the Federal Motor Carrier Safety Regulations (FMCSRs) and related regulations. In 1992, a "Zero-Base Review" was launched to improve the organization, format and clarity of the FMCSRs and collateral regulations. This proposal represents the most recent phase of a "zero-based" review of motor carrier safety regulations to establish more effective, enforceable requirements. This action is the product of that review. It proposes provisions that could affect public safety and potentially raises novel policy issues concerning federalism.

The FMCSA plans to release the new rulebook in an incremental fashion to allow an ordered approach to analyzing comments. We will ensure that the final product is a unified, consistent and compatible rulebook. The completed rulebook would constitute a major rewrite of the FMCSRs, including significant format and organizational changes, as well as a significant decrease in administration, recordkeeping, and paperwork burdens. This action is significant under the regulatory policies and procedures of the DOT because of substantial public

Federalism: This action may have federalism implications as defined in EO 13132.

Additional Information: Previous rulemakings from this comprehensive effort have included removing and redesignating redundant or obsolete safety regulations (RIN 2125-AD55 and RIN 2125-AD28) and more substantive and complex revisions of the FMCSRs (RIN 2125-AD72). This action is also incorporating the issues contained in 2125-AD64.

2435. +NEW ENTRANT SAFETY ASSURANCE PROCESS

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: PL 106-159, sec 210

CFR Citation: 49 CFR 385

Legal Deadline: NPRM, Statutory, PL 106-159, sec 210.

Abstract: This action will establish minimum requirements for new entrant motor carriers to ensure that they are knowledgeable about applicable Federal motor carrier safety standards. After ensuring that they are knowledgeable, the new entrants will operate for 18 months in which time they must pass a safety review in order to receive permanent operating authority. This rule is significant because of public and congressional interest in rules required by MCSIA.

2436. RULES OF PRACTICE FOR ADMINISTRATIVE PROCEEDINGS

Priority: Substantive, Nonsignificant

Legal Authority: PL 106-159, sec 205

CFR Citation: 49 CFR 386

Legal Deadline: None

Abstract: The FMCSA proposes to adopt procedural rules in order to conduct administrative proceedings under sections 205, 206 and 219 of the Motor Carrier Safety Improvement Act of 1999 (MCSIA). These sections provide for the suspension and revocation of motor carrier registrations issued under 49 U.S.C. 13902, the issuance of cessation of operation orders, and disqualifications from operation orders issued against Mexican motor carriers. On February 16, 2000, the FMCSA issued a final rule amending the Rules of Practice to include violations of commercial regulations. However, this modification to the administrative rules applied only to civil penalty proceedings.

The FMCSA believes that specific procedures should be established to provide guidance to the public and provide adequate notice and information to the respondents in other administrative proceedings. The FMCSA proposes to establish a modified procedure which would resolve most proceedings based upon written submissions. Grounds for requesting an oral hearing would be delineated and an appeal process would be established. The FMCSA will also propose the creation of specific "Administrator Orders" designed to implement the new enforcement provisions of the MCSIA. Effective on 04/16/2001, a final rule implements section 206 of MCSIA by amending the penalty provisions of the rules of practice of the FMCSRs.

CFR Citation: 49 CFR 301; 49 CFR 302; 49 CFR 303; 49 CFR 304; 49 CFR 385; 49 CFR 386

Legal Deadline: None

Abstract: The FMCSA proposes to amend its rules of practice for motor carrier safety, hazardous materials, and other enforcement proceedings, motor carrier safety ratings, driver qualification proceedings and its schedule of penalties for violations of the FMCSRs and the Hazardous Materials Regulations. The FMCSA further proposes to add provisions on investigative authority and procedures and general motor carrier responsibilities. These rules would increase the efficiency of the procedures, enhance due process and the awareness of the public and regulated community, and accommodate recent programmatic changes. The rules would apply to all motor carriers, other business entities and individuals involved in motor carrier safety and hazardous materials administrative actions on the effective date of the final rule. The rules would constitute the major part of the administrative/procedural portion of the agency's zero-base revision of the entire FMCSRs. This action is being incorporated into 2126-AA39, "Federal Motor Carrier Safety Regulations; Zero-Base Revision".

Abstract: The FMCSA is proposing amendments to its regulations concerning cargo securement requirements for commercial motor vehicles engaged in interstate commerce. The FMCSA intends to consider adopting new cargo securement guidelines that will be based upon the results of a multi-year comprehensive research program to evaluate current regulations and industry practices. The FMCSA has requested comments on the process to be used in developing these preliminary cargo securement guidelines. The FMCSA completed work on this research program with the Canadian Council of Motor Transport Administrators (CCMTA), State and Provincial agencies responsible for motor carrier safety activities, the Commercial Vehicle Safety Alliance (CVSA), and U.S. and Canadian industry groups.

DOT—FMCSA

Final Rule Stage

CFR Citation: 49 CFR 395; 49 CFR 396; 49 CFR 1.73

Legal Deadline: None

Abstract: This action seeks public comment on the "North American Uniform Out-of-Service Criteria" (OOS Criteria). During roadside inspections, Federal, State, and local safety inspectors use the OOS Criteria as a guide in determining whether to place commercial motor vehicles (CMVs), or their drivers, "out of service." Such a status means that the CMVs or drivers are so unsafe that corrections must be undertaken before operations can resume. The FHWA is seeking public comment on the future scope and effect of the OOS Criteria, which are not part of the Federal Motor Carrier Safety Regulations (FMCSRs). In addition, the FMCSA is seeking information regarding whether it needs to formalize these guidelines pursuant to a notice and comment rulemaking.

2446. FEDERAL MOTOR CARRIER SAFETY REGULATIONS; WAIVERS, EXEMPTIONS, AND PILOT PROGRAMS; RULES AND PROCEDURES

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 31315; PL 105-178, sec 4007

CFR Citation: 49 CFR 381

Legal Deadline: Final, Statutory, December 9, 1998.

Abstract: The FMCSA is adopting regulations to implement section 4007 of the Transportation Equity Act for the 21st Century (TEA-21), concerning waivers and exemptions from the Federal Motor Carrier Safety Regulations (FMCSRs), and the Administration of pilot programs to evaluate innovative alternatives to the regulations. The regulations establish the procedures persons must follow to request waivers and to apply for exemptions from the FMCSRs, and the procedures the FMCSA will use to process the requests for waivers and applications for exemptions. The regulations also codify statutory requirements concerning the agency's administration of pilot programs. This rulemaking is intended to provide procedures to ensure the timely processing of requests for waivers and applications for exemptions, and public disclosure of the procedures the agency would use in initiating and managing pilot programs. The FHWA, the predecessor agency to the FMCSA has issued an interim final rule, with an opportunity for public comment after publication in order to meet the statutory deadline for issuance of a final rule (180 days after date of enactment of TEA-21).

Legal Deadline: None

Abstract: The FMCSA is proposing to amend the Federal Motor Carrier Safety Regulations (FMSCRs) to establish pass/fail criteria for use with performance based brake testers (PBBTs), which measure the braking performance of commercial motor vehicles (CMVs). The specific types of PBBTs addressed in this action are the roller dynamometer, breakaway torque tester, and flat-plate tester. This proposal would allow State and local enforcement officials to issue citations based on PBBT braking force measurements.

DOT—FMCSA

Final Rule

Legal Deadline: Final, Statutory, December 9, 2000, PL 106-159, sec 212.

Abstract: The FMCSA is proposing to amend the Federal Motor Carrier Safety Regulations (FMCSRs) to require that motor carriers operating commercial motor vehicles (CMVs), designed or used to transport between 9 and 15 passengers (including the driver) in interstate commerce, comply with the FMCSRs when they are directly compensated for such service, and the transportation of any passenger covers a distance greater than 75 air miles (86.3 statute miles or 138.9 kilometers). Motor carriers, drivers, and the vehicles operated by them would be subject to the same safety requirements imposed upon motorcoach operations, with the exception of the commercial driver's license, controlled substances and alcohol testing regulations. The agency is proposing that any requirements implemented be made applicable to these motor carriers 90 days after the effective date of the final rule. This action is is response to section 212 of the Motor Carrier Safety Improvement Act of 1999 (MCSIA).

2449. COMMERCIAL DRIVER'S LICENSE STANDARDS; REQUIREMENTS AND PENALTIES; NONCOMMERCIAL MOTOR VEHICLE VIOLATIONS

Priority: Substantive, Nonsignificant

Legal Authority: PL 106-159, sec 201(b); PL 106-159, sec 202(h)

CFR Citation: 49 CFR 383; 49 CFR 384

Legal Deadline: Final, Statutory, December 9, 2000, PL 106-159, sec 201(b).

Abstract: The FMCSA proposes regulations specifying that a driver who holds a commercial driver's license (CDL) and is convicted of a drug- or alcohol-related offense or another offense that results in the revocation, cancellation, or suspension of the CDL, while operating a noncommercial motor vehicle, be disqualified from operating a commercial motor vehicle. This action is required by sections 201(b) and 202(h) of the Motor Carrier Safety Improvement Act of 1999.

2450. MOTOR CARRIER IDENTIFICATION REPORT

Priority: Substantive, Nonsignificant

Legal Authority: PL 106-159, sec 217

CFR Citation: 49 CFR 385

Legal Deadline: Final, Statutory, December 9, 2000, PL 106-159, sec 217.

Abstract: The Federal Motor Carrier Safety Administration is amending the Federal Motor Carrier Safety Regulations (FMCSRs) to revise the requirements for filing the Motor Carrier Identification Report (MCS-150). This action is in response to the Motor Carrier Safety Improvement Act of 1999 (MCSIA). Section 217 of MCSIA requires the FMCSA to require periodic updating, not more frequently than once every 2 years, of the motor carrier identification report filed by each motor carrier conducting operations in interstate or foreign commerce. Motor carriers are presently required to file this report prior to commencing operations. As a result of this act the FMCSA will also require mo carriers to file an update of the r every 24 months.

2452. PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATION; GENERAL AMENDMENTS

Priority: Substantive, Nonsignificant

Legal Authority: PL 102-240, sec 1041(b); 49 USC 31136; 49 USC 31502

CFR Citation: 49 CFR 392; 49 CFR 393

Legal Deadline: None

Abstract: The FMCSA is amending part 393 of the Federal Motor Carrier Safety Regulations (FMCSRs), Parts and Accessories Necessary for Safe Operation. The amendments are intended to remove obsolete and redundant regulations; respond to several petitions for rulemaking; provide improved definitions of vehicle types, systems, and components; resolve inconsistencies between part 393 and the National Highway Traffic Safety Administration's Federal Motor Vehicle Safety Standards (49 CFR 571); and codify certain FMCSA regulatory guidance concerning the requirements of part 393. Generally, the amendments do not involve the establishment of new or more stringent requirements but a clarification of existing requirements. This action is consistent with the President's Regulatory Reinvention Initiative and furthers the FMCSA's ongoing Zero-Base Regulatory Review in that it proposes to make many sections more concise, easier to understand and more performance oriented.

Department of Transportation (DOT) — Federal Motor Carrier Safety Administration (FMCSA) — Long-Term Actions

2453. +COMMERCIAL DRIVER'S LICENSE STANDARDS; BIOMETRIC IDENTIFIER

Priority: Other Significant

Legal Authority: PL 100-690, sec 9105

CFR Citation: 49 CFR 383

Legal Deadline: Final, Statutory, December 31, 1990.

Abstract: The Truck and Bus Regulatory Reform Act of 1988 (1) required the DOT Secretary to issue regulations establishing minimum uniform standards for a biometric identification system for commercial motor vehicle (CMV) operators; and (2) authorized the Secretary to use specific funds to implement a pilot demonstration project using such a system. Alternatives including retinal eye scans and advanced fingerprint technologies were considered. After analyzing public comments to the ANPRM and reviewing demonstration project results, the FHWA, predecessor agency to the FMCSA, determined that current technology had not progressed to the point where an identification system could be established nationwide in a cost-effective manner and still provide the benefits for which a system was intended. The FHWA subsequently published an informational notice summarizing the results of the pilot study and the comments to the ANPRM to demonstrate how the technologies studied fell short of the demands in a commercial licensing environment.

Section 4011(c) of the TEA-21, 49 USC 31308 amended, requires that each commercial driver's license (CDL) issued by the States after January 1, 2001, must include unique identifiers (which may include biometric identifiers); however, as a minimum, unique identifiers in CDLs must contain the name, address, and physical description of the individual issued the CDL; the social security number or other number or information to identify the individual; the class or type of CMV the individual is authorized to operate; the name of the State that issued the license, and the dates the license is valid.

In the future, we will establish a pilot study to collect over 30,000 sample digital facial images and sets of fingerprints from volunteers. California is the lead State for this study. The

2454. COMMERCIAL LEARNER PERMITS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 31136; PL 99-570; 49 USC 31102

CFR Citation: 49 CFR 384; 49 CFR 383; 49 CFR 386; 49 CFR 395; 49 CFR 1.73

Legal Deadline: None

Abstract: The FHWA, the predecessor agency to the Federal Motor Carrier Safety Administration (FMCSA), reviewed learner permit practices of the states for processing a driver from the initial non-CDL driver to being a fully licensed CDL driver. A number of variations in state learner permit practices were found. The FHWA planned to establish more uniform practices, such as: 1) screening drivers before permitting them to initially drive a CMV without having obtained a full CDL; 2) the length of time a state allows the driver to hold a learner's permit; 3) procedures for drivers to obtain CDL training in a state other than their normal residency; 4) supervision requirements for learner permit drivers; 5) commercial driver license information systems (CDLIS) recordkeeping requirements. However, the next action in this project is now undetermined as the FMCSA evaluates it in connection with several requirements of the Motor Carrier Safety Improvement Act of 1999.

CFR Citation: 49 CFR 391; 49 CFR 1.73

Legal Deadline: None

Abstract: The current regulation is little changed from the original rule adopted in 1936. The American Civil Liberties Union (ACLU) has written to the Department asserting that the regulation, as written, is overly broad and subject to arbitrary enforcement, causing potential interference with constitutional guarantees of due process and equal protection. The ACLU requested an opportunity to submit a comprehensive analysis of this issue. The ANPRM was intended to provide the ACLU with such an opportunity and to open this issue for public comment. The FMCSA seeks to modify its current regulation to require drivers to possess the basic functional communication/comprehension ability necessary to ensure safety, consistent with applicable law. This action is considered significant because of substantial public interest.

2462. +POST-ACCIDENT CONTROLLED SUBSTANCES AND ALCOHOL TEST RESULTS; REPORTING REQUIREMENTS FOR THE FATALITY ANALYSIS REPORTING SYSTEM

Priority: Other Significant

Legal Authority: PL 74-255; PL 98-554; PL 99-570; PL 102-143; PL 106-159; 49 USC 31136; 49 USC 31301 et seq; 49 USC 31502

CFR Citation: 49 CFR 1.73; 49 CFR 382

Legal Deadline: None

Abstract: The Federal Motor Carrier Safety Administration (FMCSA)is considering amending its contro substances and alcohol testing regulations to require employers to those requirements to report information to State-employed F Analysis Reporting System (FAR analysts concerning fatal crashes/accidents. Currently, on FMCSA and State officials with regulatory authority over the em or any of its drivers may obtain information concerning controll substances and alcohol testing r and records.

This rulemaking would propose require employers to provide information to FARS analysts, irrespective of their State autho working under contract with the National Highway Traffic Safety Administration (NHTSA). The information employers would be required to submit to the analys would enable the NHTSA, work conjunction with the FMCSA, to compile and analyze data on the incidence of commercial motor (CMV) drivers who test positive controlled substances and/or alc use in post-accident tests condu after fatal crashes.

The data would also be used by FMCSA to help assess the effect of its controlled substances and testing regulations. This action i intended to improve the FMCSA NHTSA's CMV crash data and a the need for new initiatives to f reduce the use of controlled sub and alcohol by CMV drivers.

2464. CONFORMING AMENDMENTS TO DOT DRUG AND ALCOHOL RULE

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 102; 49 USC 301; 49 USC 322; 49 USC 5331; 49 USC 20140; 49 USC 31306; 49 USC 31502

CFR Citation: 49 CFR 40; 49 CFR 382; 49 CFR 1.73

Legal Deadline: None

Abstract: This action is a conforming amendment resulting from changes to the Procedures for Transportation Workplace Drug and Alcohol Testing Programs regulations under 49 CFR part 40. The Department of Transportation (DOT) expects to finalize revisions to its drug and alcohol testing procedures regulation to make the organization and language of the regulation clearer, to incorporate guidance and interpretations of the rule into its text, and to update the rule to include new provisions responding to changes in technology, the testing industry, and the Department's program. Each DOT modal administration must amend its implementing regulations to reflect these changes. The Federal Motor Carrier Safety Administration proposes to amend 49 CFR part 382, the drug and alcohol testing rules for the motor carrier industry, as appropriate.

Legal Deadline: None

Abstract: This action makes technical amendments throughout 49 CFR chapter III to those rules containing incorrect references to agency and office organizations. Additionally, outdated citations to statutory and regulatory authority are amended. Typographical errors are corrected and extraneous wording is eliminated. These technical amendments are necessary because of the formation of the FMCSA and they will reflect current organizational structure, processes and requirements. The amendments will not make any substantive changes in the wording or organization of the rules affected.

Government Levels Affected: None

Additional Information: In a survey of 646 recent or imminent new-vehicle buyers, over 75 percent were unaware of the existence of automobile parts content labels. Among those who had read the labels, many said they used the country-of-assembly information, but none said they used the numerical U.S./Canadian parts content score. Overall U.S./Canadian parts content in new cars and light trucks dropped from an average of 70 percent in model year 1995 to 67.6 percent in 1988. However, it increased from 47 to 59 percent in transplants while dropping from 89 to 84 percent in Big 3 vehicles.

Additional Information: Retroreflective tape enhances the visibility of heavy trailers in the dark. The tape reduces side and rear impacts by other vehicles into trailers by 29 percent in dark conditions (including dark-not-lighted, dark-lighted, dawn and dusk). In dark-not-lighted conditions, the tape reduces side and rear impacts by 41 percent. When all heavy trailers have the tape, it will prevent an estimated 191-350 fatalities, 3,100-5,000 injuries and 7,800 crashed per year.

2471. ADAPTATION OF INSTRUMENTED LOWER LEGS FOR HYBRID III MALE AND FEMALE ADULT DUMMIES

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 572

Legal Deadline: None

Abstract: The agency is proposing the use of crash test dummies with instrumented lower legs to assess the crashworthiness and the potential of lower limb injuries to occupants of passenger cars, vans, light trucks, and sport utility vehicles. The new legs would be retrofits for un-instrumented legs in current Hybrid III male and female adult size dummies. The legs will be used to monitor both the inertial impact and floor pan intrusion effects upon injury potential to the knees, tibia, ankle and feet. The new legs will permit the agency to assess the injury potential to the lower legs in current motor vehicles during crashes and also enable the vehicle manufacturers to design and construct vehicles that will minimize lower limb injuries.

Legal Deadline: None

Abstract: The agency proposed to amend the certification requirements that apply to incomplete vehicles other than chassis-cabs. Incomplete vehicles are vehicles that include at least a frame and chassis structure, power train, steering system, suspension system, and brake system, but need further manufacturing performed on them to become completed vehicles. The agency proposed to extend the certification requirements currently applying to chassis-cabs to all types of incomplete vehicles. The agency recognizes that manufacturers who build vehicles in more than one stage are faced with somewhat different problems than manufacturers who build vehicles in a single stage, especially when it comes to certifying vehicles to meet Federal Motor Vehicle Safety Standards. The agency held a public meeting to listen to the views of these groups and others with respect to improving the vehicle certification process. The agency has established a negotiated rulemaking advisory committee to develop recommended amendments to the existing regulations. The agency is publishing the findings and recommendations of the negotiated rulemaking advisory committee and requesting comments from the public.

2480. DEFINITION OF COMMUNITY TRANSPORTATION VEHICLES

Priority: Substantive, Nonsignificant

Legal Authority: 9 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571

Legal Deadline: None

Abstract: In response to a petition for rulemaking, the agency is proposing to amend various sections of part 571 to create a new vehicle type, tentatively called community transportation vehicles, that will have to meet the crashworthiness standards applicable to school buses, but will not have to meet some of the crash avoidance standards (i.e., stop arms, flashing lights, etc.). This would allow manufacturers to certify vehicles that will be less expensive and as safe as a school bus for transportation of Head Start students because we have tentatively decided that the school bus crash avoidance features are unnecessary when there is no curb-side pickup.

2481. METRIC CONVERSION—PHASE III

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166; PL 100-418, sec 5164

CFR Citation: 49 CFR 571

Legal Deadline: None

Abstract: The agency is amending selected Federal motor vehicle safety standards by converting English measurements in those standards to metric measurements. This rulemaking is the third and final in a series that the agency will undertake to implement the Federal policy that the metric system is the preferred system of weights and measures for U.S. trade and commerce. The conversions are not intended to change the stringency of the affected Federal motor vehicles safety standards.

2482. UPGRADE DOOR RETENTION PERFORMANCE

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.206

Legal Deadline: None

Abstract: Based upon annual average estimates from the 1988 through 1996 Fatal Analysis Reporting System (FARS) and the National Automotive Sampling System (NASS), there is an annual average of 2,515 fatalities and 1,882 serious injuries due to door ejections. Side door ejections are the second leading cause of ejections in all crashes, superseded only by ejections through fixed glazing. One of the activities of agency rollover research focuses on reducing injuries and fatalities resulting from side door ejections. This research has led the agency to identify potential significant solutions to mitigating a substantial number of these fatalities and injuries by improving side door retention performance. Therefore, the agency is proposing to upgrade the door retention requirements.

2483. ADMINISTRATIVE REWRITE OF THE LIGHTING REQUIREMENTS OTHER THAN HEADLAMPS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.108

Legal Deadline: None

Abstract: The agency is proposing to rewrite the reflective devices and associated equipment requirements to make the standard more readable and understandable. The standard has grown over the last 30 years by the incorporation of dozens of amendments. The document has become unwieldy to use and the agency decided to rewrite it to seperate it into sections that address each lighting function separately. These sections will state the basic performance necessary for each lighting function and for lamp installation on various vehicle types. The rewrite will continue to reference Society of Automotive Engineers (SAE) and other standards and recommended practices for test procedures if too lengthy to incorporate changes. Moreover, it will codify various age interpretations of its rules to make standard more explicit and objectiv The administrative rewrite of the headlamp regulations can be found under RIN 2127-AG87.

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.124

Legal Deadline: None

Abstract: The agency reviewed this standard and published a "Request for Comment" to obtain information on electronic accelerator controls. After reviewing the comments received on this notice, the agency plans to propose a revision of the standard that will make explicit the application of the standard to electronic accelerator controls and the electric vehicles. The proposal will recognize that electronic engine controls vastly increase the ways manufacturers can achieve fail-safe performance in the event of a disconnection or severance of the accelerator control system and will propose a number of alternative compliance tests for fail-safe performance to avoid design restrictions.

2491. HEADLAMP GLARE

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.108

Legal Deadline: None

Abstract: The current standard sets minimum and maximum intensities for headlamps to ensure that the two most important aspects of head lighting performance are balanced. These often conflicting aspects are (1) to assure the driver of the vehicles sees as much of the roadway possible, while (2) minimizing glare for other drivers using the road. The balance the agency has chosen of these two areas has changed very little since 1970. The agency has been receiving a significant number of public complaints about glare from other vehicles' headlamps. In light of significant technological changes, including improved halogen lamps and high intensity discharge lamps, fleet mix changes (nearly half of all new vehicles sold in 1998 were light trucks, with higher-mounted headlamps), and an increase in the age of the population, the agency wants to reexamine the balance it has chosen between seeing distance and glare to see if it is still appropriate. The agency will ask the public for comments and information to begin exploring this area more fully.

CFR Citation: 49 CFR 575

Legal Deadline: Other, Statutory, December 1, 2000, Advanced Notice of Proposed Rulemaking.
Final, Statutory, June 1, 2002.

Abstract: The recently enacted Transportation Recall Enhancement Accountability and Documentation (TREAD) Act requires the Secretary of Transportation to initiate rulemaking to improve the labeling of tires to assist consumers in identifying tires that may be the subject of a safety recall. Pursuant to that Act, this ANPRM states that the agency is considering amendments to its regulations to improve the tire information and its availability and understandability to consumers. To aid in this effect, the agency is seeking responses from the public to questions relating to such matters as Tire Identification Number content, readability and location, loading, plies and cords, tread wear indicator, Uniform Tire Quality Grading System, speed rating, run-flat and extended mobility tires, tire inflation pressure, and dissemination of tire safety information.

2504. IMPROVING THE SAFETY OF CHILD RESTRAINTS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.213

Legal Deadline: Final, Statutory, November 30, 2002.

Abstract: The recently enacted Transportation Recall Enhancement Accountability and Documentation (TREAD) Act requires the Secretary of Transportation to initiate rulemaking that will improve the safety of child restraints, including minimizing head injuries from side impact collisions. The agency will consider whether to (1) require more comprehensive tests of child restraints using an array of crash conditions and an updated test seat assembly; (2) use test dummies that represent a greater range of sizes of children and that incorporate current technologies; (3) require improved protection from head injuries in side- and rear-impact crashes; (4) provide consumer information on the physical compatibility of child restraints and vehicle seats on a model-by-model basis; (5) prescribe clearer and simpler labels and instructions on child restraints; (6) consider restraints for children weighing up to 80 pounds; (7) apply scaled injury criteria performance levels, including neck injury; and (8) include a child restraint in each vehicle crash tested under the New Car Assessment Program.

2507. VOLUNTARILY INSTALLED SEAT BELT ASSEMBLY ANCHORAGES

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.210

Legal Deadline: None

Abstract: In a final rule published June 12, 1998 (63 FR 32143, RIN 2127-AF91), the amendment required anchorages for voluntarily installed shoulder belts must comply with the current standard. This change applied mainly to seat locations where the minimum requirements were lap belts, such as the center rear seat in passenger cars. This change did not apply to seats where no seat belt was required. The agency is proposing to extend the anchorage requirement to seats where the entire seat belt assembly is voluntarily installed. This change will mainly affect passenger seats on large buses and large school buses where the customer decides to order the bus with seat belts.

DOT—NHTSA

Proposed Rule Stage

Abstract: The Transportation Equity Act for the 21st Century (TEA-21) established a grant program under which states could qualify for incentive funds if they enacted and enforced a law that provides that any person with a blood alcohol concentration of .08 percent or greater while operating a motor vehicle in the state is deemed to have committed a per se offense of driving while intoxicated or an equivalent per se offense. The agency published a final rule implementing that incentive grant program. Section 351 of the Department of Transportation (DOT) Appropriations Act for Fiscal Year (FY) 2001 (PL 106-346) contains a new provision requiring the withholding of certain Federal-aid highway funds from a state, beginning in fiscal year 2004, if the state has not enacted and is not enforcing such a law. The agency is proposing to amend the regulation implementing the incentive grant program established in TEA-21 to reflect the new sanctions provisions established in the DOT appropriations set for FY 2001.

2512. EXPANDING THE AUTO PARTS MARKING REQUIREMENT

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 33103

CFR Citation: 49 CFR 541

Legal Deadline: None

Abstract: In accordance with the Anti Car Theft Act of 1992, the Attorney General was required to report on the effectiveness of expanding the parts marking requirements of the theft prevention standard to the remaining motor vehicle lines. On the basis of the available evidence presented, the Attorney General found that the evidence did not support a finding that requiring parts marking would not substantially inhibit chop shop operations and auto theft and therefore, recommended expanding the parts marking requirements to the remaining motor vehicle lines. Based on the results of the report, the agency is required to prepare rulemaking to extend the theft prevention standard to the remaining motor vehicle lines.

Abstract: This supplemental notice proposes to establish two new safety standards: an equipment standard specifying requirements for platform lifts; and a vehicle standard for all vehicles equipped with such lifts. This

UMI
VOL
66
ISS
232
DE
3
2001
UMI

supplemental notice significantly differs from our original proposal in several respects. Most notably, the scope of our proposal has been expanded to platform lifts installed on all motor vehicles. Other significant changes are additional interlock requirements, improved wheelchair retention and platform slip resistance tests, and, in some instances, lesser compliance standards for lifts installed on vehicles typically used solely for private transport. This action is considered significant due to substantial public interest in transportation of individuals with disabilities.

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.402

Legal Deadline: None

Abstract: In response to a petition for rulemaking, the agency is proposing a new Federal motor vehicle safety standard regulating new radiator caps and coolant reservoir caps, and new passenger cars, multipurpose passenger vehicles and light trucks with such caps. The agency believes that this new standard, if implemented, would result in fewer scald injuries that occur when people attempt to remove caps from motor vehicle radiators or coolant reservoirs that are under high pressure and contain hot fluids. However, this rulemaking would not require that radiator caps or coolant reservoir caps be provided on any motor vehicle.

2524. UPGRADE FUEL INTEGRITY PERFORMANCE REQUIREMENTS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.301

Legal Deadline: None

Abstract: An advance notice of proposed rulemaking in 1995 announced the agency's plan to consider upgrading the standard by making the current crash requirements more stringent and by broadening the standard's focus to include mitigation concepts related to fuel system components and environmental and aging tests related to components. The notice also requested comments on the agency's plan to explore a three-phase approach to upgrading the standard, data, methods, and strategies which may assist in the agency's regulatory decisions in defining specific requirements and test procedures for upgrading the standard. Based on th responses to the notice and availabl data, the agency is proposing to repl the current rear impact test procedu with a more stringent test procedure The agency is also proposing to repl the standard's current side impact t requirements with the side impact t requirements of Federal Motor Vehi Safety Standard No. 214, Side Impa Protection.

Additional Information: On February 27, 1997 (62 FR 8883), the agency terminated rulemaking in which the agency had asked for comments on whether the performance and installation of front and rear fog lamps should be regulated. In response to these comments, the SAE has established a Fog Lamp Task Force to develop an internationally-acceptable fog lamp standard, on which a Federal standard could be based.

RIN: 2127–AG49

2530. GLARE REDUCTION FROM DAYTIME RUNNING LAMPS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.108

Legal Deadline: None

Abstract: The agency is proposing to amend the lighting standard to reduce glare from daytime running lamps (DRLs). It would do this in three stages. One year after publication of the final rule, DRLs utilizing the upper headlamp beam would not be permitted to exceed 3,000 candela (cd) at any point, thus becoming subject to the maximum candela permitted for DRLs other than headlamps. This same limit would be applied to the upper half of lower beam DRLs two years after publication of the final rule. Finally, four years after publication of the final rule, all DRLs, except lower beam DRLs, would be subject to a flat 1,500 cd limit. Lower beam DRLs would be limited to 1,500 cd at horizontal or above. This action is intended to provide the public with all the conspicuity benefits of DRLs while reducing glare and is based on research that has become available since the final rule establishing DRLs was published in 1993.

2531. ADMINISTRATIVE REWRITE FOR HEADLAMP REQUIREMENTS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.108

Legal Deadline: None

Abstract: The agency has proposed to rewrite the sections relating to headlighting. The rewrite is important because of the standard's age and numerous amendments which have made it difficult to read and interpret. The revised standard should reduce burden especially to small manufacturers because of improved clarity. The reorganization of the sections relating to other lamps will addressed in a separate rulemaking.

Final Rule St

CFR Citation: 49 CFR 571.202

Legal Deadline: None

Abstract: The agency has proposed to upgrade the current head restraint requirements to increase safety. The proposal also, until the upgraded requirements become effective, allows manufacturers to certify their vehicles either to the existing U.S. requirements or to the Economic Commission for Europe (ECE) Regulation No. 25. The upgrade proposed performance requirements intended to assure that the head restraint, if adjusted, will remain locked in specific height positions and calls for the installation of head restraints in rear seats. This action is concerned significant due to the expected high cost to the private sector for the modifications to the standard.

Legal Deadline: None

Abstract: In response to petitions for reconsideration of a final rule published on April 27, 1999 (64 FR 22567, RIN 2127-AF40) that made testing more suitable for vehicles with raised or sloped roof structures, the petitioners requested that the agency modify the portion of the rule that pertains to raised roof vehicles, particularly those vehicles used for transporting disabled persons. The petitioners claim that the test plate position requirement for these vehicles causes the plate's rear edge to contact the raised roof structure in a manner which causes abnormal penetration and failure.

Final Rule S

2545. SCHOOL BUS BODY JOINT STRENGTH

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.221

Legal Deadline: None

Abstract: In response to petitions for reconsideration of a final rule published on November 5, 1998 (63 FR 59732 RIN 2127-AC19) which extended the applicability of Standard No. 221, school bus body joint strength, to school buses with a gross vehicle weight rating (GVWR) of 10,000 pounds or less, narrowed an exclusion of maintenance access panels from the requirements of the standard, and revised testing requirements, the agency is considering amending the definition of bus body and allowing for the testing of surrogate bus body joint. Changing the definition could exclude those joints in the van cutaway chassis and enhance the possibility of allowing van cutaways to be manufactured into school buses.

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.138; 49 CFR 571.101

Legal Deadline: Final, Statutory, November 30, 2001.

Abstract: The recently-enacted Transportation Recall Enhancement Accountability and Documentation (TREAD) Act requires the Secretary of Transportation to initiate rulemaking to require a warning system in new motor vehicles to indicate to the operator when a tire is significantly underinflated. The agency is proposing to establish a new standard for Tire Pressure Monitoring System (TPMS) on every new vehicle that uses a passenger car tire. A TPMS would detect low pressure in a tire and alert the driver through a "low tire" warning signal.

2559. +CRASHWORTHINESS RATINGS

Priority: Other Significant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 5

Legal Deadline: None

Abstract: This action would require manufacturers to disseminate crashworthiness performance information concerning their cars to the public, to provide consumers with comparative information on the crashworthiness performance of new car models. This rulemaking is considered significant because of the impact on manufacturers, the interest shown by consumers, and the potential significant effects on the automotive marketplace. The agency requested public comments on the National Academy of Sciences (NAS) study titled "Shopping for Safety - Providing Consumer Automotive Safety Information," (TRB Special Report 248) and how that study should be reflected in the agency's decision on whether, and if so, how, to proceed with a crashworthiness rating for automobiles.

Priority: Other Significant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.214

Legal Deadline: None

Abstract: This standard requires passenger cars manufactured after September 1, 1996, to provide occupant protection when impacted in the side by a moving deformable barrier. The agency has compared the actual risk of occupant injury in side impact crashes of cars meeting the standard to the risk in pre-standard cars. The cost of the standard has been estimated. The Technical Report has been published. This regulation was selected for review because of its costs, potential benefits, and public interest.

2565. USE OF UNIVERSAL CHILD SEATS IN AIRCRAFT

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.213

Legal Deadline: None

Abstract: This action responds to a concern expressed by the Federal Aviation Administration (FAA) regarding some new universal child seats that may be equipped with rigid connectors or prongs. FAA believes that if a universal child seat equipped with non-folding, non-retracting rigid connectors or prongs were installed on an aircraft seat, the connectors or prongs might damage the aircraft seat cushions and might protrude into the leg space and egress path of the passenger sitting immediately behind the child seat.

2566. DEFECT REPORTING AND NOTIFICATION

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 30102 to 30103; 49 USC 30112; 49 USC 30115 to 30121; 49 USC 30166 to 30167

CFR Citation: 49 CFR 573; 49 CFR 576; 49 CFR 577

Legal Deadline: None

Abstract: The agency is proposing to amend its current regulations on Defect and Noncompliance Reports and Defect and Noncompliance Notification. The amendments are intended to implement the investigative and recall provisions by increasing the availability of information regarding safety related defects and noncompliance and by improving notification to consumers of recalls of defective and noncomplying motor vehicle equipment. NHTSA is withdrawing this rulemaking action on 8/2/01, to allow it to focus its limited resources on the defects and noncompliance related rulemaking actions required by the Transportation Recall Enhancement, Accountability, and Documentation Act of 2000.

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.105; 49 CFR 571.121

Legal Deadline: None

Abstract: These standards require antilock brake systems (ABS) on truck-tractors manufactured after March 1, 1997, semi-trailers and single-unit trucks equipped with air brakes after March 1, 1998, and single-unit trucks over 10,000 pounds GVWR equipped with hydraulic brakes after March 1, 1999. The agency will study the influence of ABS on crash involvement rates and estimate the cost of ABS. These regulations were selected for review because of their costs, potential benefits, and public interest.

2574. +SAFETY INCENTIVE GRANTS FOR USE OF SEAT BELTS-ALLOCATIONS BASED ON STATE SEAT BELT USE RATES

Priority: Other Significant

Legal Authority: PL 105-178, sec 1403

CFR Citation: 23 CFR 1240

Legal Deadline: None

Abstract: Section 1403 of TEA-21 established a new program of incentive grants (under Section 157 of chapter 1 of Title 23) to encourage States to increase seat belt use rates. This rulemaking action establishes the criteria and procedures to be followed to implement this incentive grant program. A State is eligible for an incentive grant if: (1) The State had a seat belt use rate greater than the national average for the two preceding calendar years, OR (2) The State's seat belt use rate in the previous calendar year was higher than the State's "base seat belt use rate." (The "base seat belt use rate" is defined as the State's highest use rate for any calendar year from 1996 through the calendar year preceding the previous calendar year.) The amount of funding each State is awarded is based on calculations by the Secretary of the annual savings to the Federal Government in medical costs (including savings under the medicare and medicaid programs). According to the statute, on September 1 of each year, beginning in 1998, the Department will determine which States meet the eligibility criteria, and on October 1 of each year, the Department will allocate the incentive grant funds. This rule sets forth the procedures the agency will use to evaluate seat belt use rates and to allocate funds. It was published as an interim final rule with immediate effectiveness because the first evaluations of seat belt use information were required on September 1, 1998, and the first allocations of funds were required on October 1, 1998. A final rule has been published.

The statute authorizes a total of $500 million for grants under this section for fiscal years 1999 through 2003. A State may use these grant funds for any project eligible for assistance under Title 23. If there are any unallocated funds available in FY 1999, the excess amounts will be apportioned to the states for expenditure on the Surface Transportation Program (STP). If there are any unallocated funds available in FY 2000 through FY 2003, the Secretary is directed to allocate the funds to selected States to carry out innovative projects that promote increased seat belt use rates. States will be selected based on plans submitted to the Secretary.

2575. OCCUPANT PROTECTION INCENTIVE GRANTS

Priority: Substantive, Nonsignificant

Legal Authority: PL 105-178, sec 2003

CFR Citation: 23 CFR 1345

Legal Deadline: None

Abstract: TEA-21 established a new program of incentive grants to encourage States to adopt and implement effective programs to reduce highway deaths and injuries resulting from individuals riding unrestrained or improperly restrained in motor vehicles. An interim final rule was published to establish criteria and procedures to be followed to implement this incentive grant program. A State may become eligible to receive a grant under this section by demonstrating that it has implemented at least four of the following six criteria: (1) a law requiring safety belt use by all front seat passengers (and beginning in FY2001, in any seat in the vehicle); (2) a primary safety belt law; (3) minimum fines or penalty points for belt and

Completed Ac

child seat violations; (4) a special traffic enforcement program; (5) a child passenger protection education program; and (6) a child passenger protection law - requiring minors to be properly secured. The statute authorizes a total of $68 million for grants under this section over 5 years beginning in fiscal year 1999. Each State that qualifies for a grant receives up to 25 percent of its FY 1997 section 402 apportionment. An interim final rule was published with immediate effectiveness, because its criteria applied to States seeking to receive funds beginning on October 1, 1998. A final rule has been published.

2583. • INTERIOR TRUNK RELEASE

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 322; 49 USC 30111; 49 USC 30115; 49 USC 30117; 49 USC 30166

CFR Citation: 49 CFR 571.401

Legal Deadline: None

Abstract: The agency is responding to petitions for reconsideration of our final rule published October 20, 2000 (65 FR 63014, RIN 2127-AH83) which established a new standard that requires all new passenger cars with trunks be equipped with a release latch inside the trunk compartment. The agency has made several substantive changes to the final rule. It has excluded hatchbacks, station wagons and sub-compartments that are formed within the truck compartment when a convertible power top folds down into the trunk. The agency has changed the definition of "trunk lid" to explicitly exclude the lids of interior storage compartment. The agency has revised the definition of "trunk compartment" to include standard equipment in the determination of the size of the trunk

2584. +STANDARDS FOR DEVELOPMENT AND USE OF PROCESSOR-BASED SIGNAL AND TRAIN CONTROL SYSTEMS

Regulatory Plan: This entry is Seq. No. 107 in part II of this issue of the **Federal Register**.

RIN: 2130–AA94

2585. LOCOMOTIVE CRASHWORTHINESS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 20103

CFR Citation: 49 CFR 229

Legal Deadline: Final, Statutory, March 3, 1995, Rule or Report to Congress. Report to Congress issued 9/18/96.

Abstract: The agency has proposed to address the crashworthiness of locomotives pursuant to the Rail Safety Enforcement and Review Act (1992). FRA investigated locomotive crashworthiness, as well as a variety of locomotive working conditions (See RIN 2130-AA89) and reported its finding to Congress. On October 31, 1996, the Railroad Safety Advisory Committee (RSAC) accepted a preliminary planning task to schedule handling of these issues. The Locomotive Crew Safety Working Group met on January 23, 1997 to develop task statements that were forwarded to the full RSAC and accepted on June 24, 1997. The RSAC Locomotive Crashworthiness Working Group is considering specific recommendations for regulatory action. Originally this project was considered significant; however, it appears likely that important incremental changes in current design standards can be made without significant disruption or controversy.

2586. LOCOMOTIVE EVENT RECORDERS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 20103

CFR Citation: 49 CFR 229

Legal Deadline: None

Abstract: FRA will propose improvements in the crashworthiness of event recorders and will propose additional requirements for data capture and recording for event recorders installed in new and rebuilt locomotives. FRA is awaiting the advice and recommendations of RSAC before taking further regulatory action.

2588. RULES OF PRACTICE

Priority: Info./Admin./Other

Legal Authority: 49 USC 20103

CFR Citation: 49 CFR 211

Legal Deadline: None

Abstract: This action will revise and update FRA's rulemaking procedures, and the procedures for participation in the rulemaking process, such as petitions for rulemaking, petitions for reconsideration, and petitions for waiver. These procedures will be modified to reflect the recodification of the railroad safety laws, and changes in the application of FRA's regulatory procedures that have developed over time.

2589. +APPLICATION OF RANDOM TESTING AND OTHER ALCOHOL AND DRUG REGULATIONS TO EMPLOYEES OF FOREIGN RAILROADS

Priority: Other Significant

Legal Authority: 49 USC 20103; 49 USC 20140

CFR Citation: 49 CFR 219

Legal Deadline: None

Abstract: This action would apply FRA's random testing and other alcohol and drug requirements to employees of a foreign railroad whose primary reporting point is outside the United States, and who perform train service or dispatching service in the United States. Such employees are currently exempt from random testing, pre-employment testing, and requirements for employee self-referral and co-worker report policies. This action is considered significant because of substantial inter-departmental concerns.

2590. LOCAL RAIL FREIGHT ASSISTANCE TO STATES

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 22101

CFR Citation: 49 CFR 266

Legal Deadline: None

Abstract: This action is to revise the procedures and requirements for the receipt of financial assistance contained in part 266. These changes are required to reflect statutory modifications resulting from the Local Rail Service Reauthorization Act of 1989. The Local Freight Assistance Program has not been reauthorized after FY 1995. However, final regulations are necessary because States continue to submit applications for new projects to be funded from loan funds repaid to States by previous borrowers. FRA is reconsidering the need for these regulations.

2591. +WHISTLE BANS AT HIGHWAY-RAIL GRADE CROSSINGS

Priority: Other Significant

Legal Authority: 49 USC 20153

CFR Citation: 49 CFR 222

Legal Deadline: Final, Statutory, November 2, 1996, subsequent enactment prohibited issuance prior to July 1, 2001.

Abstract: This action would govern when train whistles at grade crossings must be sounded. FRA has found that failing to use the locomotive horn can significantly increase the number of collisions with motorists using the crossing. This action is considered significant because of substantial public interest. This action is being taken pursuant to statutory mandate. FRA studied the consequences of the proposed action and prepared a draft

2592. LOCOMOTIVE CAB WORKING CONDITIONS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 20103

CFR Citation: 49 CFR 229

Legal Deadline: Final, Statutory, March 3, 1995, Rule or Report to Congress. Report to Congress issued 9/18/96.

Abstract: The agency has proposed to address crew working conditions on locomotives, pursuant to the Rail Safety Enforcement and Review Act (1992). FRA investigated a variety of locomotive working conditions, including sanitation, noise and temperature, and reported its findings to Congress. On October 31, 1996, the Railroad Safety Advisory Committee (RSAC) accepted a preliminary planning task to schedule handling of these issues, and established the Locomotive Crew Safety Working Group. The Working Group prepared recommendations addressing sanitation in locomotive cabs. The Working Group presented RSAC with these recommendations and the full RSAC voted to refer them to FRA as the basis for a Notice of Proposed Rulemaking (NPRM). FRA used these recommendations as the basis for an NPRM, which was published January 2, 2001. This project was originally considered significant because of substantial public interest; however, because the rule was developed through the RSAC process, which entails participation of all parties with significant interests, the expected public interest has not materialized.

Federalism: This action may have federalism implications as defined in EO 13132.

Additional Information: FRA published a Notice of Proposed Rulemaking (NPRM) on sanitary conditions in locomotive cabs on January 2, 2001.

As originally proposed, this rulemaking addressed both crew working conditions on locomotives and the crashworthiness of locomotives. However, in anticipation of issuing two distinct rulemakings, FRA has separated crashworthiness of locomotives out from the original proposal and is handling that subject in a separate rulemaking (RIN 2130-AB23).

Priority: Other Significant

Legal Authority: 49 USC 201 USC 20107; 49 USC 21301; 2 2461

CFR Citation: 49 CFR 244; 49

Legal Deadline: None

Abstract: FRA prepared a pro rule that would require a rail

DOT—FRA

Final Rule Stage

file a Safety Integration Plan with the Federal Railroad Administration (1) whenever a Class I railroad, the National Railroad Passenger Corporation, or a railroad providing commuter service proposes to merge, consolidate or acquire control of one another; (2) whenever an entity proposes to start operations as a railroad; (3) whenever a Class II railroad proposes to consolidate, merge, or acquire control of another Class II railroad with which it would directly interchange freight, or (4) whenever a railroad merger, consolidation or acquisition of control would result in operations that generate revenue in excess of the Class I threshold. The proposed rule prescribed content and subject matter areas that must be addressed in each plan before FRA may approve of such plan. FRA is in the process of preparing a final rule in this area and is working with the Surface Transportation Board to conduct coordinated rulemaking actions covering these transactions within the framework of each agency's jurisdiction.

2595. BRIDGE WORKER SAFETY STANDARDS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 20103

CFR Citation: 49 CFR 214

Legal Deadline: None

Abstract: In response to a petition for rulemaking, FRA will amend the Bridge Worker Safety Rules through promulgation of an interim final rule. The interim final rule will likely prohibit the use of safety belts as fall protection, but would continue to require the use of harnesses, which are more commonly used in present industry practice. The interim final rule would also make technical clarifications to the existing standards. This action is supported by the industry and is consistent with new policies of the Occupational Safety and Health Administration. Data shows that safety belts present unnecessary safety risks, and are generally disfavored by companies involved with working at heights.

2596. ROADWAY EQUIPMENT SAFETY

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 20103

CFR Citation: 49 CFR 214

Legal Deadline: None

Abstract: FRA proposes regulations governing operational and design safety of on-track equipment used by railroads for track maintenance. The regulations would cover self-propelled rail-mounted non-highway machines where light weight exceeds 7500 pounds. This rulemaking was requested by the Brotherhood of Maintenance-of-Way Employees (BMWE) as part of the organization's petition requesting revision of the track safety standards. FRA decided to respond to this portion of the BMWE petition in a rulemaking separate from the track safety standards revision.

2597. ANNUAL ADJUSTMENT OF MONETARY THRESHOLD FOR REPORTING RAIL EQUIPMENT ACCIDENTS/INCIDENTS

Priority: Info./Admin./Other

Legal Authority: 49 USC 20103

CFR Citation: 49 CFR 225

Legal Deadline: None

Abstract: This annual determination establishes the monetary threshold for reporting rail equipment accidents/incidents involving railroad property damage. This action ensures and maintains comparability between different years of data by having the threshold keep pace with fluctuations in equipment and labor costs. It is required by statute. The reporting threshold is based on the formula adopted in a final rule 5/16/96, 61 FR 60632. This agenda entry will be updated each year to show the latest annual determination. Cites for determinations already issued are provided below.

2598. DETERMINATION OF MINIMUM TESTING RATE FOR RANDOM DRUG AND ALCOHOL TESTING

Priority: Info./Admin./Other

Legal Authority: 49 USC 20103

CFR Citation: 49 CFR 219

Legal Deadline: None

Abstract: Each year FRA announces the minimum random drug and alcohol testing rates for the following year for the railroad industry. This determination is based on a review of rail industry drug and alcohol management information system data, as well as data from compliance reviews of rail industry drug and alcohol testing programs. Procedures were established in a final rule published on December 2, 1994, 59 FR 62218. For the calendar year 2001, the minimum random drug and alcohol testing rates of covered railroad employees continue to be 25 percent and 10 percent, respectively. This agenda entry will be updated each year to show the latest annual determination. Cites for determinations already issued are provided below.

2606. • IMPROVEMENTS TO THE SYSTEM FOR REPORTING TRAIN ACCIDENTS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 20103; 49 USC 20901; 49 USC 20902

CFR Citation: 49 CFR 225

Legal Deadline: None

Abstract: FRA initiated a pilot study to investigate a possible approach for developing a new system of reporting train accidents, potentially leading to a revision of the regulations for reporting rail equipment accidents/incidents involving railroad property damage. Under the current system, railroads are required to report any event involving property damage or injury if the total cost of the event for all railroads involved exceeds a threshold. The cost of repairing the damage therefore acts as a surrogate measure of severity. Repair cost, however, is unsatisfactory as a surrogate measure of severity. Costs can be substantially affected by factors that have no relevancy to severity, such as the newness of any destroyed equipment and facilities. Nevertheless, current regulations mandate that if a locomotive engineer has been found to be at fault for causing an event, he or she can be disqualified only if it is reportable as a train accident. The perceived unfairness of disqualification being only loosely tied to accident severity is something FRA wishes to remedy by changing the reporting requirement to more closely reflect the severity of the event rather than just the book cost.

FRA is also interested in changing the system to reduce time and effort spent by railroads in reporting and recording train accidents. The current reporting system causes substantial inconvenience and places a burden on the railroads. The railroads' initial estimates of repair costs are somewhat subjective, yet they have to decide whether to report an event on the basis of the estimate. In addition, if the actual cost of an event deviates from initial estimates by more than 10% and exceeds the threshold, then the railroad would be required to submit a report if the initial estimate was below the threshold and an amendment if the initial estimate was above. The uncertainty about the status of an event may put undue pressure on railroads to report more events as train accidents than necessary.

Timetable: Next Action Undetermined

Regulatory Flexibility Analysis Required: No

Small Entities Affected: Businesses

Government Levels Affected: None

Additional Information: The results of the pilot study were insufficient to permit FRA to try out certain aspects of the proposed approach to developing a new system. Further action to be determined.

2607. • REVISION TO THE ACCIDENT/INCIDENT REPORTING REGULATIONS AND GUIDE

Priority: Substantive, Nonsignifican

Legal Authority: 49 USC 20103; 49 USC 20901; 49 USC 20902

CFR Citation: 49 CFR 225

Legal Deadline: None

Abstract: FRA intends to conform i regulations for accident/incident reporting to revised OSHA regulatio and to make appropriate revisions t the FRA Guide for Preparing Accident/Incident Reports. On Janu 19, 2001, OSHA published revised regulations for Occupational Injury Illness Recording and Reporting (66 5965). FRA accident/incident regulations pertaining to occupation injury and illness are patterned afte the prior OSHA regulations and mu be maintained in general conformity with those regulations to permit compatibility of data and integratio railroad industry data into national statistical databases. OSHA's final r is intended to become effective on January 1, 2002. Accordingly, FRA needs to revise its own injury codes and narratives, cause codes and narratives, and circumstance codes narratives (as set forth in the FRA Reporting Guide) as soon as feasible Minor administrative issues have al arisen since the last general revisio Part 225 on January 1, 1997 that wi be considered in relation to possibl amendments to the regulations or th Reporting Guide.

2608. MAINTENANCE, INSPECTION, AND TESTING OF GRADE-CROSSING SIGNAL SYSTEMS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 20103

CFR Citation: 49 CFR 234

Legal Deadline: None

Abstract: FRA is making technical changes and minor amendments to final regulations which were published on September 30, 1994. These regulations require that railroads take specific and timely actions to protect the travelling public and railroad employees from the hazards posed by malfunctioning highway-rail grade crossing warning systems, and that railroads follow specific standards for maintenance, inspection, and testing of those systems. The amendments clarify issues arising from implementation of this new regulatory program. No new costs are expected.

Additional Information: The final rule, RIN 2130-AA70, was published 9/30/94 (59 FR 50086), and was effective 1/1/95. In response to a petition for reconsideration, FRA conducted a review, together with rail labor and rail management, to address various implementation issues that had surfaced since the rule was enacted. After meeting with these parties in March 1995, FRA issued an Implementation Manual on April 14, 1995. An interim final rule intended to clarify implementation issues by making minor technical amendments was published on June 20, 1996, effective August 19, 1996. Response to the comments on that interim rule may result in further amendment of the rule.

2611. USE OF ONE-PERSON CREWS IN RAIL OPERATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 20103

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: Concerned with the complex and immediate safety issues posed by rail operations involving the use of one-person crews, FRA will consider whether to regulate the use of one-person operations. FRA might require all railroads that propose to use one-person crew operations to enroll in a pilot program and agree to conform to safety conditions set forth by FRA. The purpose of the pilot program would be to determine under what conditions, if any, one-person crew operations can be safely operated.

Additional Information: Former section 12(h) of the FT Act, as amended (now 49 USC 5302(a)(9)), defines a "new bus model" as a bus model which has not been used in mass transportation service in the United States before the date of production of such model, or a bus model which has been used in such service, but which is being produced with a major change in configuration or components. A third interim final rule, published on 07/28/92, added two new categories of buses required to be tested. On 10/13/92 FTA published a notice postponing the application of the interim final rule for these vehicle types until 02/10/93. The FTA's fourth interim final rule, issued on 11/3/93, established four subcategories of small vehicles to facilitate the phase-in of testing.

Intially, FTA had intended on issuing a final rule. However, FTA now believes that prior to the issuance of a final rule, the public should have the opportunity to provide additional comment, especially considering advances in technology and developments within the industry during the period that the interim final rule has been in effect.

2618. SCHOOL BUS OPERATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 5323(f)

CFR Citation: 49 CFR 605

Legal Deadline: None

Abstract: This rulemaking proposed to amend the definition of "tripper" service, which is mass transportation service which is open to the public and which is modified to meet the needs of school students and personnel. The amended definition would have prohibited the use of certain signage and provided that tripper buses stop only at stops that are marked as available to the public. Based on further analysis of the proposed change and review of the comments received from the NPRM, however, FTA has determined that the proposed amendment did not actually alter the definition of "tripper service" and appeared to create more confusion that clarification. Consequently, FTA intends to withdraw the amendment as no purpose would be served by the proposed change.

CFR Citation: 23 CFR 771; 23 CFR 1420; 23 CFR 1430; 49 CFR 622; 49 CFR 623

Legal Deadline: None

Abstract: The Federal Transit Administration and the Federal Highway Administration issued an NPRM to propose updating and revising the National Environmental Policy Act (NEPA) implementing regulation for FTA- and FHWA-funded or approved projects. The current regulations were issued in 1987 (23 CFR part 771, August 28, 1987) and experience since that time as well as changes in legislation, most recently by the Transportation Equity Act for the 21st Century (TEA-21), call for an updated approach to implementation of NEPA for FTA and FHWA projects and actions.

The FTA and the FHWA received numerous comments to the docket in response to this NPRM. The agencies are currently reviewing these comments to determine what action should follow.

CFR Citation: 23 CFR 450; 23 CFR 1410; 49 CFR 613; 49 CFR 621

Legal Deadline: None

Abstract: In this action, FTA and FHWA are jointly proposing to revise the regulations governing the development of transportation plans and programs for urbanized (metropolitan) areas and States. These revisions are the product of statutory changes made by the Transportation Equity Act for the 21st Century (TEA-21), which requires a continuous, comprehensive, and coordinated process in metropolitan areas and States. The regulations at 23 CFR part 450 and 49 CFR part 613 would be modified to reflect the impacts of TEA-21.

The agencies (FTA and FHWA) have received numerous comments to the docket in response to the NPRM. The comments are currently being analyzed by both agencies to determine what action should follow.

2624. CHARTER SERVICES DEMONSTRATION PROGRAM

Priority: Substantive, Nonsignificant

Legal Authority: PL 102-240, sec 3040

CFR Citation: 49 CFR 604

Legal Deadline: Final, Statutory, September 18, 1992.

Abstract: This rulemaking presents the results and conclusions drawn from the charter services demonstration program, previously reported under RIN 2132-AA40, which was mandated by section 3040 of the Intermodal Surface Transportation Efficiency Act. That provision directed FTA to conduct a demonstration program in four States to permit public operators to provide needed charter services to certain civic and community groups. In addition to setting forth program results, this rulemaking sought recommendations regarding improvements to the charter service regulation. However, based on a review of the comments received, the FTA has determined that there is no justification for changing the rule. Consequently, the agency has withdrawn the NPRM.

2627. +MAPS AND RECORDS OF PIPELINE LOCATIONS AND CHARACTERISTICS; NOTIFICATION OF STATE AGENCIES; PIPE INVENTORY

Priority: Other Significant

Legal Authority: 49 USC 60101 to 60125

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: Final, Statutory, November 1, 1989.

Abstract: This action proposes to equalize as far as possible the requirements that gas and hazardous liquid pipeline operators keep maps and records to show the location and other characteristics of pipelines. Operators would be required to keep an inventory of pipe and periodically report mileage and other facts. In addition, operators would be required to provide certain information to State agencies upon request. This is a significant action because of congressional and State concerns about the need for appropriate public officials to have pipeline information.

Additional Information: Docket No. RSPA-97-2426. In furtherance of this rulemaking, the Department of Transportation's Office of Pipeline Safety (OPS) is working with other Federal and State agencies and pipeline industry to create a voluntary national pipeline mapping system. This system, when complete, will show the location and selected attributes of the major natural gas and hazardous liquid pipelines and liquefied natural gas facilities operating in the United States. OPS will add additional data layers into the system, including layers on population densities, unusually sensitive areas, natural disaster probability and high consequence areas, hydrography, and transportation networks. OPS will use the syst depict pipelines in relation to th public and the environment, an work with other government age and industry during an incident

A joint government/industry Ma Quality Action Team (MQAT II) national pipeline mapping stand that are being used to create the pipeline layer. These include st for electronic data submissions, map submissions, and metadata on the data). The team also draf standards that are being used by pipeline mapping repository rec the pipeline information. The te pilot tested the draft standards established relationships with S agencies, industry, and others t exchange data that meets the st

The National Pipeline Mapping (NPMS) is a full-featured geogra information system that allows Office of Pipeline Safety (OPS), first time, to accurately view pi in relation to the communities environments they cross. The p data layers being assembled cov interstate and intrastate natural transmission pipelines and haz

DOT—RSPA **Prerule Stage**

liquid trunk lines. In conjunction with the pipeline data layers, the NPMS contains layers depicting population, urbanized areas, political boundaries, roads, railroads, hydrography, consequence and hazard areas, and usually sensitive areas. The NPMS will eventually include three accurate base data layers of differing scale derived from USGS hard-copy quads. The base layers not only provide an accurate base on which to view the location of pipelines but also contain important textual information such as places, roads, contours, and hydrography.

OPS has worked with the interstate natural gas transmission and hazardous liquid trade associations to identify a mapping contact for each operator. The operators have been contacted and OPS is assisting them in preparing their data for submission. Many of these operators have data in a digital format, which theoretically is easier and less time-consuming to process than hard-copy maps. OPS is currently working with the intrastate natural gas trade associations to recruit widespread participation in the NPMS by intrastate natural gas transmission pipeline companies.

The NPMS currently consists of a single National Repository and twelve state repositories located in Alabama, California, Connecticut, Kansas, Kentucky, Louisiana, Maine, Minnesota, New Jersey, Oklahoma, Pennsylvania, and Texas. OPS published two more Commerce Business Daily announcements in February 2000 - one for additional state repositories and the other for a regional repository.

OPS is collecting the liquid trunk line and natural gas transmission pipeline data. OPS regulates approximately 157,000 miles of liquid trunk line and 352,000 miles of natural gas transmission pipelines for a total of 509,000 miles.

Operators are submitting data to the NPMS.

2633. PIPELINE SAFETY: FURTHER REGULATORY REVIEW; GAS PIPELINE SAFETY STANDARDS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 60101 to 60125

CFR Citation: 49 CFR 192

Legal Deadline: None

Abstract: This action would change miscellaneous gas pipeline safety standards to provide clarity, eliminate unnecessary or overly burdensome requirements, and foster economic growth. Some of the proposed changes result from RSPA's further review of the standards following its 1995-1996 review under the President's Regulatory Reinvention Initiative. Other changes are based on recommendations by the National Association of Pipeline Safety Representatives (NAPSR) in its November 1992 report on the standards. The proposed changes would reduce costs in the pipeline industry without compromising safety.

Timetable:

Action	Date	FR Cite
NPRM	12/00/01	

Regulatory Flexibility Analysis Required: No

Small Entities Affected: Businesses

Government Levels Affected: None

Additional Information: Docket No. PS-124. The NAPSR report was published November 9, 1993, at 58 FR 59431, as part of the earlier review of the standards.

Early in 1992, RSPA began an extensive review of the federal gas pipeline safety regulations (49 CFR 192) and invited the public to participate (57 FR 4745; February 7, 1992). RSPA published a Notice of Proceed Rulemaking (NPRM), proposing changes to 38 regulatio part 192 (Notice 1: 57 FR 39572; August 31, 1992). In addition, the National Association of Pipeline S Representatives (NAPSR) reported separate but related review of par Because the NAPSR report concer a few of the regulations covered b NPRM and had similar objectives, published the report and requeste public comment on its various recommended rule changes (Notic 58 FR 59431; November 9, 1992) later extended the comment perio (Notice 3: 58 FR 68382; Decembe 1993). A final rule was published June 6, 1996.

However, not all the changes sugg by the commenters were incorpor in the final rule. A further review the regulatins in Part 192, based o record in this docket, was initiate late 1996. This review identified proposals from the Gas Piping Technology Committee (GPTC), th ASME B31.8 (gas pipeline safety standards) committee, and NAPSI have not yet been addressed.

In October 1997, NAPSR and the pipeline industry formed the Stat Industry Regulatory Review Comm (SIRRC), to discuss the regulatory proposals of NAPSR and other iss On May 3, 1999, the SIRRC provi OPS a report on outcome of the discussion on 329 proposed chan the gas pipeline safety regulations

Most of the SIRRC recommendati will be addressed in a subsequent notice in this docket. The weldin recommendations are being adopt the periodic update (Docket No. R 99-6106 RIN 2137-AD35). The co control recommendations are bei considered in a review of the pip corrosion regulations in Docket N RSPA-97-2762; RIN 2137-AD24.

2634. +PIPELINE SAFETY: RECOMMENDATIONS TO CHANGE HAZARDOUS LIQUID PIPELINE SAFETY STANDARDS

Priority: Other Significant

Unfunded Mandates: Undetermined

Legal Authority: 49 USC 60101 to 60128

CFR Citation: 49 CFR 195

Legal Deadline: None

Abstract: In 1995, the National Association of Pipeline Safety Representatives (NAPSR) completed its review of the hazardous liquid pipeline safety regulations. NAPSR provided RSPA with 28 recommendations for changes to 49 CFR part 195, the hazardous liquid pipeline regulations. NAPSR's recommendations are aimed at making the regulations more explicit, understandable, and enforceable. This action would address the need to change part 195 as NAPSR recommended.

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 5101 to 5127

CFR Citation: 49 CFR 171; 49 CFR 172

Legal Deadline: None

Abstract: This rulemaking action would amend the Hazardous Materials Regulations (HMR) to continue improving the hazard communication requirements to better identify hazardous materials in transportation, in response to several petitions for rulemaking and RSPA initiatives. The primary areas addressed are shipping papers, marking, labeling, and placarding requirements. The proposed action is intended to improve safety for transportation workers, emergency responders, and the public. The effect of the proposed regulatory action would be to simplify, clarify, correct, or provide relief from certain regulatory requirements.

2637. +HAZARDOUS MATERIALS SAFETY: TRANSPORTATION OF OXYGEN CYLINDERS ON AIRCRAFT

Priority: Other Significant

Legal Authority: 49 USC 5101 to 5127

CFR Citation: 49 CFR 172; 49 CFR 175

Legal Deadline: None

Abstract: RSPA proposes to amend the Hazardous Materials Regulations to require cylinders of oxygen to be placed in an outer container that meets certain thermal and heat protection requirements when transported in cargo compartments on aircraft. These requirements will increase the level of safety associated with transportation of oxidizing gases by air. This rule has no impact on the use of passenger-owned oxygen cylinders. This rule is significant due to public interest.

2640. PIPELINE SAFETY: PRODUCER-OPERATED OUTER CONTINENTAL SHELF GAS AND HAZARDOUS LIQUID PIPELINES THAT CROSS DIRECTLY INTO STATE WATERS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 60101 et seq

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: None

Abstract: This proposed rule would implement a provision of the December 10, 1996 Memorandum of Understanding (MOU) between the Department of the Interior (DOI) and the Department of Transportation (DOT) regarding Outer Continental Shelf (OCS) Pipelines. This rule would address producer-operated pipelines that cross into State waters without first connecting with a transporting operator's facility on the OCS. It is complementary to the Direct Final Rule that addressed OCS oil or gas pipelines located upstream of the points at which operating responsibility for the pipelines transfers from a producing operator to a transporting operator (62 FR 61692, November 19, 1997; and 63 FR 126598, March 16, 1998). The proposed rule also would address the procedures by which producer and transportation pipeline operators would petition for permission to operate under either DOT or DOI regulations governing pipeline design, construction, operation, and maintenance according to the operational circumstances of thei respective pipelines.

2644. PIPELINE SAFETY: PIPELINE INTEGRITY MANAGEMENT IN HIGH CONSEQUENCE AREAS (GAS TRANSMISSION PIPELINE OPERATORS)

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 5121; 49 USC 60102 to 60104; 49 USC 60108, 60117, 60118, 60124; 49 CFR 1.53

CFR Citation: 49 CFR 192

Legal Deadline: None

Abstract: An October 21, 1999, notice announced a public meeting to consider the need for additional safety and environmental regulations for gas transmission lines, hazardous liquid pipelines, and distribution pipelines in high-density population areas, commercially navigable waterways, and areas unusually sensitive to environmental damage. The public meeting was held on November 18-19, 1999 in Herndon, Virginia. The meeting was to determine the extent to which operators now have integrity management programs, to explore effective ways to promote their development and implementation by all operators, and to discuss mechanisms to confirm the adequacy of such operator-developed programs. Participants in the meeting discussed a practical definition of high consequence areas, as well as the need, if any, for increased inspection, enhanced damage prevention, improved emergency response, and other measures to prevent and mitigate pipeline leaks and ruptures in these areas. Comments from the public were due by January 17, 2000.

A final rule was published to require validation/testing of the integrity of certain hazardous liquid pipelines in high consequence areas (RIN 2137-AD45). A public meeting was held on February 12-14, 2001 to present information on integrity requirements for gas transmission pipelines.

Consideration of a similar gas rule is underway. Rulemakings addressing gas transmission line high consequence areas, direct assessment, and overall integrity management program will be published in 2001.

Legal Authority: and 49 CFR 1.53

CFR Citation: 49 CFR 195

Legal Deadline: None

Abstract: This rulemaking would amend the pipeline safety regulations to require hazardous liquid pipeline operatofs to submit a Hazardous Liquid Operator Annual Report. The information on the hazardous liquid operator annual report form is needed to normalize hazardous liquid accident information for identifying safety trends in the accident data. The inventory information that the annual report would provide addresses a major deficiency in the current information collection. Through a separate rulemaking, RSPA is also improving the hazardous liquid accident form by expanding "failure cause" categories and collecting more detailed information about the impact of failed pipelines. Together with the improved hazardous liquid accident report, the proposed Hazardous Liquid Operator Annual Report will address the concerns of RSPA/OPS, the National Transportation Safety Board (NTSB), Congress, and others, increase the overall usefulness of the data and analysis more efficient and meani

2647. QUANTITY LIMITATIONS ABOARD AIRCRAFT

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 5101 to 5127

CFR Citation: 49 CFR 175

Legal Deadline: None

Abstract: This action responded to a petition for rulemaking that proposed to remove the fifty-pound limit on the quantity of hazardous materials that may be stowed in an inaccessible cargo location on passenger-carrying aircraft. Comments to the NPRM indicated that further evaluation is needed. RSPA has decided to withdraw this proposal and consider the petition for rulemaking in its overall revision of 49 CFR part 175, in HM-228, RIN 2317-AD18.

Priority: Other Significant

Legal Authority: 49 USC 5101 to 5127

CFR Citation: 49 CFR 172; 49 CFR 173; 49 CFR 178

Legal Deadline: None

Abstract: This rulemaking proposed to amend the Hazardous Materials Regulations (HMR) by updating and consolidating requirements for the manufacture, maintenance, requalification, repair, and use of compressed gas cylinders. Because of significant adverse comment, this rulemaking will be terminated. RS will address the proposals in this rulemaking applicable to mainten requalification and repair of DOT specification cylinders; approval f cylinder requalifiers, independent inspection agencies, and non-dom chemical analyses and tests in a f rule under RIN 2137-AD58. Cylin manufacturing issues will be addr in a separate rulemaking action.

2649. DOT 3AL ALUMINUM CYLINDERS; SAFETY PROBLEMS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 5101 to 5127

CFR Citation: 49 CFR 178

Legal Deadline: None

Abstract: Certain DOT 3AL cylinders made of aluminum alloy 6351 have been discovered developing cracks during service, and occasionally leaks developed that resulted in loss of contents. The ANPRM was to alert and inform all persons possessing these cylinders of the problems, identify those cylinders at risk, and suggest steps to minimize risks. Safety issues will be handled and this rulemaking addressed under RIN 2137-AD58.

2650. *PIPELINE SAFETY: RESPONSE PLANS FOR ONSHORE OIL PIPELINES

Priority: Other Significant

Legal Authority: 49 USC 60101 to 60125

CFR Citation: 49 CFR 194

Legal Deadline: Final, Statutory, August 18, 1992.

Abstract: The interim final rule established regulations requiring response plans for certain onshore oil pipelines. Those regulations are mandated by the Federal Water Pollution Control Act as amended by the Oil Pollution Act of 1990 (Pub. L. 101-380). Pipeline operators filed response plans under this interim final rule, and numerous tabletop exercises and area exercises have been conducted to validate the planning process. The purpose of these requirements is to improve response capabilities and minimize the impact of onshore oil spills from pipelines. This rule is significant because of substantial public and congressional interest. Because of time that has passed since issuance of Interim Final Rule, an advisory bulletin and an interpretation will be issued to address technical issues. Subsequently, a new NPRM will be issued to update record and support issuance of a final rule later in 2001.

2651. FILLING OF PROPANE CYLINDERS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 5101 to 5127

CFR Citation: 49 CFR 173

Legal Deadline: None

Abstract: In an ANPRM, RSPA solicited comments on the merits of a petition for rulemaking to require registration and training of persons who fill propane cylinders, certification of filling equipment operators, and proof of financial responsiblity. The petition would also allow filling of propane cylinders by volume rather than by weight, which is currently required by the Hazardous Materials Regulations. A Federal Register notice will terminate rulemaking action in this docket and deny the petition for rulemaking because, based on the comments, there is no safety justification for imposing the costs of a registration, training and financial responsibility program for cylinder fillers.

2659. PIPELINE SAFETY: PIPELINE INTEGRITY MANAGEMENT IN HIGH CONSEQUENCE AREAS (HAZARDOUS LIQUID OPERATORS WITH LESS THAN 500 MILES OF PIPELINE)

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 5121; 49 USC 60102 to 60104; 49 USC 60117 to 60118; 49 USC 60124; 49 CFR 1.53

CFR Citation: 49 CFR 195

Legal Deadline: None

Abstract: The rule will apply to hazardous liquid pipeline operators who own or operate less than 500 miles of pipelines. The rule will require integrity assessment of pipeline segments that could affect high consequence areas, and consideration of additional preventive and mitigative actions to protect these locations from pipeline spills. OPS is proposing that an operator develop and follow an integrity management program that continually assesses and evaluates the integrity of those pipelines that could affect a high consequence area, through internal inspection or pressure testing, and data integration and analysis.

2664. • PIPELINE SAFETY: PIPELINE INTEGRITY MANAGEMENT IN HIGH CONSEQUENCE AREAS (REPAIR CRITERIA)

Priority: Substantive, Nonsignificant

Legal Authority: 49 U.S.C. 5103, 60102, 60104, 60108, 60109, 60118; 49 CFR 1.53

CFR Citation: 49 CFR 195

Legal Deadline: None

Abstract: The final rule on integrity management for hazardous liquid pipelines with 500 or more miles of pipelines (December 1, 2000, 65 FR 75378) requires operators to assess, evaluate, repair, and validate through comprehensive analysis the integrity of hazardous liquid pipeline segments that, in the event of a leak, could affect high consequence areas. An operator must develop a schedule that prioritizes defects for evaluation and repair, including time frames for promptly reviewing and analyzing the integrity assessment and completing the repairs. An operator must also provide additional protection for these pipeline segments through other remedial actions, and preventive and mitigative measures. This additional action is required because OPS completely restructured the section of the rule pertaining to actions an operator must take to address pipeline integrity issues and allowed 60 days for comments on the provisions in section 195.452(h). We are now evaluating these comments and will likely issue an additional final rule to modify the repair requirements or notice stating that the section stands as written.

Long-Term Actions

2665. PIPELINE SAFETY: PASSAGE OF INTERNAL INSPECTION DEVICES

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 60101 to 60125

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: None

Abstract: A final rule (59 FR 17275; April 12, 1994) amended the gas and hazardous liquid pipeline safety regulations to require that new and certain replacement pipelines be designed and constructed to accommodate the passage of instrumented internal inspection devices ('smart pigs'). This action was in response to a mandate in the pipeline Safety Reauthorization Act of 1988. The intended effected of amended regulations was to improve the safety of gas, hazard liquid, and carbon dioxide pipelines by permitting their inspection by 'smart pigs' using the latest technology for detecting and recording abnormalities in the pipe wall. This rule required new and replacement pipelines to be capable of passing a 'pig' for internal inspection.

In response to two petitions for reconsideration, Notice 2 (59 FR 49896; September 30, 1994) was published to extend the compliance date for existing gas transmission lines and to modify the requirements for modification of line sections based on partial replacement of gas transmission pipelines located offshore and in rural areas. Subsequently, Notice 3 (60 FR 7133; February 7, 1995) was published to suspend enforcement of the final rule requirements for new and existing offshore gas transmission lines and for modifications to line segments based on partial replacement of pipe in existing onshore gas transmission lines. Nonetheless, hazardous liquid pipelines, carbon dioxide pipelines, new onshore gas transmission lines, and the actual replaced components in existing onshore gas transmission lines must comply with the final rule of April 1994. The next action is undetermined.

2666. +SAFEGUARDING FOOD FROM CONTAMINATION DURING TRANSPORTATION

Priority: Other Significant

Legal Authority: 49 USC 5701 to 5714

CFR Citation: 49 CFR 1

Legal Deadline: Final, Statutory, August 1, 1991.

Abstract: The Sanitary Food Transportation Act of 1990 (49 USC 5701 et seq.) requires the Secretary of Transportation, in consultation with the Secretaries of Agriculture and Health and Human Services and the Administrator of the Environmental Protection Agency, to issue regulations concerning the transportation of food, food additives, drugs, devices, and cosmetics in motor and rail vehicles also used to transport nonfood products that could pose an unreasonable danger to human or animal health when so transported. This rulemaking will implement the statutory requirements. This rulemaking is significant because of substantial public and congressional interest. RSPA's next action is undetermined because it has requested personnel resources from Congress necessary to perform these food safety functions.

2667. PIPELINE SAFETY: PERIODIC UNDERWATER INSPECTIONS

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 60101 to 60125

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: Final, Statutory, October 24, 1995.

Abstract: This action would require operators of natural gas and hazardous liquid pipelines to conduct periodic underwater inspections of offshore pipelines and those in navigable waterways. This action would also define what constitutes an exposed underwater pipeline and what constitutes a hazard to navigation.

Timetable: Next Action Undetermined

Regulatory Flexibility Analysis Required: No

Small Entities Affected: Businesses

Government Levels Affected: Undetermined

Additional Information: Docket No. RSPA-97-3001. This action could include requirements for the reburial of exposed pipelines. Under an OPS contract, Texas A&M University completed a study of the issues related to burial depth and inspection requirments for underwater pipelines.

An NPRM is being drafted that will incorporate the Texas A&M recommendation for a risk-based approach.

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: None

Abstract: In connection with the series of rules Pipeline Integrity Management in High Consequence Areas, the Office of Pipeline Safety (OPS) may propose related rules governing operator communications with local public officials and agencies. To assist in this effort, the OPS Technical Advisory Committees created an Integrity Management Communications Subcommittee to focus on communications issues. The Subcommittee has equal representation from the public, government agencies, and the pipeline industry. It provides feedback, insight, and information to the advisory committee on the content and delivery of information conveyed to local officials and public about pipeline operations, systems, and the risks they pose in or near high consequence areas. The Subcommittee is also assisting OPS in finalizing a primer to educate local officials on pipelines and their operations. It held its first meeting on August 28, 2000, to discuss the content and delivery of pipeline information to be conveyed to local officials and members of the public in or near high consequence areas.

2675. HAZARDOUS MATERIALS: REVISION OF REQUIREMENTS FOR CARRIAGE BY RAIL CAR AND MOTOR VEHICLE

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 5101 to 5127

CFR Citation: 49 CFR 174; 49 CFR 177

Legal Deadline: None

Abstract: This rulemaking is based on a joint petition for rulemaking submitted by the American Trucking Associations, Inc. and the Association of American Railroads. The intended impact of a proposal to address this petition is to streamline the requirements of parts 174 and 177. However, RSPA believes that we should broaden the scope of a proposal to cover all rail, air, highway, and vessel carrier requirements in parts 174, 175, 176 and 177. Further, in 2003, we will be reviewing part 176, Carriage by Vessel, in accordance with section 610 of the Regulatory Flexibility Act of 1980 (Public Law 96-354). Therefore, we are planning a new project to address requirements for transporting hazardous materials by all four modes. This rulemaking action is terminated.

2682. MODERNIZING THE PASSENGER ORIGIN-DESTINATION SURVEY

Priority: Substantive, Nonsignificant

Legal Authority: 49 USC 41708; 49 USC 41709

CFR Citation: 14 CFR 241

Legal Deadline: None

Abstract: Historically, the source document for the Passenger Origin-Destination Survey was the auditor's coupon of the ticket. Until recently, these coupons provided all the information that was needed for the Survey. In the last few years, the carriers have begun using trip passes in conjunction with the tickets, thereby eliminating some of the data that is required to be reported in the Survey. Other innovations used by the industry, such as change-of-gauge flights and code-sharing, have impacted the Survey and obscured some of the data that is required to be reported, such as change of planes and junction points. This rulemaking will explore whether there are alternative sources for the data and modernize the collection system to keep pace with the industry.

CFR Citation: 14 CFR 217; 14 CFR 241; 14 CFR 298

Legal Deadline: None

Abstract: This action would revise definitions of revenue passenger and nonrevenue passenger. It would specify that a passenger traveling on a ticket or voucher received as compensation for denied boarding or as settlement of a consumer complaint is considered to be a revenue passenger. The revised definitions will harmonize Departmental regulations with those adopted by the International Civil Aviation Organization (ICAO). This will prevent air carriers from being required to keep two sets of traffic enplanement statistics.

DEPARTMENT OF THE TREASURY (TREAS)

DEPARTMENT OF THE TREASURY

31 CFR Subtitle A, Chs. I and II

Semiannual Agenda and Fiscal Year 2002 Regulatory Plan

AGENCY: Department of the Treasury.

ACTION: Semiannual regulatory agenda.

SUMMARY: This notice is given pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, September 19, 1980) and Executive Order (E.O.) 12866 ("Regulatory Planning and Review," September 30, 1993), which require the publication by the Department of a semiannual agenda of regulations. E.O. 12866 also requires the publication by the Department of a regulatory plan for fiscal year 2002.

FOR FURTHER INFORMATION CONTACT: For additional information about a specific entry in the agenda, contact the "Agency Contact" identified in the agenda item relating to that regulation.

SUPPLEMENTARY INFORMATION: The semiannual agenda of the Department of the Treasury conforms to the Unified Agenda format developed by the Regulatory Information Service Center (RISC). For this edition of Treasu regulatory agenda, the most imp significant regulatory actions are included in The Regulatory Plan appears in part II of this issue of **Federal Register**. The Regulatory entries are listed in the table of c below and are denoted by a brac bold reference, which directs the to the appropriate sequence num part II.

Dated: October 16, 2001.

Richard S. Carro,

Senior Counsel for Regulatory and La Affairs.

2686. • COMMON RULE SUSPENSION AND DEBARMENT

Priority: Substantive, Nonsignificant

Legal Authority: 41 USC 701

CFR Citation: 31 CFR 19; 31 CFR 20

Legal Deadline: None

Abstract: The common rule provides uniform requirements for debarment and suspension by executive branch agencies to protect assistance, loans, benefits and other nonprocurement activities from waste, fraud, abuse and poor performance, similar to the system used for Federal procurement activities under subpart 9.4 of the Federal Acquisition Regulation.

Final Rule Stage

2687. FINANCIAL SUBSIDIARIES

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 24a

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: This joint rule will be adopted by the Department of the Treasury and the Board of Governors of the Federal Reserve System to implement section 121 of the Gramm-Leach-Bliley Act. The Rule will establish a portion of an indexing mechanism to adjust the maximum aggregate consolidated assets of all financial subsidiaries of a national bank permitted under the Act.

2697. AMENDMENT TO THE BANK SECRECY ACT REGULATIONS—EXEMPTIONS FROM THE REQUIREMENT TO REPORT TRANSACTIONS IN CURRENCY

Priority: Substantive, Nonsignificant
Legal Authority: 12 USC 1829b; 12 USC 1951 to 1959; 31 USC 5311 to 5330
CFR Citation: 31 CFR 103
Legal Deadline: None

Abstract: This document contains an interim rule that further reforms and simplifies the process by which depository institutions may exempt transactions of retail and other businesses from the requirement to report transactions in currency in excess of $10,000. The interim rule is part of a continuing program to reduc unnecessary burdens upon financial institutions complying with the Bank Secrecy Act and increase the cost-effectiveness of the counter-money laundering policies of the Department of the Treasury.

2701. CLAIMS ON ACCOUNT OF TREASURY CHECKS

Priority: Substantive, Nonsignificant

Legal Authority: 31 USC 321; 31 USC 3328; 31 USC 3331; 31 USC 3343; 31 USC 3702; 31 USC 3712

CFR Citation: 31 CFR 245

Legal Deadline: None

Abstract: Title 31 CFR part 245 governs the issuance of replacement checks for checks drawn on the United States Treasury when: 1) the original check has been lost, stolen, destroyed or mutilated or defaced to such an extent that it is rendered non-negotiable; 2) the original check has been negotiated and paid on a forged or unauthorized indorsement; and 3) the original check has been cancelled pursuant to 31 CFR part 240. This regulation is being revised to update the regulation's definitions to make them consistent with the language of the proposed revisions to the definitions in 31 CFR part 240. Other revisions will govern the use of the Check Forgery Insurance Fund (Fund). The Fund is a revolving fund established to settle payee claims of non-receipt where the original check has been fraudulently negotiated. The Fund ensures that innocent payees, whose Treasury checks have been fraudulently cashed, receive replacement checks in a timely manner.

CFR Citation: 31 CFR 203

Legal Deadline: None

Abstract: This first rule amends the regulation to provide the Secretary greater flexibility to adjust the rate of interest charged on funds loaned through the Treasury Tax and Loan (TT&L) program. The rule also allows for a new TT&L investment option for financial institutions. This second rule includes general revisions which will provide needed updates to support operational changes to the system used for the collection of corporate withholding taxes and the investment of the Government's excess operating funds; streamline the regulation by converting to the plain language standard; and incorporate other needed updates.

CFR Citation: 31 CFR 240

Legal Deadline: None

Abstract: Notice of proposed rulemaking II (NPRM II) was a reissuance of NPRM I published on 9/21/95, which proposed to fix the time by which Treasury can decline payment on Treasury checks, provide financial institutions with a date certain for final payments, and provide greater clarity by defining previously undefined terms. NPRM I also proposed that the Department of the Treasury may instruct Federal Reserve Banks to intercept benefit payment checks to deceased payees and to return, unpaid, those checks. In addition to the revisions proposed in NPRM I, NPRM II announced the Department of the Treasury's intent that this regulation supersede Federal common law regarding the risk of loss on checks containing forged disbursing officer signatures, such as counterfeits. The Interim Final Rule will amend this regulation to implement provisions of the Debt Collection Improvement Act of 1996 authorizing the collection of debts owed by presenting banks through Treasury Check Offset. NPRM III is a reissuance of NPRM II and will address, at a minimum, the issues in NPRMs I and II.

2708. FOREIGN EXCHANGE OPERATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 22 USC 2363; 31 USC 3513; EO 10488; EO 10900

CFR Citation: 31 CFR 281

Legal Deadline: None

Abstract: This regulation governs the administration of the purchase, custody, deposit, transfer, sale and reporting of foreign exchange (including credits and currencies) by executive departments and agencies. Currently, this regulation allows the purchase of foreign currency to an amount which, together with the balance on hand in the bank, may not exceed estimated requirements for a 30-day period. The revised rule allows the purchase of foreign currency to a balance "commensurate with immediate disbursing requirements."

Priority: Substantive, Nonsignificant

Legal Authority: PL 104-53; PL 104-316; 28 USC 2414; 28 USC 2517; 31 USC 1304

CFR Citation: 31 CFR 256

Legal Deadline: None

Abstract: This regulation governs the procedure for securing payment for money judgments against the United States. The proposed revision will update the procedure for making claims. This will benefit claimants and others in understanding the claims process. This regulation currently describes a process that involves the General Accounting Office (GAO) and the Treasury Department. The change will eliminate the GAO from this description to reflect legislative amendments that effect this change. Also, the regulation currently identifies monetary thresholds that no longer exist. The change will reflect the removal of these monetary limitations and the resulting submission requirements. These changes in the regulation will make it consistent with current practices for claimants securing money judgments against the United States.

Priority: Substantive, Nonsignificant

Legal Authority: 18 USC 846(b)

CFR Citation: 27 CFR 55

Legal Deadline: None

Abstract: ATF will issue this temporary rule to implement certain provisions of Public Law 104-208, the Omnibus Consolidated Appropriations Act of 1997 (the Act), enacted September 30, 1996. The Act amended the Federal explosives laws in 18 U.S.C. chapter 40, to require all Federal agencies to report to ATF any information involving arson or the suspected criminal misuse of explosives. The Act also authorizes ATF to establish a repository for this information. In addition, the law provides that such repository will contain information on incidents voluntarily reported to ATF by State and local authorities.

Legal Authority: 5 USC 552(a); 18 USC 847; 18 USC 921 to 930; 44 USC 3504(h)

CFR Citation: 27 CFR 178

Legal Deadline: None

Abstract: ATF will amend the regulations to implement the provision of Public Law 105-277, Making Omnibus Consolidated and Emergency Supplemental Appropriations for Fiscal Year 1999, relating to the permanent provisions of the Brady Handgun Violence Prevention Act. The new law allows a licensed pawnbroker to contact the national instant criminal background check system (NICS) prior to taking or receiving a firearm in pawn. If NICS advises the pawnbroker that receipt or possession of the firearm would be in violation of the law, the licensee must advise local law enforcement within 48 hours after receipt of information.

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 552(a); 18 USC 847; 18 USC 921 to 930; 44 USC 3504(h)

CFR Citation: 27 CFR 178

Legal Deadline: None

Abstract: ATF will issue a temporary rule amending the regulations to implement the provisions of Public Law 105-277, Making Omnibus Consolidated and Emergency Supplemental Appropriations for Fiscal Year 1999. The regulations implement the law by prohibiting, with certain exceptions, the transfer to and possession of firearms by aliens admitted to the United States under a nonimmigrant visa. Regulations are also prescribed with regard to applicants for dealer's licenses to certify that secure gun storage or safety devices will be available at any place where firearms are sold to nonlicensed individuals, and an amended definition of "antique firearm" to include certain muzzle loading firearms.

Abstract: The Omnibus Consolidate Appropriations Act of 1997 contains amendments to the Gun Control Act 1986 (18 U.S.C. chapter 44). These amendments add to the category of "prohibited persons" anyone convic of a "misdemeanor crime of domesti violence." The amendments require individuals acquiring handguns fron Federal firearms licenses to certify (i accordance with the Brady Law) tha they have not been convicted of such a crime. The amendments also provi for sales between Federal firearms licensees of curio and relic firearms away from their licensed premises.

TREAS—BATF — **Final Rule Stage**

2741. RESIDENCY REQUIREMENT FOR PERSONS ACQUIRING FIREARMS

Priority: Other Significant

Legal Authority: 5 USC 552(a); 18 USC 847; 18 USC 921 to 930; 44 USC 3504(h)

CFR Citation: 27 CFR 178

Legal Deadline: None

Abstract: The temporary rule amends the regulations to provide for a firearms purchaser's affirmative statement of his or her State of residence on ATF Form 4473 (Firearms Transaction Record) and ATF Form 5300.35 (Statement of Intent to Obtain a Handgun) in acquiring a firearm from a Federal firearms licensee. The temporary rule also amends the regulations to require that aliens purchasing a firearm provide proof of residency through the use of substantiating documentation, such as utility bills or a lease agreement. In addition, the regulations are being amended to require that licensees examine a photo identification document from aliens purchasing firearms. These regulations implement President Clinton's March 5, 1997 announcement of firearms initiatives intended to protect the American public from gun violence.

2742. COMMERCE IN FIREARMS AND AMMUNITION—ANNUAL INVENTORY

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 552(a); 18 USC 847; 18 USC 921 to 930; 44 USC 3504(h)

CFR Citation: 27 CFR 178

Legal Deadline: None

Abstract: ATF is proposing to amend the regulations to require federally licensed importers, manufacturers, and dealers of firearms to take at least one physical inventory each year. The proposed regulations also specify the circumstances under which these licensees must conduct a special physical inventory. In addition, these proposed regulations clarify who is responsible for reporting a firearm that is stolen or lost in transit between licensees.

TOBACCO PRODUCTS

2743. • IMPORTATION OF TOBACCO PRODUCTS AND CIGARETTE PAPERS AND TUBES; RECODIFICATION OF REGULATIONS

Priority: Info./Admin./Other

Legal Authority: 26 USC 7805

CFR Citation: 27 CFR 41; 27 CFR 275

Legal Deadline: None

Abstract: The Bureau of Alcohol, Tobacco and Firearms (ATF) is recodifying the regulations in part 275, Importation of Tobacco Products and Cigarette Papers and Tubes. The purpose of this recodification is to reissue the regulations in part 275 of title 27 of the Code of Federal Regulations (CFR) as 27 CFR part 41. This change improves the organization of title 27 CFR.

2758. • PROPOSED SAN BERNABE VITICULTURAL AREA

Priority: Substantive, Nonsignificant

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 9

Legal Deadline: None

Abstract: The Bureau of Alcohol, Tobacco and Firearms (ATF) has received petitions proposing the establishment of the San Bernabe viticultural area and the realignment of the San Lucas American Viticultural Area (AVA). Both areas are situated within the Central Coast AVA, the Monterey AVA, and are located in central Monterey County, California. The proposed San Bernabe AVA would consist of 24,796 acres of land that the petitioner states is predominantly rolling hills with sandy soils that differ from the surrounding Monterey AVA. The San Lucas realignment would transfer 1,100 of its northwest acres to the proposed San Bernabe southern area in an effort to conform with geographic considerations of the new area. These proposals are the result of petitions filed by Claude Hoover of Delicato Family Vineyards.

2796. CAPITAL RULES

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 93a; 12 USC 161; 12 USC 1828 note; 12 USC 1828(n); 12 USC 1831n note; 12 USC 1835; 12 USC 3907; 12 USC 3909

CFR Citation: 12 CFR 3

Legal Deadline: None

Abstract: As part of the OCC's ongoing efforts to develop and refine capital standards to ensure the safety and soundness of the national banking system and to implement statutory requirements, the OCC is amending various provisions of the capital rules for national banks. Specifically, these changes include: 1) collateralized transactions; 2) recourse arrangements and direct credit substitutes (revised to include residual interests); 3) claims on securities firms; 4) domestic capital framework (formerly referred to as bifurcated capital for complex and noncomplex banks); 5) securities borrowing transactions; 6) nonfinancial equity investments (merchant banking); and 7) managed assets. The OCC is conducting all of these rulemakings jointly with the other Federal banking agencies.

2801. • RULES, POLICIES, AND PROCEDURES FOR CORPORATE ACTIVITIES

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1 et seq; 12 USC 29; 12 USC 93a; 12 USC 371; 12 USC 1701j-3; 12 USC 1828(o); 12 USC 3331 et seq; Section 5136A of the Revised Statutes (12 USC 24a)

CFR Citation: 12 CFR 5; 12 CFR 34

Legal Deadline: None

Abstract: The OCC plans to amend 12 CFR part 5 to implement the authority for national banks to merge with one or more of their nonbank subsidiaries or affiliates contained in section 1206 of the American Homeownership and Economic Opportunity Act of 2000 (AHEOA). The proposal will also amend 12 CFR part 5 by adding a new section setting forth the application and prior approval requirements described in section 1204 of AHEOA for national banks contemplating reorganization as a subsidiary of a bank holding company. In addition, the OCC also plans to amend 12 CFR part 7, to permit national banks to adopt by-laws providing for staggered boards of directors as set forth in section 1205 of AHEOA. The OCC also plans to amend 12 CFR art 34 by revising the rules governing adjustable rate mortgages and to consider revisions related to various consumer protection measures.

2807. PROHIBITION AGAINST USE OF INTERSTATE BRANCHES PRIMARILY FOR DEPOSIT PRODUCTION

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 21; 12 USC 22; 12 USC 26; 12 USC 27; 12 USC 30; 12 USC 36; 12 USC 93a; 12 USC 161; 12 USC 215; 12 USC 215a; 12 USC 481; 12 USC 1814; 12 USC 1816; 12 USC 1828(c); 12 USC 1835a; 12 USC 2901 through 2907; 12 USC 3101 through 3111

CFR Citation: 12 CFR 25

Legal Deadline: None

Abstract: The notice of proposed rulemaking invited comment on a rule that would amend regulations implementing section 109 of the Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994 to effectuate the amendment of section 109 of the Gramm-Leach-Bliley Act of 1999. Section 109 prohibits a bank from establishing or acquiring a branch or branches outside of its home state for the purpose of deposit production. Additionally, section 109 contains guidelines for determining whether a bank is reasonably helping to meet the credit needs of communities served by an out-of-state branch or branches. The proposed rule amends the section 109 deposit production prohibition to include any bank or branch controlled by an out-of-state bank holding company, including a bank consisting only of a main office.

CFR Citation: 12 CFR 1; 12 CFR 7; 12 CFR 23

Legal Deadline: None

Abstract: The OCC amended 12 CFR parts 1, 7, and 23. The revisions to part 1 incorporate the express authority to underwrite municipal bonds granted to national banks by section 151 of the Gramm-Leach-Bliley Act (GLBA). The revisions to part 7: 1) clarify the conditions under which a national bank may participate in a bona fide financial literacy program at a school without the school location being deemed a branch of the bank; 2) revise the OCC's regulation governing bank holidays to conform it with the Comptroller's statutory authority to proclaim mandatory bank closings; 3) clarify the scope of the term "NSF" fees for purposes of 12 U.S.C. 85; 4) clarify the OCC's current regulation governing national banks' non-interest charges and fees; and 5) provide that state law applies to a national bank operating subsidiary only to the extent that it applies to the parent national bank. The revisions to part 23 prescribe a percentage limit on the extent to which a national bank may rely on estimated residual value to recover its costs in personal property leasing arrangements.

Legal Authority: 12 USC 93a; 12 USC 481; 12 USC 482; 12 USC 3102

CFR Citation: 12 CFR 8

Legal Deadline: None

Abstract: The OCC has amended the assessment formula it uses to assess independent credit card banks. A credit card bank is considered independent for purposes of this proposal if it engages primarily in credit card operations and is not affiliated with a full service national bank. Under the revised rate structure, all credit card banks will continue to be assessed based on balance sheet assets. However, independent credit card banks will pay an additional assessment to reflect the supervision required of these banks' off-balance sheet activities.

2823. ADMINISTRATIVE RULINGS

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 301; 19 USC 66; 19 USC 1202; 19 USC 1502; 19 USC 1624; 19 USC 1625

CFR Citation: 19 CFR 177

Legal Deadline: None

Abstract: Document revises those provisions of the Customs Regulations that concern the issuance of administrative rulings and related written determinations and decisions on prospective and current transactions arising under the Customs and related laws. Changes include amendments in response to statutory changes made to the administrative ruling process by section 623 of the Customs Modernization provisions of the North American Free Trade Agreement Implementation Act, as well as substantive and organizational changes to clarify current administrative practice, and otherwise improve the layout and readability of the present regulatory texts.

2827. PRIVATE AIRCRAFT PROGRAMS: ESTABLISHMENT OF THE GENERAL AVIATION TELEPHONIC ENTRY (GATE) PROGRAM AND REVISIONS TO THE OVERFLIGHT PROGRAM

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 301; 19 USC 58b; 19 USC 66; 19 USC 1433; 19 USC 1436; 19 USC 1448; 19 USC 1459; 19 USC 1590; 19 USC 1594; 19 USC 1623; 19 USC 1624; 19 USC 1644; 19 USC 1644a

CFR Citation: 19 CFR 122; 19 CFR 123

Legal Deadline: None

Abstract: Amendment provides for the GATE Program and revises the Overflight Program. The GATE Program is a voluntary program designed to facilitate Customs processing of certain prequalified frequent travelers on preregistered general aviation aircraft arriving in the United States directly from Canada. The Overflight Program exempts certain private aircraft arriving in the continental United States from the special landing requirements applicable to such aircraft. The revision to the Overflight Program involves modifying the application process and centralizing the processing of requests for overflight privileges.

CFR Citation: 19 CFR 10; 19 CFR 163

Legal Deadline: Final, Statutory, September 9, 2001, Public Law 106-476.

Abstract: Amendment to establish rules and procedures under the Product Development and Testing Act of 2000 (PDTA). The purpose of the PDTA is to promote product development and testing in the United States by allowing the duty-free entry of articles, commonly referred to as prototypes, that are to be used exclusively in product development, testing, evaluation and quality control. Amendments set forth the procedures for both the identification of those prototypes properly entitled to duty-free entry, as well as the permissible sale of such prototypes, following use in the United States, as scrap, waste, or for recycling.

CFR Citation: 19 CFR 24

Legal Deadline: None

Abstract: Amendment to expand the number of ways that Customs will accept payment of duties, taxes, fees, interest and other charges. Currently, the regulations allow for credit or charge cards, which have been authorized by the Commissioner of Customs, to be used at designated Customs-serviced locations with a limitation that this method of payment may only be used by noncommercial entities. Amendment allows payment of duties, taxes, fees, interest and other charges by any electronic technology or charge cards (either debit or credit cards) that are authorized by the Commissioner of Customs and by removing the limitation that these methods of payment may only be used by noncommercial entities.

2843. GENERAL ORDER WAREHOUSES

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 301; 19 USC 66; 19 USC 1202; 19 USC 1311; 19 USC 1312; 19 USC 1484; 19 USC 1485; 19 USC 1490 to 1493; 19 USC 1506; 19 USC 1559; 19 USC 1563

CFR Citation: 19 CFR 4; 19 CFR 19; 19 CFR 122; 19 CFR 123; 19 CFR 127

Legal Deadline: None

Abstract: Amendment principally creates a new class of bonded warehouse exclusively for the receipt of general order merchandise and includes procedures for authorizing and operating general order warehouses. Amendment also implements certain amendments to the law made by the Customs modernization portion of the North American Free Trade Agreement Implementation Act concerning the circumstances where the title to unclaimed and abandoned merchandise vests in the Government, in lieu of sale of the merchandise at public auction.

Final Rule Stage

Legal Deadline: None

Abstract: Amendment regarding the proper assessment of user and navigation fees, as well as other reimbursement charges for Customs services performed in connection with, among other things, the processing of vehicles, vessels, aircraft and merchandise arriving in the United States. Purpose of the amendment is to conform the regulations with the intent of the Customs user fee statute and to reflect existing operational policy and administrative practice in this area.

Legal Deadline: None

Abstract: Amendment to implement the provisions of the Civil Asset Forfeiture Reform Act of 2000 (CAFRA), insofar as these provisions are applicable to laws enforced by Customs. The CAFRA creates general rules governing civil forfeiture proceedings. However, CAFRA specifically exempts from certain of its requirements forfeitures that are made under a number of statutes, among those being: the Tariff Act of 1930 or any other provision of law codified in title 19, U.S.C.; the Internal Revenue Code of 1986; the Federal Food, Drug, and Cosmetic Act; and the Trading with the Enemy Act.

2870. • CHANGE IN FLAT RATE OF DUTY ON ARTICLES IMPORTED FOR PERSONAL OR HOUSEHOLD BONA FIDE GIFTS

Priority: Routine and Frequent

Legal Authority: 19 USC 66; 19 USC 1496; 19 USC 1498; 19 USC 1624; 19 USC 1202

CFR Citation: 19 CFR 148

Legal Deadline: None

Abstract: Amendment to reflect a provision of the Tariff Suspension and Trade Act of 2000 which sets forth staged reductions of the flat rate of duty on articles imported for personal or household use or as bona fide gifts. The staged reductions of duty rates are applicable to the described categories of articles that accompany persons entering the United States and that are imported by or for the account of a person arriving from American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, or the Virgin Islands of the United States.

2885. STRADDLES—ONE SIDE LARGER THAN THE OTHER

Priority: Substantive, Nonsignificant

Legal Authority: 26 USC 1092

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: A "straddle" occurs, for purposes of section 1092 of the Internal Revenue Code, when a taxpayer enters into two separate positions in financial instruments that "offset" each other. Positions offset each other when, taken together, they substantially diminish the taxpayer's risk of loss. A taxpayer in a "straddle" is subject to various limitations on recognition of loss on the positions until both positions are liquidated. These regulations will deal with the situation in which one position is larger than the other (that is, the diminution of the risk of loss for one position is only partial).

2896. STATUTE OF LIMITATIONS ON COLLECTION INSTALLMENT AGREEMENTS

Priority: Substantive, Nonsignificant

Legal Authority: 26 USC 6331

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: The purpose of this regulation is to provide for the prohibition of levy while an installment agreement is pending with the Secretary, while an installment agreement is in effect, and following the rejection or termination of an installment agreement. This levy prohibition is established in section 6331(k) of title 26, as added by the IRS Restructuring and Reform Act of 1998. The goal of the regulations is to clarify when levy is prohibited and the effect of the prohibition on the statute of limitations for collection.

2912. NORMAL RETIREMENT AGE FOR PENSION PLANS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 26 USC 7805

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: These regulations will provide guidance regarding the determination of normal retirement age in a pension plan, including a money purchase pension plan, target benefit plan and defined benefit plan. Section 411(a)(8) defines the term normal retirement age as the earlier of: 1) the time a participant attains normal retirement age under the plan; or 2) the later of the time a plan participant attains age 65, or the 5th anniversary of the time a plan participant commenced participation in the plan. These regulations also would provide section 411(d)(6) relief for amendments that modify a pension plan's normal retirement age to conform with the proposed regulation.

2942. • APPLICATION OF THE FEDERAL INSURANCE CONTRIBUTIONS ACT, FEDERAL UNEMPLOYMENT TAX ACT AND COLLECTION OF INCOME TAX AT SOURCE TO STATUTORY STOCK OPTIONS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 26 USC 3101; 26 USC 3301; 26 USC 3401; 26 USC 7805; 26 USC 3208

CFR Citation: 26 CFR 31

Legal Deadline: None

Abstract: The proposed regulations under sections 424, 3121, 3306, 3401 contained in the Notice of Proposed Rulemaking clarify the application of the Federal Insurance Contributions Act (FICA), Federal Unemployment Tax Act (FUTA), and Collection of Income Tax at Source to statutory stock options; i.e., incentive stock options under section 422 (ISOs) and options granted under employee stock purchase plans under section 423 (ESPP options). The proposed regulations provide that at the time of the exercises of a statutory stock option, the individual who was granted the statutory stock option receives wages for FICA and FUTA purposes. The proposed regulations also provide that the amount of wages received equals the excess of the fair market value of the stock acquired pursuant to the exercise of the statutory stock option over the amount paid for the stock. The proposed regulations also provide that income tax withholding is not required when an individual exercises a statutory stock option because no income is recognized at the time of exercise by reason of section 421(a)(1).

2946. DEFINITION OF "HIGHLY COMPENSATED EMPLOYEE"

Priority: Substantive, Nonsignificant

Legal Authority: 26 USC 7805; 26 USC 414

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations define the term "highly compensated employee" under section 414(q) of the Code. Temporary and proposed regulations, under sections 414(q) and 414(s), were published February 19, 1988 (53 FR 4965). Final regulations, under section 414(s), were published September 19, 1991 (56 FR 47659) under project EE-129-86. The regulations under 414(q) were split off from project EE-129-86. It is anticipated that final regulations under section 414(q) will be published in the future under project REG-209558-92 (EE-32-92).

2949. TREATMENT OF OBLIGATION-SHIFTING TRANSACTIONS

Priority: Substantive, Nonsignificant

Legal Authority: 26 USC 7805; 26 USC 7701

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations recharacterize obligation-shifting transactions. Obligation-shifting transactions are transactions in which the transferee assumes obligations, or acquires property subject to obligations under an existing lease or similar agreement. The transferor or any other party has already received, or retains the right to receive amounts that are allocable to periods after the transfer. The regulations prevent tax avoidance by recharacterizing obligation-shifting transactions in a manner that clearly reflects the parties' income.

2964. COMPROMISES

Priority: Substantive, Nonsignificant

Legal Authority: 26 USC 7122

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: The purpose of this regulation is to provide expanded compromise authority, pursuant to section 7122 of title 26, as amended by the Restructuring and Reform Act of 1998. Prior to the amendment, doubt as to collectibility, doubt as to liability, or both, were the only grounds for consideration of compromise cases. The goal of this regulation is to permit consideration of other factors in compromising tax liability.

2970. NOTICE OF CONTACT OF THIRD PARTIES—SECTION 7602(C)

Priority: Substantive, Nonsignificant

Legal Authority: 26 USC 7805

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: This regulation implements and interprets section 7602(c), concerning third-party contacts, so they can understand how the law will affect them. The Restructuring and Reform Act of 1998, section 3417(a), created a new section 7602(c), which requires that the IRS may not contact third parties with request to the determination or collection of the tax liability of a taxpayer without providing reasonable notice to the taxpayer in advance. It also requires the IRS to keep a list of contacts and provide it periodically to the taxpayer.

Final Rule S

2982. DISCLOSURE OF RETURN AND RETURN INFORMATION TO DESIGNEE OF TAXPAYER

Priority: Substantive, Nonsignificant

Legal Authority: 26 USC 6103

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: The purpose of this regulation is to implement the amendment contained in the Taxpayer Bill of Rights II (TBOR II) to Internal Revenue Code section 6103(c). TBOR II eliminated the requirement for a request or consent for disclosure to be in writing. The proposed regulations would permit the Internal Revenue Service to disclose returns and return information to a taxpayer's designee, pursuant to a non-written request for or consent to disclosure. The regulations will also provide rules and guidance for consent in an electronic environment. Additionally, the regulations will provide guidance to Internal Revenue Service personnel to clarify a number of issues that have arisen since the regulation was initially promulgated in the late 1970s.

2987. "AUTHORIZED PLACEMENT AGENCY" UNDER SECTION 152

Priority: Substantive, Nonsignificant

Legal Authority: 26 USC 152

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations amend the definition of "authorized placement agency" (for purposes of determining whether a child placed for legal adoption in a taxpayer's home is a dependent of the taxpayer) to include biological parents and other persons authorized by State law to place children for legal adoption.

2999. NOTICE TO INTERESTED PARTIES

Priority: Substantive, Nonsignificant

Legal Authority: 26 USC 7805

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: These regulations set forth the applicable standards by which a plan sponsor may satisfy the notice to interested parties requirement. Before the Service can issue a determination letter, a plan sponsor must provide evidence that it has notified all persons who qualify as interested parties that an application for an advance determination will be filed regarding the qualification of the sponsor's plan. The proposed regulations affect retirement plan sponsors, interested parties, and certain representatives of interested parties.

3085. • CHARITABLE LEAD INTEREST

Priority: Substantive, Nonsignificant

Legal Authority: 26 USC 2055; 26 USC 2522; 26 USC 170

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: These proposed regulations conform the sections 170, 2055, and 2522 regulations to the decision in Estate of Boeshore v. Commissioner, T.C. 523 (1982) acq. in result, 1987-2 C.B. 1. The opinion found that section 20.2055-2(c)(2)(vi)(e) was invalid to the extent that it held that an estate tax charitable deduction was precluded because a private unitrust interest was payable from the trust before the commencement of the charitable unitrust interest.

3086. • NET GIFT TREATMENT—SECTION 2519

Priority: Substantive, Nonsignificant

Unfunded Mandates: Undetermined

Legal Authority: 26 USC 7805

CFR Citation: 26 CFR 25

Legal Deadline: None

Abstract: This regulation section is intended to cover the effect of gift tax recovered by the donor, pursuant to the right of recovery under section 2207A, on the amount of the gift under section 2519 (i.e., whether the transfer is a "net gift"). The section was reserved when the regulations under section 2519 were finalized, because of uncertainty regarding whether section 2207A shifts the liability for the gift tax to the beneficiaries of the transfer. After considering the issue in conjunction with several TAMS and PLRS, we have adopted a position that section 2207A does not shift the liability for the gift tax imposed on a section 2519 transfer.

3088. • GUIDANCE UNDER IRC SECTION 4374

Priority: Substantive, Nonsignificant

Legal Authority: 26 USC 7805; 26 USC 4374

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: This project is intended to amend Treas Reg. section 46.4374-1(a), which deals with an excise tax imposed on foreign insurers or reinsurers. The existing regulation was published in 1970 and provides that the "tax shall be remitted by the person who makes the payment of the premium to a foreign insurer or reinsurer or to any nonresident agent, solicitor, or broker. For purposes of this paragraph, the person who makes payment means t resident person who actually transfe the money, check, or its equivalent t the foreign insurer or reinsurer (including transfers to any bank, trus fund, or similar recipient, designated by the foreign insurer or reinsurer), to any nonresident agent, solicitor, o broker." In 1976, I.R.C. section 4374 was amended to impose liability on "any person who makes, signs, issue or sells any of the documents and instruments subject to the tax, or for whose use or benefit the same are made, signed, issued or sold." There have been cases recently where a foreign parent corporation, for examp has purchased from a foreign insurer policies covering risks, and for the benefit of, a U.S. subsidiary. The IRS often has no ability to collect the exc tax on such a policy from the foreign parent, and the U.S. subsidiary has relied on the existing regulation to argue that the IRS may not collect th tax from the subsidiary, because it di not actually pay the premium to the foreign insurer.

3127. CAPITAL RULES

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1462; 12 USC 1462a; 12 USC 1463; 12 USC 1464; 12 USC 1467a; 12 USC 1835; 12 USC 1848; 12 USC 4808

CFR Citation: 12 CFR 567

Legal Deadline: None

Abstract: OTS currently has underway a number of regulatory amendments to its capital standards for savings associations. These amendments implement section 303 of the Riegle Community Development and Regulatory Improvement Act of 1994 (CDRIA). CDRIA requires the Federal banking agencies to make their capital rules and other rules more uniform.

The agencies have jointly issued a proposed rule that would treat recourse obligations and direct credit substitutes consistently and that would vary the risk-based capital requirement for positions in securitized asset transactions according to relative risk exposure; and a proposed rule that would amend regulatory capital standards concerning the treatment o certain residual interests in asset securitizations and other transfers of financial assets. These rules will be combined at the final rule stage.

In addition, the agencies issued an advance notice of proposed rulemaking developing a simplified capital adequacy framework for small, non-complex institutions. Based on this ANPR, the agencies plan to issue a proposed rule modifying the capital adequacy framework for domestic institutions that are not subject to the Basel Accord. Also, the agencies may issue an ANPR or proposed rule addressing the treatment of assets under management in asset securitizations. Finally, the agencies intend to finalize the proposed rule on risk-based capital standards for claims on securities firms.

3130. FAIR CREDIT REPORTING

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1462a; 12 USC 1463; 12 USC 1464; 12 USC 1467a; 12 USC 1828; ...

CFR Citation: 12 CFR 571

Legal Deadline: Final, Statutory, May 12, 2000.

Abstract: OTS and the other Federal banking agencies are developing regulations implementing provisions of the Fair Credit Reporting Act. Subject to certain conditions, these regulations permit institutions to share "other information" with affiliates without becoming consumer reporting agencies (affiliate sharing). The proposed regulations specified that institutions must provide notice and an opportunity to opt-out to consumers before sharing "other information" with their affiliates.

The agencies have analyzed the comments received and are now in the process of developing a revised notice of proposed rulemaking.

Semiannual Regulatory Agenda

UMI

VOL 66 ISS 232 DE 3 2001

UMI

DEPARTMENT OF VETERANS AFFAIRS (VA)

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Ch. I

Unified Agenda of Federal Regulatory and Deregulatory Actions

AGENCY: Department of Veterans Affairs.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda announces the regulations that the Department of Veterans Affairs (VA) will have under development or review during the 12-month period beginning October 2001. The purpose in publishing the Department's regulatory agenda is to allow all interested persons the opportunity to participate in VA's regulatory planning.

ADDRESSES: Interested persons are invited to comment on the entries listed in the agenda by contacting the individual agency contact listed for each entry or by writing to: Director, Office of Regulations Management (02D), Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420.

FOR FURTHER INFORMATION CONTACT: Gloria Armstrong at (202) 273-8605.

SUPPLEMENTARY INFORMATION: This document is issued pursuant to Executive Order 12866 "Regulatory Planning and Review" (and implementing guidance) and the Regulatory Flexibility Act, which require that executive agencies semiannually publish in the **Federal Register** an agenda of regulations th VA will have under development or review. For this edition of the Department of Veterans Affairs regulatory agenda, the most importa significant regulatory actions are included in The Regulatory Plan, w appears in part II of this issue of the **Federal Register**. The Regulatory Pl entries are listed in the table of cont below and are denoted by a bracket bold reference, which directs the re to the appropriate sequence numbe part II.

Thomas O. Gessel,

Director, Office of Regulations Managem

Department of Veterans Affairs (VA) — **Prerule St**

VETERANS HEALTH ADMINISTRATION

3144. MEDICATION PRESCRIBING AUTHORITY

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501; 38 USC 1721

CFR Citation: 38 CFR 17; 38 CFR 17.33

Legal Deadline: None

Abstract: The Veterans Health Administration of the Department of Veterans Affairs is considering amending its medical regulations to specify those who are eligible to prescribe medications. The supplementary information portion of the document contains a preliminary list of those under consideration for prescribing medications. To help formulate a proposed rule regarding medication prescribing authority, an advance notice of proposed rulemaking solicits written comments and announces a public hearing.

3149. MEDICAL BENEFITS PACKAGE; COPAYMENTS FOR EXTENDED CARE SERVICES

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 1710; PL 106-117

CFR Citation: 38 CFR 17.36; 38 CFR 17.38; 38 CFR 17.111

Legal Deadline: None

Abstract: This document proposes to amend VA's medical regulations by adding the following extended care services to the medical benefits package: Noninstitutional adult day health care, noninstitutional geriatric evaluation, and noninstitutional respite care. Also, we propose to amend VA's medical regulations to establish provisions regarding copayments for extended care services. These actions would implement provisions of the Veterans Millennium Health Care and Benefits Act.

3150. ENROLLMENT PRIORITY CATEGORY STATUS CHANGES

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501; 38 USC 1721; PL 106-117

CFR Citation: 38 CFR 17.36

Legal Deadline: None

Abstract: Pursuant to the Veteran's Health Care Eligibility Reform Act of 1996, VA implemented a national enrollment system to manage the delivery of VA hospital and outpatient care. Veterans are eligible to be enrolled based on the Secretary's determination concerning which of the seven priority categories of veterans to enroll. Section 112 of Public Law No. 106-117, the Veteran's Millennium Health Care and Benefits Act, amended the priority categories to include veterans awarded the Purple Heart in priority category three. Accordingly, we intend to change our medical regulations at 38 CFR 17.36 to reflect this statutory change. We further propose to amend VA's Disenrollment requirements set forth under 38 CFR 17.36(d)(4)(iii) to allow priority category 5 veterans enrolled in this category based on their annual income information to remain enrolled. Currently, under 38 CFR 17.36(d)(4)(iii), a veteran enrolled under paragraphs (d)(2) or (d)(3) will be disenrolled if a VA network or facility director, or the Chief Network Officer, determines that a veteran has been enrolled based on inclusion in priority category 5, the veteran was sent by mail a VA Form 10-1-EZ, and the veteran failed to return the completed form to the address on the return envelop within 60 days from receipt of the form. We propose to continue their enrollment but only after the veteran agrees to co-pay requirements set forth under 38 U.S.C. 1710(f) and 1710(g). We also propose to amend the enrollment application form to reflect these changes and to add to the form instructions, a consent to release information, a statement regarding Paperwork Reduction Act changes are necessary to reflect statutory requirements, and to provide information to the public.

3151. • HEALTHCARE FOR CHILDREN BORN WITH ONE OR MORE COVERED BIRTH DEFECTS TO VIETNAM VETERANS

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501(a); 38 USC 1721; PL 106-419

CFR Citation: 38 CFR 17.900 to 1905

Legal Deadline: None

Abstract: The document proposed to establish regulations regarding health care benefits for women Vietnam veterans' children with covered birth defects. It would revise the current regulations regarding health care for Vietnam veterans' children suffering from spina bifida to also encompass health care for women Vietnam veterans' children with certain other birth defects. This is necessary to provide health care for such children in accordance with recently enacted legislation (Public Law 106-419, November 1,2000).

3153. • PAYMENT FOR NON-VA MEDICAL SERVICES AND INPATIENT CARE PROVIDED AT NON-VA FACILITIES

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501

CFR Citation: 38 CFR 17

Legal Deadline: None

Abstract: This document proposes to amend the Department of Veterans Affairs (VA) medical regulations to establish a payment methodology for inpatient care and outpatient medical services provided to eligible VA beneficiaries at non-VA facilities. It is proposed that when there is an amount already calculated under the Medicare Payment Systems for services, VA would pay the lesser of the actual billed charge, an amount negotiated with the provider or the provider's agent, or the calculated amount. It appears that the adoption of the proposal would help ensure that amounts paid for these services would better reflect the resource inputs used to furnish a service and better reflect the true value of services. Further, it is proposed that the regulations would continue to require that VA payment constitute payment in full. In our vi this is required by statute.

3172. SERVICE CONNECTION AND CHRONIC DISABILITY

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501; 38 USC 1110; 38 USC 1131

CFR Citation: 38 CFR 3.303

Legal Deadline: None

Abstract: Title 38 Code of Federal Regulations section 3.303 concerns the basic principles of service connection. This includes provisions on chronic disabilities and continuity of symptomatology. Section 3.303 is being revised into Reader Focused Writing. In addition, VA plans to make substantive changes needed to implement the U.S. Court of Appeals for Veterans Claims' holdings in the Savage, McManawa and Hodges cases.

3176. INDIVIDUALS AND GROUPS CONSIDERED TO HAVE PERFORMED ACTIVE MILITARY, NAVAL, OR AIR SERVICE

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 101; 38 USC 102; 38 USC 107; 38 USC 501(a); 38 USC 1152; 38 USC 1504, 5303(c); PL 95-202; ...

CFR Citation: 38 CFR 3.7

Legal Deadline: None

Abstract: This amendment reorganizes the current regulation and rewrites it in "plain language." The regulation identifies civilian groups and individuals determined to have performed active service based on their service to U.S. Armed Forces. We propose to add three new groups, under the authority of Public Law No. 95-202, based on the recent decision of the Secretary of the Air Force that the service of these group members constitutes active military service.

3191. MONETARY ALLOWANCES FOR CERTAIN CHILDREN OF VIETNAM VETERANS; IDENTIFICATION OF COVERED BIRTH DEFECTS

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 1805(b)(3); 38 USC 1812; 38 USC 1815; 38 USC 5110(n); 38 USC 5312(c)(1)

CFR Citation: 38 CFR 3.27; 38 CFR 3.29; 38 CFR 3.114; 38 CFR 3.216; 38 CFR 3.261

Legal Deadline: None

Abstract: Section 401 of the Veterans Benefits and Health Care Improvement Act of 2000, Public Law 106-419, amended chapter 18 of title 38 United States Code by adding subchapter II authorizing VA to provide certain benefits, including a monthly monetary allowance, to children born with certain birth defects who are the natural children of women veterans who served in the Republic of Vietnam during the Vietnam era. This document amends existing VA adjudication regulations and adds a new section 3.815 to title 38 Code of Federal Regulations to implement this new authority. Section 1823 of title 38 United States Code specifies that receipt of this allowance shall not affect the right of the child, or the right of any individual based on the child's relationship to that individual, to receive any other benefit to which the child, or that individual, may be entitled under any law administered by VA, nor will the allowance be considered income or resources in determining eligibility for, or the amount of, benefits under any Federal or federally assisted program. We propose to amend 38 CFR 3.27, 3.29, 3.31, 3.114, 3.216, 3.261 to 263, 3.272, and 3.275 to reflect this statutory provision as it applies to VA's income-based benefit programs. The statute states that the birth defects identified may not include: A familial disorder, a birth-related injury, or a fetal or neonatal infirmity with well-established causes. The regulation will provide non-exclusive lists of included and excluded conditions for benefits. It also provides criteria to determine which of four levels of monthly monetary payment will be assigned, based on an assessment of the day-to-day functioning of affected individuals or to the extent of disfigurement of the head, face, or neck due to one or more covered birth defects or associated disabilities.

Legal Deadline: None

Abstract: The Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 contains a provision that permits a service member to receive Montgomery GI Bill—Active Duty benefits for the difference between the service member's tuition and the portion of the tuition paid under 10 U.S.C. 2007. Appropriate regulations will be added to implement this provision of law.
The Veterans Benefits and Health Care Improvement Act provides that veterans and eligible persons may receive educational assistance to cover the cost of the tests needed to obtain an occupational license or certification. This improved benefit is available under the Post-Vietnam Era Veterans Educational Assistance Program, the Montgomery GI Bill-Active Duty and the Survivors' and Dependents' Educational Assistance Program. Regulations are needed to allow VA to properly implement this new benefit.

Legal Deadline: None

Abstract: The Veterans Benefits and Health Care Improvement Act of 2000 affects the Montgomery GI Bill-Active Duty and the Montgomery GI Bill-Selected Reserve. These include providing an opportunity for some service members to participate in the Montgomery GI Bill-Active Duty; repeal of the requirement that only the initial period of active duty be considered in determining eligibility for the Montgomery GI Bill-Active Duty; increasing the Montgomery GI Bill-Active Duty for those who contribute additional money; and changing the rules for determining when benefits may be paid during the interval between terms. The regulations governing Montgomery GI Bill will be revised accordingly.

3198. • VOCATIONAL TRAINING FOR CERTAIN CHILDREN OF VIETNAM VETERANS—COVERED BIRTH DEFECTS AND SPINA BIFIDA

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 101; 38 USC 501; 38 USC 512; 38 USC 5112; PL 106-419, sec 401

CFR Citation: 38 CFR 21.8010 - 21.8410

Legal Deadline: None

Abstract: This document proposes to establish regulations regarding provision of vocational training and rehabilitation for women Vietnam veterans' children with covered birth defects. It revises the current regulations regarding vocational training and rehabilitation for Vietnam veterans' children suffering from spina bifida to also encompass vocational training and rehabilitation for women Vietnam veterans' children with certain other birth defects.

3200. • TIME LIMIT FOR REQUEST FOR DENOVO REVIEW

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 5109(a); 38 USC 7105(a)

CFR Citation: 38 CFR 3.2600

Legal Deadline: None

Abstract: We are proposing to amend our regulations concerning the time a claimant has in which to request a de novo review of their claim at the Veterans Service Center level. (This would reduce the time from the current 60 days to 15 days). We believe this amendment will reduce unnecessary delays in the appeals process and will not adversely affect claimants.

3202. • VETERANS EDUCATION: STREAMLINING APPROVAL OF COURSES

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 3890

CFR Citation: 38 CFR 21.4266

Legal Deadline: None

Abstract: The regulations governing approval of courses offered by

VA

Proposed Rule Stage

institutions of higher learning (IHL) with branches in more than one State requires the IHL to maintain administrative capability in each State in which it operates. The information that the IHL must submit to VA concerning veterans' enrollment must come from each State rather than from a central location. This regulation became effective before the advent of e-mail or telefacsimile machines. VA intends to revise the pertinent regulation to allow approval of courses for VA training even if such an IHL does not have administrative capability in each State in which it operates.

3204. CONSTRUCTION AND ARCHITECT-ENGINEER CONTRACTS

Priority: Info./Admin./Other

Legal Authority: 38 USC 501; 40 USC 486(c)

CFR Citation: 48 CFR 801; 48 CFR 832; 48 CFR 836; 48 CFR 843; 48 CFR 846; 48 CFR 852

Legal Deadline: None

Abstract: This rule proposes to amend the Department of Veterans Affairs Acquisition Regulation (VAAR) to revise and update section numbers and titles, to make minor grammatical corrections and revisions, to delegate authority, and to update parts 836, Construction and Architect-Engineer Contracts, and 852, Solicitation Provisions and Contract Clauses, all to correspond to the Federal Acquisition Regulation (FAR). The rule would clarify how existing VAAR clauses relating to construction contracts are to be used, remove obsolete or duplicative materials, update the VAAR regarding certified cost or pricing data, and provide Agency procedures regarding disclosure of the Government cost estimate on construction contracts. The rule would also remove a "guarantee" clause from the VAAR and provide for VA contracting officers to use the FAR "warranty" clause for construction contracts.

BOARD OF VETERANS APPEALS

3206. BOARD OF VETERANS' APPEALS: RULES OF PRACTICE—APPEAL WITHDRAWAL

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501(a); 38 USC 7105(b)(2)

CFR Citation: 38 CFR 20.204

Legal Deadline: None

Abstract: The Board of Veterans' Appeals proposes removing a restriction in its Rules of Practice (Rule of Practice 204; 38 CFR 20.204) that bars an appellant's representative from withdrawing a Notice of Disagreement or a Substantive Appeal that the appellant filed personally without the appellant's written consent. VA believes that the restriction, adopted in the early 1960s, is an outdated and unnecessary intrusion into the relationship between appellants and their representatives, which creates needless delay through unnecessary procedural complexity.

3207. • BOARD OF VETERANS' APPEALS: SPEEDING APPELLATE REVIEW FOR AGING VETERANS

Priority: Other Significant

Legal Authority: 38 USC 501(a); 38 USC 7107

CFR Citation: 38 CFR 20.900(c)

Legal Deadline: None

Abstract: The Board of Veterans' Appeals may advance a case on it's docket for earlier consideration for "sufficient cause shown," 38 U.S.C. section 7107(a)(2). This regulation will expand the regulatory definition of "sufficient cause" in the Board's Rules of Practice to include advanced age. This will permit the Board, on motion, to expedite consideration of appeals from veterans and dependants, age 75 or more, who may be nearing the end of their life expectancy. There is now a sizable cohort of veterans of advanced age, particularly surviving combat veterans from World War II and the Korean War. No other alternatives are available. This amendment will not entail any risks or costs to the public or to the Government other than the costs normally associated with drafting, Agency review, and publication.

NATIONAL CEMETERY SYSTEM

3208. HEADSTONE AND MARKER INSCRIPTION POLICY

Priority: Info./Admin./Other

Legal Authority: 38 USC 501; 38 USC 2306

CFR Citation: 38 CFR 1.630; 38 CFR 1.632

Legal Deadline: None

Abstract: The proposed rule revises 38 CFR 1.630 to implement Department of Veterans Affairs (VA) regulations on its inscription policy for use on Government-provided headstones or markers. The amendment formalizes implementation of an all-inclusive inscription policy. This policy change provides for the payment at Government expense of text only, spa permitting, for optional inscriptions o all Government headstones or markers The rule will be published as a proposed rule in the Federal Register to provide information to the public c specific changes to VA's inscription policy for Government-furnished headstones or markers. A 60-day publ comment period will be provided. Th proposed rule will not have a significant economic impact on a substantial number of small entities and only individual VA beneficiaries could be directly affected.

3209. STATE CEMETERY GRANTS: AID TO STATES FOR ESTABLISHMENT, EXPANSION, AN IMPROVEMENT OF VETERANS CEMETERIES

Priority: Other Significant

Legal Authority: 38 USC 2408

CFR Citation: 38 CFR 39.1; 38 CFR 39.2; 38 CFR 39.3; 38 CFR 39.7; 38 C 39.8; 38 CFR 39.9 (New)

Legal Deadline: None

Abstract: The proposed rule revises CFR part 39 to amend Department of Veterans Affairs (VA) regulations for the State Cemetery Grants Program t implement and update information o program requirements and the application process for participants. The amendment formalizes new standards and provides guidance on how States may obtain funding for grants to expand, establish, or impro State veterans cemeteries. The rule w be published as proposed in the Federal Register to provide informat to the public on how to apply for Federal funding for State veterans cemeteries. A 60-day public comme

period will be provided. It is subject to the requirements of the Administrative Procedures Act and E.O. 12866 because the rule is an interpretation of statute. The proposed rule will not have a significant economic impact on a substantial number of small entities; only those States that apply for funding may be direct beneficiaries.

3210. ELIGIBILITY FOR BURIAL OF DEPENDENT ADULT CHILDREN OF ELIGIBLE VETERANS; AND ELIGIBILITY FOR BURIAL OF CERTAIN FILIPINO VETERANS

Priority: Other Significant

Legal Authority: 38 USC 2402(5); PL 106-419

CFR Citation: 38 CFR 1.620(c)

Legal Deadline: None

Abstract: The Department of Veterans Affairs (VA) proposes to amend regulations to specify that the eligibility of veterans' adult children for burial in a national cemetery is only for those who have become permanently incapable of self support before attaining the age of 21 years due to a physical or mental disability. Current regulations do not clearly express this requirement. It also proposes to amend regulations to specify that the eligibility of certain Filipino veterans will be eligible for burial in a National Cemetery. Certain Filipino veterans of WWII, to include Commonwealth Army veterans and veterans of Recognized Guerilla Forces may be eligible if the veteran was a permanent resident of the U.S. and met other enabling conditions.

3212. AUDITS OF STATES, LOCAL GOVERNMENTS, AND NONPROFIT ORGANIZATIONS; GRANTS AND AGREEMENTS WITH INSTITUTIONS OF HIGHER EDUCATION, HOSPITALS, AND OTHER NONPROFIT ORGANIZATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 31 USC 75; 38 USC 501; PL 98-502

CFR Citation: 38 CFR 41; 38 CFR 49

Legal Deadline: None

Abstract: This document proposes to amend part 41 of VA's regulations to add new subparts to codify revised OMB Circular A-133. The Circular provides standards for consistency and uniformity among Federal agencies for the audits of States, local governments, and nonprofit organizations expending Federal awards. Further, this amendment proposes to add a new part 49 to VA's regulations to bring VA in step with other Federal agencies who have already adopted OMB Circular A-110 as a common rule. The Circular provides for uniform administrative requirements for Federal agencies with grants and agreements with institutions of higher education, hospitals, and other nonprofit organizations.

Department of Veterans Affairs (VA) — Final Rule Stag

VETERANS HEALTH ADMINISTRATION

3213. PROVISION OF DRUGS AND MEDICINES PRESCRIBED BY NON-VA PHYSICIANS

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501; 38 USC 1721

CFR Citation: 38 CFR 17.96

Legal Deadline: None

Abstract: This document amends the "Medical" regulations concerning the criteria for provision of drugs and medicines by non-VA physicians for certain veterans. It is our view that the statutory framework inherently requires that the drugs provided be suitable; i.e., FDA-approved, high quality, and best value. In this regard, we have established a list of suitable drugs and medicines in the VA national formulary. Also, we have established a mechanism for allowing the provision of drugs and medicines not listed in the formulary. These changes are needed to ensure that VA provides only those drugs and medicines intended to be provided under the statutory authority. Also, this document makes nonsubstantive changes for the purpose of avoiding unnecessary duplication.

3214. ADVANCED HEALTH CARE PLANNING

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501; 38 USC 1721

CFR Citation: 38 CFR 17.32

Legal Deadline: None

Abstract: This document amends the VA medical regulations to codify VA policy regarding advance health care planning. The rule sets forth a mechanism for the use of written advance directives; i.e., a VA living will, a VA durable power of attorney for health care, and a State-authorized advance directive. The rule also sets forth a mechanism for honoring verbal or nonverbal instructions from a patient when the patient is admitted to care when critically ill and loss of capacity may be imminent and the patient is not physically able to sign an advance directive form or the appropriate form is not readily available. This is intended to help ensure that VA acts in compliance with patients' wishes concerning future health care.

3215. PROVISION OF DRUGS AND MEDICINES TO CERTAIN VETERANS IN STATE NURSING HOMES

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501; 38 USC 1721

CFR Citation: 38 CFR 17.96

Legal Deadline: None

Abstract: This document amends the Department of Veterans Affairs medical regulations concerning the provision of drugs and medicines prescribed by non-VA physicians for certain veterans who are permanently housebound or in need of regular aid and attendance. The regulations are amended to allow prescriptions to be filled by non-VA pharmacies in State homes under contract with VA for filling prescriptions for patients in State homes. This is consistent with VA's special relationship with State homes. It will eliminate duplication in services and will help improve timeliness for filling prescriptions in State homes.

3225. • CIVILIAN HEALTH AND MEDICAL PROGRAM OF DEPARTMENT OF VETERANS AFFAIRS (CHAMPVA)

Priority: Substantive, Nonsignificant

Legal Authority: PL 106-398; PL 107-14; 38 USC 1713

CFR Citation: 38 CFR 17.271; 38 CFR 17.272; 38 CFR 17.274

Legal Deadline: Final, Statutory, October 1, 2001.

Abstract: This document implements provisions of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 and the Veterans' Survivor Benefits Improvement Act of 2001. These changes extend CHAMPVA eligibility to persons age 65 and over who would have otherwise lost their CHAMPVA eligibility due to attainment of entitlement to hospital insurance benefits under Medicare Part A. This rule also implements coverage of physical examinations required in connection with school enrollment for beneficiaries through age 17 and reduces the catastrophic cap for CHAMPVA dependents and survivors for each calendar year. These regulator changes implement the statutory provisions.

3228. REVISED DEFINITION OF NET VALUE AND REVISED CRITERIA FOR PRE-FORECLOSURE DEBT WAIVERS

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501(a); 38 USC 3720(a); 38 USC 3732(a)

CFR Citation: 38 CFR 36.4301; 38 CFR 36.4323

Legal Deadline: None

Abstract: The Department of Veterans Affairs is proposing to amend its loan guaranty regulations to revise the definition of property improvements for purposes of determining the net value of a foreclosed property and to clarify VA's position on pre-foreclosure debt waivers for liable veterans in cases involving transferee defaults. These changes will account for actual property appraisal procedures and will clarify Agency policy on pre-foreclosure debt waivers. Note: Because the original Notice of Proposed Rulemaking (NPRM) was published on September 22, 1993 (58 FR 49251), VA republished the NPRM to provide for a new notice and comment period before proceeding with a final rule.

CFR Citation: 38 CFR 21.4235; 38 CFR 21.4263

Legal Deadline: None

Abstract: Veterans are required by statute to apply for any benefit the Department of Veterans Affairs administers. This rule will describe the information to be included in an application for educational assistance for the pursuit of flight training. VA believes that, in order to comply with various statutory requirements connected with the educational programs VA administers, flight schools with courses approved for VA training will have to keep some records beyond those required by the Federal Aviation Administration. This rule will state those recordkeeping requirements.

3234. ACCELERATED BENEFITS OPTION FOR SERVICEMEMBERS' GROUP LIFE INSURANCE AND VETERANS' GROUP LIFE INSURANCE

Priority: Substantive, Nonsignificant

Legal Authority: PL 105-368, sec 302

CFR Citation: 38 CFR 9.13

Legal Deadline: None

Abstract: Section 302 of the Veterans Program Enhancement Act of 1998 (Pub. L. 105-368) authorizes the payment of accelerated benefits in the Servicemembers' Group Life Insurance (SGLI) and Veterans' Group Life Insurance (VGLI) programs, effective February 9, 1999. This rule amends Department of Veterans Affairs (VA) regulations by providing an accelerated benefit option that will permit terminally ill members access to life insurance benefits before they die.

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501(a)

CFR Citation: 38 CFR 36.4227; 38 CFR 36.4365

Legal Deadline: None

Abstract: The Department of Veterans Affairs (VA) is proposing to change its regulations by prohibiting advertisements or solicitations from lenders that falsely state or imply that they were issued by or at the direction of VA or any other entity of the United States. This change would also provide that each written advertisement or solicitation from a private lender concerning VA-guaranteed loans include a statement indicating that the lender is a private lender and that the lender does not have an exclusive right to make loans guaranteed by VA. These provisions appear to be necessary to ensure that lenders do not provide misleading information.

3236. POST-TRAUMATIC STRESS DISORDER CLAIMS BASED ON PERSONAL ASSAULT

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 1154

CFR Citation: 38 CFR 3.304

Legal Deadline: None

Abstract: This document proposes to amend the Department of Veterans Affairs (VA) adjudication regulations on the proof of stressor in claims for service connection of post-traumatic stress disorder resulting from personal assault. It provides that alternative evidence other than the veteran's military records may constitute credible supporting evidence of the stressor. It also implements decisions by the U.S. Court of Appeals for Veterans Claims, which state that VA Adjudication Procedure Manual provisions on this issue are the equivalent of regulations.

Legal Deadline: None

Abstract: VA administers a vocational rehabilitation program that provides eligible veterans, with compensable service-connected disabilities, all service and assistance necessary to enable them to achieve maximum independence in daily living and, to the maximum extent feasible, to become employable and to obtain and maintain suitable employment. Due to an increased emphasis on helping these veterans obtain and maintain suitable employment, VA has decided to change the title of those employees who deal principally with this program. All appropriate rules will be changed to show that these employees deal with vocational rehabilitation and employment.

3241. • EXCLUSION FROM COUNTABLE INCOME OF EXPENSES PAID FOR VETERAN'S LAST ILLNESS SUBSEQUENT TO VETERAN'S DEATH BUT PRIOR TO DATE OF DEATH PENSION ENTITLEMENT

Priority: Other Significant

Legal Authority: 38 USC 1503(a)(3)

CFR Citation: 38 CFR 3.272(h)

Legal Deadline: None

Abstract: The Department of Veterans Affairs (VA) is amending its adjudication regulations governing exclusion of expenses of the veteran's last illness, burial, and just debts from countable income for death pension purposes. This amendment eliminates the prohibition against reducing countable income by the amount of these expenses that the surviving spouse paid after the date of death but prior to the date of his or her entitlement. In order to make the necessary changes, VA is removing the last sentence of 38 CFR 3.272(h), which currently provides that the amount of expenses of the veteran's last illness, burial, and just debts "paid subsequent to death but prior to date of entitlement are not deductible."

3242. • CLAIMS BASED ON EXPOSURE TO IONIZING RADIATION

Priority: Other Significant

Legal Authority: PL 98-542

CFR Citation: 38 CFR 3.311(b)

Legal Deadline: None

Abstract: The Department of Veterans Affairs (VA) is amending its regulations governing the establishment of service connection for polycythemia vera due to radiation exposure in service. The amendment clarifies that although VA does not consider polycythemia vera to be a "radiogenic disease" under the regulations, a veteran is not precluded from claiming service connection for this condition on a direct-incurrence basis due to exposure to ionizing radiation in service. VA historically treated the list of radiogenic diseases in 38 CFR 3.311 as an exclusive list of generally denied service connection for any disease not on the list. However, the U.S. Court of Appeals for the Federal Circuit in Combee v. Brown, 34 F.3d 1039 (Fed. Cir. 1994), held that Public Law 98-542 did not authorize VA to establish entitlement to direct service connection under section 3.311. VA is showing polycythemia vera may be induced by exposure to ionizing radiation. VA wi obtain dose estimates, forward the claim for review by the Under Secreta for Benefits, and request an advisory medical opinion from the Under Secretary for Health under the provisions of section 3.311.

Priority: Substantive, Nonsignificant

Legal Authority: 10 USC 2143 to 2145

CFR Citation: 38 CFR 21.5820; 38 CFR 21.5822

Legal Deadline: None

Abstract: The law provides that rates of subsistence allowance and educational assistance payable under the Educational Assistance Test Program shall be adjusted annually by the Secretary of Defense based on the average actual cost of attendance at public institutions of higher education in the 12-month period since the rates were last adjusted. After consultation with the Department of Education, the Department of Defense has concluded that the rates for the 2001-02 academic year should be increased by 4.7 percent over the rates payable for the 2000-01 academic year. The regulations dealing with these rates will be amended accordingly.

OFFICE OF ACQUISITION AND MATERIEL MANAGEMENT

3250. DEPARTMENT OF VETERANS AFFAIRS ACQUISITION REGULATION—SIMPLIFIED ACQUISITION PROCEDURES FOR HEALTH CARE RESOURCES

Priority: Info./Admin./Other

Legal Authority: 38 USC 8153

CFR Citation: 48 CFR 801; 48 CFR 806; 48 CFR 812; 48 CFR 837; 48 CFR 852; 48 CFR 873

Legal Deadline: None

Abstract: VA withdrew the proposed rule concerning simplified acquisition procedures for health care resources published in the Federal Register on November 9, 1998 (63 FR 60256), and promulgated a new proposed rule concerning simplified acquisition procedures for health care resources. The new proposed rule document amends the Department of Veterans Affairs Acquisition Regulation (VAAR) to establish simplified procedures for the competitive acquisition of health care resources, consisting of commercial services or the use of medical equipment or space, pursuant to 38 U.S.C. 8151-8153. Public Law 104-262, the Veterans' Health Care Eligibility Reform Act of 1996, authorized VA to prescribe simplified procedures for the procurement of health care resources. The rule prescribes those procedures.

3257. APPEAL REGULATIONS, RULES OF PRACTICE: USE OF SUPPLEMENTAL STATEMENT OF THE CASE

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501(a); 38 USC 7105(d)

CFR Citation: 38 CFR 19.31; 38 CFR 20.302(c); 38 CFR 20.501(c)

Legal Deadline: None

Abstract: The Board of Veterans' Appeals is amending its appeals regulations and Rules of Practice to clarify that a "Supplemental Statement of the Case" (SSOC) is to be used only to inform an appellant of material changes in, or additions to, the information included in the Statement of the Case (SOC) or a prior SSOC. The prior rule permitted new issues to be added to the SOC, resulting in confusion for appellants, regional offices, and the Board as to what issues were actually on appeal. Since 1966, the manual provisions governing the regional office have prohibited using an SSOC to reply to new issues. This rule will conform the Board's rules with agency practice.

3258. RULES OF PRACTICE: MEDICAL OPINIONS FROM THE VETERANS HEALTH ADMINISTRATION

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501(a); 38 USC 5107(a)

CFR Citation: 38 CFR 20.901(a)

Legal Deadline: None

Abstract: The Board of Veterans' Appeals (Board) is amending its appeals regulations to clarify that it may obtain medical opinions from VA's Veterans Health Administration (VHA). The current rule, 38 CFR 20.901(a), makes an obsolete reference to the "Chief Medical Director," a title eliminated in 1992 and replaced by "Under Secretary for Health." The revised rule would clarify that the Board may obtain opinions from VHA, not from the individual who happens to be the Under Secretary for Health.

3259. APPEALS REGULATIONS: TITU FOR MEMBERS OF THE BOARD OF VETERANS APPEALS

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501(a); 38 USC 512; 38 USC 7101(a)

CFR Citation: 38 CFR 19.2

Legal Deadline: None

Abstract: The Board of Veterans' Appeals proposes to amend its appeal regulations to provide that a Member of the Board of Veterans' Appeals (Board) may also be known as a "Veteran Law Judge." This duplicates in proposed rule format, a final rule previously published in the Federal Register on September 14, 2000 (65 FI 55461). Individuals deciding appeals other parts of the Federal Governmen are typically known as "judges"; e.g., "administrative law judges" and "administrative judges." Giving Board Members the title of "veteran law judges" would provide a more accura title than "member" and would enhance confidence in the system through recognition that appeals are being adjudicated by legal professionals.

3261. • BOARD OF VETERANS' APPEALS: OBTAINING EVIDENCE AND CURING PROCEDURAL DEFECTS WITHOUT REMANDING

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501(a); 38 USC 7102; 38 USC 7103(c); 38 USC 7104(a); 38 USC 7105(d); 38 USC 7109(c); ...

CFR Citation: 38 CFR 19.31; 38 CFR 20.903; 38 CFR 20.1304

Legal Deadline: None

Abstract: These proposed changes will permit the Board of Veterans' Appeals to obtain evidence, clarify the evidence, cure a procedural defect, or perform any other action essential for a proper appellate decision in any appeal properly before it without having to remand the appeal to the agency of original jurisdiction. This will also allow the Board to consider additional evidence without having to refer the evidence to the agency of original jurisdiction for initial consideration and without having to obtain the appellant's waiver. By reducing the number of appeals remanded, VA intends to shorten appeal processing time and to reduce the backlog of claims awaiting decision.

AGENCY FOR INTERNATIONAL DEVELOPMENT (AID)

AGENCY FOR INTERNATIONAL DEVELOPMENT

22 CFR Ch. II

Federal Regulations; USAID Regulatory Agenda Semiannual Summary

AGENCY: U.S. Agency for International Development.

ACTION: Semiannual regulatory agenda.

SUMMARY: The U.S. Agency for International Development (USAID) is publishing this agenda as required by Executive Order 12866, "Regulatory Planning and Review" (58 FR 51735, October 4, 1993), and the Regulatory Flexibility Act. This agenda reports the status of those regulations currently under review and gives USAID's plan for the issuance of proposed regulations during the next 12 months. It is expected that the information provided in this agenda will enable the public to be more aware of and to participate more effectively in USAID's regulatory process.

FOR FURTHER INFORMATION CONTACT:

General: For further information on the agenda or the review list in general, contact: Joanne M. Paskar, Chief, Bureau for Management, Office of Administrative Services, Information and Records Division, U.S. Agency for International Development, Washington, DC 20523; Telephone (202) 712-1217, email jpaskar@usaid.gov.

Specific: For further information about any particular item on the agenda, contact the individual listed as the contact for that item.

SUPPLEMENTARY INFORMATION: Executive Order 12866 and the Regulatory Flexibility Act require the semiannual publication in the **Federal Register** of a agenda of regulations. The Regulatory Flexibility Act applies only to regulations for which a notice of proposed rulemaking was issued on or after September 19, 1980. USAID is required to publish an agenda listing al the regulations it expects to propose or promulgate that are likely to have a "significant economic impact on a substantial number of small entities." The Executive order became effective o September 30, 1993, and it is required that USAID publish a listing of all the regulations it expects to have under active consideration for proposal, or review during the coming one-year period.

Dated: August 30, 2001.

Roberto J. Miranda,

Director of Administrative Services.

Agency for International Development (AID) — Proposed Rule Stag

3308. USAID ACQUISITION REGULATION (AIDAR) UPDATE OF APPENDIX D AND APPENDIX J

Priority: Substantive, Nonsignificant

Legal Authority: 22 USC 2381

CFR Citation: 48 CFR ch 7, app D; 48 CFR ch 7, app J

Legal Deadline: None

Abstract: Revision of appendix D and appendix J of the AIDAR, regarding personal services contracts with U.S. citizens and cooperating country and third country nationals. The appendices will be consolidated, determination of pay and benefits for jobs will be revised, and editorial changes made.

3309. • GOVERNMENTWIDE DEBARMENT AND SUSPENSION; REQUIREMENTS FOR DRUG-FREE WORKPLACE (FINANCIAL ASSISTANCE)

Priority: Substantive, Nonsignificant

Legal Authority: 22 USC 2381

CFR Citation: 22 CFR 208; 22 CFR 210

Legal Deadline: None

Abstract: These regulations cover suspension and debarment under nonprocurement programs and drug-free workplace rules. Regulations are being rewritten in plain language and to eliminate certification requirements.

3311. MISCELLANEOUS AMENDMENTS TO THE AIDAR (AIDAR NOTICE 98-2)

Priority: Substantive, Nonsignificant

Legal Authority: 22 USC 2381

CFR Citation: 48 CFR 712; 48 CFR 727; 48 CFR 742; 48 CFR 752; 48 CFR ch 7, app I

Legal Deadline: None

Abstract: The USAID Acquisition Regulation will be amended to clarify USAID policy on the use of Government facilities and personnel in commercial products, establish an Agency policy regarding contract clauses to clarify withholding requirements under IQC contracts, revise reporting requirements, and coordinate the Agency's academic publication policy with the FAR's Rights in Data coverage by removing it from appendix I into a new part 727. This new AIDAR part will also provide for contractual coverage of Rights in Data in USAID's contracts performed overseas and awarded to U.S. organizations, provide guidance on Rights in Data coverage for overseas contracts with non-U.S. entities, and provide an alternate paragraph to add to the applicable FAR clause to reserve USAID's right to restrict release of data when release may negatively impact the Government's development or diplomatic relationship with the cooperating countries.

3312. NONDISCRIMINATION ON THE BASIS OF RACE, COLOR, NATIONAL ORIGIN, HANDICAP, AND AGE IN PROGRAMS AND ACTIVITIES RECEIVING FEDERAL FINANCIAL ASSISTANCE

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 794; 42 USC 2000d to 2000d-7; 42 USC 6101 to 6107; EO 12250

CFR Citation: 22 CFR 209.1 to 209.13; 22 CFR 217.1 to 217.47; 22 CFR 218.01 to 218.39

Legal Deadline: None

Abstract: The Agency for International Development proposes to make amendments to its regulations implementing title VI of the Civil Rights Act of 1964 (title VI), section 504 of the Rehabilitation Act of 1972 (section 504), and the Age Discrimination Act of 1975 (Age Discrimination Act). Together, these statutes prohibit discrimination on the basis of race, color, national origin, disability, and age in programs or activities that receive Federal financial assistance. In 1988, the Civil Rights Restoration Act (CRRA) added definitions of "program or activity" and "program" to title VI and added a definition of "program or activity" to section 504 and the Age Discrimination Act. The added definitions were designed to clarify the broad scope of coverage of recipients' programs or activities under these statutes. The promulgation of this proposed regulation explicitly incorporates the CRRA's definition of "program or activity" and "program" into the Department's title VI, section 504, and Age Discrimination Act regulations. The Department's proposed regulation will be published as part of a joint Notice of Proposed Rulemaking involving up to 24 Federal agencies.

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD (ATBCB)

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

36 CFR Ch. XI

Unified Agenda of Federal Regulatory and Deregulatory Actions

AGENCY: Architectural and Transportation Barriers Compliance Board.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Architectural and Transportation Barriers Compliance Board submits the following agenda of proposed regulatory activities, which may be conducted by the Agency during the next 12 months. This regulatory agenda may be revised by the agency during the coming months as a result of action taken by the Board.

ADDRESSES: Architectural and Transportation Barriers Compliance Board, 1331 F Street NW., Suite 1000, Washington, DC 20004-1111.

FOR FURTHER INFORMATION CONTACT: For information concerning Board regulations and proposed actions, contact James J. Raggio, General Counsel, (202) 272-5434 (voice) or (202) 272-5449 (TDD).

Lawrence W. Roffee,

Executive Director, Architectural and Transportation Barriers Compliance Board.

COMMISSION ON CIVIL RIGHTS (CCR)

COMMISSION ON CIVIL RIGHTS

45 CFR Ch. VII

Semiannual Agenda of Regulations

AGENCY: Commission on Civil Rights.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda announces the regulations the U.S. Commission on Civil Rights will have under development during the six-month period from October 31, 2001 through April 30, 2002. The purpose for publishing this agenda is to give notice of any regulatory activity by the Commission in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: For further information on any items in the agenda, contact Michael L. Foreman, Acting Deputy General Counsel, U.S. Commission on Civil Rights, Room 620, 624 Ninth Street NW., Washington, DC 20425, (202) 376-8351.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12866, "Regulatory Planning and Review" and the Regulatory Flexibility Act (5 U.S.C. 605), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

The regulations being considered by the Commission are not "significant" rules within the meaning of Executive Order 12866, and no regulatory impact analysis is required. The Commission has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public, nor will the regulations have a significant economic impact on a substantial number of small entities. Accordingly, no regulatory analysis is required.

Michael L. Foreman,

Acting Deputy General Counsel.

Commission on Civil Rights (CCR) — Long-Term Actions

3319. COMMISSION ON CIVIL RIGHTS-UPDATE AND REVISION

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 1975 to 1975f; 5 USC 552(a); 5 USC 552(b)

CFR Citation: 45 CFR 701; 45 CFR 702; 45 CFR 703

Legal Deadline: None

Abstract: The regulation updates and revises most of the Commission's current regulations, specifically 45 CFR 701, 702, 703. 45 CFR 701 identifies the organization and functions of the Commission. 45 CFR 702 specifies the rules on hearings, reports, and meetings of the Commission. 45 CFR 703 identifies the operations and functions of the Commission's State Advisory Committees.

Corporation for National and Community Service

Semiannual Regulatory Agenda

UMI

VOL 66 ISS 232 DEC 3 2001 UMI

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE (CNCS)

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

45 CFR Chs. XII, XXV

Executive Order 12866 "Regulatory Planning and Review"

AGENCY: Corporation for National and Community Service.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda announces the regulations that the Corporation will have under development, revision, or review during the next year. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to provide the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the agency official listed for the particular agenda item. For other information concerning Corporation regulations or this semiannual agenda, contact Frank R. Trinity, Acting General Counsel, Corporation for National and Community Service, 1201 New York Avenue NW., Washington, DC 20525, (202) 606-5000, ext. 290.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12866 "Regulatory Planning and Review" and the Regulatory Flexibility Act (5 U.S.C. 601), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

The Corporation for National and Community Service has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no regulatory analysis is required under 5 U.S.C. 602.

Pursuant to OMB letter, dated January 26, 2001, at this time, there are no updates to the items listed in the April 2001 Unified Agenda due to the Corporation for National and Community Service not having an agency head appointed by President Bush.

Dated: September 14, 2001.

Wendy Zenker,

Chief Operating Officer.

3324. NONDISCRIMINATION ON THE BASIS OF RACE, COLOR, NATIONAL ORIGIN, HANDICAP, AND AGE IN PROGRAMS AND ACTIVITIES RECEIVING FEDERAL FINANCIAL ASSISTANCE

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 794; 42 USC 2000d to 2000d-7; 42 USC 6101 to 6107; EO 12250

CFR Citation: 45 CFR 1203; 45 CFR 1232

Legal Deadline: None

Abstract: The Corporation proposes to make amendments to its regulations implementing title VI of the Civil Rights Act of 1964 (title VI) and section 504 of the Rehabilitation Act of 1972 (section 504). Together, these statutes prohibit discrimination on the basis of race, color, national origin, and disability in programs and activities that receive Federal financial assistance. In 1988, the Civil Rights Restoration Act (CRRA) added definitions of "program or activity" and "program" to title VI and added a definition of "program or activity" to section 504. The added definitions were designed to clarify the broad scope of coverage of recipients' programs or activities under these statutes. The promulgation of this proposed regulation explicitly incorporates the CRAA's definition of "program or activity" and "program" into the Corporation's title VI and section 504 regulations. The Corporation's proposed regulation will be published as part of a joint notice of proposed rulemaking involving up to 24 Federal agencies.

COURT SERVICES AND OFFENDER SUPERVISION AGENCY FOR THE DISTRICT OF COLUMBIA (CSOSA)

COURT SERVICES AND OFFENDER SUPERVISION AGENCY FOR THE DISTRICT OF COLUMBIA

28 CFR Ch. VIII

Semiannual Regulatory Agenda

AGENCY: Court Services and Offender Supervision Agency for the District of Columbia.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Court Services and Offender Supervision Agency for the District of Columbia (CSOSA) is publishing its first semiannual regulatory agenda pursuant to Executive Order 12866 (58 FR 51735) and the Regulatory Flexibility Act (5 U.S.C. chapter 6). The regulatory agenda lists all agency regulations that are scheduled for development during the next 12 months or that have been issued since the publication of the previous regulatory agenda.

FOR FURTHER INFORMATION CONTACT: Roy Nanovic, Records Manager, Office of the General Counsel, CSOSA, Room 1253, 633 Indiana Avenue NW., Washington, DC 20004 (telephone: (202) 220-5359; e-mail: roy.nanovic@csosa.gov).

SUPPLEMENTARY INFORMATION: CSOSA was established within the Executive branch of the Federal Government by the National Capital Revitalization and Self-Government Improvement Act of 1997, Pub. L. 105-33, 111 Stat. 251, 712 (D.C. Code 24-1232, 24-1233). On August 5, 2000, CSOSA was certified by the Attorney General as an independent Federal agency. CSOSA has identified five regulations for inclusion in its initial submission to the regulatory agenda.

George E. Pruden II,
General Counsel.

Court Services and Offender Supervision Agency for the District of Columbia—Proposed Rule Stage

Sequence Number	Title	Regulation Identification Number
3329	Disclosure of Records	3225-AA01
3330	Federal Tort Claims Act Procedures	3225-AA02

Court Services and Offender Supervision Agency for the District of Columbia—Final Rule Stage

Sequence Number	Title	Regulation Identification Number
3331	Community Supervision: Administrative Sanctions Schedule	3225-AA00
3332	District of Columbia Sex Offender Registration	3225-AA03
3333	Collection and Use of DNA Information	3225-AA04

Court Services and Offender Supervision Agency for the District of Columbia (CSOSA)

Proposed Rule Stage

3329. • DISCLOSURE OF RECORDS

Priority: Other Significant

Legal Authority: 5 USC 552; 5 USC 552a

CFR Citation: 28 CFR 802 (New)

Legal Deadline: None

Abstract: CSOSA proposes to adopt regulations on the disclosure of CSOSA or the District of Columbia Pretrial Services Agency (PSA) records. These regulations include procedures for processing requests for disclosure under the Freedom of Information Act, under the Privacy Act, and for production of records in response to a demand from a court or other noncongressional authority in connection with a proceeding to which CSOSA or PSA is not a party. The regulations also identify Privacy Act system of records exemptions for both CSOSA and PSA. These regulations are necessary in order to ensure that the public has appropriate access to information maintained by the CSOSA and PSA and that adequate safeguards are in place to protect the privacy rights of individuals.

3330. • FEDERAL TORT CLAIMS ACT PROCEDURES

Priority: Other Significant

Legal Authority: PL 105-33; 28 CFR 14.11

CFR Citation: 28 CFR 801 (New)

Legal Deadline: None

CSOSA **Proposed Rule Stage**

Abstract: CSOSA proposes to adopt regulations to supplement Department of Justice regulations for processing administrative claims under the Federal Tort Claims Act (FTCA). These supplemental regulations state in plain language what members of the public need to do to file a claim for money damages under the FTCA with CSOSA or with the District of Columbia Pretrial Services Agency (PSA). These regulations are necessary to help ensure that persons who suffer proven monetary loss, personal injury, or wrongful death due to a negligent or otherwise wrongful act or omission of a CSOSA or PSA employee committed while acting within the scope of his or her employment will be properly compensated.

Court Services and Offender Supervision Agency for the District of Columbia (CSOSA) — Final Rule Stage

3331. • COMMUNITY SUPERVISION: ADMINISTRATIVE SANCTIONS SCHEDULE

Priority: Other Significant

Legal Authority: PL 105-33

CFR Citation: 28 CFR 810 (New)

Legal Deadline: None

Abstract: CSOSA issued interim regulations on administrative sanctions which may be imposed on offenders under CSOSA's supervision who violate the general or specific conditions of their release. The purpose of imposing sanctions is to enable CSOSA staff to respond as swiftly, certainly, and consistently as practicable to noncompliant behavior. Using sanctions will reduce the number of violation reports sent to the releasing authority (for example, the sentencing court or the United States Parole commission). CSOSA staff will be able to refer offenders back tot he releasing authority having demonstrated that CSOSA has exhausted the range of options at its disposal to change the offender's noncompliant behavior. The releasing authority may then concentrate on those referrals which fully merit scrutiny. The purpose of the regulations is to prevent crime, reduce recidivism, and support the fair administration of justice through the promotion of effective community supervision.

RIN: 3225–AA00

3332. • DISTRICT OF COLUMBIA SEX OFFENDER REGISTRATION

Priority: Other Significant

Legal Authority: PL 105-23; PL 106-113

CFR Citation: 28 CFR 811 (New)

Legal Deadline: None

Abstract: CSOSA intends to issue interim regulations for the registration of sex offenders in the District of Columbia. These regulations provide notice to sex offenders of their duties under the law and under the regulations of the Metropolitan Police Department of the District of Columbia to register with CSOSA. In most instances, sex offenders will receive notification that they are subject to registration when they are being sentenced by the Superior Court of the District of Columbia after being found guilty [or found not guilty by reason of insanity or adjudicated as a sexual psychopath) or when CSOSA becomes responsible for their supervision. In those cases where the offender has previously committed a registration offense and is not currently under supervision, the offender must contact CSOSA to register in order to avoid possible criminal penalty. These regulations are intended to provide for the protection of the public and to ensure that the District of Columbia may provide appropriate notification regarding the presence of sex offenders in the community.

CSOSA **Final Rule Stage**

Abstract: CSOSA intends to adopt interim regulations on the collection and use of DNA information. DNA information is collected under CSOSA's supervision from individuals who have been convicted of specific offenses identified by District of Columbia statute. The DNA information becomes part of the combined DNA Index System (CODIS), a national database of DNA profiles from convicted offenders, unsolved crime scenes, and missing persons. The regulations specify that the DNA sample will be collected in accordance with FBI guidelines. The regulations also establish procedures for cooperating with the Federal Bureau of Prisons to ensure that unnecessary samples will not be collected; establish a standard for what constitutes an individual's refusal to cooperate in the collection of the sample; define what steps CSOSA deems to be reasonably necessary to take when an individual refuses to cooperate; and list in an appendix the offenses which qualify for DNA collection.

ENVIRONMENTAL PROTECTION AGENCY (EPA)

ENVIRONMENTAL PROTECTION AGENCY (EPA)

40 CFR Ch. I

FRL-7085-7

October 2001 Agenda of Regulatory and Deregulatory Actions

AGENCY: Environmental Protection Agency.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Environmental Protection Agency (EPA) publishes the Semiannual Agenda of Regulatory and Deregulatory Actions to update the public about:

- Regulations and major policies currently under development,
- Reviews of existing regulations and major policies, and
- Regulations and major policies completed or canceled since the last Agenda.

TO BE PLACED ON THE AGENDA MAILING LIST: If you would like to subscribe, please contact Janice Ndunguru (1806A), Environmental Protection Agency; 1200 Pennsylvania Avenue NW, Washington, DC 20460; by e-mail at ndunguru.janice@epa.gov; or by phone at (202) 564-6572.

FOR FURTHER INFORMATION CONTACT: If you have questions or comments about a particular action please get in touch with the agency contact listed for that action. If you have general questions about the Agenda or about EPA's decisionmaking process, please contact: Philip Schwartz (1806A), Environmental Protection Agency, 1200 Pennsylvania Avenue NW; Washington, DC 20460; phone: (202) 564-6564; e-mail: schwartz.philip@epa.gov. We welcome your suggestions on how we can make the Agenda more useful to you and easier to use.

SUPPLEMENTARY INFORMATION:

Table of Contents

a. What Principles and Objectives Guide EPA in Developing Regulations and Policies?
b. How Does EPA Develop Rules and Policies?
c. What Actions Are Included in the Agenda?
d. How Is the Agenda Organized?
e. What Information Is in Agenda Entries?
f. What Additional Information Is in Regulatory Plan Entries?
g. What Tools Are Available To Help Quickly Identify Actions That Are of Interest to You?
h. How Can You Access Federal Register Documents and Interpretive Guidance via the Internet and via E-mail?
i. What Special Attention Do We Give to the Impacts of Rules on Small Entities?
j. Why Participate and How To Do It Most Effectively?

A. What Principles and Objectives Guide EPA in Developing Regulations and Policies?

The quality of the science, economic, and policy analysis that underlie EPA regulations is vital to the credibility of EPA decisions and ultimately our effectiveness in protecting human health and the environment. Additionally, continued testing and adoption of new environmental protection methods must be a central tenet in environmental problem solving. A well managed regulatory process and a strong commitment to innovative solutions will ensure that the significant environmental improvements that we all want to achieve are cost-effective, fair and fully protective.

Much of the success over the last 31 years and seven administrations in cleaning up the Nation's water, air, and land is attributable to the system of Federal and State regulation that has directed and coordinated private investment in pollution control and prevention. While regulation will remain an important tool to implement environmental policy, it is not the only one. Instead, EPA must increasingly act as an innovator, educator, and leader in administering a broad set of new tools — including new methods to design and administer regulations — that engage all segments of our society in responsive behaviors that protect the environment while promoting appropriate economic growth. For example, we have worked with businesses and community leaders to develop more than 40 voluntary partnership programs that help achieve environmental objectives with the greatest possible efficiency. For more information about these programs visit: www.epa.gov/partners.

EPA's regulatory process must ensure that the Nation's environmental protection system produces the best outcomes at an acceptable cost, where cost considerations are appropriate. Appropriate scientific, economic and policy analyses must be planned at early stages in the regulatory development process so that senior Agency decision makers understand the benefits and costs of policy options from which to choose. Additionally, it is important that we continue to apply new methods to protect the environment—by building flexibility into regulations up front, through non-regulatory approaches where effective, by creating strong partnerships with States, local governments, and businesses, and by vigorously using public outreach and involvement.

Several basic legal requirements we must follow when we issue a regulation are contained in the Administrative Procedure Act, the Regulatory Flexibility Act as amended by the Small Business Regulatory Enforcement Fairness Act, the Unfunded Mandates Reform Act, the Paperwork Reduction Act, the National Technology Transfer and Advancement Act, and the Congressional Review Act. You can find information on many of these laws at http://www.law.cornell.edu/uscode/.

We also must meet a number of requirements contained in Executive Orders. Of particular significance for EPA rulemakings are Executive Orders 12866 (Regulatory Planning and Review), 13045 (Children's Health Protection), 13175 (Consultation and Coordination with Indian Tribal Governments), 13132 (Federalism), and 13211 (Energy). You can find information on these and other Executive orders at http://www.nara.gov/fedreg/eo.html.

B. How Does EPA Develop Rules and Policies?

In order to improve the regulatory process within EPA, we established a task force to examine the Agency's rulemaking process, and to recommend ways to improve the internal process and strengthen the supporting science and analysis. The task force concluded that the regulatory process is essentially sound but improvements should be made in several areas to more effectively carry out our mission including: better science and economic analyses; broader consideration of policy options; greater accountability; and better management of significant nonregulatory decisions. For a detailed discussion of these improvements, please see our Statement of Priorities in The Regulatory Plan,

contained in part II of today's **Federal Register**.

C. What Actions Are Included in the Agenda?

EPA includes regulations and certain major policy documents in the Agenda. We generally do not include minor amendments or the following categories of actions in the Agenda:

- Under the Clean Air Act: Revisions to State Implementation Plans; Equivalent Methods for Ambient Air Quality Monitoring; Deletions from the New Source Performance Standards source categories list; Delegations of Authority to States; Area Designations for Air Quality Planning Purposes.
- Under the Federal Insecticide, Fungicide, and Rodenticide Act: Actions regarding pesticide tolerances and food additive regulations; decision documents defining and establishing registration standards; decision documents and termination decisions for the Special Review Registration process; and data call-in requests made under section 3(c)(2)(B).
- Under the Resource Conservation and Recovery Act: Authorization of State solid waste management plans; hazardous waste delisting petitions.
- Under the Clean Water Act: State Water Quality Standards; Deletions from the section 307(a) list of toxic pollutants; Suspensions of toxic testing requirements under the National Pollutant Discharge Elimination System (NPDES); Delegations of NPDES authority to States.
- Under the Safe Drinking Water Act: Actions on State underground injection control programs.

There is no legal significance to the omission of an item from the agenda.

D. How Is the Agenda Organized?

We have organized the agenda:

- First, by the law that would authorize a particular action;
- Second, by the current stage of development (proposal, final, etc.); and
- Third, by the section number of the statute which requires or authorizes the action.

The following 14 sections deal with 13 laws that EPA administers and a fourteenth broader section called "General" that includes cross-cutting actions, such as rules authorized by multiple statutes and general acquisition rules:

1. General
2. The Clean Air Act (CAA)
3. The Atomic Energy Act (AEA)
4. The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)
5. The Federal Food, Drug, and Cosmetic Act (FFDCA)
6. The Toxic Substances Control Act (TSCA)
7. The Emergency Planning and Community Right-to-Know Act (EPCRA)
8. Chemical Safety Information, Site Security and Fuels Regulatory Relief Act
9. The Resource Conservation and Recovery Act (RCRA)
10. The Oil Pollution Act (OPA)
11. The Comprehensive Environmental Response, Compensation, and Liability Act; Superfund (CERCLA)
12. The Clean Water Act (CWA)
13. The Safe Drinking Water Act (SDWA)
14. The Shore Protection Act (SPA)

In each of these 14 sections, there are up to 5 headings covering the following stages of rulemaking:

1. Prerulemakings - Prerulemaking actions are intended to determine whether EPA should initiate rulemaking. Prerulemakings may include anything that influences or leads to rulemaking, such as advance notices of proposed rulemaking (ANPRMs), significant studies or analyses of the possible need for regulatory action, announcement of reviews of existing regulations required under section 610 of the Regulatory Flexibility Act, requests for public comment on the need for regulatory action, or important preregulatory policy proposals.
2. Proposed Rules - This section includes EPA rulemaking actions that are within a year of proposal (publication of Notices of Proposed Rulemakings (NPRMs)).
3. Final Rules - This section includes rules that are within a year of final promulgation.
4. Long-Term Actions - This section includes rulemakings for which the next scheduled regulatory action is after September 2002.
5. Completed Actions - This section contains actions that have been promulgated and published in the **Federal Register** since publication of the April 2001 Agenda. It also includes actions that we are no longer considering or actions that have been merged into other actions. If an action appears in the completed section, it will not appear in future Agendas unless we decide to initiate action again, in which case it will appear as a new entry. EPA also announces the results of our Regulatory Flexibility Act section 610 reviews in this section of the Agenda.

E. What Information Is in Agenda Entries?

Agenda entries include the following information, where applicable:

Sequence Number: This indicates where the entry appears in the Agenda.

Title: Titles for new entries (those that haven't appeared in previous Agendas) are preceded by a bullet (•). The notation "Section 610 Review" follows the title if we are reviewing the rule as part of our periodic review of existing rules under section 610 of the Regulatory Flexibility Act (5 U.S.C. 610).

Priority: Entries are placed into one of five categories described below.

Economically Significant: As defined in Executive Order 12866, a rulemaking action that will have an annual effect on the economy of $100 million or more or will adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities. OMB reviews all economically significant rules under Executive Order 12866.

EPA is developing 25 rules that are expected to have annualized economic impacts of more than $100 million.

19	Phase I Federal Implementation Plans (FIPs) To Reduce the Regional Transport of Ozone in the Eastern United States	2060-AH87
20	Control of Emissions from Nonroad Large Spark Ignition Engines, Recreational Engines (Marine and Land-based), and Highway Motorcycles	2060-AI11
21	Review of the National Ambient Air Quality Standards for Particulate Matter	2060-AI44
22	Rulemakings for the Purpose of Reducing Interstate Ozone Transport	2060-AJ20
23	Electric Utility Steam Generating Unit MACT Regulation	2060-AJ65
24	Groundwater and Pesticide Management Plan Rule	2060-AC46
25	Endocrine Disruptor Screening Program	2070-AD26

Other Significant: A rulemaking that is not economically significant but is considered significant by the agency. This category includes rules that are an EPA priority and rules that EPA anticipates will be reviewed by the Office of Management and Budget under Executive Order 12866 because they are likely to:

- Create a serious inconsistency or otherwise interfere with an action taken or planned by another agency;
- Materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights or obligations of recipients; or
- Raise novel legal or policy issues.

Substantive, Nonsignificant: A rulemaking that has substantive impacts but is neither Significant, nor Routine and Frequent, nor Informational/Administrative/Other.

Routine and Frequent: A rulemaking that is a specific case of a recurring application of a regulatory program in the Code of Federal Regulations and that does not alter the body of the regulation.

Informational/Administrative/Other: A rulemaking that is primarily informational or pertains to agency matters not central to accomplishing the agency's regulatory mandate but that the agency places in the Agenda to inform the public of the activity.

Also, if we believe that a rule may be "major" as defined in the congressional review provisions of the Small Business Regulatory Enforcement Fairness Act (SBREFA) (5 U.S.C. 801; Public Law 104-121) because it is likely to result in an annual effect on the economy of $100 million or more or meets other criteria specified in this law, we indicate this under the "Priority" heading with the statement "Major under 5 U.S.C. 801."

Legal Authority: The sections of the United States Code (U.S.C.), Public Law (P.L.), Executive Order (E.O.), or common name of the law that authorizes the regulatory action.

CFR Citation: The sections of the Code of Federal Regulations that will be affected by the action.

Legal Deadline: An indication of whether the rule is subject to a statutory or judicial deadline, the date of that deadline, and whether the deadline pertains to a Notice of Proposed Rulemaking, a Final Action, or some other action.

Abstract: A brief description of the problem the regulation will address; the need for a Federal solution; to the extent available, the alternatives that the agency is considering to address the problem; and the potential advantages and disadvantages of the action.

Timetable: The dates (and citations) that documents for this action were published in the **Federal Register** and, where possible, a projected date for the next step. Projected publication dates frequently change during the course of a rule development. The projections in the Agenda are our best estimates as of the date we submit the Agenda for publication. For some entries, the timetable indicates that the date of the next action is "to be determined."

Regulatory Flexibility Analysis Required: Indicates whether EPA has prepared or anticipates that it will be preparing a regulatory flexibility analysis under section 603 or 604 of the Regulatory Flexibility Act. Generally, such an analysis is required for proposed or final rules that EPA believes may have a significant economic impact on a substantial number of small entities.

Small Entities Affected: Indicates whether we expect the rule to have any effect on small entities.

Government Levels Affected: Indicates whether we expect the rule to have any effect on levels of government and, if so, whether the governments are State, local, tribal, or Federal.

Federalism Implications: Indicates whether the action is expected to have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

Unfunded Mandates: Section 202 of the Unfunded Mandates Reform Act requires an assessment of anticipated costs and benefits if a rule includes a mandate that may result in expenditures of more than $100 million in any one year by State, local, and tribal governments, in the aggregate, or by the private sector. If we expect to exceed this $100 million threshold, we note it in this section.

Energy Impacts: Indicates whether the action is a significant energy action under Executive Order 13211.

Agency Contact: The name, address, phone number, and e-mail address, if available, of a person who is knowledgeable about the regulation.

SAN Number: A code number that EPA uses to identify and track rulemakings.

RIN: The Regulatory Identifier Number is used by OMB to identify and track rulemakings. The first four digits of the RIN stand for the EPA office with lead responsibility for developing the action.

F. What Additional Information Is in Regulatory Plan Entries?

Regulatory Plan entries contain all of the categories of information that are in Agenda entries and also include the following six types of information:

Statement of Need

Statement of the Legal Basis

Alternatives

Anticipated Costs and Benefits

Risks

G. What Tools Are Available To Help Quickly Identify Actions That Are of Interest to You?

The Regulatory Information Service Center (RISC), the Government Printing Office (GPO), and the EPA have created a number of aids to help you find actions that are of interest to you.

For Rules That Directly Affect a Particular Industry: See Appendix F "Environmental Protection Agency Subject Index to the Unified Agenda." If you have access to the Internet, you can use the EPA Regulatory Agenda search engine which is located in the Small Business Regulatory Library section of the EPA Web site at www.epa.gov/regagenda. Click on "Search Regulatory Action Database" and then "Access the Database". This tool can be used to search all Agenda entries by keyword and we invite everyone to use it. The GPO also has a search engine which is located at .

For Rules With Impacts on Small Businesses, Small Governments, and Small Organizations:

Go to Appendix B following this Agenda for the lists of the rules that we expect may have a significant impact on a substantial number of small entities. These lists are also available on the Internet. The small businesses list is at http://ciir.cs.umass.edu/ua/October2001/entities/sm__index-2.html. The small governments list is at http://ciir.cs.umass.edu/ua/October2001/entities/sm__index-3.html. And the small organizations list is at http://ciir.cs.umass.edu/ua/October2001/entities/sm__index-4.html.

For Rules That We Expect Will Have Some Impact on Some Small Entities but Less Than a Significant Impact on a Substantial Number of Them:

See Appendix C following this Agenda, "Index to Entries That May Affect Small Entities When a Regulatory Flexibility Analysis Is Not Required." This list is available on the Internet at http://ciir.cs.umass.edu/ua/October2001/entities/smgov-5.html.

For Rules With Impacts on State, Local, Tribal, or Federal Government, or Other Federal Agencies:

See Appendix D following this Agenda, "Index to Entries That May Affect Government Levels." This list is available on the Internet at http://ciir.cs.umass.edu/ua/October2001/entities/smgov-8.html.

H. How Can You Access Federal Register Documents and Interpretive Guidance via the Internet and via E-mail?

Like many organizations in the public and private sector, EPA is harnessing the power of the Internet to meet the needs of those we serve. The EPA Web site offers more than 100,000 files online. If you want to get automatic e-mails about areas of particular interest as they appear in the **Federal Register** (FR), we maintain 12 collections including: air; water; wastes and emergency response; pesticides; toxic substances; right-to-know and toxic release inventory; environmental impacts; endangered species; meetings; the Science Advisory Board; daily full-text notices with page numbers; and general information. For more information and to subscribe via our FR Web site, visit: http://www.epa.gov/fedrgstr/subscribe.htm. If you have e-mail without full Internet access, please send an e-mail to envsubset@epa.gov to request instructions for subscribing to the EPA **Federal Register** listservers.

Several Web sites allow access to the full text of **Federal Register** documents.

- The Government Printing Office site has a number of databases online including the Unified Agenda and the **Federal Register** going back to 1994. This site is the official source for the electronic **Federal Register**. It provides public access via telnet, Internet, and dial-up connection and is located at http://www.access.gpo.gov/su_docs/aces/aces140.html.
- EPA's site (http://www.epa.gov/fedrgstr/) has environmental rules issued by EPA and other Federal agencies dating back to October 1994 and lets you search by date, page citation or keyword. It includes links to the Regulatory Information Service Center and Government Printing Office sites. We also have a Regulatory Agenda search engine at: http://www.epa/regagenda. To use, first select "Search Regulatory Action

Database" and then select "Access the Database".

- The Regulatory Information Service Center of the General Services Administration maintains a site to help users who want to find information about Federal, State, and local regulations at http://www.reginfo.gov/. This site includes links to all agencies' regulatory agendas and regulatory plans going back to October 1995.

In the "Additional Information" section of many of the entries in this Agenda we include the Internet address for documents that we have already published as part of the rulemaking.

We have recently opened an Internet site through which you can access a collection of non-binding guidance materials issued by EPA Headquarters offices since January 1, 1999. The collection includes non-binding guidance documents which explain what must be done to meet environmental requirements or explain how EPA will exercise its discretion in implementing statutory or regulatory requirements. The collection is located at: http://www.epa.gov/guidance/

I. What Special Attention Do We Give to the Impacts of Rules on Small Entities?

For each of our rulemakings we consider whether there will be any adverse impact on any small entity. We attempt to fit the regulatory requirements, to the extent feasible and appropriate, to the scale of the businesses, organizations, and governmental jurisdictions subject to the regulation. As required by the Regulatory Flexibility Act (RFA), for rules on which we expect there will be a significant impact on a substantial number of small entities, we convene a Small Business Advocacy Review Panel to consider the rulemaking. We also prepare regulatory flexibility analyses on these rules. See Appendix B at the end of the Agenda, "Index to Environmental Protection Agency Entries for which a Regulatory Flexiblity Analysis is Required" for a list of these rules. See Appendix C for a list of the rules that may affect small entities, but which will not have a significant impact on a substantial number of them.

As required by section 610 of the RFA, we review within 10 years of issuance all rules that were projected to have a significant economic impact on a substantial number of small entities. This year we have no rules scheduled for section 610 review.

J. Why Participate and How To Do It Most Effectively?

You may participate by contacting the expert responsible for developing a particular action. You may also participate by commenting on proposed rules that we publish in the **Federal Register**. Once we have proposed a rule, we will consider your comments and address them before issuing a final rule. To be most effective, comments should contain information and data that support your position, and you also should explain why we should incorporate your suggestion in the final rule. You can be particularly helpful and persuasive if you provide examples to illustrate your concerns and offer specific alternatives.

We believe that the best approach to making our rules more cost-effective and fairer includes having those of you who are stakeholders in a problem work with us in deciding on the solution. We urge you to participate with us in this process.

Dated: October 15, 2001.

Thomas J. Gibson,

Associate Administrator, Office of Policy, Economics, and Innovation.

GENERAL—Proposed Rule Stage

Sequence Number	Title	Regulation Identification Number
3334	SAN No. 4056 Utilization of Small, Minority and Women's Business Enterprises in Procurement Under Assistance Agreements	2020-AA39
3335	SAN No. 4191 Revision to EPAAR 1552.211-73, Level of Effort	2030-AA64
3336	SAN No. 4319 Revisions to Acquisition Regulation Concerning Conflict of Interest	2030-AA67
3337	SAN No. 3580 Incorporation of Class Deviations Into EPAAR	2030-AA37
3338	SAN No. 3876 Incrementally Funding Fixed Price Contracts	2030-AA50
3339	SAN No. 3817 Implementation of Changes to Governmentwide Debarment and Suspension Common Rule	2030-AA48
3340	SAN No. 3933 Environmental Impact Assessment of Nongovernmental Activities in Antarctica	2020-AA34
3341	SAN No. 4292 Proposed Revision to EPA's Implementing NEPA Regulations	2020-AA42
3342	SAN No. 4618 Revision of Procedural Rules for Hearings on Cancellations, Suspensions, Changes in Classifications, and Denials of Pesticide Registrations	2020-AA44
3343	SAN No. 3240 Public Information and Confidentiality Regulations	2025-AA02
3344	SAN No. 4463 Persistent, Bioaccumulative, and Toxic (PBT) Pollutants Strategy	2070-AD45
3345	SAN No. 4473 Regulatory Incentives for the National Environmental Achievement Track Program **(Reg Plan Seq No. 117)**	2090-AA13
3346	SAN No. 4536 Project XL Site Specific Rulemaking for NASA White Sands Test Facility Electronic Reporting in Las Cruces, New Mexico	2090-AA27
3347	SAN No. 4533 New Jersey Gold Track Project XL Rule	2090-AA28

References in boldface appear in the Regulatory Plan in part II of this issue of the **Federal Register**.

EPA

GENERAL—Final Rule Stage

Sequence Number	Title	Regulation Identification Number
3348	SAN No. 4187 EPAAR Coverage on Local Hiring and Training	2030-AA62
3349	SAN No. 4021 Nondiscrimination on the Basis of Race, Color, National Origin, Handicap, and Age in Programs and Activities Receiving Federal Financial Assistance	2020-AA36
3350	SAN No. 4180 Rewriting of EPA Regulations Implementing the Freedom of Information Act	2025-AA04
3351	SAN No. 4270 Cross-Media Electronic Reporting (ER) and Recordkeeping Rule **(Reg Plan Seq No. 148)**	2025-AA07
3352	SAN No. 4185 Electronic Funds Transfer	2030-AA57
3353	SAN No. 4351 Notice to Proceed	2030-AA68
3354	SAN No. 4400 Administrative Corrections to EPAAR 1515, Contracting by Negotiation	2030-AA73

References in boldface appear in the Regulatory Plan in part II of this issue of the **Federal Register**.

GENERAL—Long-Term Actions

Sequence Number	Title	Regulation Identification Number
3355	SAN No. 3807 Consolidation of Good Laboratory Practice Standards (GLPS) Regulations Currently Under TSCA and FIFRA Into One Rule	2020-AA26
3356	SAN No. 4572 Fellowship Grant Regulation Revision	2030-AA77
3357	SAN No. 4589 Empowerment Through Delegations of Authority and Miscellaneous Amendments	2030-AA78
3358	SAN No. 3671 Guidelines for Carcinogen Risk Assessment	2080-AA06
3359	SAN No. 4530 EPA Draft Agencywide Public Involvement Policy	2090-AA23

GENERAL—Completed Actions

Sequence Number	Title	Regulation Identification Number
3360	SAN No. 4226 Incorporating Informal Clauses (EP) Into the EPAAR	2030-AA66

3334. UTILIZATION OF SMALL, MINORITY AND WOMEN'S BUSINESS ENTERPRISES IN PROCUREMENT UNDER ASSISTANCE AGREEMENTS

Priority: Other Significant

Legal Authority: PL 101-507; PL 102-389; PL 101-549 sec 1001; 42 USC 9605(f); PL 100-590; EO 12432; EO 12138; EO 11625

CFR Citation: 40 CFR 33

Legal Deadline: None

Abstract: The regulation will codify revisions to the Agency's program for the utilization of Small, Minority and Women's Business Enterprises in procurements under assistance agreements (i.e., grants and cooperative agreements awarded by EPA as well as grants and cooperative agreements awarded by other agencies under interagency agreements with EPA). The revisions are necessary to ensure consistency with the Supreme Court's decision in Adarand Constructors, Inc. v. Pena, 115 S.Ct. 2097 (1995), and were identified as part of the Clinton Administration's review of affirmative action programs. They include: (1) placing greater emphasis on requiring assistance agreement recipients to submit documentation supporting proposed fair share procurement objectives for Minority Business Enterprises (MBEs) and Women's Business Enterprises (WBEs) based on the availability of qualified MBEs and WBEs in the relevant geographic market; (2) authorizing or requiring recipients and their prime contractors to take reasonable race/gender-conscious measures (e.g., bidding credits) in the event that race/gender-neutral efforts prove inadequate to meet fair share objectives; and (3) administering statutory MBE/WBE objectives as a national goal, allowing smaller or larger fair share objectives for particular grants or cooperative agreements based on the availability standard.

3336. REVISIONS TO ACQUISITION REGULATION CONCERNING CONFLICT OF INTEREST

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: The purpose of this rule is to revise the Agency's conflict of interest (COI) acquisition regulations. The specific revisions involve more stringent requirements for submission of relevant information from Agency contractors and potential contractors regarding their relationships with parent companies, affiliates, subsidiaries, and sister companies. Current Agency regulations do not require the submission of this level of information. Receipt and evaluation of this information is critical in order for the Agency to decide whether or not COI situations exist and how they are to be handled. This revised rule will also codify several COI clauses that have been developed since the issuance of the previous rule in 1994.

3339. IMPLEMENTATION OF CHANGES TO GOVERNMENTWIDE DEBARMENT AND SUSPENSION COMMON RULE

Priority: Substantive, Nonsignificant

Legal Authority: EO 12549; EO 12689 and FASA

CFR Citation: 40 CFR 32

Legal Deadline: None

Abstract: Periodically OMB amends the Governmentwide common rule for suspension and debarment of contractors and assistance participants who threaten the integrity of Federal programs because of criminal misconduct or poor performance. All agencies must issue changes to their individual codified versions to conform to the common rule. Recently, the Interagency Suspension and Debarment Coordinating Committee prepared recommendations for comprehensive changes to the common rule to conform to changes made in the Federal Acquisition Regulation (FAR) as a result of the Federal Acquisition Streamlining Act (FASA). In addition, several other proposals to improve or change the rule were recommended by various agencies. In December 1996, OMB declined to implement the changes at that time due to differences with some agencies about some changes unrelated to those occasioned by FASA.

Among other things, FASA replaced the small purchase threshold ($25,000) with the simplified acquisition amount ($100,000). That change unintentionally exposed certain EPA programs to participation by contractors who may have been debarred for serious misconduct already. OMB has agreed to permit agencies to amend the coverage section of their individual agency rules to reduce or eliminate exposure to suspended or debarred persons.

EPA intends to issue a notice of proposed rulemaking to amend 40 CFR 32.110 to reduce EPA exposure to such consequences.

3340. ENVIRONMENTAL IMPACT ASSESSMENT OF NONGOVERNMENTAL ACTIVITIES IN ANTARCTICA

Priority: Other Significant

Legal Authority: 16 USC 2401 et seq, as amended; 16 USC 2403(a); PL 104-227

CFR Citation: 40 CFR 8

Legal Deadline: Final, Statutory, October 2, 1998, The Interim Final Rule effective 7/14/98 through the year 2000-2001 austral summer.

EPA—General **Proposed Rule Stage**

Abstract: The purpose of this action is to develop regulations for: (1) the environmental impact assessment of nongovernmental activities, including tourism, for which the United States is required to give advance notice under paragraph 5 of Article VII of the Antarctic Treaty and (2) coordination of the review of information regarding environmental impact assessment received by the United States from other parties under the Protocol on Environmental Protection. The Office of Federal Activities (OECA/OFA) will use the decisionmaking process of the National Environmental Policy Act (NEPA) to analyze the environmental setting; the types of nongovernmental activities, including tourism, to be addressed by the regulations; their potential for impact; and the alternatives available under rulemaking for environmental impact assessments for nongovernmental activities. An interim final rule, 40 CFR part 8, promulgated April 30, 1997, and on July 15, 1998 extended through the 2000-2001 austral summer, will be replaced by a final rule. The interim final rule was effective immediately so that the U.S. could ratify the Protocol and implement its obligations under the Protocol as soon as it entered into force. These rules are being developed in coordination with other Federal agencies with specific interests in and expertise with Antarctica including the Department of State, National Science Foundation, National Oceanic and Atmospheric Administration, U.S. Coast Guard, Marine Mammal Commission, Department of Justice, and the Council on Environmental Quality.

3341. PROPOSED REVISION TO EPA'S IMPLEMENTING NEPA REGULATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 4321

CFR Citation: 40 CFR 6

Legal Deadline: None

Abstract: The proposed revision is necessary to clarify and update EPA's National Environmental Policy Act (NEPA) regulation. The revision would clarify Agency responsibilities for: Congressionally funded special appropriation projects and EPA-funded grant programs. The revision would clarify public involvement procedures and organization responsibilities. The proposal would revise the list of actions which are categorically excluded from analyses. The revision is also needed to incorporate a number of Executive orders and other cross-cutting requirements into the NEPA process.

3342. • REVISION OF PROCEDURAL RULES FOR HEARINGS ON CANCELLATIONS, SUSPENSIONS, CHANGES IN CLASSIFICATIONS, AND DENIALS OF PESTICIDE REGISTRATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 7 USC 136a(c)to 136a(d); 7 USC 136b(d)to 136b(f); 7 USC 136d(b)to 7 USC 136d(e); 7 USC 136w(a)

CFR Citation: 40 CFR 164 (Revision)

Legal Deadline: None

Abstract: EPA is preparing a comprehensive revision of the Rules of Practice governing the conduct of licensing adjudications under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). The existing Rules of Practice were originally promulgated by EPA in 1973. In the subsequent 19 years, Congress has substantially amended FIFRA, creating a number of additional types of licensing adjudications which are not expressly provided for in the existing Rules of Practice. In order to include provisions tailored to these new types of proceedings, and to incorporate the standard practices which have evolved and the precedents which have been established since these rules were first promulgated, EPA intends to comprehensively revise the FIFRA Rules of Practice.

Legal Deadline: NPRM, Statutory, August 31, 2000, Proposed rule to eliminate the special treatment of CBI substantiations.

Abstract: EPA regulations at 40 CFR part 2, subpart B, provide procedures for handling and disclosing information claimed as confidential business information (CBI). Although the current regulations have succeeded in protecting CBI, changes in Agency workload, practice, and statutory authority have made it difficult to handle CBI activities as expeditiously as desired. EPA is examining its CBI regulations to determine what changes are needed to make the regulations as efficient and effective as possible. Provision 40 CFR 2.205(c), which automatically protects CBI substantiations claimed as confidential, is being examined individually and as part of the CBI regulations as a whole.

3344. PERSISTENT, BIOACCUMULATIVE, AND TOXIC (PBT) POLLUTANTS STRATEGY

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: The U.S. Environmental Protection Agency (EPA) has developed National Action Plans under a national strategy to overcome the remaining challenges in addressing priority PBT pollutants. These pollutants pose risks because they are toxic, persist in ecosystems, and accumulate in fish and up the food chain. The PBT challenges remaining stem from the pollutants' ability to travel long distances, to transfer rather easily among air, water, and land, and to linger for generations. EPA is committing, through this strategy, to create an enduring cross-office system that will address the cross-media issues associated with priority PBT pollutants. This strategy fortifies existing EPA commitments related to priority PBTs, such as the 1997 Canada/U.S. Binational Toxics Strategy (BNS), the North American Agreement on Environmental Cooperation, and the recently released Clean Water Action Plan. EPA is forging a new approach to reduce risks from and exposures to priority PBT pollutants through increased coordination among EPA national and regional programs. This approach also requires the significant involvement of stakeholders, including international, State, local, and tribal organizations, the regulated community, environmental groups, and private citizens. EPA is carrying out this strategy through the implementation of National Action Plans for Priority PBT Pollutants. EPA is initially focusing action on 12 BNS Level 1 substances either individually or as categories and two major cross-cutting issues (monitoring and outreach/risk communication). The action plans will use the full range of its tools to prevent and reduce releases of these substances. These tools include international, voluntary, regulatory, programmatic, remedial, compliance monitoring and assistance, enforcement, research, and outreach tools. EPA will integrate and sequence actions within and across action plans, and will seek to leverage these actions on international and industry-sector bases. Beyond these first 12 substances EPA will identify additional PBTs for development of National Action Plans.

3347. NEW JERSEY GOLD TRACK PROJECT XL RULE

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: The Gold Track Program is a crucial part of NJDEP's efforts to create a State-run tiered performance-based program. Currently, facilities may join NJDEP's Silver Track Program, which is a lower-level tier that provides recognition for commitments to a certain level of environmental enhancement. Gold Track expands upon these environmental commitments, and offers proportionally greater recognition, as well as actual federal regulatory flexibility to participating facilities. NJDEP is partnering with EPA in the Gold Track effort under the XL program, so as to be able to offer federal regulatory flexibility to Gold Track participants.

3349. NONDISCRIMINATION ON THE BASIS OF RACE, COLOR, NATIONAL ORIGIN, HANDICAP, AND AGE IN PROGRAMS AND ACTIVITIES RECEIVING FEDERAL FINANCIAL ASSISTANCE

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 794; 42 USC 2000d to 2000d-7; 42 USC 6101 to 6107; EO 12250

CFR Citation: 28 CFR 42.101 to 42.112; 28 CFR 42.501 to 42.540; 28 CFR 42.700 to 42.736

Legal Deadline: None

Abstract: The Department of Justice proposes to make amendments to its regulations implementing title VI of the Civil Rights Act of 1964 (title VI), section 504 of the Rehabilitation Act of 1972 (section 504), and the Age Discrimination Act of 1975 (Age Discrimination Act). Together, these statutes prohibit discrimination on the basis of race, color, national origin, disability, and age in programs or activities that receive Federal financial assistance. In 1988, the Civil Rights Restoration Act (CRRA) added definitions of program or activity and program to title VI and added a definition of program or activity to section 504 and the Age Discrimination Act. The added definitions were designed to clarify the broad scope of coverage of recipients' programs or activities under these statutes. The promulgation of this proposed regulation explicitly incorporates the CRRA's definition of program or activity and program into the Department's title VI, section 504, and Age Discrimination Act regulations. The Department's proposed regulation will be published as part of a joint Notice of Proposed Rulemaking involving up to 24 Federal agencies.

3350. REWRITING OF EPA REGULATIONS IMPLEMENTING THE FREEDOM OF INFORMATION ACT

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 552

CFR Citation: 40 CFR 2

Legal Deadline: None

Abstract: This document proposes revisions to EPA's regulations under the Freedom of Information Act (FOIA). The FOIA regulations have been streamlined and written in plain English wherever possible. These revisions reflect the principles established by President Clinton and Attorney General Reno in their FOIA Policy Memoranda of October 4, 1993. They also reflect developments in the case law and include updated cost figures for calculating and charging fees. In addition, the proposed revisions include provisions implementing the Electronic Freedom of Information Act Amendments of 1996. These revisions will simplify and expedite responses to FOIA requests.

RIN: 2030–AA73

Environmental Protection Agency (EPA) **Long-Term Actions**

General

3355. CONSOLIDATION OF GOOD LABORATORY PRACTICE STANDARDS (GLPS) REGULATIONS CURRENTLY UNDER TSCA AND FIFRA INTO ONE RULE

Priority: Info./Admin./Other

Legal Authority: 15 USC 2601 et seq; 7 USC 136 et seq

CFR Citation: 40 CFR 160; 40 CFR 792

Legal Deadline: None

Abstract: On November 29, 1983, EPA published Good Laboratory Practice Standards (GLPS) regulations intended to help ensure data integrity for studies required to support marketing and research permits under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). These rules were last amended on August 17, 1989. GLPS data integrity measures can be applied to a wide variety of scientific studies. Although the TSCA and FIFRA GLPS contain identical provisions, they were published as separate rules to account for statutory and program differences between TSCA and FIFRA, such as differences in records retention requirements. EPA believes it will be able to address the differences between TSCA and FIFRA, such as differences in records retention requirements. EPA believes it will be able to address the differences of those programs without duplicating the entire GLP standard in two places.

This action is intended to consolidate EPA's GLPS into one rule. Program-specific requirements will be addressed in either separate sections of the consolidated rule, or in separate rules as is determined appropriate. This action is not intended to change the requirements, applicability, or

UMI
VOL
66
ISS
232
DE
3
2001
UMI

enforceability of GLPS with respect to any statute.

EPA has received comments from stakeholders regarding the understandability of many aspects of the GLPS, and over the years has issued numerous clarifications. EPA believes that some clarifications, if included directly in the rule, would make the rule easier to understand and enhance compliance. Therefore, EPA intends to include such clarifications where appropriate in this rulemaking. Finally, in the interest of maintaining consistency between EPA's and Food and Drug Administration's regulations, EPA will determine any modifications that have occurred to the FDA GLP rule and consider incorporation of such changes into the EPA rule. This action will serve to reduce the total regulatory text in the Code of Federal Regulations by an estimated 10 pages, by consolidating 23 pages of text to approximately 13. In the process it will provide a generic GLP rule that may be used by other programs in the Agency.

3358. GUIDELINES FOR CARCINOGEN RISK ASSESSMENT

Priority: Info./Admin./Other

Legal Authority: Not applicable

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: The Agency will use these guidelines to evaluate suspect carcinogens in line with the policies and procedures established in the statutes administered by the EPA. These guidelines revise and replace EPA Guidelines for Carcinogen Risk Assessment published at 51 FR 33992, September 24, 1986. These guidelines provide EPA staff and decision-makers with the directions and perspectives necessary to develop and use risk assessments. The guidelines also provide the general public with basic information about the Agency's approaches to risk assessment.

To develop guidelines the Agency must find a balance between consistency and innovation. Consistent risk assessments provide consistent bases to support regulatory decision-making. On the other hand, innovation is necessary so the Agency will base its decisions on current scientific thinking. In balancing these and other science policies, the Agency relies on input from the general scientific community through established scientific peer review processes. The guidelines incorporate basic principles and science policies based on evaluation of the currently available information. The revisions place increased emphasis on the role of carcinogenic mechanisms in risk assessment and clearer explication of underlying assumptions in risk assessment.

These guidelines will have minimal to no impact on small businesses or State, local, and tribal governments.

3359. EPA DRAFT AGENCYWIDE PUBLIC INVOLVEMENT POLICY

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: The Environmental Protection Agency is revising its 1981 Public Participation Policy. The revised policy is being issued as the Draft 2000 Public Involvement Policy for 120-day public comment. The Draft Policy was updated to reflect changes over the past nineteen years such as additional Agency responsibilities, new regulations, expanded public involvement techniques, and the changed nature of public access due to the Internet. The Policy will provide guidance and direction to EPA officials on reasonable and effective means to involve the public in its regulatory and program decisions.

3366. AMENDMENTS TO METHOD 24 (WATER-BASED COATINGS)

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7410

CFR Citation: 40 CFR 60

Legal Deadline: Final, Statutory, June 15, 2001.

Abstract: The determination of volatile organic compounds (VOCs) content of a surface coating by reference Method 24 involves determination of its water content and calculation of its VOC content as the difference of the two measurements (volatile content minus water content). Method 24 is inherently less precise for water-based coatings than it is for solvent-based coatings and the imprecision increases as water content increases. This action will amend Method 24 by adding a direct measurement procedure for measuring VOC content of water-based coatings. This amendment will improve the precision of Method 24 for water-based coatings.

3369. TRANSPORTATION CONFORMITY RULE AMENDMENT: CLARIFICATION OF TRADING PROVISIONS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 to 7671 CAA sec 176(c)

CFR Citation: 40 CFR 51; 40 CFR 93

Legal Deadline: None

Abstract: The transportation conformity rule, promulgated in November 1993, ensures that transportation and air quality planning are consistent with Clean Air Act air quality standards. The Open Market Trading Guidance provides guidance to states for establishing a method to quantify emissions reductions (called discrete emissions reductions or DERs) that can be traded among parties and how such trading should occur. This action will amend the transportation conformity rule to clarify how emissions trading could be reconciled in the conformity process.

3370. STREAMLINED EVAPORATIVE TEST PROCEDURES

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7521(m)

CFR Citation: 40 CFR 86 (Revision)

Legal Deadline: None

Abstract: This action will streamline the test procedure used to establish compliance with evaporative emission requirements for light duty vehicles and trucks. The current test procedure requires both two and three day diurnal emission tests, as well as running-loss testing. The revisions will delete the three day requirement and add flexibilities for running-loss compliance. This will enable manufacturers to save significant resources without any decrease in environmental benefits.

3371. RULEMAKING TO MODIFY THE LIST OF SOURCE CATEGORIES FROM WHICH FUGITIVE EMISSIONS ARE CONSIDERED IN MAJOR SOURCE DETERMINATIONS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 42 USC 7602 CAA sec 302(j)

CFR Citation: 40 CFR 51; 40 CFR 52; 40 CFR 70; 40 CFR 71

Legal Deadline: None

Abstract: This rulemaking will modify the list of source categories for which fugitive emissions are to be considered in major source determinations under the New Source Review (Prevention of Significant Deterioration and Nonattainment New Source Review) and title V programs. As provided by section 302(j) of the Act, EPA adopted rules on August 7, 1980 that require, for specific source categories, the inclusion of fugitive emissions when determining if a stationary source is a major source. In its 1980 rulemaking, EPA identified one such specific source category as those stationary source categories being regulated, as of August 7, 1980, under section 111 or 112 of the Clean Air Act. Moreover, EPA indicated that at the time of any future rulemaking proposing to regulate additional categories of sources under section 111 or 112, the EPA would conduct a parallel rulemaking under section 302(j) to determine whether fugitive emissions from sources within these source categories needed to be considered in determining whether the sources were major stationary sources. EPA did not conduct these parallel rulemakings as intended and is now conducting a rulemaking pursuant to section 302(j) to address the source categories which became subject to section 111 and 112 standards after August 7, 1980.

3373. NESHAP: HYDROCHLORIC ACID PRODUCTION INDUSTRY

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 1857 et seq; 44 USC 350 et seq; 5 USC 605; EO 12291; EO 12866

CFR Citation: 40 CFR 63

Legal Deadline: None

Abstract: Title III of the Clean Air Act Amendments of 1990 requires the EPA to develop emission standards for each

major source category of hazardous air pollutants (HAPs). The standards are to be technology-based and are to require the maximum degree of emission reduction determined to be achievable by the Administrator of the EPA. The EPA has determined that some hydrochloric acid plants may be major sources for one or more HAPs. As a consequence, a regulation (emission standards) will be developed for the hydrochloric acid production industry.

3374. NESHAP: ASPHALT/COAL TAR APPLICATION ON METAL PIPES

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63

Legal Deadline: NPRM, Statutory, May 1, 2001.

Abstract: The Clean Air Act (CAA), as amended in 1990, requires the EPA to (1) publish an initial list of all categories of major and area sources of the hazardous air pollutants (HAPs) listed in section 112(b) of the CAA, (2) promulgate a schedule establishing a date for the promulgation of emission standards for each of the listed categories of HAPs emission sources, and (3) develop emission standards for each source of HAPs. These standards are to be technology-based and are to require the maximum degree of emission reduction determined to be achievable by the Administrator. The Agency has determined that the application of asphalt or coal tar to metal pipes may reasonably be anticipated to emit several of the 189 HAPs listed in section 112(b) of the CAA. As a consequence, a regulatory development program is being pursued for the asphalt/coal tar application on metal pipes industry to promulgate emission standards.

3375. NESHAP: CLAY MINERALS PROCESSING

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63

Legal Deadline: NPRM, Statutory, May 1, 2001.

Abstract: The Clean Air Act (CAA), as amended in 1990, requires the EPA to (1) publish an initial list of all categories of major and area sources of the hazardous air pollutants (HAPs) listed in section 112(b) of the CAA, (2) promulgate a schedule establishing a date for the promulgation of emission standards for each of the listed categories of HAPs emission sources, and (3) develop emission standards for each source of HAPs. These standards are to be technology-based and are to require the maximum degree of emission reduction determined to be achievable by the Administrator. The Agency has determined that the clay products manufacturing industry may reasonably be anticipated to emit several of the 189 HAPs listed in section 112(b) of the CAA. As a consequence, a regulatory development program is being pursued for the clay products manufacturing industry to promulgate emission standards. EPA plans to propose four separate standards for the clay products manufacturing industry (see 64 FR 63028, 11/18/99). This action will propose and promulgate standards for the clay minerals processing portion of the industry.

3376. NESHAP: URANIUM HEXAFLUORIDE PRODUCTION

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7412

CFR Citation: 40 CFR 63

Legal Deadline: Final, Statutory, November 15, 2000.

Abstract: This project will develop national emissions standards for hazardous air pollutants (NESHAP) by establishing emissions limitations for hazardous air pollutants (HAP) which can be emitted by the two known sources in this category. The emissions limitations are to be based upon the application of the maximum achievable control technology (MACT). The purpose of the NESHAP is to reduce emissions of HAP to protect public health and the environment. The project will begin in 2000. Initially, information on the industry processes and emissions of HAP will be analyzed to identify available emissions control technologies. That work will be followed by the development, proposal and promulgation of NESHAP.

RIN: 2060–AH83

3377. PERFORMANCE SPECIFICATION 16 - SPECIFICATIONS AND TEST PROCEDURES FOR PREDICTIVE EMISSION MONITORING SYSTEMS IN STATIONARY SOURCES

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7411 CAA sec 111

CFR Citation: 40 CFR 60

Legal Deadline: Final, Statutory, April 15, 2001.

Abstract: Performance Specification 16 is being proposed to provide performance criteria for predictive emission monitoring systems. Predictive systems represent a new technology that uses process information or parameters to predict pollutant emissions instead of directly measuring them. The Agency is allowing their use in recently-promulgated rules and they are being considered by a number of regulated facilities. The specification lists the requirements for acceptable systems that are met by passing tests that compare the monitoring system with standardized methods and audit gases to determine system accuracy and stability. Performance Specification 16 will primarily apply to facilities whose emissions can be predicted from process parameters such as combustion processes (including gas turbines and internal combustion engines).

3378. TECHNICAL CHANGE TO DOSE METHODOLOGY FOR 40 CFR 191, SUBPART A

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2021 Atomic Energy Act of 1954; Reorganization Plan No. 3 of 1970; Nuclear Waste Policy Act of 1982

CFR Citation: 40 CFR 190(B); 40 CFR 191(A)

Legal Deadline: None

Abstract: The purpose of this action is to make a technical change to the dose methodology used in subpart A of 40 CFR 191, entitled Environmental Radiation Protection Standards for the Management and Disposal of Spent Nuclear Fuel, High-Level Waste and Transuranic Waste The current methodology is outdated. The dose methodology used in the rule published on September 19, 1985, was based on the target organ approach recommended by the International Commission on Radiological Protection (ICRP) in Report No. 2. Since that time science has progressed and a new methodology based on an effective dose equivalent approach is currently being recommended by the ICRP in Report No. 26. This action would update the 40 CFR 191, subpart A dose limits published in 1985 from the target organ to the state-of-the-art effective dose equivalent system. There would be no change in the level of protection, just the scientific methodology for determining compliance with the levels of protection established in 1985.

RIN: 2060–AH90

3379. RULEMAKING ON SECTION 126 PETITIONS FROM NEW YORK AND CONNECTICUT REGARDING SOURCES IN MICHIGAN

Priority: Routine and Frequent

Legal Authority: 42 USC 7426

CFR Citation: 40 CFR 52; 40 CFR 75; 40 CFR 97

Legal Deadline: None

Abstract: The EPA is proposing to revise the section 126 rule in light of the March 3, 2000 Court decision (Michigan v. EPA, No. 98-1497) on the NOx SIP Call. The court vacated, and remanded to EPA for further consideration, the inclusion of Georgia and Missouri in the NOx SIP Call in light of the Ozone Transport Assessment Group conclusions that emissions from coarse grid portions of States did not merit controls. The reasoning of the Court regarding the significance of NOx emissions from sources in Georgia and Missouri calls into question the inclusion of the coarse grid portion of Michigan in the NOx SIP Call. In a separate proposal on the NOx SIP Call, EPA is proposing to withdraw the NOx SIP Call requirements for the Michigan coarse grid area. The section 126 rule is based on many of the same analyses and information used for the NOx SIP call and covers part of Michigan. Thus, in light of the court ruling, EPA is proposing to withdraw its section 126 findings and control requirements under the 1-hour ozone standard with respect to sources located in the small part of the coarse grid portion of Michigan that is currently covered by the section 126 rule. The EPA has not identified any existing section 126 sources that would be affected by the proposal, however this proposal would eliminate findings and control requirements for new sources locating in the coarse grid. This proposal does not create any new requirements, thus there are no associated costs. The proposal does not raise any novel legal or policy issues. It is consistent with the Court ruling on the NOx SIP Call and EPA's new proposed action on the NOx SIP Call.

3380. • WITHDRAWAL OF AMENDMENTS FOR TESTING AND MONITORING PROVISIONS TO PARTS 60, 61, AND 63

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401; 42 USC 7410 to 7412; 42 USC 7414; 42 USC 7416

CFR Citation: 40 CFR 60; 40 CFR 61; 40 CFR 63

Legal Deadline: None

Abstract: This rulemaking will amend the emission test methods and performance specifications in appendices A and B of part 60, appendix B of part 61, and appendix A of part 63 by revising the method format to conform with Environmental Monitoring Management Council (EMMC) guidelines. Conformance to the guidelines will promote consistency among inter-program methods. In addition, minor technical and printing errors in the methods will be corrected. Similar errors in various subparts of part 60 will also be corrected. Performance specification 15 is also being proposed in this rulemaking.

EPA—Clean Air Act (CAA)

Proposed Rule Stage

CFR Citation: 40 CFR 63

Legal Deadline: Final, Statutory, November 15, 2000, See additional information.

Abstract: Iron foundries and steel foundries have been identified by the EPA as potentially significant sources of air emissions of manganese compounds, lead compounds, and other substances that are among the pollutants listed as hazardous air pollutants in section 112 of the Clean Air Act, as amended in November of 1990. As such, these industries may be source categories for which national emission standards may be warranted.

RIN: 2060–AE82

3386. NESHAP: CHLORINE PRODUCTION

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7412 CAAA sec 112

CFR Citation: 40 CFR 63

Legal Deadline: Final, Statutory, November 15, 2000.

Abstract: The chlorine production source category includes facilities engaged in the production of chlorine and sodium hydroxide (caustic) by one of the following electrolytic processes: diaphragm cell, membrane cell, and mercury cell. Hazardous air pollutants emitted include chlorine, hydrogen chloride, and mercury. None of the facilities are major sources on their own. However, several are co-located with major sources (e.g., pulp and paper plants, polymer plants, synthetic organic chemical plants, etc.). Emissions of chlorine and hydrogen chloride are very minor and the Agency is evaluating whether regulation of these HAPs is warranted. Relative to mercury, which is among five pollutants listed for regulation under section 112(c)(6) due to their persistent and bioaccumulative effects, the Agency intends to subject to regulation under section 112(d)(2) all mercury cell facilities regardless of major source status.

3387. NESHAP: MISCELLANEOUS METAL PARTS AND PRODUCTS (SURFACE COATING)

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63

Legal Deadline: NPRM, Statutory, May 1, 2001.

Abstract: This regulation will control emissions of hazardous air pollutants (HAPs) from operations that apply surface coatings to metal parts and products. Although this rule would cover a wide variety of coating operations, it would not apply to specific coating operations for which regulations have been developed (e.g., plastic parts coating, can coating, large appliance coating, etc.). This regulation is required under section 112 of the Clean Air Act of 1990.

RIN: 2060–AG56

3388. NESHAP: ASPHALT PROCESSING AND ASPHALT ROOFING MANUFACTURING

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7412 CAAA sec 112

CFR Citation: 40 CFR 63

Legal Deadline: NPRM, Statutory, May 1, 2001.

Abstract: The CAA required EPA to publish an initial list of all categories of major and area sources of hazardous air pollutants (HAPs) listed in section 112(b) of the CAA and to establish and meet dates for promulgation of emissions standards for each of the listed categories of HAP emissions sources. The standards are to be technology-based and are to require the maximum degree of reduction determined to be achievable by the Administrator. The EPA has determined that the asphalt roofing and processing industry may be reasonably anticipated to emit one or more of the pollutants listed in section 112(b) of the CAA. As a consequence, the source category is included on the initial list of HAP-emitting categories scheduled for standards promulgation within ten years of enactment of the CAA Amendments of 1990. The purpose of this action is to pursue a regulatory development program such that emission standards may be proposed and promulgated according to the mandated schedule.

3389. NESHAP: REFRACTORY PRODUCTS MANUFACTURING

Priority: Other Significant

Legal Authority: 42 USC 7412 CAA sec 112

CFR Citation: 40 CFR 63

Legal Deadline: Final, Statutory, November 15, 2000.

Abstract: The proposed rulemaking will apply to existing and new refractory products manufacturing facilities. There are approximately 8 existing refractory products manufacturing facilities in the United States located at major source facilities. It is estimated that no new refractory products manufacturing facilities will be built at least for the next 3 years. The HAP that will be reduced by this proposed rule are polycyclic organic matter (POM), phenol, formaldehyde, methanol, and ethylene glycol. Implementation of the proposed rule would reduce emissions of air toxics by approximately 132 tons per year, a reduction of 46 percent from current levels. No significant adverse economic impact is expected to occur as a result of implementing this proposed rulemaking. The capital cost associated with the proposed rulemaking is approximately $3.5 million. The total annual cost of the proposed rulemaking is approximately $1.7 million.

3391. NESHAP: LIME MANUFACTURING

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq; 44 USC 350 et seq; 5 USC 605

CFR Citation: 40 CFR 63

Legal Deadline: Final, Statutory, November 15, 2000.

Abstract: Section 112 of the Clean Air Act Amendments of 1990 requires the EPA to develop emission standards for each major source category of hazardous air pollutants (HAPs). The standards are to be technology-based and are to require the maximum degree

of emission reduction determined to be achievable by the Administrator of the EPA. The EPA has determined that some lime manufacturing plants may be major sources for one or more HAPs. As a consequence, a regulation (emission standards) is being developed for the lime manufacturing industry.

3396. NESHAP: PRIMARY MAGNESIUM REFINING

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 42 USC 7412 CAA sec 112

CFR Citation: 40 CFR 60

Legal Deadline: Final, Statutory, November 15, 2000.

Abstract: Section 112 of the Clean Air Act (Act), as amended November 1990, requires the EPA to regulate categories of major and area sources of hazardous air pollutants (HAPs) listed in section 112(b). The EPA has determined that sources that manufacture primary magnesium may reasonably be anticipated to emit several of the 189 HAPs listed (including chlorine and hydrochloric acid) in quantities sufficient to designate them as a major source. As a consequence, primary magnesium refining is among the HAP emitting source categories selected for regulation and is in the group of categories for which final rules are scheduled to be promulgated by November 15, 2000 (58 FR 63941, December 3, 1993).

3397. NESHAP: CHROMIUM ELECTROPLATING AMENDMENT

Priority: Other Significant

Legal Authority: 42 USC 7412 CAA 112

CFR Citation: 40 CFR 63

Legal Deadline: None

Abstract: Final standards under section 112(d) for chromium emissions from hard and decorative chromium electroplating and chromium anodizing tanks (40 CFR 63, subpart N) were promulgated on January 25, 1995. Since promulgation, the Agency has determined that a class of chromium electroplating operations were inadvertently excluded from regulation. Specifically, the final standards do not apply to sources engaged in continuous chromium electroplating of steel sheet used to make cans and other containers. It is the Agency's intent to regulate all facilities engaged in chromium electroplating. Therefore, the Agency plans to amend the chromium electroplating rule to extend its applicability to continuous chromium electroplating operations.

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63

Legal Deadline: NPRM, Statutory, May 1, 2001.

Abstract: As required by section 112(c) of the Clean Air Act, the Environmental Protection Agency has developed a list of categories of sources of hazardous air pollutants (HAP's). The HAP's are

listed in section 112(b) of the Clean Air Act. The Rocket Engine Test Firing source category and the Engine Test Facilities source category are included on EPA's list of sources of HAP's. The Rocket Engine Test Firing source category includes facilities engaged in test firing of rocket engines using solid or liquid propellants. The Engine Test Facilities source category includes any facility engaged in the testing of stationary or mobile engines, including turbines and reciprocating engines.

3400. NESHAP: ORGANIC LIQUIDS DISTRIBUTION (NON-GASOLINE)

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63

Legal Deadline: NPRM, Statutory, November 15, 2000.

Abstract: This project is to develop national emission standards for hazardous air pollutants by establishing maximum achievable control technology (MACT) for facilities distributing organic liquids. MACT standards are under development to reduce the release of hazardous air pollutants (HAPs) from all industries to protect the public health and environment. This project should include but is not limited to those activities associated with the storage and distribution of organic liquids other than gasoline at sites that serve as distribution points from which organic liquids may be obtained for further use and processing.

3401. NESHAP: GROUP I POLYMERS AND RESINS AND GROUP IV POLYMERS AND RESINS-AMENDMENTS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63.480 to 63.506 (Revision); 40 CFR 63.1310 to 63.1335 (Revision)

Legal Deadline: None

Abstract: During the development of the National Emission Standard for Hazardous Air Pollutants (NESHAP) for elastomers (Group I polymers and resins) and thermoplastics (Group IV polymers and resins) (RINs 2060-AD56 and 2060-AE37), many of the provisions contained in the Hazardous Organic NESHAP (HON) were referenced directly by these polymers and resins regulations due to similarities in processes, emission characteristics, and control technologies. On January 17, 1997, the EPA promulgated changes to the HON to remove ambiguity, to clearly convey EPA intent, and to make the rule easier to understand and implement in response to industry petitions. It is necessary to make parallel changes to the polymers and resins NESHAP; otherwise inconsistencies will exist for NESHAPs regulating similar source categories. An ANPRM was published in the Federal Register on 11/25/96 (61 FR 59849), to explain the nature of changes planned. Subsequently, six litigants have petitioned for review of the elastomers and thermoplastics regulations. Four companies have petitioned EPA to reconsider specific provisions in the thermoplastics regulation. Revisions will be proposed to parallel HON changes and to resolve petitioners' issues. There are no impacts anticipated for small businesses or State/local/tribal governments.

3402. AMENDMENTS TO PARTS 51, 52, 63, 70 AND 71 REGARDING THE PROVISIONS FOR DETERMINING POTENTIAL TO EMIT

Priority: Other Significant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63

Legal Deadline: None

Abstract: This action proposes to amend regulations already established to implement the new Federal air toxics program under section 112, including the General Provisions, the Federal operating permit program under title V, and the major source preconstruction programs under parts C and D of title I.

The proposed rule will address issues related to the determination of a stationary source's potential to emit in response to three court decisions.

This action resulted from splitting of RINs 2060-AC98 and 2060-AC63.

RIN: 2060–AH02

3407. LOCATION OF SELECTIVE ENFORCEMENT AUDITS OF FOREIGN MANUFACTURED VEHICLES AND ENGINES; AMENDMENT

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7525 CAA sec 206(b)

CFR Citation: 40 CFR 86G (Revision); 40 CFR 86K (Revision)

Legal Deadline: None

Abstract: This action would consider an amendment to the existing regulations to include ports of entry as a location for EPA selection of foreign produced vehicles and engines for SEA emissions testing at laboratories in the U.S. While the regulations do not specify EPA authority to conduct such port selections, the increased flexibility provided by port selections warrants amending the regulations. Presently, EPA must travel overseas to conduct SEA audits of foreign manufactured vehicles and engines, even though most manufacturers now have access to laboratory facilities in the U.S. The benefits include a reduction in Agency cost since fewer overseas trips would be necessary. Also, EPA would be able to conduct more audits of foreign manufactured vehicles and engines.

Separate from the provisions proposed in this NPRM for amendments to allow port selection for SEAs, EPA is also proposing to make two other amendments to 40 CFR part 86. The first would amend current Selective Enforcement Auditing regulations to change the minimum annual limit of Selective Enforcement Audits per manufacturer to two (2) per year. Currently, the minimum annual limit is one audit per manufacturer. Under the proposed amendments EPA would be able to perform a second audit on those manufacturers that might otherwise be limited to one audit.

The second additional proposed amendment to part 86 would delete from subparts A and E references to the Agency representation in certain types of administrative hearings. The two provisions state that the Office of General Counsel will represent the Agency in administrative procedures governing hearings on certification for light-duty vehicles, light-duty trucks, heavy-duty engines and motorcycles. The Agency is proposing to delete these two provisions in order to be consistent with other hearing procedures in part 86.

3409. PROTECTION OF STRATOSPHERIC OZONE: RECONSIDERATION OF SECTION 608 SALES RESTRICTION

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7671(g) CAA sec 608

CFR Citation: 40 CFR 82 subpart F

Legal Deadline: None

Abstract: The rule will include the reconsideration of the sales restriction as it relates to split systems. The Agency was petitioned to reconsider the part of the sales restriction that included the sale of pre-charged split systems. It restricted such sales to certified technicians. Since then, EPA stayed that portion of the sales restriction in response to the petition. This rule will include the determination of the Agency related to the reconsideration. It addresses environmental problems of ozone depletion resulting from emissions of chlorofluorocarbons, hydrochlorofluorocarbons, and other ozone-depleting substances. Through restricting sales of certain pre-charged items to persons certified as technicians, emissions to the atmosphere are decreased. The impact on small businesses and governments would be negligible, since persons can become certified if the EPA determination is a full restriction. Most businesses and governments will have at least one certified technician on board. This action has no impact on small business and State, local, and tribal governments.

3410. FEDERAL IMPLEMENTATION PLAN (FIP) FOR THE BILLINGS/LAUREL, MONTANA SULFUR DIOXIDE (SO2) AREA

Priority: Other Significant

Legal Authority: 12 USC 1701 et seq

CFR Citation: 40 CFR 52

Legal Deadline: None

Abstract: The State of Montana submitted a sulfur dioxide (SO2) State Implementation Plan (SIP) for the Billings/Laurel, Montana area. On 7/28/99 we proposed to partially approve, conditionally approve and partially disapprove Montana's SO2 SIP for Billings/Laurel. EPA intends to propose a Federal Implementation Plan (FIP) to cover those parts of the State's plan we disapprove. EPA's FIP will assure that the Billings/Laurel area will attain and maintain the SO2 NAAQS.

3411. FEDERAL IMPLEMENTATION PLANS FOR INDIAN RESERVATIONS IN IDAHO, OREGON AND WASHINGTON

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 49.121 to 49.139; 40 CFR 49.9861 to 49.17810

Legal Deadline: None

Abstract: This Federal Implementation Plan (FIP) proposes basic air rules to apply on Indian Reservations in Idaho, Oregon, and Washington. The rules provide some basic air quality protection similar to what the state implementation plans (SIPs) require for Idaho, Oregon, and Washington. These rules are needed to establish a level playing field and create basic federally enforceable rules under the Clean Air Act.

RIN: 2012–AA01

3412. ACCIDENTAL RELEASE PREVENTION REQUIREMENTS: RISK MANAGEMENT PROGRAMS UNDER THE CLEAN AIR ACT, SECTION 112(R)(7); THIRD PARTY AUDIT PROVISIONS

Priority: Other Significant

Legal Authority: 42 U.S.C. 7412(r); 7601 (a)(1)

CFR Citation: 40 CFR 68

Legal Deadline: None

Abstract: This action establishes requirements, incentives, and procedures for third party audits of Risk Management Plans (RMPs) under 40 CFR part 68 that would reduce the need for, and thus the incidence of, government audits of RMPs submitted by facilities that volunteer for such an audit. In this context, a third party is someone not employed by either an RMP-regulated facility or a government agency responsible for implementing the RMP program (implementing agency).

In the preamble to the final Risk Management Program rule, EPA endorsed the concept of using third parties to assist in rule compliance and oversight (61 FR 31705), provided that any such proposal: not weaken the compliance responsibilities of facility owner/operators; offer cost savings and benefits to the industry, community, and implementing agencies that significantly exceed the cost of implementing the approach lead to a net increase in process safety, particularly for smaller, less technically sophisticated facilities; and promote cost-effective agency prioritization of oversight resources. However, no specific criteria or requirements were specified in the RMP rule to regulate the activities of facilities, implementing agencies, or third parties with respect to third party assistance.

A facility's participation in the third party audit program proposed by this action would be totally voluntary. For facilities who choose not to participate in the program, this action would have no effect. However if a facility participates, this regulation would establish the requirements and regulatory incentives for their participation. For participating sources, the action would offer the potential for reduced regulatory burden (while maintaining their compliance responsibilities), flexible auditing options, and other benefits, provided the source meets the applicable requirements described in the rule. This action also would specify the proposed qualification requirements for persons desiring to act as third party auditors.

EPA believes that this action would promote increased safety among facilities covered by the risk.

3413. NESHAP: CHROMIUM ELECTROPLATING AMENDMENT

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63 (Revision)

Legal Deadline: None

Abstract: Since the promulgation of the chromium electroplating NESHAP we have been informed of several sources that are experiencing difficulty in

complying with the concentration limit for new sources even though they have installed and operate composite mesh pad scrubber technology similar or identical to that used as the basis for the MACT emission limit. These sources operate new state-of-the-art plating tanks not encountered during rule development which feature enclosing hoods that completely cover the surface of the plating tank. This covered tank design allows for effective capture and ventilation at substantially lower exhaust air flow rates than otherwise encountered with more conventional exterior hooding. Although these sources exceed the new source standard concentration limit of 0.015 mg/dscm, actual mass rate emissions are more than 50 percent lower than would otherwise be achieved with more conventional hooding and higher ventilation rates. The chromium electroplating standard will be amended to include this alternative type of control system.

3419. NESHAP: BRICK AND STRUCTURAL CLAY PRODUCTS MANUFACTURING

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63

Legal Deadline: NPRM, Statutory, May 1, 2001.

Abstract: The brick and structural clay products industry primarily includes facilities that manufacture brick, clay, pipe, roof tile, extruded floor and wall tile, and other extruded dimensional clay products from clay, shale, or a combination of the two. The manufacture of brick and structural clay products involves mining, raw material processing (crushing, grinding, and screening), mixing, forming, cutting or shaping, drying, and firing.

3420. NESHAP: CLAY CERAMICS MANUFACTURING

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63

Legal Deadline: None

Abstract: Ceramics are defined as a class of inorganic, nonmetallic solids that are subject to high temperature in manufacture and/or use. The clay ceramics manufacturing source category includes facilities that manufacture traditional ceramics. Traditional ceramics include ceramic tile, dinnerware, sanitaryware, pottery, and porcelain. The primary raw material used in the manufacture of traditional ceramics is clay. The manufacture of clay ceramics involves raw material processing (crushing, grinding, and screening), mixing, forming, shaping, drying, glazing, and firing.

3421. NESHAP: ENGINE TEST CELLS/STANDS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63

Legal Deadline: NPRM, Statutory, May 1, 2001.

Abstract: As required by section 112(c) of the Clean Air Act, the Environmental Protection Agency has developed a list of categories of sources of hazardous air pollutants (HAP's). The HAP's are listed in section 112(b) of the Clean Air Act. The Engine Test Facilities source category are included on EPA's list of sources of HAP's. The Engine Test Facilities source category includes any facility engaged in the testing of stationary or mobile engines, including turbines and reciprocating engines and rocket engines. Aircraft engine testing consists of facilities which perform testing on uninstalled aircraft engines. Non-aerospace engine test facilities consists of facilities which perform testing on uninstalled engines such as automotive engines, stationary turbines, IC engines, and diesel engines.

RIN: 2060–AI74

3422. DEVELOPMENT OF REFERENCE METHOD FOR THE DETERMINATION OF SOURCE EMISSIONS OF FILTERABLE FINE PARTICULATE MATTER AS PM2.5

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7410

CFR Citation: 40 CFR 51 app M

Legal Deadline: Final, Statutory, June 15, 2001.

Abstract: Under this action, EPA is initiating the publication of a reference test method that can be used to quantify that portion of particulate matter emissions that are solid at stack conditions and are equal to or less than 2.5 uM in aerodynamic diameter. This test method is to be used in conjunction with existing and future reference methods which are designed to quantify condensable particulate and particulate precursors. Condensable particulate is that portion of particulate matter emissions that are gaseous at stack conditions but which quickly condense to a solid form when released to the atmosphere. Particulate precursors are gaseous compounds which become solids as a result of chemical reactions in the atmosphere. This test method supports the amended National Ambient Air Quality Standard (NAAQS) for particulate matter which was promulgated on July 18, 1997. The NAAQS was revised by adding new standards for particulate of 2.5 uM aerodynamic diameter. An important foundation element of State efforts to attain the NAAQS will be the development of reliable inventories of baseline particulate and particulate precursor emissions. The emission inventories developed should be based upon credible source tests of individual facilities or emission factors developed from credible source tests. At the present time there is no reference test method available for quantifying the filterable particulate matter of 2.5 uM aerodynamic diameter from emission sources.

3423. INSPECTION MAINTENANCE PROGRAM REQUIREMENTS FOR FEDERAL FACILITIES; AMENDMENT TO THE FINAL RULE

Priority: Other Significant

Legal Authority: 23 USC 101; 42 USC 7401 et seq

CFR Citation: 40 CFR 51 (Revision); 40 CFR 93 (New)

Legal Deadline: None

Abstract: The Environmental Protection Agency (EPA) has had oversight and policy development authority for Inspection and Maintenance (I/M) programs since the passage of the Clean Air Act (CAA) in 1970. The 1977 amendments to the CAA mandated I/M for certain areas with long-term air quality problems and the 1990 amendments set forth standards for implementation of I/M programs. EPA used the statutory requirements of the Act, including I/M requirements for Federal facilities, to promulgate regulations which states would use in the development of their I/M State Implementation Plans (SIPs). Those rule requirements effectively gave States certain authorities over the Federal government. The Department of Justice has now ruled that Federal sovereign immunity was not fully waived under the CAA for those requirements and EPA should amend its rule to remove the requirement that States include those elements in their SIPs. EPA is proposing to: (1) Amend the Federal facilities I/M requirements by removing that section; (2) correct existing I/M SIP approval actions which include these elements; (3) establish new Federal facilities I/M program requirements which Federal facilities in I/M program areas must meet in order to comply with the Act; and (4) designate for each State which section of the Act Federal agencies must comply with based on how that State promulgated its I/M regulations. These changes will have minimal to no impact on the States as no new requirements are being created. The States are under no obligation, legal or otherwise, to modify existing SIPs meeting the previously applicable requirements as a result of this action, nor will emissions reduction credit be affected. However, the changes will clarify for affected Federal facilities what they must do to meet the CAA requirements by establishing new regulations per those requirements.

3424. CONTROL OF METHYL TERTIARY BUTYL ETHER (MTBE)

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: EPA is considering taking action to control the use of Methyl Tertiary Butyl Ether (MTBE), which is an organic compound that is primarily used as a fuel additive in gasoline. MTBE has been used to meet the oxygen requirement established by the Federal Reformulated Gasoline Program (RFG) established by the 1990 amendments to the Clean Air Act (CAA). Over 85 percent of reformulated gasoline contains MTBE. EPA is concerned that the widespread use of MTBE may have resulted in the contamination of groundwater and drinking water supplies, threatening their future use. While current detections levels are generally believed to be below levels that may cause public health concerns, low level MTBE contamination may render water unpotable due to offensive taste and odor. In November of 1998, EPA established a Blue Ribbon Panel to investigate air quality benefits and water quality concerns associated with oxygenates, including MTBE, in gasoline, and to provide independent advice and recommendations on ways to maintain air quality while protecting water quality. In September, 1999, the panel recommended that the use of MTBE be substantially reduced. EPA is now evaluating the Blue Ribbon Panel's recommendations, and has conducted a preliminary review of authorities available to address risks associated with MTBE. EPA intends to issue an advance notice of proposed rulemaking to inform the public of this preliminary inquiry, and to solicit public comment on possible regulatory action.

3425. NESHAP: TACONITE IRON ORE PROCESSING INDUSTRY

Priority: Substantive, Nonsignificant

Unfunded Mandates: Undetermined

Legal Authority: 42 USC 7412 CAA 112

CFR Citation: Not Yet Determined

Legal Deadline: NPRM, Statutory, May 1, 2001.

Abstract: The taconite iron ore processing source category is comprised of nine facilities operating in the United States. Seven facilities are located in Minnesota and two are located in Michigan. The expected sources of HAP emissions for this source category include: fossil fuel combustion sources, and possibly the handling and transfer of mined ore containing naturally occurring inorganic compounds. Anticipated HAP emissions released from these sources primarily include: formaldehyde, manganese, nickel, arsenic, and chromium. The quantities of HAP released are expected to exceed major source levels.

There are nine taconite processing facilities in the U.S.; seven are located in Minnesota and two are located in Michigan. The MACT standard for this industry group will be shared between EPA and the State of Minnesota. State regulations currently in place include both air emissions limitations and prohibition of effluent discharge to Great Lakes waters, and both air and water monitoring requirements. Other existing Federal regulations may be affected under RCRA and TSCA.

3426. UTILITY SECTOR NEW SOURCE REVIEW (NSR) ALTERNATIVE COMPLIANCE PROGRAM

Priority: Other Significant

Legal Authority: 42 USC 7401 to 7671q

CFR Citation: 40 CFR 51; 40 CFR 52.21

Legal Deadline: None

Abstract: The New Source Review (NSR) Program is the principal means by which EPA assures that new pollution sources install reasonably effective air pollution controls before they are allowed to begin operation. EPA is currently involved in a comprehensive rulemaking (NSR Improvement, SAN 3259), intended to streamline the NSR program and reduce its administrative burden. This new

rulemaking is an outgrowth of that reform effort, and will provide industries with the flexibility to focus more on existing pollution sources, with the goal of achieving as good or better environmental results than could be achieved focusing strictly on new sources. The Utility Sector NSR Alternative Compliance Program is a proposed rulemaking that is an outgrowth of this action and will provide industries with the flexibility to focus more on existing pollution sources, with the goal of achieving as good or better environmental results than could be achieved focusing strictly on new sources. The Utility Sector NSR Alternative Compliance Program is a proposed rulemaking that is an outgrowth of this action and will provide industries with the flexibility to focus more on existing pollution sources, with the goal of achieving as good or better environmental results than could be achieved focusing strictly on new sources.

3427. INTERSTATE OZONE TRANSPORT: RESPONSE TO COURT DECISIONS ON THE NOX SIP CALL, NOX SIP CALL TECHNICAL AMENDMENTS, AND SECTION 126 RULES

Priority: Other Significant

Legal Authority: 42 USC 7410(a)(2)(D); 7410(k)(5)

CFR Citation: 40 CFR 51 (Revision)

Legal Deadline: None

Abstract: On October 27, 1998 (63 FR 57355), EPA issued a rule to reduce smog in the eastern half of the country. The rule required 22 States and the District of Columbia to reduce emissions of nitrogen oxides (NOx), which reacts with other chemicals in the atmosphere to form smog. EPA required these reductions because pollution from each of these States was transported by the wind and significantly contributed to unhealthy air quality in downwind states. In response to litigation from several parties on the NOx SIP call, the United States Court of Appeals for the District of Columbia issued a decision on March 3, 2000 making it clear that EPA and States can and should move forward to implement this regional strategy. The ruling remanded certain relatively minor portions of the original rule back to the EPA. This rulemaking covers the portion of the rule associated with the remanded issues: certain cogeneration units, internal combustion engines, the partial State requirements for Georgia & Missouri and the exclusion of Wisconsin. In this rulemaking, EPA will consider the partial State issue for Alabama & Michigan and propose SIP submittal dates and compliance dates, as well. The D.C. Circuit Court also remanded, or remanded and vacated, the cogeneration unit issue in decisions on the NOx SIP Call Technical Amendments, and Section 126 Rule on June 8, 2001 and May 15, 2001, respectively. These remands will also be addressed in this rulemaking.

3428. NESHAP FOR FRICTION PRODUCTS MANUFACTURING

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7412

CFR Citation: 40 CFR 63

Legal Deadline: Final, Statutory, November 15, 2000.

Abstract: This action will propose NESHAP for friction products manufacturing in order to comply with the Clean Air Act of 1990 (CAA). The friction products source category includes any facility that manufactures friction products such as brakes and clutches. The rule is expected to limit HAP emissions, including toluene, hexane, and 1,1,1 trichloroethane) from solvent mixing operations.

EPA—Clean Air Act (CAA) Proposed Rule Stage

3429. RULEMAKINGS FOR THE PURPOSE OF REDUCING INTERSTATE OZONE TRANSPORT

Regulatory Plan: This entry is Seq. No. 128 in part II of this issue of the **Federal Register**.

RIN: 2060–AJ20

3430. PETITIONS TO DELIST SOURCE CATEGORIES FROM THE SOURCE CATEGORY LIST, DEVELOPED PURSUANT TO SECTION 112(C) OF THE CLEAN AIR ACT

Priority: Routine and Frequent

Unfunded Mandates: Undetermined

Legal Authority: Not Yet Determined

CFR Citation: Not Yet Determined

Legal Deadline: NPRM, Statutory, April 21, 2000.

Abstract: The EPA has received 1 petition to remove a SC (2-Piece Can Manufacturing) from the SC List developed pursuant to Section 112(c) of the Clean Air Act (CAA). The most current SC List was published on November 18, 1999 (64 FR 63025). Section 112(c)(9), which provides the legislative authority and guidelines for such actions, states that the Administrator may delete a SC from the list under Section 112(c), on petition of any person or on the Administrator's own motion, whenever the Administrator determines that no source in the category emits hazardous air pollutants (HAPs) in quantities which may cause a lifetime risk of cancer greater than 1 in one million to the individual in the population who is most exposed and that emissions from no source in the category exceed a level which is adequate to protect public health with an ample margin of safety and that no adverse environmental effect will result. As of August 30, 2001, 1 petition to delist a SC has been received. It contains information on HAP emissions, exposures, health effects, human risks, and potential ecological concerns as well as the petitioner's explanation why the 2-Piece Can Manufacturing should be removed from the SC List. The EPA will conduct a comprehensive review of the petition received then decide whether to grant or deny the petition. Section 112(c)(9) requires that within 12 months of receipt of a petition, the Administrator shall either grant or deny the petition by publishing a written explanation of the reasons for the Administrator's decision. We believe that petitions to delist source categories are non-significant actions because they do not meet any of the principles outlined in section A above.

3431. REVISING REGULATIONS ON AMBIENT AIR QUALITY MONITORING

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 58 (Revision); 40 CFR 53 (Revision); 40 CFR 50 (Revision)

Legal Deadline: None

Abstract: Air pollution control authorities use air quality data to determine compliance with the National Ambient Air Quality Standards and in subsequent work to develop air pollution mitigation strategies. The data come primarily from ambient air monitoring stations run by State and local agencies, although Federal, tribal, and industrial organizations also run stations. The design of the monitoring networks is regulated under 40 CFR 58. This rule was originally written in 1979 and several revisions have been made in the intervening years. Air pollution control authorities have improved their parts of the network in response to changes in air quality, advances in the understanding of the movements and health effects of air pollutants, and developments in air pollution measurement technology. EPA has also cooperated with air pollution control authorities to improve the networks, but we have not revised the applicable regulations comprehensively. The proposed revisions would remove real or perceived constraints on redeploying air monitoring stations; more accurately reflect the roles of EPA and other control authorities in designing, reviewing, and modifying networks; bring provisions related to quality assurance up to date; and recognize technological changes. The current regulations require states to develop plans to deploy air monitoring networks, but they do not emphasize administering the networks. States generally develop new plans only when new monitoring is needed, such as for a new NAAQS. The regulations should be revised to reflect the roles of EPA and the State and local agencies.

3432. CLARIFICATION TO EXISTING PART 63 NESHAP DELEGATIONS' PROVISIONS-WORK PRACTICES

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: Not Yet Determined

Legal Deadline: None

EPA—Clean Air Act (CAA) — Proposed Rule Stage

Abstract: 40 CFR part 63 contains OAR's air-toxics emissions regulations, often referred to as MACT rules or NESHAPS. We are revising some part 63 standards to reflect changes in delegation provisions. We are also revising some sections in the part 63 regulations to clarify what are standards and what are compliance assurance measures. The benefits of the changes will include clarifying what authorities in each standard can be delegated to State and local air pollution control agencies and meshing the standards with revisions previously made to other part 63 regulations.

3433. FEDERAL PLAN REQUIREMENTS FOR COMMERCIAL AND INDUSTRIAL SOLID WASTE INCINERATION UNITS CONSTRUCTED ON OR BEFORE NOVEMBER 30, 1999

Priority: Substantive, Nonsignificant

Legal Authority: 1990 Amendments to the Clean Air Act sections 111; 1990 Amendments to the Clean Air Act sections 129; 1990 Amendments to the Clean Air Act sections 301(a)(d)

CFR Citation: 40 CFR 62

Legal Deadline: None

Abstract: The Clean Air Act Amendments of 1990 directed the Environmental Protection Agency (EPA) to set emission guidelines for existing incinerators combusting commercial or industrial waste under sections 111 and 129. Final emission guidelines for Commercial and Industrial Solid Waste Incineration (CISWI) were published on December 1, 2000 (see 65 FR 75338). In accordance with section 129, any State with affected sources must submit a State plan by December 1, 2001 describing how the State will implement the emission guidelines for existing CISWI. Section 129 requires the Administrator to develop and implement a Federal plan for existing CISWI units located in any State which has not submitted an approvable plan within 2 years of promulgation of the emissions guidelines. In this CISWI Federal plan rulemaking, EPA becomes the implementing authority in those instances where the State has failed to submit a plan or a plan has not yet been approved. Therefore, consistent with section 129(b)(3) of the Act, EPA is proposing a plan that applies to CISWI in any State that has not submitted an approvable plan within the time allotted. This action makes no changes to the requirements in the rule, and is intended to fulfill EPA's duty under section 129(b)(3) to promulgate a Federal plan as a gap-filling measure until the State fulfills its statutory obligations. When the State submits an approvable State plan, the Federal plan will no longer apply to units in that State.

3434. REVISIONS TO PART 97 FEDERAL NOX BUDGET TRADING PROGRAM ALLOWANCE ALLOCATION METHOD AND PART 75 OUTPUT AND EMISSIONS MONITORING PROVISIONS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401; 42 USC 7403; 42 USC 7426; 42 USC 7601; 42 USC 7651 et seq

CFR Citation: 40 CFR 75 (Revision); 40 CFR 97 (Revision)

Legal Deadline: None

Abstract: This rulemaking package will propose two types of modifications to the Code of Federal Regulations: revisions to parts 72 and 75 related to the existing Acid Rain Program; and, revisions to part 75 and part 97 that are associated with the implementation of the Federal NOx Budget Trading Program.

The proposed revisions to parts 72 and 75 pertaining to the Acid Rain Program will improve the program's efficiency and effectiveness. These revisions include technical corrections and clarifications to the monitoring procedures that will improve quality of the SO2 and NOx emissions data. Some reporting requirements will be modified to broaden and improve electronic reporting provisions in order to reduce industry burden and facilitate better data management within the Agency.

In support of the Federal NOx Budget Trading Program, EPA will propose revisions to parts 72, 75, and 97. Parts 72 and 75 will be modified to introduce procedural requirements for the monitoring and reporting of output (i.e., electricity, steam, or heated water) for electric generating units. The proposed revisions to part 97 will satisfy a commitment the Agency made in the January 18, 2000 final section 126 rule to use output for updating NOx allowance allocations. Our analysis predicts that updating allocations based on output will reduce air pollution nationwide and will result in more efficient electricity generation.

3435. NESHAP: PESTICIDES ACTIVE INGREDIENTS—AMENDMENTS

Priority: Other Significant

Legal Authority: 42 USC 7412 CAA sec 112

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: On June 23, 1999, EPA promulgated the NESHAP for Pesticide Active Ingredient Production (Production of Agricultural Chemicals). Subsequently, a petition was filed on this rule, and EPA received the list of issues filed with the court. There are four separate, but related petitions. Major issues include applicability determination for creosote producers, control requirements for left-over vents, averaging period, and wastewater applicability cutoffs. This amendment will address these issues raised by creosote producers. The other issues will be addressed in a separate rulemaking.

3437. NESHAP: AMINO/PHENOLIC RESINS: AMENDMENT

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1701 et seq

CFR Citation: 40 CFR 63 subpart 000

Legal Deadline: None

Abstract: The Amino and Phenolic Wood Adhesives Association (APWAA) has filed a petition for review of the final rule. APWAA has identified two areas of concern in their statement of issue. First of all APWAA claims that EPA was unjustified in going above the floor level of control to include equipment requirements equivalent to the Consolidated Air Rule (CAR) for new and existing sources. APWAA believes EPA should use the floor level of control for both new and existing sources. For existing sources there is no floor, and for new sources the floor level of control is equivalent to the requirements included in 40 CFR part 60 subpart VV. The second issue identified by APWAA is the way the requirements for non-reactor batch vents were calculated. The current rule has a 500 lbs per year applicability cutoff for non-reactor batch vents at the facility level. APWAA has stated that the cutoff should be applicable to individual vents instead of the entire facility.

3438. INDOOR AIR TOXICS STRATEGY

Priority: Info./Admin./Other

Legal Authority: Not Yet Determined

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: The Indoor Air Toxics Strategy is a plan to reduce risks from

toxic air pollutants indoors and is in response to the July 19, 1999 release of the National Air Toxics Program/Integrated Urban Air Toxics Strategy (64 FR 38706). The latter strategy recognized that, although exposures to air toxics indoors may be significant, the risks associated with indoor exposures are not as well characterized as those for exposures outdoors. The Indoor Air Toxics Strategy will present the results of a screening-level ranking and selection of key air toxics indoors, which was performed to help us prioritize our future efforts in this area, and will present a plan to work with outside stakeholders to further characterize and reduce risks from air toxics indoors. The Indoor Air Toxics Strategy will rely heavily on voluntary, non-regulatory efforts.

3439. REVISIONS TO REGIONAL HAZE RULE TO INCORPORATE SULFUR DIOXIDE MILESTONES AND BACKSTOP EMISSIONS TRADING PROGRAM FOR NINE WESTERN STATES

Priority: Other Significant

Legal Authority: 42 USC 7410; 42 USC 7414; 42 USC 7421; 42 USC 7470 to 7479; 42 USC 7491; 42 USC 7492; 42 USC 7601; 42 USC 7602

CFR Citation: 40 CFR 51.309

Legal Deadline: None

Abstract: This regulation is for an action anticipated by the regional haze rule that we published in July 1999. One portion of the regional haze rule was an optional visibility protection program for nine Western States. Part of this program for the West, a long-term program to reduce stationary source emissions of sulfur dioxide, was incomplete at the time of the 1999 rule. Accordingly, the rule required Western States to submit an "Annex" to an earlier report of the Grand Canyon Visibility Transport Commission. We required the Annex to contain sulfur dioxide milestones for the years 2003 to 2018, to establish a program to track emissions from stationary sources over this time period, and to provide the details of a market trading program that would be triggered if a milestone is exceeded. The Western Regional Air Partnership submitted the Annex on September 29, 2000. The purpose of this rulemaking is to determine whether the Annex meets the requirements of the regional haze rule and the Clean Air Act, and if it does, to amend the regional haze rule to incorporate its provisions.

3440. NESHAP: PORTLAND CEMENT MANUFACTURING INDUSTRY, AMENDMENTS TO RULE TO IMPLEMENT SETTLEMENT AGREEMENT

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: 40 CFR 63.1340 to 63.1359

Legal Deadline: None

Abstract: The Portland Cement Manufacturing Industry NESHAP was promulgated June 14, 1999. The rule is codified in 40 CFR 63, Subpart LLL. This rule is being revised to reflect a pending settlement agreement with the American Portland Cement Alliance. The rule changes will be minor, and mostly will help to clarify requirements, provide monitoring alternatives and/or remove minor monitoring requirements.

3441. EVALUATION OF UPDATED TEST PROCEDURES FOR THE CERTIFICATION OF GASOLINE DEPOSIT CONTROL ADDITIVES

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: 40 CFR 80

Legal Deadline: None

Abstract: All gasoline must contain additives to control the formation of deposits in the fuel supply system and engine of motor vehicles. If uncontrolled, such deposits can result in a significant increase in motor vehicle emissions. This action will propose that updated test procedures be adopted for the certification of gasoline deposit control additives regarding

their ability to control fuel injector and intake valve deposits. The adoption of the updated procedures will ensure that the gasoline deposit control program continues to ensure an adequate level of deposit control, thereby preventing an increase in motor vehicle emissions. The updated test procedures require less time to perform and are less costly. Therefore, the adoption of the proposed procedures will reduce the burden on industry of complying with the gasoline deposit control program. The proposed action will not impact small businesses, or state, local, or tribal governments.

3442. MOTOR VEHICLE AND ENGINE COMPLIANCE PROGRAM FEES FOR: LIGHT-DUTY VEHICLES AND TRUCKS; HEAVY-DUTY VEHICLES AND ENGINES; NONROAD ENGINES; AND MOTORCYCLES

Priority: Other Significant

Legal Authority: 42 USC 7552; 31 USC 9701; 42 USC 4370(c)

CFR Citation: 40 CFR 86 (Revision)

Legal Deadline: None

Abstract: Under the Motor Vehicle and Engine Compliance (MVECP) Fee Program user fees are collected for certification and compliance activities. Currently, user fees are required by manufacturers of light-duty vehicles, light-duty trucks, heavy-duty vehicles, heavy-duty engines and motorcycles. Through this Notice, EPA is proposing to update the current fee provisions for the existing industries and incorporate fees for nonroad manufacturers. In addition, the fee schedule will be updated to reflect costs in administering compliance activities for new regulations such as the "Tier 2" automobile standards and nonroad engine standards.

3444. • ELECTRIC ARC FURNACE NSPS AMENDMENT

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7411

CFR Citation: 40 CFR 60.270 to 60.276a

Legal Deadline: None

Abstract: Sources affected by the NSPS for electric arc furnaces (subparts AA, and AAa) have expressed concerns with the requirements in the NSPS to use a continuous opacity monitor (COM) to monitor opacity and report periods when the COM indicated greater than 3 percent opacity as periods of excess emissions, and have petitioned the EPA to reconsider the COM requirements. These concerns arise from recent information that indicate that COM readings may have an error of up to 4 percent, which in itself is greater than the 3 percent excess emissions threshold. The EPA is reconsidering the COM requirements, and may amend the NSPS to add alternative monitoring requirements.

3446. • CONTROL OF AIR POLLUTION FROM MOTOR VEHICLES AND ENGINES: ALTERNATIVE LOW-SULFUR HIGHWAY DIESEL FUEL TRANSITION PROGRAM FOR ALASKA

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7414; 42 USC 7545; 42 USC 7601(a); 42 USC 7625-1

CFR Citation: 40 CFR 69 and 80 (Revision)

Legal Deadline: None

Abstract: This action will carry out a flexibility provision for Alaska that was included in EPA's heavy-duty diesel rule, which was promulgated on January 18, 2001. That rule established more stringent national emission standards for heavy-duty highway vehicles and engines for the 2007 model year, and a technology-enabling sulfur limit of 15 ppm for highway diesel fuel beginning in 2006. In that rule, EPA recognized Alaska's unique geographical, meteorological, air quality, and economic factors and provided Alaska an opportunity to develop its own plan to transition to low-sulfur highway diesel fuel, as an alternative to the national transition program. Our goal in offering this flexibility is to transition Alaska into the low-sulfur fuel program in a manner that minimizes costs, while ensuring that the new vehicles and engines receive the low-sulfur fuel they need. As stated in the Federal Register notice for the diesel rule, if Alaska submits an alternative plan by April 1, 2002, and if EPA determines that it provides a reasonable alternative, EPA intends to initiate rulemaking and, within one year from the date of Alaska's submittal, promulgate a final rule to incorporate the alternative plan. A stakeholder process to develop options is already underway in Alaska, and the State informed EPA that it intends to submit an alternative transition plan in late 2001 or early 2002. This action will be in response to that anticipated submittal.

3447. • NON-CONFORMANCE PENALTIES FOR 2004 AND LATER MODEL YEAR HEAVY-DUTY DIESEL ENGINES AND HEAVY-DUTY DIESEL VEHICLES

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7525(g)

CFR Citation: 40 CFR 86.1105

Legal Deadline: None

Abstract: Section 206(g) of the Clean Air Act requires EPA to issue a certificate of conformity for heavy-duty engines or heavy-duty vehicles which exceed an applicable emission standard, but do not exceed an upper limit associated with that standard, if the manufacturer pays a non-conformance penalty (NCP) established by rulemaking. Three basic criteria are used to determine the eligibility of emission standards for NCPs. First, the emission standard in question must become more difficult to meet (e.g., through increased stringency). Second, substantial work must be required to meet the emission standard. Third, a technological laggard must be likely to develop. A technological laggard is defined as a manufacturer who cannot meet a particular emission standard due to technological difficulties, and, in the absence of NCPs, might be forced from the marketplace. This rule will propose that these criteria are fulfilled with respect to the 2004 model year non-methane hydrocarbon plus nitrogen oxide standard established in 1997 for heavy-duty diesel engines and heavy-duty diesel vehicles. The rule will propose specific NCPs available for manufacturers unable to comply with this standard.

3451. • RELAXATION OF SUMMER GASOLINE VOLATILITY STANDARD FOR DENVER/BOULDER AREA

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7414; 42 USC 7545; 42 USC 7601(a)

CFR Citation: 40 CFR 80.27(a)(2) (Revision)

Legal Deadline: None

Abstract: EPA is relaxing the summertime volatility standard (Reid Vapor Pressure - RVP) for conventional gasoline in the Denver/Boulder area from 7.8 pounds per square inch ("psi") to 9.0 psi. This action is consistent with, and a result of, the actions EPA is taking to redesignate the Denver/Boulder area to be in attainment with the one-hour ozone standard and to approve the maintenance plan for the Denver/Boulder area. It is also consistent with past waivers that EPA has granted to allow 9.0 psi RVP gasoline in the Denver/Boulder area since 1992. EPA does not believe that this action will cause environmental harm to the Denver/Boulder area, or that it will adversely impact small businesses or state and local governments. The area has been in compliance with the ozone standard since 1987.

3452. • PROTECTION OF STRATOSPHERIC OZONE: ALLOCATION OF YEAR 2002 ESSENTIAL USE ALLOWANCES

Priority: Routine and Frequent

Legal Authority: 42 USC 7414; 42 USC 7601; 42 USC 7671-7671q

CFR Citation: 40 CFR 82.4(t)(2)

Legal Deadline: None

Abstract: With this action EPA is allocating essential use exemptions to U.S. entities to produce and/or import class I ozone depleting substances for uses considered to be essential under the Montreal Protocol. These exemptions include the following: pharmaceutical grade CFCs for use in metered dose inhalers used in the treatment of asthma, methyl chloroform for use in the space shuttle and titan rockets, and class I substances for most laboratory and analytical uses.

3453. • MODIFICATION OF AUTHORITY TO GRANT ALTERNATIVE METHOD APPROVALS

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: Currently, stationary source regulations cite specific test methods to demonstrate compliance. If a source locates a test method which will measure the regulated pollutant(s) with similar precision and accuracy to the method cited in the regulation, and would like to use the alternative method, the source must petition the EPA (along with data documenting the applicability of the alternative) to allow the alternative method. Each of these alternative method approvals by letter may currently only be granted to a specific source. Source category-wide approvals must be published for comment in the Federal Register. Due to budgetary and time constraints, the process constrains industry trade associations from developing and submitting alternative test methods. Therefore, the purpose of this rulemaking is to modify the regulations to allow source category-wide alternative method approvals to be issued by letter.

EPA—Clean Air Act (CAA)

Proposed Rule Stage

3454. • PERFORMANCE SPECIFICATIONS FOR CONTINUOUS PARAMETER MONITORING SYSTEMS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 60 app B (New); 40 CFR 60 app F (Revision)

Legal Deadline: None

Abstract: This action proposes Performance Specification 17 (PS-17), Quality Assurance (QA) Procedure 4, and amendments to Appendix F, QA Procedure 1. Performance Specification 17 and QA Procedure 4 apply to continuous parameter monitoring systems (CPMS). Many of the rules promulgated under 40 CFR part 63 require owners and operators of affected emission units to install and operate CPMS to monitor various parameters, such as temperature, pressure, flow rate, and pH, associated with the operation and performance of emission control devices. However, few, if any, of those rules specify complete procedures for ensuring the quality of the data measured by CPMS. The proposed PS-17 establishes procedures and other requirements that will ensure that those CPMS are properly selected, installed, and placed into operation. The proposed QA Procedure 4 specifies procedures that will ensure that those CPMS provide quality data on an ongoing basis. Both PS-17 and QA Procedure 4 will help to ensure compliance with emission limitations established under 40 CFR part 63. Procedure 1 of Appendix F currently addresses QA procedures for continuous emission monitoring systems (CEMS) that measure a single pollutant. The proposed amendments to QA Procedure 1 broadens the procedure to address the unique requirements of CEMS that are used for monitoring multiple pollutants. Because several of the regulations promulgated under 40 CFR part 63 require multiple pollutant CEMS, these amendments are needed to ensure those CEMS are operated in a manner that ensures the quality of the emission data collected. This action is not expected to have any impacts on small entities or State, local, or tribal governments.

3455. • BENZENE WASTE OPERATIONS NESHAP; AMENDMENTS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 to 7626

CFR Citation: 40 CFR 61

Legal Deadline: None

Abstract: This amendment will add a compliance option for tanks, making the Benzene Waste Operations NESHAP consistent with the RCRA CC rules. Hazardous waste treatment facilities have requested these amendments because they must comply with both rules. There will be no cost as a result of this action and there is no emission reduction. We expect no negative impacts on small businesses and State/local/tribal governments. Industry and government support this change.

3456. • PROPSED AMENDMENTS TO PERFORMANCE STANDARDS AND MONITORING REQUIREMENTS FOR PARTICULATE MATTER AT STATIONARY SOURCES

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: 40 CFR 60 app B; 40 CFR 60 app F

Legal Deadline: None

Abstract: This action would repropose some monitoring specifications that were originally included in an OSWER proposal to regulate air emissions from hazardous waste combustors (as explained further below). It revises several standards and requirements related to continuous emission monitoring systems for particulate matter (PM). These include: specifications and test procedures known as Performance Specification 11 (PS-11), and quality assurance requirements known as "Procedure 2". The proposed revisions clarify and update performance standards and monitoring requirements for facilities required to install and use continuous monitoring equipment to measure particulate matter emissions from stacks and ducts. The action does not change any emission standards or add any additional recordkeeping requirements. This action is a supplement to actions by EPA's OSWER that included proposed regulations for hazardous waste combustors. The first action was published in the Federal Register on December 30, 1997 (62 FR 67788). Recent OAR field studies have revealed needed revisions to PS-11 and Procedure 2. In view of the significant amount of time that has passed since the last proposal was published (December 30, 1997) and the significant amount of knowledge we have recently gained from our field studies, we believe that a supplemental proposal and another opportunity for the public to comment on PS-11 and Procedure 2 are appropriate. The need to do this reproposal only recently became evident, and we apologize for the short

Legal Authority: 42 USC 7401 et seq; PL 101-549, 104 Stat. 2399

CFR Citation: 40 CFR 63

Legal Deadline: Final, Statutory, November 15, 2000.

Abstract: Title III of the Clean Air Act Amendments of 1990 requires EPA to develop national emission standards for hazardous air pollutants (NESHAPs). EPA promulgated NESHAP rules for petroleum refineries on August 18, 1995 (RIN 2060-AD94). This action covers three process vents not covered under RIN 2060-AD94. These are the catalyst regeneration vents from fluid catalytic cracking units (FCCU) and catalytic reformers and the tail gas vents from sulfur recovery plants.

EPA—Clean Air Act (CAA) — Final Rule Stage

3464. ADDITION OF METHOD 207 TO APPENDIX M OF 40 CFR PART 51 METHOD FOR MEASURING ISOCYANATES IN STATIONARY SOURCE EMISSIONS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7410

CFR Citation: 40 CFR 51

Legal Deadline: None

Abstract: The Clean Air Act Amendments of 1990 listed certain isocyanate compounds as hazardous air pollutants (HAPs). The Agency does not have any published test methods that would measure air emissions of these isocyanate compounds from stationary sources. This action would add a validated test method to measure isocyanate emissions to appendix M of part 51. Test methods in part 51 can be adopted by any State for use in any regulation that requires the measurement of any of the isocyanate compounds on the HAP list. This action would not impose any new regulatory requirements that do not already exist. It should benefit State governments by providing them with a validated test procedure for measuring the emissions of isocyanate compounds.

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63

Legal Deadline: NPRM, Statutory, November 15, 2000.

Abstract: This project is to develop national emission standards for hazardous air pollutants (NESHAPs) by establishing maximum achievable control technology (MACT) for facilities manufacturing cellulose ether, carboxymethyl cellulose ether, methyl cellulose ether, cellulose food casing, cellulosic sponges, producing rayon, and producing cellophane. MACT standards are under development to reduce the release of hazardous air pollutants (HAP) from all industries to protect the public health and environment. Emissions of HAP from this industry have been associated with, but are not limited to, product washing operations, material storage tanks, and film drying.

3466. CONSOLIDATED EMISSIONS REPORTING RULE

Priority: Substantive, Nonsignificant

Legal Authority: Clean Air Act sec 110(a)(2)(F)

CFR Citation: 40 CFR 51.321 to 51.323

Legal Deadline: None

Abstract: Three sections of the Clean Air Act and its amendments require State agencies to report emission estimates to EPA. Some of these sections contain obsolete wording, inconsistent instructions, and duplicate reporting requirements. This rule will consolidate the requirements into one area, eliminate obsolete wording, eliminate duplicate reporting requirements, and provide options for collecting and reporting data. There will be no impact on small businesses. State agencies will report point, area, and mobile source emissions statewide. State agencies will also report fine particulate matter and its precursors. The rule will provide for flexibility in collecting and reporting data.
